**The Black Panther
Newspaper Faces
Conspiracy
Frame-up**

San Francisco, Jan. 17 -- A federal Grand Jury probe here is threatening the Black Panther Party with possible indictments under a federal conspiracy law or under the Smith "thought-control" Act.

On Jan. 14, three Black Panthers, Raymond "Masas" Hewitt, managing editor of the Black Panther newspaper, John Seale, the paper's production manager and brother of BPP Chairman Bobby Seale, and Samuel Napier, the paper's circulation manager, were called before the Grand Jury to testify on their activities in publishing the Panther's weekly newspaper.

San Francisco attorney, Charles Garry, who has been the Panthers' general counsel for the past two years, said he advised his clients to neither testify nor to produce the records sought by the government. All three Panthers took the fifth amendment and were dismissed until Feb. 11 when the grilling will continue.

The federal Grand Jury probe, which is being handled by a team of lawyers from the Justice Department's criminal division in Washington, has been conducted since at least April 1969.

At that time the government announced they were looking into possible violations of the Smith Act. This act permits imprisonment solely for the advocacy of ideas. It provides a maximum penalty of 20 years imprisonment and a \$20,000 fine. In addition, the investigators are looking into possibilities for indicting the Panthers for "mail fraud" involving contributions to the party and its several defense funds and for interstate travel for "violent" purposes.

The Panthers and their lawyer, Garry, have vowed to fight these additional pernicious attempts to crush the Black Panther Party. The greatest possible support is needed to carry out this fight.

**SUBSCRIBE TO,
"THE BLACK PANTHER
COMMUNITY NEWS SERVICE"**

Huey would say, "a newspaper is the voice of a party, the voice of the Panther must be heard throughout the land."

The line dividing the progressive people from the machinery of oppression is ever widening as the people begin to realize that there can no longer be a middle of the road position with regards to freedom for the people of the world; however, it has only been within the past four years that the ameriKKkan people have shed their rose-colored glasses and patriotic blinders to face the reality of what their country was doing to the world's population. With the realization of the ameriKKkan role came the closer examination of all the things that had really never been questioned before...the "ameriKKkan dream", the foreign policy, the treatment of minority peoples within this society, the real role of the 'police' and the press.

We found we as citizens of this country were being kept duped by the government and kept misinformed by the mass media.

In an effort to give the facts to the people, the so-called 'underground press' developed with various groups setting up newspapers and magazines with differing emphasis.

The Black Panther Party Black Community News Service was created to present factual, reliable information to the people.

The Black Panther Party has been organized to serve the needs of the people of the Black community and to educate and politicize the masses of Black people, but the Black Panther Party realizes that racism can only be eliminated by solidarity among oppressed people and the educating of all the people. It is the news and problems of Black and oppressed people in ameriKKKa that are dealt with in the Black Panther Party along with international news.

The Black Panther Party Black Community News Service is the alternative to the 'government ap-

In all societies, the way of life of the people, their culture, mores, customs, etc., evolve from the economic basis of that society. The United States is a capitalist society, the system of capitalism being one of exploitation of man by man, with by-products such as racism, religious chauvinism, sexual chauvinism, and unnatural divisions among the people. In other words, it's a dog-eat-dog society. But it's not a dog-eat-dog world.

Men are not innately greedy, nor are they innately uncooperative with each other. Therefore, it is our goal, it is the goal of the Black Panther Party, and must be the goal of all men, to create conditions in which men can start being human, can begin to cooperate with each other, can live with each other, in fact, in peace. Men cannot do this without an arena in which to do so. In other words, in an exploitative system men are forced to exploit. In an unkind system, men are forced to be unkind. In a world of inhumanity, men will be inhuman. In a society that is warmongering, men will war. These are the aspects of the way of life of a people who are part of a capitalist system.

And songs are a part of the culture of society. Art, in general, is that. Songs, like all art forms, are an expression of the feelings and thoughts, the desires and hopes, and so forth, of a people. They are no more than that. A song cannot change a situation, because a song does not live and breathe. People do.

