REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books:

GREEK.
Hadley's or Goodwin's Grammar, including Prosody.
Xenophon: Anabasis, Books I.-V.
Homer: Iliad, Books I. and II. (omitting the Catalogue of the Ships).
Arnold's Prose Composition, to § 12.
Sewell's or Smith's Smaller History of Greece.

LATIN.
Allen and Greenough's Grammar.
Caesar: Commentaries, Books I.-VI.
Virgil: Aeneid, Books I.-VI.; Georgics, Book I.; and the Eclogues.
Cicero: the Orations against Catiline, on the Manilian Law, for the Poet Archias, and for Marcellus.
Arnold's Prose Composition, Chapters I.-XII.
The Roman History in Worcester's Elements of History.
Ancient Geography.

MATHEMATICS.
Arithmetic.
Algebra, through Quadratic Equations (Loomis's Treatise).
Plane Geometry, Books I.-IV. (Loomis).

ENGLISH.
English Grammar, including Orthography.
Modern Geography.

Instead of any of the text-books mentioned above, others, if fully equivalent, may be substituted at the time of examination. The examinations are chiefly in writing.
No candidate can be admitted to the Freshman Class before he has completed his fifteenth year.

Candidates for admission to any of the higher classes, whether from other Colleges or not, must sustain, besides the examination for admission to College, a further examination on the studies already pursued by the class which they propose to enter.

Candidates for admission as Students in Special Courses are examined on such parts of the above-mentioned requirements as belong to the departments in which they desire to be admitted.

All candidates for admission must bring testimonials of good moral character; and those who are from other Colleges must produce certificates of dismissal in good standing. These testimonials and certificates must be presented at the time of the Examinations.

**DATES OF EXAMINATIONS.**

The regular Examinations for admission are held in the Cabinet in Seabury Hall, on the Monday and Tuesday preceding Commencement-Day (in 1878, June 24th and 25th), beginning at 2 o'clock p.m. on Monday.

Examinations for admission are held, also, on the Tuesday and Wednesday before the beginning of Christmas Term (in 1878, September 10th and 11th), beginning at 2 o'clock p.m. on Tuesday.

Candidates will present themselves at the hour specified for the beginning of the Examinations. The order of the Examinations will be as follows:

June 24th and September 10th,
2 p.m., Mathematics.

June 25th and September 11th,
8½ a.m., Latin;
11½ a.m., English;
2 p.m., Greek.

The papers which were used at the first Examinations in 1877 are printed at page 44 of this Catalogue.

RELIGIOUS SERVICES AND INSTRUCTION.

The students attend daily Morning and Evening Prayers in the College Chapel. On Wednesday and Saturday evenings the attendance is voluntary.

On Sunday, the Holy Communion is administered in the Chapel at 8 o'clock A.M., attendance being voluntary. The students attend the Morning Service at such church in the city as their parents or guardians designate. At 4½ o'clock P.M., Evening Prayer is said in the Chapel, followed by a sermon; and all students are required to be present.

The President, who is the Pastor of the College, discharges the duties of Chaplain, in which he is assisted by the other clerical members of the Faculty. Voluntary services are held at special times, in connection with the pastoral work in the College.

The Monday morning recitation is devoted to religious studies. These comprise, during the College course, the following subjects: History of the Holy Scriptures; critical readings of the New Testament in Greek; Natural Theology; the Evidences of Christianity; the Articles of the Christian Faith as contained in the Apostles' Creed; and the Book of Common Prayer.

STUDENTS IN SPECIAL COURSES;

AND THE DEGREE OF BACHELOR OF SCIENCE.

