TRINITY COLLEGE BULLETIN

1962

The Report of

President Albert Charles Jacobs

ON THE ONE HUNDRED THIRTY-NINTH YEAR

December 1962

HARTFORD, CONNECTICUT

Portrait of President Albert C. Jacobs by Alfred Jonniaux, presented to the College by the Board of Trustees, June 9, 1962.

Report of the President

To the Trustees of Trinity College

As President of Trinity College, I have the honor to submit to you herewith a report of the 139th academic year. It covers the ninth complete year of the stewardship you have entrusted to my care.

I will discuss, first, the progress made during 1961-1962 as well as our future plans in regard to the Academic Program, the Faculty, the Student Body, the Library, Physical Facilities and Financial Affairs; and, second, Significant Events and Actions during the past year. I will then report in some detail concerning the several groups constituting Trinity: the Students, the Faculty, the Administration, the Trustees, the Alumni and the Parents.

PROGRESS DURING 1961-1962

GENERAL

In every area of college life the academic year 1961-1962 was one of amazing activity. It is a cherished privilege to report significant progress due entirely to the wonderful support and cooperation on the part of the trustees, the faculty and administration, the students, alumni, parents and other friends.

THE ACADEMIC PROGRAM

THE NEW CURRICULUM

The new curriculum on which we have been working for several years went into effect with the opening of the academic year 1961-1962. Beginning with the Class of 1965, it applies to all entering classes. Thus, until September of 1964, we will be in a period of transition. Until then our juniors and seniors with an academic average of 80 and above and who have satisfied its basic requirements may elect the new curriculum.

I will not again outline the details of our new curriculum. They were set forth in my report of a year ago.

From an academic standpoint our major educational goal in the years ahead will be to make a fine program in the liberal arts even more outstanding. This will require that we be constantly on the alert, ever ready with vision and foresight to make wise changes in our educational

offerings. This will require further that we set up area programs in regard to the Far East, Africa and elsewhere which will recognize the role which these areas are playing in our expanding world; as well as an academic program in Astronomy.

GEOLOGY

In October of 1961 the President appointed an *ad hoc* committee under the chairmanship of Dr. D. G. Brinton Thompson, Northam Professor of History and Political Science, to consider, in the light of the existing situation, the role of the Department of Geology together with its faculty manpower requirements. After a number of meetings in which the present depressed status of the study of Geology both nationwide and at Trinity was reviewed, the Committee reported to the President in late December of 1961. It recommended that the College continue to offer a general, introductory course in Geology, and to have it followed by several suitably related courses having an interdisciplinary appeal, but without any pretense of a curriculum for Geology majors. This was recommended as a solution that would permit the maintenance of the basic course in Geology and would also provide useful electives for persons with interdisciplinary interests from such fields as Physics, Chemistry and Biology. Thus, the College would not be committed to offering a number of specialized courses with extremely small enrollments, as would be required if a major were continued. The Faculty, acting on the recommendations of its Curriculum Committee, approved these recommended changes.

ENGINEERING ACCREDITATION

In October of 1961 the Engineering Council for Professional Development, the accrediting agency for engineering curricula, granted accreditation to our program leading to the degree of Bachelor of Science in Mechanical Engineering. This is a significant step in regard to our Fifth Year in Engineering which was inaugurated in 1958. Under this program, and within the framework of the liberal arts, a bachelor's degree in various fields of Engineering can be attained at the end of a fifth year.

THE CHANGING FOUR-YEAR COLLEGE

General

In the age in which we live our able youths must be given every opportunity to further and to expedite their education. In this the spiralling costs of higher education loom large. And the pressure for acceleration continually mounts.

Trinity has, therefore, in recent years taken a number of steps to provide for superior secondary school students special opportunities which not only will challenge their ability and make more effective their transition from secondary school to college, but which will also permit the acceleration of their higher education.

Advanced Placement

Trinity wisely has accepted with enthusiasm the Advanced Placement movement. It has done so because of the College's sincere conviction that Advanced Placement means much to the youth of our country. This movement, which developed some eight years ago as a project of the national College Entrance Examination Board, has a threefold objective: to encourage secondary schools to establish college level courses for their best students; to provide course descriptions and examinations based on these courses; and, to encourage institutions of higher learning to accept Advanced Placement credit.

Trinity's sincere interest in Advanced Placement stems from two basic facts. The first I have already mentioned - our able youth must have every opportunity to further and to expedite their education. And, secondly, because in the years immediately ahead students with Advanced Placement credit will undoubtedly constitute a significant part of the student body in colleges such as Trinity, what we learn now about this program will be invaluable in providing effectively for the future.

Because of the College's interest in Advanced Placement a very successful state-wide conference on this movement was held at Trinity on March 29, 1962.

At Trinity increasing numbers are taking advantage of Advanced Placement and are coming to us with some college credit. This trend is certain to continue and to grow. But a great many secondary schools do not offer Advanced Placement courses.

The Transition to College Plan

Because many schools do not offer Advanced Placement courses, in 1958 Trinity uniquely expanded its program for gifted secondary school students by introducing in our Summer Session the Transition to College Plan. Designed to complement Advanced Placement, my recent reports have discussed this program in detail. Secondary school honor students, unidentified to their instructors, are admitted to our summer classes along with regular college students. They earn for the successful completion of their work advanced credit which they can offer to the college of their choice. In the Summer Session of 1960 we had 47 Transition students; in 1961, 88; and in 1962, 107. Their record has been highly commendable. This experiment has proved eminently worth while.

Advanced Placement Courses in the Summer Session

A natural development of the Transition to College Plan is the encouragement in secondary schools of Advanced Placement offerings. This we undertook in the 1961 Summer Session. Special programs in Latin and History were then introduced. The core of each program was an Advanced Placement course taught by a team of highly qualified

secondary school and college teachers. These courses served not only the Transition to College Plan students enrolled therein, but teachers from secondary schools interested in observing well-taught Advanced Placement courses. They were received with much enthusiasm and were repeated in the 1962 Summer Session. In addition, we offered an Advanced Placement course in English, and with signal success.

Twin girls who while at the Hartford Public High School took our Latin course in the 1961 Summer Session made the following interesting comment: "The experience in a college atmosphere was most enjoyable and exciting. We learned what college is like and what is expected of the college student. . . . It was a summer well spent."

Accelerated Program

During the year we took a further step. The Summer Session Office prepared a description of the opportunity which exists at Trinity to earn the Bachelor's degree in three years, or, in some departments, the Bachelor's and Master's degrees in four years. This opportunity can be most easily utilized by those students who enter with credit through Advanced Placement courses taken in secondary school, through the Transition to College Plan, or through examinations administered at entrance by departments at Trinity. These students, with summer study at Trinity or elsewhere, can save not only valuable time but a considerable amount of money.

This description was sent to the 33 members of the class which entered in September of 1961 with advanced standing in one or more courses. Eight of these students have undertaken an accelerated plan of study. It seems probable that one half of the some thirteen who will enter in September of 1962 with credit earned through the Transition to College Plan will proceed on an accelerated schedule. To these must be added others from the Class of 1966 who will enter with credit otherwise earned who will also elect a faster pace. This number will increase steadily.

The Future

The steps which the College has taken are most meaningful. But they require that we face up to changing trends, trends that are very consequential. It is obvious that more and more of our students are going to enter Trinity with advanced credit of some kind. Their course to the bachelor's degree will be shortened. This is a factor which we cannot overlook.

At the same time the pressure at the other end is also accelerating. Graduate and professional schools are showing an increasing interest in getting our young men during their senior year, an opportunity which because of the mounting costs of education more and more students are accepting.

What does this mean for the traditional and historic four-year liberal arts college? As yet we do not understand its full implications. But we

certainly must devote our best thought to the wise resolution of this challenging and urgent problem.

Should we encourage our students after their accelerated program to go on to graduate or professional school, or should we, within the framework of our own Graduate Program, provide a course of study under which in four years they can obtain two degrees? These issues must be carefully and wisely resolved.

And, with the mounting pressure for increasing specialization in science – yes, in a world that demands accelerating specialization in all areas – we must in the years ahead keep alive the torch of the liberal arts, the general values for which such an education stands. This responsibility will become more and more difficult. It is a tremendous challenge which we must face.

A REVALUATION

In connection with the Academic Program of the College it is vitally essential that we reassess and revalue the aims and the goals of Trinity, and that we do so at the earliest possible moment. We are living in a world of amazing and unheard of change. And to this a college is no exception. We must be absolutely certain that Trinity will keep abreast of the monumental change everywhere occurring.

THE FACULTY

GENERAL

Our major objective continues to be the attraction and the retention of a faculty equal to any in the country. We want teachers and scholars of the highest ability, persons who have a sympathetic and understanding concern for the individual welfare of their students, for their maximum development.

FACULTY BENEFITS

In my report of a year ago I stated "Our program provides that between now and 1971 faculty salaries plus fringe benefits will increase by 75 per cent. During the decade salary scales will be revised upward and materially."

Significant progress in this regard, I am happy to report, has been made in our 1962–1963 budget. Faculty salaries have been increased substantially. It is interesting to note that forty-one members of the faculty who were here in 1952–1953 are still at the College. In the decade their salaries have been increased on the average by 97.1 per cent, or \$4,912.

We are very proud of the "fringe benefits" which the College provides the faculty. These include a Group Life Program, participation in Federal Social Security, as well as greatly expanded annuity provisions for retirement. They include, further, the Faculty Scholarship Program under which for faculty children the College pays to the institution of their choice tuition up to the amount of ours; the establishment, at no cost to the faculty, of a "Major Medical Policy," and early in

the coming year, and again at no cost to the faculty, of a "Group Total Disability Benefits Program." Under this the faculty member who becomes "totally disabled" will henceforth be assured of a reasonable income. Provision will also be made for the payment of his annuity premiums during disability so that his retirement benefits will not be adversely affected. This will complete and round out a carefully designed program to provide substantial protection and security for our faculty in the face of unexpected and often disastrous accidents and hazards of life.

ALEXANDER A. MACKIMMIE, JR.

During the year Mr. Alexander A. Mackimmie, Jr., Assistant Superintendent of Schools in Hartford, was appointed, effective September 1, 1962, Professor of Education as well as Chairman of the Department.

Trinity is exceedingly fortunate to have a person of Mr. Mackimmie's stature and ability in these important roles. For many years we have been privileged to work closely with Mr. Mackimmie. He is uniquely qualified for his duties at the College. His appointment will bring Trinity even closer to the school system of the splendid community in which we are located.

