Unimaginable to the Imaginable

From the Arab Spring to the American Fall, the fruits of RESISTance are in season

By Saif Rahman

Though it’s small, doesn’t have that many windows and is only on the second floor—the best view in all of the United States might be from the RESIST office.

You see, sometimes the view is better from the ground. Watching 2011 unfold through the eyes of the activists and organizers across this country that RESIST supports has been nothing short of phenomenal. They are the ones who year after year are imbedded on the front lines. They are the ones fighting every single day for social, political, economic and ecological justice in this country. And we here at RESIST have been fortunate enough to have a front row seat to witness this movement bloom.

Grassroots groups are the ones who planted the seeds for the moment in history that we now find ourselves in. Without them, none of this would have been possible.

45 years ago RESIST was founded in the midst of another major political shift in this country. In 1967 a few men and women came together with a bold idea: to put out an open call to resist the Vietnam War and to support those who refused to fight in it. 20,000 people eventually joined the likes of Noam Chomsky, William Sloan Coffin, Howard Zinn and Marcus Raskin and signed the now famous “A Call To Resist Illegitimate Authority.”

Four and a half decades later, RESIST is still here, though the breadth and depth of our work has gotten a bit wider and deeper. The first Newsletter of the year traditionally recaps our year in grant-making. It’s the one issue where every grantee is listed, with a brief description of their work. On paper, this is a collage of grassroots groups whose issues and work overlap at the edges. But from our window at RESIST, we know it is actually much, much more.

The groups listed on these pages are a community—a community of activists, agitators, educators, protesters, organizers and resisters who not only believe another world is possible, but are the ones actively building it.

The revolution can be funded

While the grant-making of most foundations has dwindled or has remained stagnant the past few years, RESIST has been able to exceed our fundraising goals. And unlike other foundations that have endowments or massively invest in the market, we believe that the money we raise should go directly to grassroots groups.

We are proud to say that this past year we broke many of our own records. We allocated more money than ever before, $342,935 to 130 grassroots organizations. This comes after we were able to increase our maximum grant amount by 30% last year.

These groups were spread out in 35 different states across the country (see chart on page 10 for geographic distribution) and with continued support, we are on course to support groups in all 50 states in the next few years.

The reason for this success is simple: the groups that we fund are some of the best in the country and our donors and supporters

know this.
They know in an ever changing world, there are fundamental beliefs which will always stay consistent at RESIST. We fund groups that most other foundations won’t. While most funders tend not to touch organizations whose politics and activities fall outside of what they deem “acceptable”, RESIST just does just the opposite. We fund organizations who aim for systemic change and utilize a variety of tactics, from popular education to non-violent civil disobedience.

Other foundations also tend to fund organizations who have a minimum budget, while RESIST looks at it the other way and funds truly grassroots organizations that have a maximum budget of $150,000. In addition, grant-makers have tended to concentrate their support to cities on the coasts, where RESIST aims to fund dynamic groups all over the country, from the smallest towns in middle America to ones in urban centers.

Special grants
Every year RESIST has the privilege to connect a few of our current grantees to the history and legacy of special organizers and activists who have Tribute and Memorial Grants named in their honor.
The Ed Baker Memorial Fund honors the work of the law professor and civil rights activist C. Edwin Baker. Ed was committed to the belief that the values of individual liberty, equality, and non-coercive freedom of expression are essential to real democracy. He was an opponent of the concentration of media control and the loss of investigative reporting. This year the grant went to The People’s Press Project in Moorhead, Minnesota for their work addressing media justice issues in rural North Dakota and Minnesota.
The Arthur Raymond Cohen Memorial Grant is given to groups who support many of the issues that Arthur was committed to: the opposition to the arms race and US intervention abroad, support for civil liberties and the struggle for workers’ rights. Kansas City Peace Planters Project epitomizes these convictions by working to end the production of nuclear weapons in Kansas City and fighting for justice for plant workers who have endured the consequences of having these production sites in their communities.
The Ken Hale Tribute Grant is dedicated to one of RESIST’s founders who was also one of the world’s foremost linguists and activists for justice. This grant is given to support organizations that ensure that the voices of those most affected are given primacy in the struggle to protect and expand civil, cultural and political rights, with a high priority given to the efforts of indigenous peoples. This year, Missouri Immigrant and Refugee Advocates was awarded this grant for their working organizing and advocating for the basic rights of all immigrants.
The Leslie D’Cora Holmes Memorial Fund supports organizations that embody the characteristics, values, and principles continued on page three

that reflect the spirit-filled mission of Leslie D’Cora Holmes, including: self-determination through education and community organizing; harmonization of diverse communities of interest; actualization and recognition of individual potential; courage of conviction; and pride in culture, community and self. 9to5 Los Angeles was selected for their work on economic justice for women through advocacy, public education, leadership development and direct action campaigns.