The Statutes provide that Students who do not propose to attend the whole Course of Instruction may be permitted, under the name of Students in Special Courses, to recite with the regular classes in such studies, always including Latin, as, upon examination, they shall be found qualified to pursue. They are examined for admission to the College on such parts of the regular requirements as belong to the departments in which they propose to enter (see page 19); are subject to the same rules and enjoy the same privileges as the regular students; and, on leaving with an honorable discharge, are entitled to a certificate from the President, stating the time they have been members of the College, and the studies pursued during that time; or, provided they complete the course prescribed for that purpose, they may receive the degree of Bachelor of Science.
The degree of Bachelor of Science will be conferred upon those students who complete the regular course of study in all the departments except the Greek, and also sustain a special examination in one of the following courses, viz.: Differential and Integral Calculus; Practical Astronomy; Natural History, Mineralogy, and Geology.

Any student completing the course prescribed for the degree of Bachelor of Arts may receive the further degree of Bachelor of Science upon passing a special examination in the work of the Mathematical and Scientific departments and a further examination in one of the special courses above mentioned. Notice of intention to apply for this degree must be given in writing to the Secretary of the Faculty at the opening of the Christmas Term in Senior Year.

EXAMINATIONS FOR DEGREES AND FOR HONORS.

Examinations are held on the studies of Christmas Term at the discretion of the Faculty.

The Annual Examinations are held at the end of Trinity Term upon all the studies of the year, and are partly oral and partly written. The final Examinations of the Seniors for degrees begin on June 5, 1878; and the Junior, Sophomore, and Freshman Examinations begin on the 13th of June.

Examinations for Honors follow the Annual Examinations. Admission to these can only be gained by securing a high average mark at the daily recitations, and by passing the Annual Examinations with great credit. Success in the Examinations for Honors entitles a student to peculiar distinctions both during and after his College course.

If a student succeeds in passing any Examination for Honors, his name is publicly announced as having passed cum honore. At the end of the College course, if a student has passed all the Examinations for Honors in one or more departments, it is publicly stated in conferring his degree, that he is graduated cum honore; and the names of the graduating class are printed in the next annual catalogue in the following manner: first, the names of those students who have been graduated cum honore, with a statement of the departments in which they have obtained honor; then the names of the others in alphabetical order. A student who passes all the
Examinations *cum honore* in all the departments, is graduated with the title of *Optimus*.

The Secretary of the Faculty will furnish copies of the Examination papers to Teachers or others who may desire them.

**MATRICULATION.**

Extracts from the College Statutes.

**Sec. 1.** Matriculation shall consist in signing, in the presence of the President, Faculty, and others, the following promise:

"I promise to observe the statutes, lawful usages, and customs of Trinity College; and to maintain and defend her rights, privileges, and immunities, at all times and in all places, according to my station and duties in the same."

**Sec. 2.** All non-matriculated persons are considered as on probation, and therefore not entitled to the full privilege of members of the Institution. Upon giving evidence of good character, they are admitted to matriculation at the close of the term in which they have entered. Unless they are allowed to matriculate as early as at the end of the second term of their course, they cease to be students of the College.

The regular matriculation will be held on the 19th of December, 1877.

---

**STANDING AND APPOINTMENTS.**

The standing of a student is reckoned from the beginning of the Freshman year, and is determined by his diligence in study, his punctuality in attendance, and his general good conduct.

At the close of each term, a report of the scholarship, attendance, and conduct of each student is transmitted to his parent or guardian.

The aggregate standing attained by each member of a class is published at the beginning of the second term in Junior year and at the end of Senior year. When a student has entered College after the beginning of Freshman year and before the beginning of the second term in Junior year, his standing for the term or terms during which he was absent is considered to have the same proportion to the maximum as that which he gains while in residence up
to the time of the first publication of his aggregate standing, and, having been once published, is not recomputed. The back standing of a student entering later in the course is computed in the same manner, with a deduction of five per cent.

All the students in any class the aggregate of whose marks for the entire course is to the maximum attainable in the ratio of at least $\frac{7}{4}$ to 10, receive appointments for Commencement; and their names are printed as receiving such appointments on the Commencement programme.