A native of Truro, Nova Scotia, Mr. Mackimmie was graduated from Deerfield Academy and Amherst College. He received his Master's degree from Boston University. His has been a distinguished career in secondary school education. We cordially welcome him to Trinity.

Alexander A. Mackimmie, Jr.

THE STUDENT BODY

GENERAL

In my report of a year ago I stated: "A . . . top priority is to bring to the College outstanding young men both from at home and abroad. This includes young men who without financial aid could not hope for the type of education offered by Trinity. This will require a material increase in our financial aid program."

During 1961-1962 considerable progress was made in the attainment of the goals just mentioned.

The Class of 1966, selected from 2,448 preliminary and from 1,470 final applications, should be an excellent one. Over the summer the

attrition experienced in recent years decreased greatly. The 439 who applied for financial aid were especially able. Unfortunately, we could not do all that we would like to have done for them. Sixty-four members of the Class of 1966 will receive financial aid in the amount of \$86,335: scholarships \$70,790; loans \$8,120; and bursary employment \$7,425. Some 34 young men who applied for and who needed financial aid and to whom awards could not be made are coming to the College without it.

We have planned to increase our financial aid budget until it reaches 25 per cent of tuition and fees. We are well on the road to the attainment of this goal - 18.7 per cent in 1960-1961; 20 per cent in 1961-1962; and 21.6 per cent in our current 1962-1963 budget. From \$280,000 in 1961-1962, financial aid in the 1962-1963 budget calls for \$350,000. By 1971 we predict that it will amount to \$600,000 per year.

We are lastingly grateful to the 423 alumni who participated so effectively in the Alumni Interviewing Program which serves to seek out able young men and to make considered judgments for the Admissions Office. They were of inestimable help in the selection of the Class of 1966. Our various scholarship programs, especially Scholarships For Illinois Residents, Inc., the George F. Baker Scholarships and the Capital Area Scholarships have added greatly to the stature of the Class of 1966.

Capital Area Scholars

We have had a full generation of Capital Area Scholars at Trinity - 38 in number. The members of the first class are now seniors. Their record has been exceptionally good. Of the 29 Capital Area Scholars at Trinity last June, 23 had an academic average of over 80. Of these 13 received Dean's List recognition for the excellence of their academic accomplishment. Two Capital Area Scholars, Mr. Stanley J. Marcuss, Jr., '63; and Mr. William H. Taylor, '64, have ranked number one in their respective classes, Stanley J. Marcuss, Jr., having done so twice. The Capital Area Scholars have also contributed enthusiastically and richly to the extracurricular and athletic life of the College.

ADMISSIONS OFFICE ACTIVITY

During the year the admissions officers traveled extensively, concentrating especially on an area within a 200 mile radius of the College, and particularly on large high schools. They visited some 292 schools.

Special programs were conducted in Pittsburgh, Buffalo and Washington. Secondary school principals and guidance counselors were invited to join our admissions officers, a vice president of the College and the alumni interviewers from the area. The relations thereby built up between the schools and the College will be invaluable in the years ahead. This experiment was so successful that we plan to continue it in Boston, Chicago and Cleveland.

During the year a filmstrip and accompanying record were completed by Guidance Associates. Many copies have been distributed to secondary schools and to alumni interviewers. They have been warmly received.

SCIENCE AND ENGINEERING MAJORS

Trinity has been deeply concerned about the national decline in science majors, and particularly in engineering. During the past year the College has taken a number of steps to improve the situation at Trinity in regard to the sciences. The completion of the Mathematics-Physics Building will certainly attract to the College outstanding majors in science. It should also attract more majors in engineering.

Visiting Committees have been established for the Departments of Physics, Engineering and Biology, under the leadership respectively of Dr. Daniel Alpert, '37, Sc.D. '57, *honoris causa*, Director of the Coordinated Science Laboratory of the University of Illinois; Mr. Leonard S. Hobbs, former Vice Chairman and head of Engineering at the United Aircraft Corporation; and Dr. J. Donald Woodruff, of Johns Hopkins University, the father of J. Donald Woodruff, '62, and David C. Woodruff, '65. The membership of these three committees is exceptionally strong. Their advice and counsel will be of significant value to the respective departments.

These visiting committees are working closely with our Admissions Office in checking on the qualifications of prospective science majors. This will, I believe, be a most helpful factor.

Various programs and events at the College emphasize the role science plays in our society as well as in our community. They will, I am confident, create an increasing interest in science. We have other plans under way about which I will report in my next annual message.

SIZE

In regard to the size of the undergraduate body the Trustees voted in January of 1960 that "we maintain the *status quo* (around one thousand) as regards size until such time as the College shall have satisfied its needs concerning faculty, facilities, buildings and endowment."

We will slightly exceed this number at the opening of the 1962 Christmas Term due to factors entirely beyond our control. The attrition over the summer was much lower than that we had experienced in recent years. As a result instead of a planned entering class of 275 it will be around 288. The continued improvement in academic performance reduced materially the number of students required to withdraw from college. And more than the normal number of students out of college but entitled to return will do so in the autumn.

The optimum size of the undergraduate student body in the years ahead is a matter that will require the most careful thought and study. It must, however, be decided, and at the earliest possible moment. Wise and effective planning for the future is entirely dependent thereon. This decision should be an integral part of the reassessment and revaluation of the aims and purposes of the College which I have already urged.

In connection with the size of our undergraduate body in the years ahead, we must recognize its changing characteristics. It will become more and more residential, including students from the Greater Hartford Area. Probably we will at the opening of College have 84.3 per cent of our students residing on the Campus. Before too long it will reach 90 and then 95 per cent.

AN UNDERGRADUATE EVALUATION

No discussion of the student body would be complete without a mention of the "Undergraduate Evaluation," which brought us such widespread notoriety. During 1961-1962 the undergraduates under the auspices of the Senate made a study of the College. On the whole the study showed considerable maturity on the part of the students who compiled it. That one does not agree with many of the observations is beside the point. Disagreement stems not only from the fact that the College does not have at its disposal unlimited financial resources to fill some of the needs found wanting; but also because the students could not possibly have a full understanding of many subjects about which they critically wrote. This is clear from a statement in the Preface: "We have made no attempt to work with the Administration in compiling this report, realizing that such communication might alter the tone and hence the purpose of the evaluation."

Those responsible for preparing the "Undergraduate Evaluation" were serious in their purpose - to comment objectively on the various operations of the College as they saw them and to set forth such weaknesses as in their opinion existed.

The "Undergraduate Evaluation" is what its name indicates - a student survey. It should be considered as such. The constructive criticism contained therein is warmly welcomed. Such criticism as is justified is being given careful consideration by the College. An institution that does not welcome constructive and honest criticism cannot in this day of rapid change continue to progress. For such criticism the College is deeply grateful.

FRATERNITIES

During the year the Interfraternity Council asked the Trustees and the President to support local autonomy for fraternities, that they be free from all external pressures in the selection of members. At the same time the Trinity College Senate urged the Trustees to eliminate discriminatory clauses on the part of certain fraternities, that is, any restrictive clauses in fraternity charters which limit the selection of members on the basis of race, religion and creed. The Trustees authorized the President to appoint an *ad hoc* committee to study these resolutions and to recommend action. This committee - Mr. Henry S. Beers, '18, chairman; Mr. Lyman B. Brainerd, '30; the Right Rev. Walter H. Gray; and Mr. Barclay Shaw, '35 - is giving these matters the most careful consideration.

Of late there have been many erroneous statements in regard to the College's attitude toward fraternities. These I wish to correct. I say with

crystal clarity – under proper climate, even in this day of amazing change, fraternities have much to offer. In helping Alma Mater effectively to educate our youth they *can* render immeasurable service. There is much more to a college education than can be attained in the classroom. And, I boldly say, this opportunity today is greater than ever.

We are living in a world of tremendous change. And fraternities are no exception. If they are to survive and to play a useful role, they must face up fairly and squarely to changing conditions. They must justify their place in a highly competitive world. No longer can they survive on their laurels of yesteryear. The challenge particularly is to the individual chapter as to the effectiveness of its role in its own collegiate environment. This I emphasize. I am confident that the fraternity chapters at Trinity will meet this challenge, and successfully.

At Trinity a fraternity pattern is beginning to emerge, certainly in regard to housing. Our chapters do not seem to be interested in housing from the standpoint of living quarters, but rather in facilities for dining commons and social purposes. I note the beautiful new house currently under construction by Alpha Delta Phi which contains no dormitory quarters; the steps taken by Theta Xi. This pattern has caused a major change in our housing plans for the future.

RELIGION

Trinity College was founded in 1823 by Episcopalian clergy and laymen. Our Charter, granted May 16, 1823, provided that the ordinances of the College “shall not make religious tenets of any person a condition of admission to any privilege in said College,” whether as a student or teacher – a significant step in the religious toleration movement. Since

The new Alpha Delta Phi house under construction

our foundation strong ties of tradition but not of law have existed between the College and the Episcopal Church.

During our 139 years Trinity has endeavored to be true to the tenets under which the College was founded and to our time-honored motto, *Pro ecclesia et patria*. We are anxious for our students to continue and to further their associations with the religious faith of their choice. We want Episcopalians to become better Episcopalians; members of other Protestant faiths more devout members of their denominations. We hope that Roman Catholics will grow closer to their Church; that members of the Jewish faith will become stronger adherents thereof. We desire to have expressed the maximum flowering of each great religious tradition. To this dedication in our Charter the College during its 139 years has remained steadfast.

It was with this in mind that the Trustees in June of 1959 approved a different way of satisfying our religious observance requirement, a requirement that will continue a part of College policy. It in no way relaxes Trinity's dedication to religious worship, nor does it deviate from the College's sincere belief that religion plays an important part in the educational process.

The number of services in our beautiful Chapel has not been diminished. There are several on Sunday; at least one every other day.

Much attention has been given to building a strong Department of Religion. Since the arrival in 1955 of Dr. Edmond LaB. Cherbonnier, Professor of Religion, this has been accomplished. There are now four full-time members of this Department. Forty per cent of our students are taking courses in this Department, though they are not required for a degree.

Donald B. Engley

THE LIBRARY

GENERAL

1961-1962 was the most active year in our Library's ten year history. This was especially true of service to seniors doing independent study and thesis work.