And so the songs in this album are a statement — by, of, and for the people. All the people. A statement to say that we, the masses of people have had a game run on us; a game that made us think that it was necessary for our survival to grab from each other, to take what we wanted as individuals from any other individuals or groups, or to exploit each other. And so, the statement is that some of us have understood that it is absolutely essential for our survival to do just the opposite. And that, in fact, we

have always had the power to do it. The power to determine our destinies as human beings and not allow them to be determined by the few men who now determine them. That we were always human and always had this power. But that we never recognized that, for we were deluged, bombarded, mesmerized by the trinkets of the ruling class. And this means all of us: Black, Mexican, White, Indian, Oriental, Gypsy, all who are members of the working class, of the non-working class (that is, those who don't have jobs), all who are oppressed.

This means all of us have this power. But the power only belongs to all of us, not just some or one, but all. And that was the trick. That was the thing we never understood. And that is what statement these songs make.

ALL POWER TO THE PEOPLE.

From "Revolution and Education"

"...the process of breaking out of slavery, the process of breaking out of a set of social arrangements, of a social organization that is killing us, this process is named revolution;...revolution is a glorious term, it's a term to be proud of, and we should know that we are morally right, we are right in every sense of the term, that the oppressor is the one who is wrong; and that the oppressor has no rights, which the oppressed are bound to respect..."

What We Want What We Believe

FREE HUEY

Minister of Defense, Black Panther Party

1. We want freedom. We want power to determine the destiny of our Black Community.

We believe that black people will not be free until we are able to determine our destiny.

2. We want full employment for our people.

We believe that the federal government is responsible and obligated to give every man employment or a guaranteed income. We believe that if the white American businessmen will not give full employment, then the means of production should be taken from the businessmen and placed in the community so that the people of the community can organize and employ all of its people and give a high standard of living.

3. We want an end to the robbery by the white man of our Black Community.

We believe that this racist government has robbed us and now we are demanding the overdue debt of forty acres and two mules. Forty acres and two mules was promised 100 years ago as restitution for slave labor and mass murder of black people. We will accept the payment in currency which will be distributed to our many communities. The Germans are now aiding the Jews in Israel for the genocide of the Jewish people. The Germans murdered six million Jews. The American racist has taken part in the slaughter of over fifty million black people; therefore, we feel that this is a modest demand that we make.

4. We want decent housing, fit for shelter of human beings.

We believe that if the white landlords will not give decent housing to our black community, then the housing and the land should be made into cooperatives so that our community, with government aid, can build and make decent housing for its people.

5. We want education for our people that exposes the true nature of this decadent American society. We want education that teaches us our true history and our role in the present-day society.

We believe in an educational system that will give to our people a knowledge of self. If a man does not have knowledge of himself and his position in society and the world, then he has little chance to relate to anything else.

6. We want all black men to be exempt from military service.

We believe that Black people should not be forced to fight in the military service to defend a racist government that does not protect us. We will not fight and kill other people of color in the world who, like black people, are being victimized by the white racist government of America. We will protect ourselves from the force and violence of the racist police and the racist military, by whatever means necessary.

7. We want an immediate end to POLICE BRUTALITY and MURDER of black people.

We believe we can end police brutality in our black community by organizing black self-defense groups that are dedicated to defending our black community from racist police oppression and brutality. The Second Amendment to the Constitution of the United States gives a right to bear arms. We therefore believe that all black people should arm themselves for self-defense.

8. We want freedom for all black men held in federal, state, county and city prisons and jails.

We believe that all black people should be released from the many jails and prisons because they have not received a fair and impartial trial.

9. We want all black people when brought to trial to be tried in court by a jury of their peer group or people from their black communities, as defined by the Constitution of the United States.

We believe that the courts should follow the United States Constitution so that black people will receive fair trials. The 14th Amendment of the U.S. Constitution gives a man a right to be tried by his peer group. A peer is a person from a similar economic, social, religious, geographical, environmental, historical and racial background. To do this the court will be forced to select a jury from the black community from which the black defendant came. We have been, and are being tried by all-white juries that have no understanding of the "average reasoning man" of the black community.

10. We want land, bread, housing, education, clothing, justice and peace. And as our major political objective, a United Nations-supervised plebiscite to be held throughout the black colony in which only black colonial subjects will be allowed to participate, for the purpose of determining the will of black people as to their national destiny.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.