The first seven appointments to speak at Commencement are given according to the aggregate of marks in the entire College course. The Faculty may appoint three other speakers for Commencement; but no student can receive any such appointment unless his standing in Mental Philosophy, in Butler's Analogy, and in the Theme Writing of the course is at least $\frac{7}{4}$ on a scale of 10, and unless the mark of his Graduating Oration is at least 9 on a scale of 10.

No appointment is ordinarily assigned to any student who has entered College at or after the beginning of Senior year.

TERMS AND VACATIONS.

There are two terms in the Academic year. Christmas Term begins about the middle of September. Trinity Term begins early in January, and closes with Commencement. Commencement-Day in 1878 is the twenty-seventh day of June.

Christmas Vacation continues two or three weeks. Trinity Vacation continues eleven weeks from Commencement. There is also a recess in the Spring.

LIBRARY.

The Library contains about 18,500 volumes, exclusive of pamphlets, unbound volumes, and duplicates, and is increasing from the income of the Bishop Burgess, Elton, Sheffield, Peters, and Athenæum Funds, amounting in all to $26,000. The Alumni Library Fund now amounts to about $4,000, making the aggregate of the Library Funds $30,000.

Donations to these funds, and gifts of books, pamphlets, engravings, and portraits, are earnestly solicited from the Alumni and from other friends.
The Reading-room is under the charge of a committee of the students.

The students have free access daily to the Watkinson Library, a valuable collection of books for reference, containing about 30,000 volumes; and there are other excellent libraries in the city.

---

CABINET.

The Cabinet possesses valuable collections of Minerals, Fossils, and Shells. But in view of their early removal to a handsome and commodious room in the new buildings, an increase of these collections is eminently desirable; and a continuance of the valuable donations, by which in former years the Cabinet has been enriched through the generosity of students and friends, is strongly urged. Additions to the Natural History collection, especially mounted skeletons illustrative of the various orders of the Mammalia and casts of extinct Geological animals, are much needed. It is the intention of the College to make the Cabinet complete as soon as possible, and the Alumni are asked to give their active cooperation in carrying out this design.

No estimate is given of the cost of text-books or of furniture; if they are sold when the student has no further need of them, the expense will be greatly diminished.

Students can be provided to some extent with text-books, by means of a lending library established for that purpose, which is under the charge of the Professor of Latin.

The College Bills are due at the beginning of each term, and must be settled at the Treasurer's Office, No. 4 Seabury Hall, immediately on the arrival of the student; if not so paid, an additional charge of five per cent. is made for each term's delay. All checks and drafts should be made payable to the order of C. E. Graves, Treasurer.

By a recent vote of the Trustees, the Treasurer, with the approval of the President, is authorized to exclude from recitations students neglecting to pay their College bills when due.

Some changes will probably be made in the amount and items of the College bills at the time of the removal to the new Buildings.

Tuition is in some cases remitted to necessitous students. In order to secure this remission, written application, stating the reasons for asking it, should be made by the parent or guardian, at or before the beginning of the term in which the student intends to enter.

A large increase in the number of Scholarships, the income of which may be applied to the remission of Tuition, is very much needed, and is urgently solicited from the friends of the College.

Students admitted to advanced classes, except those from other Colleges, are required to pay $12 for each term of their advancement. This charge is remitted to indigent students.

No student can receive his degree or an honorable dismissal until the Treasurer certifies that all his College bills are paid, and that, so far as the Treasurer knows, there are no lawful claims upon him for board or washing which he has failed to satisfy.

PRIZE VERSION DECLAMATIONS.

A Prize will be awarded on the following conditions:
There must be six competitors; two from the Senior, two
from the Junior, and two from the Sophomore Class. The two
members of each class whose rank is highest in the studies of the
preceding year in the department of English and Rhetoric will be
appointed the competitors. Passages from Greek or Latin authors,
distributed by lot, and then translated into English and submitted
to the Professor of Greek or Latin and the Professor of English,
will be pronounced in public on the 23d of May, 1878, in the pres­
ence of a committee of award on the delivery. The merits of the
version as a translation and as an English composition, together
with the merits of the delivery as a declamation, shall have equal
weight in determining the award of the Prize.