In my report of a year ago I stated: "It is another top priority of the College in the years ahead to provide library facilities and staff equal to the best in the country. With this objective in mind, we plan to increase the library budget materially." In the past decade the budget has tripled. It is now being increased substantially each year. By 1971 it will be twice what it was in 1961.

Trinity is extremely fortunate to have as Librarian a person of the outstanding stature of Mr. Donald B. Engley. He has made the Library of Trinity College one of the most respected college libraries in the country.

STUDY SPACE

There exists a real need to develop more study space for upper classmen engaged in independent study and who, under the new curriculum, will be doing so more and more in the succeeding years. When the Library was planned, a low priority had of necessity to be given to private and semi-private study carrels because of other pressing needs, especially book stack space for both the Trinity and the Watkinson Libraries. It was fully realized at that time, however, that within the decade the really serious need for such study space would be upon us. We must in the very near future convert some of the offices and work rooms recently vacated by the Air Force R.O.T.C. into senior study space. If need be, this space could be available throughout the night. This would go far to aid the advanced work demanded by the new curriculum and would alleviate considerably the demands for late evening study space.

TRINITY COLLEGE LIBRARY ASSOCIATES

Much of the strength of the Library has come from the volunteer support of friends who generously have given time, money and books. Mr. Sherman P. Haight, '11, has served a most successful three-year term as chairman of the Trinity College Library Associates. The marvelous generosity of both Mr. and Mrs. Haight has inspired many others

Sherman P. Haight, '11

H. Bacon Collamore

to make valuable gifts to the Library. Mr. Haight has been succeeded as chairman by Mr. H. Bacon Collamore of West Hartford, a charter member of the Associates and a Trustee of the Watkinson Library. A most generous benefactor of the Library, he is the first non-alumnus to hold this post.

William A. Bird, '12

COLLECTION OF MR. WILLIAM A. BIRD, '12

A major activity of the Associates during 1961-1962 was the *en bloc* purchase of the distinguished collection of private press books of Mr. William A. Bird, '12, of Tangier, Morocco. During the 1920's Mr. Bird was a newspaper correspondent in Paris. As a hobby he printed the early works of such expatriate American authors as Ernest Hemingway, Ezra Pound, Gertrude Stein and William Carlos Williams. It is gratifying that the works of his Three Mountains Press have a permanent home in the Library of Mr. Bird's Alma Mater, and that the transfer took place on the occasion

of the fiftieth anniversary of the graduation of his class.

WATKINSON RECATALOGING

Miss Mary E. Tincovich has been appointed as Watkinson Library cataloger to carry on the recataloging and classification of this priceless collection. We are deeply grateful to the Old Dominion Foundation for its continued generous support of this project.

PHYSICAL FACILITIES

GENERAL

During 1961-1962 many changes were made in connection with the physical facilities of the College.

THE NORTH CAMPUS HOUSING

The dormitory on the North Campus between Vernon Street and Allen Place, constructed through a Federal loan, was completed and ready for occupancy February 1, 1962. It houses 123 students and one faculty family. Grading, seeding and landscaping around the new building have been completed effectively.

It is clear that further dormitory space on the North Campus will be needed at the earliest possible moment. It will be required effectively to house a student body of our present size. Overcrowding in some of

New North Campus Dormitory

our dormitories, the increase in the number of resident students and the decrease in fraternity housing are the major reasons for this urgent need.

THE MATHEMATICS-PHYSICS BUILDING

Ground was broken for the much-needed Mathematics-Physics Building on May 14, 1962, and immediately thereafter construction began. Designed by the architectural firm of O'Connor and Kilham of New York, it is being constructed by Wadhams and May Company of Hartford. This building is proceeding on schedule, and will, unless unforeseen problems develop, be ready for the opening of College in September of 1963.

Jarvis Physics Laboratories will be torn down just as soon as this building is completed.

FACULTY OFFICES

During the summer of 1962 five new faculty offices were constructed in Seabury Hall, three for the Department of Government and two for the Department of History. This continues the policy in regard to

The Mathematics-Physics Building under construction

faculty offices inaugurated several years ago. These new offices bring us very close to the goal we have set to provide each member of the faculty with an adequate private office adjacent to other members of his department and to the classrooms in which he teaches. The new Mathematics-Physics Building and the Arts Center will do much to further the attainment of our goal.

LANGUAGE LABORATORY

A Language Laboratory incorporating the most recent developments has been installed in the old Seabury Lounge. It will be of inestimable value to the Department of Modern Languages as an instructional tool as well as to the students of the Department in preparation for their courses.

The Language Laboratory features the latest equipment developed by the Chester Electronics Laboratories, Inc., and is characterized by the use of telephones at the booth of a student who dials the program he wants to obtain from the master control apparatus, where prepared tapes and records are stored. The first installation provides a room of twenty listening booths and a separate room with facilities for eight students. This second room is planned for those who wish to listen to literature in oral presentation.

Thus, for the first time the Department of Modern Languages is enabled to use the new techniques of instruction that conform to the specifications and requirements it has long sought to establish.

Particularly valuable in this new Laboratory is the inherent possibility of unlimited future expansion at a negligible cost, since new outlets can be set up wherever a telephone can be located, as in a student's room, in other classrooms, indeed, anywhere on the Campus.

Dean Arthur H. Hughes at the control panel in the Language Laboratory

SAFETY SURVEY

The Safety Survey, mentioned in my report of a year ago, which covered most of the Vernon Street fraternity properties as well as Jarvis, Northam and Seabury dormitories on the Campus, was completed in September of 1961. Based on the recommendations of a committee appointed by the President, all required repairs and alterations to these buildings were placed in one of four categories. Dependent upon the urgency from a safety point of view, the cost and time required for completion, the property owners were asked to complete this work within certain specified time periods, namely, within 30 days for Category "A"; 90 days for Category "B"; and by September, 1965, for Category "C." The last date also holds for Category "D," which includes items recommended, but not required.

The Department of Buildings and Grounds coordinated this program with the various fraternities and inspected the work upon notice of completion. As of May 15, 1962, all category "A" and "B" work had been completed acceptably, and a considerable number of "C" items had been undertaken.

In compliance with this program the College during the summer of 1962 completely rewired Jarvis Dormitory, although this, a category

"C" item, was not required until September, 1965. This work included new feeder and secondary circuits as well as new lighting fixtures throughout. It also required considerable cutting and patching of plaster which in turn resulted in more than the normal yearly amount of interior painting. Present plans call for the continuance of this program during the summer of 1963 in Northam and in Seabury.

FURTHER ADJUSTMENTS

During the year the Administration put into effect the policy it had previously announced, namely, that the College would no longer allow fraternities to live in college owned houses. Thus, Theta Xi as of July 1, 1962, gave up 79 Vernon Street and will use for dining and social purposes its newly purchased house at 76 Vernon Street. 79 Vernon Street has been assigned to the Trinity College Air Force R.O.T.C. 118 Vernon Street, occupied since 1955 by Phi Kappa Psi, was torn down during the summer of 1962.

Connecticut Educational Television, Inc., discussed elsewhere in this report, has been assigned some of the space in the sub-basement of the Library vacated by the Air Force R.O.T.C. In this space considerable partition and equipment changes have been made. Connecticut Educational Television, Inc., has provided air conditioning and acoustical treatment for the studio area; as well as the extensive technical equipment.

ARTS CENTER

Ground was broken for the new Arts Center on Saturday, June 9, 1962, following the annual Alumni Luncheon. Located just southeast of the Library, the Arts Center will provide splendid facilities for the Fine Arts, Music and Drama. In it will be a theatre seating some 400. We hope that construction will begin before too long.

GOODWIN LOUNGE

During the past summer Goodwin Lounge was completely redone. New light fixtures and an acoustical tile ceiling were installed. New tables, chairs and individual lamps were provided. Goodwin Lounge has become a most attractive room.

It is currently being used as a seminar room as well as for advanced work in English. Dr. Morse S. Allen, James J. Goodwin Professor of English Emeritus, maintains his office there.

CAMPUS COTTAGE

In order to make way for the Mathematics-Physics Building the old Campus Cottage has been torn down. The Brownell Club which for some years has had the use of the Campus Cottage has been assigned quarters at 84 Vernon Street.

FINANCIAL AFFAIRS

GENERAL

Again the College ended its fiscal year in the black. There was, according to the report of our auditors, an excess of income and reserves over expenses and appropriations amounting to \$5,698. For this continued splendid accomplishment we are deeply grateful to Mr. J. Kenneth Robertson, Treasurer and Comptroller, and his associates for the economical and businesslike management provided by his office; to Mr. Allerton C. Hickmott, Litt.D. '58, and to the other members of the Trustee Investment Committee for their sound and wise financial policies; to Vice President Albert E. Holland, '34, M.A. '58, and to his able staff for the significantly successful operations of our Development Office.

TUITION AND FEES

Beginning with the academic year 1962-1963 it has been found necessary to make the following changes in tuition and fees. Tuition will be increased from \$1,200 to \$1,400 per annum. The fee for extra courses will follow the same pattern and will go from \$120 to \$140 per half course. The General Fee will be increased from \$125 to \$150 per year.

During the year the fees in the Program of Graduate Studies and in the Summer Session were also increased. For graduate students the increase was from \$75 to \$90 per half course, and for undergraduates from \$100 to \$120. For the Program of Graduate Studies this increase will be effective with the academic year 1962-1963; for the Summer Session with the summer of 1963.

These changes were made only after a most careful survey of the College's financial needs.

DEVELOPMENT WORK

General

1961-1962 was a most successful year from the standpoint of development activity. During the year \$2,147,048 was received in cash and pledges: Mathematics-Physics Building, \$1,089,605; Arts Center, \$362,028; Bequests, \$629,799; Miscellaneous, \$199,242; Alumni Fund, \$125,635; and the Parents Fund, \$40,739. Great credit goes to Vice President Albert E. Holland, '34, M.A. '58, and to his very able staff.

The Alumni Fund

The goals for the 1961-1962 Alumni Fund were \$125,000 and fifty-five per cent participation. Under the splendid leadership of Mr. John L. Bonee, Jr., '43, National Chairman and Vice President of the Trinity College Alumni Association in Charge of the Alumni Fund, and Mr. Ethan F. Bassford, '39, General Vice Chairman, \$125,635 was raised, the highest in the history of the College, exceeding the previous record of \$111,203.21 in 1960-1961. Another record was established when 3,126

or 55.1 per cent of our alumni contributed, surpassing by 10.8 per cent the 2,820 who participated in 1960-1961. For all of this great credit goes to Mr. Douglas L. Frost, '59, Assistant Director of Development.

