Dear Friends,

We met at Louis' for the smallest of our summer meetings. Louis, Frank, and Dorothy were present. Enclosed is a packet describing late requests. Summer funds are on the low side, so we made the following small grants:

1. Orange County Peace Conversion Project -- $100 to help support their anti-draft network.

2. Citizen Soldier -- $100 toward the coding process of the Agent Orange questionnaire. Although its organizational disputes remain unclear, Citizen Soldier has done consistently good work in the past, and continues to undertake useful and necessary projects. We had much discussion about the disunity among veterans' groups, and expressed concern in our letter to Citizen Soldier. We will investigate these problems further.

3. Cruzada Nacional DE Alfabetizacion -- $100 for the English version of a publication on oppression in Salvador. We will also recommend Monthly Review for assistance with translation.

4. CARASA -- $300 in three installments for general support and toward reprinting their sterilization pamphlet.

5. Optimedia -- $100 to help with film production of "Didn't Take Low".

6. MERIP -- $100 now to help with added costs of current anti-draft, anti-intervention campaigns, and encouragement to contact us again in a few months when our finances are better.

8. Africa Research and Publications Project -- $100 set aside pending information from other African groups about this organization's work, how effective its distribution is, etc.

REJECTIONS:

9. The Greater Portland Nuclear Referendum Committee, Inc. -- good work, though
has a single-issue focus and many potential contributors.

10. OCR Composition Center - Their ambitious typesetting project needs large sums of money. There are similar services around the country for the convenience of clients who are not close to Calif.

11. Fight Back GI Project -- growing influence of the RCP in their literature. We will remind them again about their questionable rhetoric.

12. Women Make Movies—though we feel supportive, this is not a priority.

13. Nicaragua Film by Judith Camus -- work seems good, but our finances are low.

14. LENS -- We felt that we needed more information about their Seabrook film, such as their specific opinions about direct action and political views, technical competence, and plans for distribution.

THE NEXT MEETING WILL BE IN NEW YORK ON SEPT. 21ST.

Best wishes,

Dorothy