The Prize-man of the year, if he be still a member of the
College, will consider himself under obligation to pronounce an
original version at the Prize Declamations of the following year, without being a candidate for the Prize.

PRIZE-MEN.

1877. Charles Carroll Edmunds, Jr.
1878. Edward Mansfield Scudder.

JACKSON PHILOSOPHICAL PRIZE.

A PHILOSOPHICAL PRIZE OF SEVENTY DOLLARS was established in 1875 in commemoration of the late President Jackson, and in accordance with his wishes. It is offered to that member of the Class of 1878 who shall write the best essay on "American Contributions to Intellectual Philosophy." The essays must be submitted to the President on or before the 8th of May, 1878. No award will be made except for distinguished excellence.

PRIZE-MEN.

1876. Isaac Hiester. 1877. William Gwinn Mather.
1878. Edward K. Tullidge (Second Prize).

ENGLISH LITERATURE PRIZE.

A PRIZE OF SIXTY-FIVE DOLLARS is offered to the next Senior Class for the best examination in English Literature from the earliest times to the present day, with special reference, for the Class of 1879, to the writings of the Era of the Reformation. There must be at least five competitors. The examination, which will be held on the second Friday and Saturday of November, 1878, will be in writing, and the questions proposed will not be confined to any text-book. The Professor of English and Rhetoric, the Professor of Latin, and a third person, not a member of the Faculty, to be selected by them, will be a committee to hold the examination and award the prize.

The special subjects of examination for the following classes will be:
For the Class of 1880, *The Poetry of the Elizabethan Era.*
For the Class of 1881, *The Prose of the Reign of Queen Anne.*
For the Class of 1882, *The Poetry of the Nineteenth Century.*
For the Class of 1883, *The Theological Writings of the Seventeenth Century.*

---

**LATIN PRIZE.**

A Prize of twenty-five dollars will be awarded to that member of the Junior Class who shall write the best Latin version of the sixteenth chapter of Johnson's *Rasselas.* There must be three competitors. The translations are to be submitted to the Professor of Latin on or before the 7th of May, 1878.

---

**PASCAL-FÉNELON PRIZE.**

This Prize, established in 1876 in memory of the late President of the College, is of the value of twenty dollars, in books. It will be awarded to that member of the Class of 1880 who shall sustain the best examination in Pascal's *Pensees.* The examination will be held by the Professor of Modern Languages on the 14th of May, 1878.

---

**GREEK PRIZE.**

A Prize of twenty-five dollars will be awarded to that member of the Sophomore Class who shall sustain the best examination in the *Birds* of Aristophanes. There must be at least three competitors. The examination will be held on the 9th of May, 1878.

---

**MATHEMATICAL PRIZES.**

A Prize of twenty dollars will be awarded to that member of the Freshman Class who shall sustain the best examination in the solution of Algebraic Problems. The examination will be held on the 8th of December, 1877.

A Prize of twenty dollars will be awarded to that member of the same class who shall sustain the best examination in Chauvenet's *Modern Geometry.* The examination will be held on the 10th of May, 1878.
ORATORICAL PRIZES.

THE STUDENTS offer two Medals as prizes for excellence in writing and pronouncing English Orations. Two members of each of the three upper classes, selected after competition, will deliver their orations in public on the 13th of December, 1876, in the presence of a committee of award. A gold medal will be awarded as the first prize, and a silver medal as the second prize.

8. What four islands compose the empire of Japan? Name its capital; one other city; two products; the form of government. In what latitude is Japan situated?
SCHOLARSHIPS.

The following Scholarships were founded "for the benefit of young men in indigent circumstances, communicants of the Protestant Episcopal Church."

SCOVILL SCHOLARSHIP, founded by William H. Scovill, Esq., of Waterbury.

SCOVILL SCHOLARSHIP, founded by J. M. L. Scovill, Esq., of Waterbury.