For the outstanding success of our 1961-1962 Alumni Fund signal credit also goes to Mr. Paul W. Adams, '35, chairman, Leadership Gifts; Mr. Seymour E. Smith, '34, chairman, Special Gifts; Mr. Harry K. Knapp, '50, chairman, Class Agents; Mr. E. Laird Mortimer III, '57, chairman, Promotion; and Mr. Jerome C. Cuppia, Jr., '43, chairman, Corporate Gifts.

The Parents Fund

For 1961-1962 the Trinity College Parents Association accepted a goal of \$40,000. \$40,739 was raised, a truly outstanding achievement. Five hundred and eighty-nine parents contributed, a record for the College. Mr. Clarence U. Carruth, Jr., of New York as National Chairman; and the Regional Chairman - Mr. Alan A. Anderson, of Hingham, Massachusetts; Mr. Albert D. Hutzler, Jr., of Pikesville, Maryland; Mr. Francis V. Lloyd of Clayton, Missouri; Mr. Robert D. Murdock of New York; and Mr. James R. Pitcairn of Pittsburgh, provided splendid leadership for the Parents Fund.

Alumni Committee on Endowment

The period from September, 1961, to June, 1962, saw a revival of activity in the Alumni Committee on Endowment. It began with the employment of a full-time staff member in the Development Office, Mr. Sherman P. Voorhees, as Consultant in Development. Since the work in endowment funds entailed estate planning and a working knowledge of income and inheritance taxes, he spent the first four months in studying a course on taxes and trusts.

Under the able chairmanship of Mr. Sydney D. Pinney, '18, mailings to alumni out of college twenty-five years or more began in systematic order. These mailings, four of which were made, consisted of carefully prepared pamphlets pointing out various tax advantages of giving for educational purposes.

During the year Mr. Voorhees worked closely with the members of the Alumni Committee on Endowment. Procedures were carefully explained to them. They were requested to ask their classmates if they had included the College in their wills and also if they had maturing insurance policies for which they no longer had need - the proceeds from which would be taxable. Experience at other colleges using somewhat the same techniques has demonstrated that this is a long-term operation, but one which is very productive and in many instances most helpful to the College and to the alumni.

THE FUTURE

The objectives the College has established for the decade ahead will cost a lot of money. It is obvious that to meet these objectives

tuition and fees will have to go well beyond their present levels. But higher tuition will by no means enable the College to accomplish these objectives. An increase in Trinity's over-all financial resources is absolutely imperative.

To meet effectively Trinity's educational responsibilities, the Trustees in October of 1961 unanimously approved a \$19,000,000 development goal. The details of this program were set forth in my report of a year ago - an additional eight million dollars for permanent endowment; six million for physical expansion (a figure already inadequate); and five million in "Living Endowment" through increased annual giving. During 1961-1962 considerable progress has been made in carrying forward this program.

Our last Capital gifts campaign lasted from January 1, 1956, to July 1, 1958, when the "Program of Progress" was so successful. In order to attain some of the financial objectives established by the Trustees, we plan to have another capital gifts campaign, commencing probably in late 1963. We currently are giving thought to the goals and objectives of this projected campaign.

SIGNIFICANT EVENTS AND ACTIONS

CHARTER CHANGES

Under recent legislation in Connecticut, the Trustees have taken the steps necessary to make significant changes in the Charter of Trinity College. These pertain to the Trustees elected by the Alumni. Under the old Charter the Alumni elected three Trustees each for a term of three years. Under the new provisions there will be six such Trustees elected by the Alumni and for six instead of three-year terms. Thus, by 1968 we will have 21 instead of 24 Life Trustees including the President while in office, and six Trustees elected by the Alumni. By 1968 the new program will be in full operation.

A further significant change pertains to the qualifications of those entitled to vote for Alumni Trustees. Formerly only those admitted to a degree in Trinity College were qualified electors. By the recent Charter change those who have matriculated at Trinity College and whose class has been admitted to a degree and who no longer are in undergraduate status also are eligible voters. Qualified for election as Alumni Trustees are those who satisfy the above listed requirements and whose class has for five years been admitted to a degree.

In June of 1962, under these Charter changes, the first Alumni Trustee was elected for a six-year term, Mr. Harris K. Prior, '32, who succeeds, Mr. Harmon T. Barber, '19. In addition, in June of 1962, Mr. Charles T. Kingston, Jr., '34, was elected an Alumni Trustee for a term of one year filling out the unexpired term of Mr. Barclay Shaw, '35, who in January of 1962 was elected a Life Trustee. Details concerning the new Trustees will be given later in this report.

TRUSTEES EMERITI

During the year the Statutes of the College were amended to provide that former Trustees, other than those elected by the Alumni, and whose resignation has been accepted by the Board, may be elected Trustees Emeriti instead of members of the Advisory Council. Under this statutory change seven former Life Trustees have by the vote of the Board been elected Trustees Emeriti: Mr. Newton C. Brainard, M.A. '46, LL.D. '59, *honoris causa*; the Hon. Joseph Campbell; the Hon. Philip J. McCook, '95, LL.D. '30, *honoris causa*; Mr. Thomas W. Russell; Mr. James L. Thomson; Mr. George S. Stevenson; and Mr. Edgar F. Waterman, '98, M.A. '01, LL.D. '58, *honoris causa*.

CONNECTICUT EDUCATIONAL TELEVISION, INC.

In my report of a year ago I noted that the Trustees in January of 1961 voted that Connecticut Educational Television, Inc., be housed

"here on campus on a trial basis of one year after operations are begun." During 1961-1962 remarkable progress took place under the leadership of Mr. Carter W. Atkins, President, and Mr. Ben A. Hudelson, General Manager. The final blessing of the Federal Communication Commission having been obtained and arrangements having been made with the Travelers Broadcasting Service Corporation for the installation of equipment on WTIC property in Avon, it is expected that operations will begin around October 1, 1962. At that time WEDH, Channel 24, Hartford, Connecticut's first non-commercial educational television station, will, during its first year of operation, broadcast more than 2,000 hours of bright, exciting and informative programs. Instructional programs for schools, college courses which may be taken for credit or for the delight and satisfaction of learning, as well as many other programs for the benefit and entertainment of the Connecticut community are part of Channel 24's schedule.

During the summer, as I have already reported, adequate space for Connecticut Educational Television, Inc., was made available in the sub-basement of the Library.

Mr. Robert S. Morris, '16, and Colonel John R. Reitemeyer, '21, have been serving as Trustees of the Corporation, with the latter a member of the Executive Committee. For 1962-1963 Mr. Morris and the President will serve in this capacity with the former on the Executive Committee. Mr. Kenneth C. Parker, Director of Public Relations, continues to be a member of the Program Committee.

The College is very happy to play a part in this significant endeavor.

THE ASSOCIATED UNIVERSITIES OF CONNECTICUT

In order to further nuclear and other scientific research activities in Connecticut, Public Act 535, entitled "An Act Providing for Establishment of a Nuclear Research Center," was enacted by the 1961 General Assembly. It authorized the State to donate \$500,000 to a non-profit corporation to be formed to establish such a Center.

On August 28, 1961, the Connecticut Nuclear Center for Research, Training and Education, Inc., was incorporated, conforming to the provisions of Public Act 535. This will be the owning corporation.

It is proposed to incorporate another non-stock corporation named Associated Universities of Connecticut, Inc. This will be the operating corporation, analogous to Brookhaven National Laboratory. Eight four-year institutions of higher learning in Connecticut have been invited to participate. The Associated Universities of Connecticut, Inc., will make the facilities available to the various contractors who will be providing the operation, as well as to the participating institutions of higher education. The location of the Center will be a central one but not on any campus.

The participating colleges and universities are not expected to raise money for nor contribute to the operation of the Center. The remainder of the funds required for operation will come from private industry, the United States Government and other sources.

The principal benefit to the institutions participating in this corporation will be the very establishment of these facilities, which should do much to improve the quality of scientific research and higher education development in Connecticut. Facilities will be available which many of these institutions could not otherwise have at their disposal.

The Trustees at the meeting on January 6, 1962, voted to authorize the Executive Committee, after careful study, to act for the Board and to join the Associated Universities of Connecticut, Inc. In accordance therewith the Executive Committee authorized the President to take such steps as are necessary for Trinity College to join the Associated Universities of Connecticut, Inc., and to empower the President to nominate two members to the Operating Corporation.

THE PRESIDENT'S PORTRAIT

The Executive Committee in November of 1961 voted that the President appoint an *ad hoc* committee of not more than three Trustees to arrange for the painting of a portrait of the President. This committee, Mr. Lyman B. Brainerd, '30, Chairman; Mr. Karl W. Hallden, '09; and Dr. Jerome P. Webster, '10, after the most intensive investigation and thoughtful deliberation, recommended that Mr. Alfred Jonniaux of New York and San Francisco, a portrait painter of international reputation, be commissioned for this assignment. At a meeting of the Corporation in January of 1962 this recommendation was approved.

The portrait was successfully completed in February of 1962, and was unveiled on June 9, 1962. It hangs in Cook Lounge.

The President is lastingly grateful to the members of the *ad hoc* committee as well as to the Trustees.

Dr. Glenn Weaver

HISTORY OF THE COLLEGE

Dr. Glenn Weaver, Associate Professor of History, continues his work on the College History. He has carried the story in rough draft through the Civil War and into the Reconstruction Period. It seems that the volume should be completed in late 1963 or early 1964. Dr. Weaver has been given much assistance by alumni and others with Trinity connections. As he moves into the more recent periods the alumni can be increasingly helpful to him.

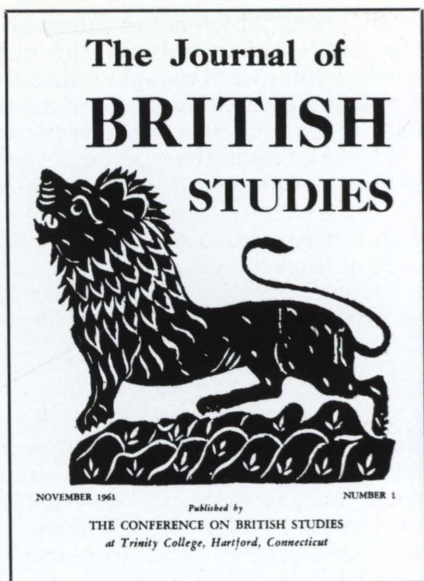

THE JOURNAL OF BRITISH STUDIES

The first issue of *The Journal of British Studies*, published at Trinity College under the auspices of the Conference on British Studies, appeared in November of 1961. Volume II, No. 1, comes out in November of 1962. The *Journal*, with Dr. George B. Cooper, Professor of History as Managing Editor, has already established itself as an important medium of British historical scholarship in this country and abroad. Its articles represent the works of distinguished scholars in the field and many tributes have come to the College concerning its quality.