The Sharon Kurtz Memorial Fund is committed to building a movement for justice in the workplace by addressing race, class and gender in the fight for workers’ rights. Recipient Workers Dignity Project does just this by empowering and organizing low-wage worker in Nashville, Tennessee to act collectively for economic justice.

The Mike Riegel Tribute Grant is given in memory of the life and work of local Boston activist Mike Riegel. Mike was a supporter of prisoners’ rights and gay and lesbian liberation. This grant went to Alabama Women’s Resource Network who has been fighting to reduce the women’s prison population in Alabama and to criminal justice system reform.

The Freda Friedman Salzman Memorial Fund supports “organized resistance to the institutions and practices that rob people of their dignity as full human beings” and was given to the Crawford Stewardship Project to monitor the impact of factory hog farms on the health, environment and economy of local communities in a rural area of Wisconsin.

We can win

Just like 2011, this year undoubtedly will present its share of challenges. But when one watches videos from Tahrir Square, sees pictures from various Occupy encampments, or reads stories from the pages of the Newsletter, one can’t help to think that maybe, just maybe, we are winning.

Thanks to this community of activists we forge ahead into 2012 with unprecedented momentum. We know the rights of immigrants, workers, women, indigenous peoples and people of color will continue to come under attack. The trickle up economy, environmental destruction and the drumbeat of war are not going away without resistance, organizing and imagination.

Amidst all of this, the Newsletter will continue to share our window to the world through the stories of our grantees who are building a better world from the ground up. And after 45 years of this view, one thing is clear—if we aren’t winning, we can win.

Cesar Chavez said it best, “Once social change begins, it cannot be reversed. You cannot uneducate the person who has learned to read. You cannot humiliate the person who feels pride. You cannot oppress the people who are not afraid anymore. We have seen the future, and the future is ours.”

Sustaining RESISTance

“We are honored to list RESIST as a beneficiary to our developmentally disabled daughter’s special needs trust fund. We have followed RESIST literally since its inception and have worked with numerous peace and justice organizations that have received grants from RESIST. We have sought to raise our daughter to identify with and support struggles for peace, justice and solidarity and she has participated in innumerable demonstrations and other activities in support of these struggles.

As we plan for the future, we can think of no better legacy for ourselves and for our daughter than to leave a major part of our family’s assets to RESIST. It brings us great satisfaction to know that our family will continue to support peace, justice and solidarity after we are gone.”

-Andy Berman and Terry Burke, St Louis Park, Minnesota

There are a variety of ways to support RESIST. For more information on making a tax-deductible contribution, donating stocks or securities, including a bequest in a will or life insurance policy, or designating RESIST as a beneficiary of an IRA or pension plan, contact RESIST’s Director of Development Ravi Khanna at ravi@resistinc.org or 617-623-5110.

What We Do: RESIST Grant Program

Since its founding in 1967, RESIST has awarded thousands of timely grants to radical and progressive organizations working for social justice.

General Support Grants
To help organizations build infrastructure and capacity while engaged in ongoing social justice organizing, RESIST grants provide general (rather than program-specific) support. RESIST believes that general support grants allow groups to focus on strengthening their movement-building and cross-issue organizing capacity. Project funding sometimes causes organizations to jump through hoops to appeal to funders. General support enables groups to carry out their missions and respond to new opportunities and they also help to level the power imbalance between funders and grantees.

Multi-year Grants
Grantees who have been funded by RESIST at least two times during the preceding five years may apply for three-year general support grants. This allows groups to focus on longer term organizing while knowing that have a commitment to their work from RESIST.

Technical Assistance Grants
Many groups that apply to RESIST for funding also need other forms of assistance. Groups often require technical assistance to help with the nuts and bolts of starting, maintaining, and developing progressive organizations.

In keeping with RESIST's goal of building movement infrastructure and capacity, RESIST awards up to $500 to enable existing grantees to participate in technical assistance opportunities such as board and staff development, fundraising, fiscal management, computer and software training, internet activism, travel to activist gatherings and strategic planning.

These funds are available for grantees who have been funded at least twice within the last five years. Funds are available quarterly and are dispersed on a first-come, first-served basis.

Emergency Grants
Emergency Grants of up to $500 are designed to help groups respond quickly to unexpected organizing needs stemming from a political crisis.

Accessibility Grants
To support projects that enable all people to participate in movements for social justice, RESIST will fund the additional costs of projects or events which will make them accessible to people with disabilities (e.g. signers for events or wheelchair accessible venues) for amounts up to $3,000.

Funding Resources
RESIST has compiled funding resources for grassroots organizers on our website: www.resistinc.org/resources

Support grassroots social justice organizing today.

Your contribution to RESIST supports hundreds of progressive groups across the country. Please send what you can, as often as you can. The groups we fund count on us, and we count on you.