ELTON SCHOLARSHIP, founded by John P. Elton, Esq., of Waterbury.

St. John's, Waterbury, Scholarship, founded by Parishioners of St. John's Church, Waterbury.

TRINITY CHURCH, NEW HAVEN, SCHOLARSHIP, founded by Parishioners of Trinity Church, New Haven.

St. Paul's, NEW HAVEN, SCHOLARSHIP, founded by Parishioners of St. Paul's Church, New Haven.

LAKE SCHOLARSHIP, founded by Benjamin T. Lake, Esq., of Bethlem.

St. James's, NEW LONDON, SCHOLARSHIP, founded by Parishioners of St. James's Church, New London.

SHELTON AND SANFORD SCHOLARSHIP, founded by Shelton and Sanford families, of Derby.

MORGAN SCHOLARSHIP, founded by the Rev. John Morgan, of Stratford.

FOWLER SCHOLARSHIP, founded by Fowler family, of Northfield.

CORNELL SCHOLARSHIP, founded by Samuel G. Cornell, Esq., of Greenwich.

St. Paul's, NORWALK, SCHOLARSHIP, founded by Parishioners of St. Paul's Church, Norwalk.

TRINITY CHURCH, PORTLAND, SCHOLARSHIP, founded by Parishioners of Trinity Church, Portland.

SHERMAN SCHOLARSHIP, founded by Sherman family, of Brookfield.

Burr Scholarship, founded by Mrs. Sarah Burr, of Hartford.

St. John's Church, HARTFORD, Scholarship, founded by Parishioners of St. John's Church, Hartford.

FIVE OTHER SCHOLARSHIPS were endowed in the same manner, by sundry subscriptions, and the nomination to these is vested in the Corporation.

TOUCEY SCHOLARSHIPS.

These are four in number, founded in 1868 by the Hon. Isaac Toucey, LL.D. They yield $300 each per annum, and are assigned, after a com-
petitive examination, to students who are studying with a view to the Holy Ministry. The founder, by making the College the trustee of another fund, has enabled it to appoint the holders of these Scholarships to Scholarships of equal value in the Berkeley Divinity School.

**SCHOLARSHIPS OF THE CHURCH SCHOLARSHIP SOCIETY.**

The Church Scholarship Society of the Diocese of Connecticut aids a few students with loans, not exceeding $100 per annum, which are granted only to persons in necessitous circumstances, preparing for Holy Orders, and sustaining a correct deportment as communicants. Applicants must be furnished with a testimonial of such qualifications, signed by a clergyman to whom they are personally known. The President of the College is President of the Executive Board of the Church Scholarship Society.

**SCHOLARSHIPS OF THE SOCIETY FOR THE INCREASE OF THE MINISTRY.**

This Society holds the Mark Warner fund, amounting to about $10,000, the income of which, under the conditions of the gift, is to be applied to young men, scholars of the Society, studying at Trinity College or the Berkeley Divinity School. The Society is also able to grant other scholarships, ranging in value from $100 to $300 per annum.

**SCHOLARSHIP OF CHRIST CHURCH, HARTFORD.**

This was founded in 1839 by J. Smyth Rogers, M.D., Professor of Chemistry. In 1845, in consideration of the subscription from the Parish for the erection of Brownell Hall, the endowment was increased. The right of nomination is vested in the Rector of Christ Church.

**SCHOLARSHIP OF ST. PAUL'S CHURCH, TROY, N. Y.**

This was founded in 1830 by members of the Parish whose name it bears. It is "for the benefit of pious and indigent young men, studying with a view to the Ministry in the Protestant Episcopal Church." The right of nomination is in-the Rector, Wardens, and Vestry of St. Paul's Church, Troy.