Trinity is indeed proud to have this scholarly journal published on our Campus.

Dr. William A. Johnson

DR. WILLIAM A. JOHNSON

During the year Dr. William A. Johnson, Assistant Professor of Religion, received an outstanding honor which brought signal credit to him and to Trinity. He was awarded the degree of *Teologie Doktor* by the University of Lund in Sweden, the highest degree given in the Theology Faculty. To be eligible for this degree one must first have received the degrees of *Teologie Kandidate* and *Teologie Licentiate* which correspond roughly to the degrees of Bachelor of Divinity and Doctor of Philosophy respectively. The degree further involves a full

length book which is published by the University. Dr. Johnson's book entitled "Theology of Horace Bushnell and the Rise of American Liberalism" will appear in the spring of 1963. The book had to be defended successfully before the Theology Faculty in a contemporary form of the Medieval *disputatio*. After completion of the defense the King of Sweden invited Dr. Johnson to visit him.

THE THREE-COLLEGE GROUP

Hobart, Kenyon and Trinity continued to cooperate to focus attention upon the role that Christianity must play in modern education as well as to bring to the attention of Episcopalians the work of the various colleges related to their Church. These colleges had a booth at the General Convention of the Episcopal Church held in Detroit, Michigan, September 17-29, 1961, which your President attended as a Lay Deputy from the Diocese of Connecticut. During the Convention the three colleges held a joint dinner for their alumni and friends at which the presidents spoke. During the year the three presidents made a one-half hour tape on Christian Higher Education which was broadcast by about twenty stations in Connecticut, New York and Ohio.

Again the Three-College group sponsored services on National Christian College Day, April 29, 1962. The Rev. Dr. Louis M. Hirshson, President of Hobart and William Smith Colleges, delivered the address at St. James' Episcopal Church in New York; Dr. F. Edward Lund, President of Kenyon College, at St. Thomas' Church in Washington, D.C.; and the President of Trinity College, at Christ Church, Grosse Pointe Farms, Michigan.

The Three-College display at the 60th General Convention of the Episcopal Church

At the Three-College Dinner: left to right, President Jacobs; The Rt. Rev. Arthur Lichtenberger; Dr. F. Edward Lund, President of Kenyon College; and The Rev. Dr. Louis M. Hirshson, President of Hobart College.

THE FOUNDATION FOR EPISCOPAL COLLEGES, INC.

The Trustees at the meeting on June 8, 1962, voted that Trinity join the Episcopal Church College Association. The name was later changed to the Foundation for Episcopal Colleges. At about the same time similar action was taken by the governing boards of the seven other four-year colleges associated by tradition with the Episcopal Church: Hobart College; Kenyon College; Shimer College; the University of the South; Bard College; St. Augustine's College; and St. Paul's College.

The purpose of the Foundation is "to promote Christian higher education in the tradition of the Episcopal Church." It has been incorporated under the laws of Connecticut. The members of the Foundation are the Presiding Bishop of the Protestant Episcopal Church in the United States and the presidents of the eight colleges.

For the first time the Episcopal Church and the colleges related to the Church have a formal bond between them, and means have been established through which Church and colleges may work in their mutual interest. The Foundation, however, encourages each institution to grow in the direction of its individual goals, in both secular and religious aspects. Each college reserves unto itself its rights in the continuing and administration of its own affairs.

In regard to the Foundation Bishop Lichtenberger has said: "The formation of this Foundation by these eight colleges is a significant event. . . . It will interpret the aims, functions and needs of the colleges to the members of the Church; foster and cultivate active participation by Episcopalians in support of the colleges; and seek funds and properties for the furtherance of the work of the member Colleges."

In the near future an executive director will be appointed. Three

commissions - Research, Promotion and Fund-Raising - will aid the executive director in carrying out the work of the Foundation.

The officers of the Foundation are: Chairman, the President of Trinity College; Vice Chairman, Dr. Edward McCrady, President, the University of the South; Treasurer, Mr. Clifford E. Orr, Director of Public Relations, Hobart College; and Secretary, Mr. Kenneth C. Parker, Director of Public Relations, Trinity College.

NATIONAL SCIENCE FOUNDATION CONFERENCE

At the request of the Executive Director of the Association of American Colleges, Trinity, on June 1, 1962, served as host to the other independent colleges in New England. The purpose of the meeting was to enable a team from the National Science Foundation to confer with key faculty and top administrative personnel of these institutions. The conference dealt with effective ways by which the Foundation might render aid in furthering the work of these institutions in science. The Conference was a marked success.

CONNECTICUT HIGHER EDUCATIONAL ASSISTANCE CORPORATION - UNITED STUDENT AID FUND

With the rising costs of higher education, financial aid obviously must increase. And as a phase of financial aid loans become increasingly important. Many institutions of higher learning do not have at their disposal sufficient funds to meet the growing demand for loans.

The United Student Aid Fund is a private, non-profit corporation established to assist needy students to obtain low-cost loans from local banks.

The Connecticut Higher Education Assistance Corporation (CHEAC) was created by special charter by the 1959 General Assembly. CHEAC, under the leadership of Mr. Henry S. Beers, '18, Life Trustee and Chairman of the Ætna Life Affiliated Companies, was launched in January of 1962. An affiliation has been made by CHEAC with the United Student Aid Fund under which the administration costs of CHEAC are absorbed by the national organization. USAF assists in fund raising and guarantees all student loans.

CHEAC's program is the result of cooperation among banks, private industry, business and individuals. Special low-cost, long-term loans are made available through local banks to residents of Connecticut. USAF provides similar loans for non-residents attending Connecticut colleges. For each \$1,000 which an institution puts into CHEAC, banks are authorized to loan its students \$12,500, an amount later increased. The same is true with USAF.

The Executive Committee of the Trustees of Trinity College has authorized the College to participate in the CHEAC and the USAF programs.

Professor Edwin P. Nye

CIVIL DEFENSE

In October of 1961 the President appointed an *ad hoc* committee with Professor Edwin P. Nye, Hallden Professor of Engineering, as Chairman, to review the subjects of Civil Defense and Survival as they applied to Trinity College in 1961. On January 4, 1962, that committee submitted a report to the President which he transmitted to the Trustees at their meeting on January 6, 1962. The Trustees authorized the Executive Committee to take the necessary action in regard to the committee report. In February of 1962 the Executive Committee approved the establishment of a permanent Civil

Defense Advisory Board for the College, this Board to be authorized to designate shelter areas, define defense plans, train personnel and purchase certain materials (radiation detection equipment, etc.). The Board was appointed, with Professor Nye as Chairman, and in the ensuing months has been extremely active. After carefully surveying the various possible fallout shelters, the Board selected the basement areas of Mather, Cook and Goodwin Halls to serve as the fallout shelter area for the Trinity community. A supply of solid concrete blocks was secured and has been stored in the window pits of Mather Hall in order to provide blockage of radiation penetration *via* window area. Radiation Monitoring equipment has been ordered and some has been received. The training of a small group of our students in radiation detection techniques has been initiated by the Board.

The College in cooperation with the local Civil Defense Office has signed licenses for Mather Hall, the Chemistry Laboratory, the Chapel, the Library and Jones Hall to be utilized as public fallout shelters in the case of an emergency. Mather Hall is to be reserved exclusively for the College community. It is expected that at an early date the Civil Defense Authority will provide these areas with water containers, medical supplies and rations.

DONN F. PORTER, '53

The case for the display of Donn F. Porter's Congressional Medal of Honor and other memorabilia was installed in late June in the foyer of the second floor of Mather Hall. This gift, generously given by Donn's stepfather, Mr. Bernard K. Shaner of Baltimore, Maryland, memorializes both Donn Porter and his mother, Mrs. Winifred Porter

Shaner. The case contains not only Donn's Congressional Medal of Honor and other military decorations, but a picture of him as well as the silver trophy and scroll which represent the Donn Porter Award. This award is given annually to the member of the freshman class who most nearly approaches the ideals by which Donn lived.

ONE HUNDRED AND THIRTY-SIXTH COMMENCEMENT WEEKEND 1962 REUNION

The 1962 Reunion, planned with great effectiveness by Mr. Hugh S. Campbell, '32, and his able committee, was very successful. The Alumni Dinner on Friday night as well as the Alumni and the Senior Luncheon on Saturday were held in the Field House. Two extremely interesting and enlightening seminars were held. One seminar dealing with "Alliance for Progress" was moderated by Colonel John R. Reitemeyer, '21, President and Publisher of *The Hartford Courant*. Dr. Walter Howe, one-time United States Ambassador to Chile; and Mr. Guillermo Gutierrez, Manager of the Inter-American Press Association Technical Center, and former Ambassador from Bolivia to Cuba, participated. The other seminar dealt with "The European Common Market and Its Impact on The American Economy." Mr. G. Keith Funston, '32, President of the New York Stock Exchange, served as moderator. The panelists were Dr. Lawrence W. Towle, G. Fox and Company Professor of Economics; Dr. Orson H. Hart, '35, Second Vice President, New York Life Insurance Company; and Mr. Michael G. Duerr, European Economic Specialist, The Chase National Bank.

The 1962 Annual Meeting of the Alumni Association was held immediately following the Alumni and Senior Luncheon.

Frederic T. Tansill, '22

THE EIGENBRODT TROPHY

At the Annual Meeting of the Alumni Association, the prized Eigenbrodt Trophy was awarded to Mr. Frederic T. Tansill, '22, one of the most loyal and dedicated sons of Alma Mater.

ALUMNI MEDALS FOR EXCELLENCE

The Alumni Medals for Excellence again were awarded following the Alumni Luncheon. Awards were made to: Mr. Richard L. Maxon, '16, *in absentia* due to illness; Mr. Harris K. Prior, '32; Dr. Robert H. Smellie, Jr., '42, and Mr. Melvin W. Title, '18. The candidates once more were presented by Mr. Lyman B. Brainerd, '30, Secretary of the Board of Trustees.

