## PREFATORY NOTE.

No excuse is offered in presenting this second edition of a list of periodicals currently received by the Libraries of Hartford. Its convenience and usefulness were made evident by the first edition issued ten years ago.

Its purpose, briefly, is to help make available to the people of Hartford and vicinity the unusual resources of the libraries of the City. The extent to which this is accomplished will be the measure of its success.

The thanks of the compiler are due and are now extended to the officials of the several libraries for their cordial and sympathetic co-operation in making the list as complete as possible. It is hoped that they will find their reward in the increased usefulness of the collections under their care.

The not inconsiderable labor of collecting and arranging the data has been carried through by Miss Louise M. Bailey and Miss Laura A. Blinn of the Library of Trinity College.

This new edition is now presented to the kindly consideration of the public in the hope that it will serve well the purpose for which it has been prepared.

ARTHUR ADAMS, Librarian.

Trinity College, June 24, 1926.