**HEARTT SCHOLARSHIP.**

This was founded in 1830 and endowed by Philip Heartt, Esq., of Troy. It has the same object with the preceding Scholarship. The right of nomination was vested in Mr. Heartt during his lifetime; and afterward in the Bishop of the Protestant Episcopal Church in the Diocese of Connecticut; and during any vacancy in the Episcopate, devolves on the presiding officer of the College.

**SCHOLARSHIPS OF THE SOCIETY FOR PROMOTING RELIGION AND LEARNING IN NEW YORK.**

These are eight in number, and were founded in 1843, under an arrangement with the Society. They entitle the students by whom they are held to free tuition. The right of nomination is in the Society; and, in return, the College has the right to nominate, after free competition, to three scholarships in the General Theological Seminary of the Protestant Episcopal Church, entitling the holders to two hundred dollars a year and freedom from all Seminary charges.
SCHOLARSHIPS OF TRINITY CHURCH, NEW YORK.

These are five in number, and were founded in 1834, in consideration of the sum of $5,000, granted by the vestry of Trinity Church, New York, toward the endowment of the Hobart Professorship. The students by whom they are held are exempt from all charges for "tuition, room-rent, fuel for recitation-rooms, or other general objects." The right of nomination is in the Rector, Wardens, and Vestry of Trinity Church, or their assigns, or any person by them authorized.

THOMAS BACKUS SCHOLARSHIP.

This was founded in 1837 by the Rev. Stephen Jewett, M.A., to be held "by some beneficiary designing to enter the Ministry of the Protestant Episcopal Church," and is of the value of one hundred dollars annually, for which the beneficiary is to give his obligation, payable with interest four years after he leaves the College. This scholarship yields no available income at present.

WILLIAM ALLEN MATHER SCHOLARSHIP.

This was founded in 1864, and endowed by Mrs. Jane C. Mather, of Hartford. The student by whom it is held is exempt from all charges for "tuition, room-rent, fuel for recitation-rooms, or other general objects." The right of nomination to the Scholarship is in the hands of the founder.

KIRBY SCHOLARSHIP.

This was founded in 1872, and endowed by a legacy of Miss Harriet Kirby, of Hartford. It yields $300 per annum, and is to be held by some undergraduate who is studying with a view to Holy Orders. The right of nomination is vested in the Rector of St. John's Church, Hartford; or, in case he fails to nominate, in the Corporation of the College.

BURHANS SCHOLARSHIP.

This Scholarship was founded by a bequest of the Rev. Daniel Burhans, D.D. The sum of $500 which he left to the College having accumulated by the addition of interest to $1,000, the interest on this last amount is now available in accordance with the terms of the legacy. The scholarship is to be held by "such candidate for Orders as shall be nominated from time to time by the Rector and Wardens of Christ Church, Hartford."

NOTE.—No student, incurring a serious College censure in the course of the year, will be recommended for the continuance of any scholarship.
APPENDIX.

NEW GROUNDS AND BUILDINGS.

The work upon the new College Buildings has been successfully prosecuted during the past year, and they are now nearly ready for occupation. It had been the intention to transfer the College to its new quarters in the autumn of 1877; but it has been thought prudent to defer the removal a few months, in order to finish the buildings with greater thoroughness. The removal, however, will certainly take place in the course of the present academic year.

The plan of the Buildings (see p. 56) embraces three quadrangles, that in the centre being twice the size of the other two; and it is the western side of the central quadrangle which is now in process of construction. It consists of two buildings, one of which is to be devoted to the educational work of the College, while the other is to be the residence of the students. This is the only portion of the plan which the College proposes to carry out at present. It is hoped that the larger and more expensive buildings will be erected by benefactors.

In the construction of the buildings now nearly completed, the greatest pains have been taken to adapt them to the uses for which they are designed. The recitation-rooms are large, airy, and well-lighted; and the students' apartments, it is hoped, will be found to leave nothing to be desired in point of comfort, convenience, and cheerfulness. Each suite consists of a study or sitting-room, having an open fire-place, and two bedrooms. Bath-rooms are placed in the basement of every entry, and hot and cold water is carried to every floor. Both buildings are heated by steam.