THE BACCALAUREATE EXERCISES

The Baccalaureate Exercises were held Sunday morning, June 10, 1962, outside of Northam Towers. The very able sermon was delivered by the Rt. Rev. Joseph Warren Hutchens, D.D., '62, Suffragan Bishop of Connecticut. The decision to advance the hour of the exercises from eleven to ten proved to be a wise one.

The Rt. Rev. Joseph Warren Hutchens receives the Doctor of Divinity degree, honoris causa.

THE COMMENCEMENT EXERCISES

The One Hundred and Thirty-sixth Commencement Exercises were held on Sunday afternoon, June 10, 1962, outside of Northam Towers. One hundred and seventy-nine received the degree of Bachelor of Arts; 47 that of Bachelor of Science; four the degree of Bachelor of Science in Engineering (two in Electrical and two in Mechanical Engineering); 34 the degree of Master of Arts; and 17 that of Master of Science. The excellent Commencement Address was delivered by Dr. G. Keith Funston, '32, LL.D. '62, President of the New York Stock Exchange, Life Trustee and the thirteenth President of Trinity College. The Charge to the Graduate was delivered by the President.

Eight degrees, *honoris causa*, were conferred: Doctor of Science, Thomas Steward Hamilton; Doctor of Human Letters, Joseph Verner Reed; Doctor of Letters, Jacob Coleman Hurewitz, '36, Donald Frizell Hyde; Doctor of Laws, John Doyle DeWitt, George Keith Funston, '32; Doctor of Divinity, John Crocker, the Rt. Rev. Joseph Warren Hutchens.

G. Keith Funston, '32, receives the degree of Doctor of Laws, *honoris causa*.

CONFERENCE IN THEOLOGY FOR COLLEGE FACULTY

The Thirteenth Annual Conference in Theology for College Faculty was held at Trinity June 14-20, 1962. The Conference was under the auspices of the Provincial Committees for College Work of the Episcopal Church in New England, New York, New Jersey and the Middle Atlantic States, and of the Division of College Work of the National Council. This was the ninth time that the Conference has been held on our Campus.

The sessions were designed for re-examination of Christian commitment under expert leadership as well as to help in an exploration of the problems of religion in education and their possible solution.

The Rev. Dr. John McGill Krumm, Chaplain and Professor of Religion, Columbia University, moderated a seminar on "The Doctrine of Creation"; Professor Cleanth Brooks, Department of English, Yale University, one on "Five Metaphysical Poets"; and Dr. Robert C. Dentan, Professor of Old Testament, General Theological Seminary, New

Honorary degree recipients with Dr. Jacobs: Front row, l. to r., Dr. Jacobs; Dr. Jacob C. Hurewitz, '36, Professor of Government, Columbia University, Doctor of Letters; Dr. T. Stewart Hamilton, Executive Director of Hartford Hospital, Doctor of Science. Back row, l. to r., Donald F. Hyde, partner, McKenzie, Hyde, Willson, French and Poor of New York, Doctor of Letters; G. Keith Funston, '32, President and Governor of the New York Stock Exchange, Doctor of Laws; the Rt. Rev. J. Warren Hutchens, Suffragan Bishop of the Episcopal Diocese of Connecticut, Doctor of Divinity; J. Doyle DeWitt, President of the Travelers Insurance Company, Doctor of Laws; Joseph V. Reed, Executive Producer of the American Shakespeare Festival Theater and Academy at Stratford, Doctor of Humane Letters; and the Rev. John Crocker, Headmaster of the Groton School, Doctor of Divinity.

York, one on "Intertestamental Literature and Theological Development."

Approximately one hundred clergymen and faculty members attended.

PUBLICATION AND OTHER AWARDS

At the meeting of the American Alumni Council Trinity received for its Mathematics-Physics brochure a third place citation for achievement in the "Promotion of Capital Gifts." In the Alumni Giving In-

centive Program the College also received honorable mention and a check for \$150 for sustained efforts in alumni activities.

At the meeting of the American College Public Relations Association the College received further awards. Among these were a first place citation in the category of "Capital and Total Gift Support" for the Mathematics-Physics brochure. Four of our programs were selected for display, which is tantamount to honorable mention. They were: (1) the *Cesare Barbieri Courier* in the category of "Special Publications"; (2) the recruiting filmstrip under the category of "Audio-Visual Materials," there being in this area no citation or first place awards; (3) the Estate Planning brochures and program in the category of "Estate Planning"; and (4) the "Excellence Brochures" in the category of "Annual Gift Support." In competition with colleges under 1,100 Trinity did very well, receiving one of the thirteen citations, and of the twenty exhibits chosen for display four were ours.

The College also received a "Certificate of Merit" from the Baltimore Art Directors Club for our Fine Arts brochure.

TRINITY FLAG

On May 13, 1962, the family of the late Professor Harold J. Lockwood, Hallden Professor of Engineering, gave the College a beautiful Trinity flag. Replacing the original one given thirty years ago when the Chapel was consecrated, the new flag will stand as a monument to Professor Lockwood, as a symbol of the remarkable contributions which he made to Trinity during his seventeen years of dedicated and most able service.

CESARE BARBIERI CENTER OF ITALIAN STUDIES

The Cesare Barbieri Center was privileged in September to receive the visit of Sergio Fenoaltea, the Italian Ambassador to the United States. Ambassador Fenoaltea was inducted as a Fellow of the Center.

The principal events sponsored during the year were: a recital in December by the distinguished actress Diana Torrieri of dramatic monologues and poetry readings in Italian; a concert in March by the Italian pianist Noretta Conci; and in April a lecture on the Italian poet Eugenio Montale by Glauco Cambon, Professor of Italian at Rutgers University.

The Center issued Volume IV, numbers 1 and 2, of its journal, *Cesare Barbieri Courier*.

THE COLLEGE

I now report in some detail on the several groups constituting Trinity: the Students, the Faculty, the Administration, the Trustees, the Alumni and the Parents.

THE STUDENTS

NUMBERS

Undergraduates

At the opening of the Christmas Term 1,012 were enrolled as candidates for the baccalaureate degree (as compared with 985 a year ago); 226 in the senior class; 235 in the junior class; 270 in the sophomore class; 272 freshmen; 5 special students; and 4 in the fifth year in Engineering seeking their second baccalaureate degree.

The Class of 1965 numbered 272 (the same as in the preceding year) and was selected from 1,417 completed applications and 2,642 preliminary ones. Twelve and nine-tenths per cent came from Greater Hartford; 25.3 per cent from Connecticut; and 29.8 per cent from New England. The members resided in 32 states, the District of Columbia and 4 foreign countries. Eighty-eight and six-tenths per cent resided in the College dormitories, and 11.4 per cent were non-resident students. Forty-five and four-tenths per cent came from independent schools, while 54.6 per cent attended tax-supported institutions. One was a grandson, six were sons and five brothers of alumni; and two were brothers of students in College.

During 1961-1962 the average undergraduate class numbered 17.11. We had one full-time teacher for every 9.49 undergraduates.

Program of Graduate Studies

Enrollment in the Program of Graduate Studies during the Christmas and the Trinity Terms respectively was 414 (409 graduates and 5 undergraduates) and 324 (316 graduates and 8 undergraduates). Throughout the year 508 different students were enrolled (500 graduates and 8 undergraduates). The above figures do not include the Trinity undergraduates who took one or more courses in the Graduate Program: 33 in the Christmas Term and 62 in the Trinity Term. One hundred and eighty-four were candidates for the master's degree; 70 had their master's application pending; while 3 had received their master's degree from Trinity.

In 1960-1961, 549 different students were enrolled in the Program of Graduate Studies—437 in the Christmas Term and 337 in the Trinity Term.

The Summer Session

The 1962 Summer Session enrollment was 617 (512 the first term and 356 the second). This figure does not include 16 Reading Clinic students. The over-all registration was seven per cent above 1961, when 574 students were enrolled (461 the first term and 325 the second). Two hundred and seven were graduate students, 110 of whom were candidates for the master's degree. The graduate enrollment increased six per cent over 1961, when the number was 195. One hundred and three Trinity undergraduates were registered as compared with 105 in 1961. Two hundred and two non-Trinity undergraduates in the 1962 Summer Session are studying at 105 different colleges and universities. One hundred and seven were in the Transition to College Plan as compared with 88 in 1961 and 47 in 1960.

SCHOLARSHIP

The academic average for the College continues to rise, it having been 77.5 for 1961-1962, as compared with 76.8 in 1960-1961, and 76.3 in 1959-1960. The freshman class maintained an average of 75.4, as against 74.6 a year ago, and 74.5 in 1959-1960. The average for upperclassmen was 78.2, as compared with 77.6 in 1960-1961, and 77.0 two years ago. The average for resident students was 77.3; non-resident students 78.4; married students 79.6; single students 77.4; members of fraternities 78.1; and independents (including the Brownell Club 82.25) 77.0.

One hundred and twenty-five and 152 in February and June respectively earned Dean's List averages. The corresponding figures in 1960-1961 were 117 and 144; in 1959-1960, 119 and 132.

During the year 51 students (27 freshmen and 24 upperclassmen) were placed on probation, as compared with 109 (46 freshmen and 63 upperclassmen) in 1960-1961; and 124 (54 freshmen and 70 upperclassmen) in 1959-1960. In addition, 22 students (4 freshmen and 18 upperclassmen) were required to withdraw from college. The comparable figures in 1960-1961 were 27 students (3 freshmen and 24 upperclassmen); in 1959-1960, 42 students (13 freshmen and 29 upperclassmen). The marked improvement in this regard is highly commendable.

Eighteen members of the Class of 1962 were elected to membership in the Connecticut Beta of Phi Beta Kappa.

The following 24 members of the Class of 1962 received honors in scholarship: David Forrest Gates, Valedictorian, in General Scholarship and Economics; David Edwards Wilson, Salutatorian, in General Scholarship and Classics; Paul Bernard Ascher, in Government; George Browne, in History; Steven James Cool, in Psychology;

David Forrest Gates, '62

Jerry Bruce Gough, in History; Ross David Hall, in German; John William Kapouch, Jr., Economics; Henry DuBois Kisor, in English; Paul Joseph LaRocca, in English and History; Nathaniel Larrabee II, in Fine Arts; Hin-Seak Leng, in Government; Boris Michael Luts, in German; Robert Charles McNally, in Psychology; Roger Edwin Nelson, in History; Kevin Lawrence O'Brien, in Government; William Mecklenburg Polk, in History and Religion; Louis Anthony Renza, in English; Harrison Crawford Stetler, in Chemistry; James Ross Sweeney, in History; Ilhi Synn, in German; George Frederick Will, in Religion; Roger Stanley Wilson, in Biology; and Albert Zakarian, in Government.

FRATERNITY SCHOLARSHIP

During 1961-1962 the members of fraternities maintained an academic average of 78.1, as compared with 77.2 a year ago, and 76.9 in 1959-1960. This was by far the best fraternity average in many years. The fraternity record was again above the all-college average of 77.5, but just below the upperclass average of 78.2. For the twelfth consecutive year the fraternity average exceeded that of independents (including the Brownell Club 82.25). QED led the fraternities with an average of 80.86, followed by Pi Kappa Alpha 79.76; Delta Phi 79.32; Theta Xi 78.77; Phi Kappa Psi 78.67; and Alpha Chi Rho 78.20. As is indicated by the following averages, five fraternities were under the all-college average of 77.5; the upperclass average of 78.2; as well as the all-fraternity average of 78.1; Alpha Delta Phi 76.70; Sigma Nu 76.67; Delta Psi 76.56; Psi Upsilon 76.48; and Delta Kappa Epsilon 76.29.

FINANCIAL AID

During 1961-1962, 214 students received scholarships in the amount of \$181,545, the average being \$848. Twenty-six of these were Illinois Scholars for an amount of \$34,150; and 16 George F. Baker Scholars received \$16,000.

During the year 144 students had the benefit of loans amounting to \$55,750, the average being \$387. Of these 52 received \$30,600 in National Defense Student Loans; 82 Trinity loans in the amount of \$19,750; 14 Mead loans, \$5,200; and one Alumni loan for \$200.

In 1961-1962 264 students received \$49,267 in bursary employment.

ATHLETICS

The 1961-1962 athletic season was a successful one. In varsity and freshman competition the College had 86 victories, 84 defeats and two ties, 50.6 per cent. Our varsity record was 54 wins, 45 losses and one tie, 54.5 per cent; while our freshman teams won 32 games, lost 39 and tied one, 45.1 per cent. It is interesting to note that the varsity football,

soccer, basketball, swimming, baseball and track teams all did extremely well, winning 46 contests, losing 21 and tying one, for 68.6 per cent.

I note the following highlights of the athletic year. The varsity football won five games (including the ones with Williams and Wesleyan), lost two and tied one. The varsity soccer team had a six and three record. The varsity basketball team recorded eleven victories and seven losses. The varsity swimming team won seven meets and lost three. The varsity track team had an outstanding season winning all six of its meets. Markley E. Smith, '62, established a new record in the 220-yard dash. The varsity baseball team won eleven games and lost five.

Two sports operating on a club basis brought considerable credit to the College.

Fencing, under a very capable part-time coach, Mr. Kenneth Shailer, won six matches and lost two, and was victorious in a five-team New England Fencing Tournament.

Rowing, happily revived a year ago, was enthusiastically supported as an informal sport. The crew won its five dual races; placed second in the five college "Rusty Callow" regatta; and third in the twenty-one college "Dad Vail" race. Great credit goes to Mr. C. Baird Morgan, Jr., '62; Mr. John M. Meyer III, '62; as well as to the splendid and highly capable volunteer coach, Mr. Gordon Helander.

The 1962 Crew

THE AIR FORCE R.O.T.C.

At the opening of the academic year 140 students were enrolled in the Air Force R.O.T.C., 25 in the Advanced Program. At the end of the year the figures were 128 and 25 respectively. Eleven received their commissions June 9, 1961. At the commissioning exercises Lt. Col. Richard B. Olney, U.S.A.F., Professor of Air Science, delivered the address.

PLACEMENT

Two hundred and twelve members of the Class of 1962 were on the Campus during the academic year. According to the reports of the Director of Placement, Mr. John F. Butler, '33, as of August 1, 1962, 102, or 48.2 per cent, were planning to enter graduate or professional school; 7, 3.3 per cent, had applications pending; 2, nine-tenths per cent, had been accepted for graduate or professional school, but had made no decision; 43, 20.3 per cent, were employed; 50, 23.6 per cent, were in military service; 3, 1.4 per cent, were traveling; 2, nine-tenths per cent, were unemployed; and for 3, 1.4 per cent, no information was available.

John F. Butler, '33

The number going on to graduate and professional schools continues to grow. The percentage of 48.2 will increase when those currently in the military service complete their tours of duty. The corresponding figures in recent years have been: 1961, 43 per cent; 1960, 40.3 per cent; 1959, 38.2 per cent.

The Director of Placement reports that the increasing number going on to graduate and professional schools has changed the nature of Placement Office activity. Much more time is devoted to representatives of such institutions, and more of them are visiting the College. He further notes a trend commented on earlier in this report – the increasing numbers leaving at the end of their junior year to enter medical school. Seven members of the Class of 1963 have done so.

Based on current data, the following are the fields of advanced study: law 22; medicine 15; business 13; theology 12; history 6; linguistics and European languages 5; engineering 4; education 4; psychology 3; chemistry 2; English 2; fine arts 2; mathematics 2; physics 2; pre-medical studies 2; classics one; economics one; international relations one; journalism one; library study one; philosophy and political science one.

Statistics concerning those currently employed are as follows: banking 11; insurance 11; teaching 5; industry 4; merchandising 3; miscellaneous 9.

The average salary for the 1962 B.A. graduate was \$5,355 (as compared with \$5,135 a year ago, and \$5,050 in 1960); for the B.S. graduate \$6,130 (as compared with \$6,203 a year ago, and \$5,716 in 1960). The average salary for the fifth-year engineering graduate was \$7,207 (as compared with \$6,808 in 1961).

One hundred alumni contacted the Placement Office regarding employment or advanced study. Of these 50 are currently employed and three are going on to graduate or professional schools.

Students assigned to bursary employment during the year including the dining hall number 624. Their earnings amounted to \$49,267.

THE FACULTY

LEAVES OF ABSENCE 1961-1962

During the academic year sabbatical leaves were granted to four members of the faculty: Dr. Harold L. Dorwart, Seabury Professor of Mathematics and Natural Philosophy; and Professor Daniel E. Jessee, Professor of Physical Education, during the Christmas Term; and Dr. Ralph M. Williams, Professor of English; and Professor Randall W. Tucker, Associate Professor of Economics, during the Trinity Term.

In addition, Professor James A. Notopoulos, Hobart Professor of Classical Languages, was on leave for the entire year teaching at Harvard; and Dr. E. Finlay Whittlesey, Associate Professor of Mathematics, for the Trinity Term at Princeton.

LEAVES OF ABSENCE 1962-1963

During 1962-1963 sabbatical leaves have been granted to five members of the faculty: Dr. Edmond LaB. Cherbonnier, Professor of Religion, for the entire year; Dr. Gustave W. Andrian, Professor of Modern Languages; Dr. Norton Downs, Associate Professor of History; Professor George E. Nichols III, Associate Professor of Drama; and Dr. Richard Scheuch, Associate Professor of Economics, for the Trinity Term.

In addition leaves of absence for the entire year have been granted to Dr. Vernon L. Ferwerda, Associate Professor of Government; and Dr. E. Finlay Whittlesey, Associate Professor of Mathematics. Dr. Ferwerda will hold an important position on the staff of the National Council of Churches; and Dr. Whittlesey will continue his work at Princeton.

NON-RETURNING FACULTY

Nine members of the faculty will not be with us next year. I list these alphabetically: Mr. Julien L. Cagle, Instructor in Biology; Dr. Alan Cassels, Instructor in History; Dr. Martin B. Friedman, Instructor in English; Mr. John L. Glynn, Instructor in Modern Languages; Professor John V. Luce, Visiting Professor of Classical Languages; Dr. Frederick M. Stoutland, Assistant Professor of Philosophy; Major Morton R. Tracy, U.S.A.F., Associate Professor of Air Science; Dr. John F. Wild, Assistant Professor of Physics; and Dr. W. Scott Worrall, Associate Professor of Chemistry.

Mr. Norman R. Long, Instructor in Modern Languages, died early in the Christmas Term.

NEW APPOINTMENTS

I am happy to announce the appointment of nine new members of the faculty. I list them alphabetically: Captain Jack A. Birnkammer, U.S.A.F., Assistant Professor of Air Science; Dr. Donald B. Gailbraith, Instructor in Biology; Dr. James K. Heeren, Assistant Professor of Chemistry; Mr. Albert J. Howard, Jr., Assistant Professor of Physics; Mr. Edward W. Lanius, Instructor in Modern Languages; Mr. Richard T. Lee, Instructor in Philosophy; Professor Alexander A. Mackimmie, Professor of Education and Chairman of the Department; Mr. Leon I. Salomon, Instructor in Government; and Mr. Thomas E. Willey, Instructor in History.

Dr. Ralph M. Williams

PROMOTIONS

The following nine promotions effective September 1, 1962, were approved during the year: Dr. Ralph M. Williams to Professor of English; Dr. Robert A. Battis to Associate Professor of Economics; Mr. Roy A. Dath to Associate Professor of Physical Education; Dr. Hans F. Frese to Associate Professor of Modern Languages; Dr. Carl V. Hansen to Associate Professor of Modern Languages; Dr. Glenn Weaver to Associate Professor of History; Dr. Ward S. Curran, '57, to Assistant Professor of Economics; Dr. Howard DeLong to Assistant Professor of Philosophy; and Mr. Paul J. Smith to Assistant Professor of English.

ADMINISTRATION

During 1961-1962 very few changes took place in the administration of the College.

As of September 1, 1961, Mr. Sherman P. Voorhees was appointed Consultant for Development. His responsibilities largely are with the activities of the Alumni Committee on Endowment.

THE TRUSTEES

GENERAL

Four stated meetings of the Corporation - October 14, 1961, January 6, 1962, April 14, 1962, and June 8, 1962 - were all well attended.

Two Life Trustees of Trinity College were elected at the meeting on

January 6, 1962: Mr. Glover Johnson, '22, LL.D. '60, *honoris causa*; and Mr. Barclay Shaw, '35.

I have already commented on the changes in the Charter of Trinity College in regard to the Trustees elected by the Alumni. Under these changes in June of 1962, Mr. Harris K. Prior, '32, was elected an Alumni Trustee for a term of six years, and Mr. Charles T. Kingston, Jr., '34, an Alumni Trustee for a term of one year to fill the vacancy caused by the election of Mr. Barclay Shaw, '35, as a Life Trustee.

THE HON. PHILIP J. MCCOOK, '95, LL.D. '20

The Trustees at the meeting on October 14, 1961, accepted with the deepest regret the resignation, effective immediately, of the Hon. Philip J. McCook, '95, LL.D. '20, *honoris causa*, as a Life Trustee of his Alma Mater. The following resolution was adopted: "Resolved, that the resignation of Philip James McCook, after thirty-four years of service as a Trustee of Trinity College, is accepted with our admiring, indeed awe-struck recognition of what this institution has come to owe to him and to the McCook family; and the Corporation memorializes herewith for its permanent records an expression of its love and veneration for this soldier, lawyer, judge, true gentleman and dear friend."

At the meeting on April 14, 1962, Judge McCook was elected a Trustee Emeritus of Trinity College.

The Hon. Philip J. McCook, '95,
LL.D. '20

Harmon T. Barber, '19

HARMON T. BARBER, '19

In June of 1962 Mr. Harmon T. Barber, '19, completed two three-year terms as an Alumni Trustee of his Alma Mater. At the meeting of the Corporation on June 8, 1962, the following tribute was adopted:

"Whereas Harmon Tyler Barber, B.S. 1919, has completed the conventional two terms of service as a representative of the Alumni in the membership of this Board, be it Resolved that the Trustees of Trinity College take formal recognition of the substantial and valuable contribution which the College has gained through the unfailing devotion, the unswerving loyalty, the assiduous activity, the wise counsel of Harmon Tyler Barber, and that this expression of our acknowledgement and appreciation be inscribed in the proceedings of this Corporation."

GLOVER JOHNSON, '22, LL.D. '60

Mr. Glover Johnson, '22, LL.D. '60, *honoris causa*, for the past two years President of the Trinity College Alumni Association, is a senior member of the firm of White and Case of New York. A past president of the New York Alumni Association, a Senior Fellow of the College, he was awarded in 1960 the degree of Doctor of Laws, *honoris causa*.

He worked his way through Trinity in three years. He is a member of the Alpha Chi chapter of Delta Kappa Epsilon. He attended the New York Law School at night and received the degree of Bachelor of Laws in 1925. Having graduated from Trinity School of New York in 1919, he has been since 1944 chairman and treasurer of the Trinity Schools of New York City and Pawling.

Mr. Johnson is the director of a number of large corporations and has been extremely active in professional and charitable organizations.

Barclay Shaw, '35

Glover Johnson, '22

BARCLAY SHAW, '35

Mr. Barclay Shaw, '35, of Chappaqua, New York, a past president of the Trinity College Alumni Association, is a partner of the law firm of Palmer, Searles, Delaney, Shaw and Pomeroy of New York City.

A member of the Beta Beta Chapter of Psi Upsilon, Mr. Shaw, received his LL.B. from Harvard in 1938. Active in legal practice in New York, he has since 1951 been a member of his present firm.

A former member of the Board of Fellows, President of the Trinity College Alumni Association from 1956-1958, chairman of Leadership Gifts for the Alumni Fund 1958-1960, in 1957 he was awarded an Alumni Medal For Excellence. Elected an Alumni Trustee in 1957, he was re-elected in 1960.

A director of several legal corporations, he has been active in political and community affairs. He was at one time commander for New York State of the Military Order of Foreign Wars.

HARRIS K. PRIOR, '32, M.A. '35

Mr. Harris K. Prior, '32, was elected an Alumni Trustee for a term of six years. A member of the Arts Center Steering Committee, he received his baccalaureate degree in 1932 and was elected to Phi Beta Kappa. He received his master's degree from Trinity in 1935. An instructor in English at his Alma Mater until 1936, he continued his teaching career at Olivet College and later at Bennett Junior College where he was Professor of Art History.

Following the war he became director of the Community Arts Program of Munson-Williams-Proctor Institute and in 1956 Director of the American Federation of Arts, a post he held until June of 1962, when he was named Director of the Memorial Art Gallery of the University of Rochester. He received the degree of Doctor of Fine Arts, *honoris causa*, in 1959 from California College of Arts and Crafts.

Harris K. Prior, '32, M.A. '35

Charles T. Kingston, Jr., '34

CHARLES T. KINGSTON, JR., '34

Mr. Charles T. Kingston, Jr., '34, of Charles T. Kingston & Associates of Hartford, was elected an Alumni Trustee for a term of one year.

Mr. Kingston, who has been in the insurance profession since his

graduation, has qualified annually since 1952 for the Million Dollar Roundtable of the National Association of Life Underwriters. A very active alumnus, he has served on the Executive Committee for three terms; was President of the Trinity College Alumni Association 1958-1960; has been active in alumni fund drives, in the Program of Progress, and is a member of the Mathematics-Physics Building steering committee. In 1959 he received the coveted Eigenbrodt Trophy.

An outstanding athlete while at Trinity, in 1958 Mr. Kingston was the recipient of the Sports Illustrated Silver Anniversary All-America Award. Since 1960 he has served as president and treasurer of the Sports Illustrated Silver Anniversary Foundation.

THE ALUMNI

GENERAL

The College once more expresses its lasting gratitude to the alumni for the loyal and constructive support which they continue to give Alma Mater. We salute Mr. Glover Johnson, '22, LL.D. '60, President of the Trinity College Alumni Association, for the splendid leadership which he has provided; as well as the other officers and directors of the Association.

AREA ALUMNI ASSOCIATIONS

During the year due to the leadership and planning of Mr. John A. Mason, '34, Alumni Secretary, new area associations were established in Cincinnati, Los Angeles and California.

The President had the pleasure and the privilege of visiting the following area alumni associations: Baltimore, Boston, Cleveland, Detroit, Fairfield, New York, Pittsburgh, Washington and Western Connecticut.

ALUMNI STATISTICS

The Alumni Office has compiled as of July 15, 1962, the following statistics in regard to the alumni of Trinity College. The living, active alumni from 1889 to 1961 are: B.A. graduates 2,841; B.S. graduates 2,242; B.L. graduates 3; M.A. graduates (non-Trinity) 609; M.S. graduates (non-Trinity) 48; V-12 graduates 107; non-graduates (through the Class of 1962) 1,881; non-graduates (through the Class of 1964) 96; Honorary (non-Trinity Alumni) 135. The total active alumni thus numbers 7,962. In addition, 669 alumni have been removed from the mailing list and 260 are classified as Special, having taken just one course, etc. Thus, as of July 15, 1962, the total living alumni numbered 8,891.

The Alumni Office reports that the deceased alumni as of July 15, 1962, total 3,740.

The grand total of Trinity Alumni in our 139 years numbers 12,631.

THE BOARD OF FELLOWS

The following alumni were elected by the Trustees to be Senior Fellows: the Hon. John P. Cotter, '33; and Mr. William K. Paynter, '37. They succeed Mr. Wilson Haight, '37; and Mr. Glover Johnson, '22, who have served extremely well.

The alumni have elected as Junior Fellows: Mr. John E. Friday, Jr., '51; and Dr. Theodore D. Lockwood, '48. We pay tribute to Mr. Matthew T. Birmingham, Jr., '42; and Mr. Stewart M. Ogilvy, '36, whose terms have expired and who rendered such fine service.

THE PARENTS

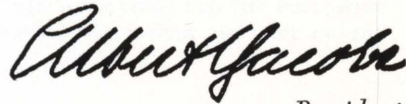

I wish to take this opportunity once more to express how lastingly grateful we are to the members of the Trinity College Parents Association for the magnificent support, financial and otherwise, which they so generously provide. The parents continue to be a tremendous factor in the growth and development of the College. To Mr. Joseph V. Getlin, during 1961-1962 the very able President of the Trinity College Parents Association; to the other officers and directors; and to all parents who have taken such an active and constructive interest, the College expresses its heartfelt thanks.

I have already commented on the outstanding success of our 1961-1962 Parents Fund. We express our warmest appreciation to Mr. Clarence U. Carruth, Jr., National Chairman, the regional chairmen and all the parents who so generously contributed.

CONCLUSION

I am confident that Trinity stands at the crossroads of unlimited opportunity; that in the years ahead the College will grow in strength and in service.

Respectfully submitted,

President

PRIVATE COLLEGES COULD NOT LONG ENDURE *without the support of their sons and friends. Indeed, Trinity College is a living memorial to men and women who bequeathed their worldly goods to planting the seeds of freedom and knowledge in successive generations of young men. For the assistance of alumni and friends who desire to provide by will or deed for gifts to the College, the following forms are suggested:*

(Gift for General Purposes)

I GIVE, DEVISE AND BEQUEATH TO TRUSTEES OF TRINITY COLLEGE, A CORPORATION EXISTING UNDER AND BY VIRTUE OF A SPECIAL ACT OF THE GENERAL ASSEMBLY OF THE STATE OF CONNECTICUT AND LOCATED IN THE CITY AND COUNTY OF HARTFORD, STATE OF CONNECTICUT,
..... DOLLARS (OR OTHERWISE DESCRIBE THE GIFT) TO BE USED (*or*, THE INCOME TO BE USED) AT THE DISCRETION OF THE CORPORATION.

(Gift for Specified Purposes)

I GIVE, DEVISE AND BEQUEATH TO TRUSTEES OF TRINITY COLLEGE, A CORPORATION EXISTING UNDER AND BY VIRTUE OF A SPECIAL ACT OF THE GENERAL ASSEMBLY OF THE STATE OF CONNECTICUT AND LOCATED IN THE CITY AND COUNTY OF HARTFORD, STATE OF CONNECTICUT,
..... DOLLARS (OR OTHERWISE DESCRIBE THE GIFT) TO BE USED (*or*, THE INCOME TO BE USED) FOR THE FOLLOWING PURPOSES: (HERE SPECIFY THE PURPOSES FOR WHICH THE GIFT OR THE INCOME THEREFROM IS TO BE USED.

It is desirable that the College be given considerable latitude in the use of any gift so that a change of circumstances will not impair the usefulness of the gift.

In order to insure compliance with all requirements of the law of the state in which the donor resides, it is recommended that the will or deed be prepared and its execution supervised by a lawyer. The Treasurer of the College will be glad to collaborate in the drafting of language appropriate to carry out the desires of the donor.