The following extracts from an article published in Scribner's Monthly for March, 1876, will give a good idea of the general design:

"The plan for the new College Buildings will, when completed, express a unity in arrangement and detail, while the structures, distinct in themselves, will be homogeneous and symmetrical parts of a single design. The quadrangles will be three in number, a "great quad" in the centre with one on either side to the north and south, the entire frontage being over thirteen hundred feet, the buildings lengthwise in the design being chiefly Dormitory and Lecture-Room blocks with connecting gate-ways, the cross lines containing, in the first section, the Library and the Museum, and in the second, the Chapel and the Dining-Hall, with intervening..."
tower. The north line of buildings will be composed of the Theatre (for Commencement and other exercises) and the Observatory in the angle tower connecting the block on the west; the southernmost line will be formed by the President's house and a block containing residences for the Professors.

The College is designed in early French Gothic, a style devoid of excessive ornamentation, and depending for its effect upon simplicity and boldness of detail, and the harmonious grouping of windows and other prominent features. The disposition of broad masses of stone is a characteristic, as well as the very pleasing introduction of objective points of emblematic sculpture. A color contrast in the material of the buildings is obtained by the use of brown-stone, cut with a rock face, for the ashlar, which is lighted up by the sandstone from Ohio, used for string-courses and for work about the doors and windows, and introduced with good taste in nearly every interior.

The erection of those buildings of most immediate importance was long ago begun, and the blocks forming the west line of the central quad­rangle have been commenced under the superintendence of Mr. F. H. Kimball, the permanent architect. These blocks are for lecture-rooms and dormitories, and between them stands one of the main gate-ways. They are each 286 feet long by 35 feet wide, and have their otherwise monoto­ nous sky-line well broken by the roofs of the central portion of the block, which, carried up four stories high, affords on its upper floors additional accommodations for students, the lower stories being occupied by apart­ments most excellently arranged for the junior Professors. The plan and the accessories of the Dormitory block are deserving of particular mention in detail, not only from an architectural point of view, but from the plain, practical, common sense which they exhibit. Each wing, 119 feet long, is virtually divided into three distinct sections or "stair-cases" by party-walls, which are carried from the foundation up through the roof and coped with stone. The advantage of this arrangement, in case of fire, is unquestioned. The wings have each three entrance-doors, opening into halls eight feet wide, and all the entrances are from the east, and, consequently, from the quadrangle. Over the doors light stone will be left in the rough to receive sculptured heads of noted poets, phi­losophers, and statesmen.

The ground or principal floor contains a suite of apartments (for the occupancy of two students) on either side of each principal hall-way, and, in the arrangement of these rooms, great attention has been paid to light and ventilation. The study looks out upon the quadrangle, and is provided with windows of ample size fitted with a swinging iron sash, something of a novelty in its way, and manufactured from a design much used abroad. The seats with which the deeply recessed windows are pro­vided will, when fitted up with cushions, add much to the interior effect, as well as to the comfort of the room. The study is 15x16 feet and of proportionate height; two bed-rooms are connected with it in the rear, and the suite thus occupying the entire width of the building, a circulation of air through the rooms can be had at all times. Ample closets, both for
clothes and for fuel, are provided, and in each study is an open fire-place, with mantel of Ohio stone. Above the ground floor are two other floors with rooms similarly planned; the second being lighted by dormer windows of stone, very effective in design. Water is brought into each floor, and on the main landings, in the halls, a sink is located. The hall-ways will be wainscoted throughout and finished in ash, this wood being also used for the finish of the rooms, except the entrance doors, which are of oak. The most ample preparations for bathing have been made in this block, the bath-rooms being located in the basement and easy of access. The wings of the building are alike. The central portion, of increased height, with its gabled roofs and symmetrically grouped windows, and its ornate dressing of stone, forms a marked feature in the design.

The gate-way between the block just mentioned and the one to the south will be the middle point of the entire line of buildings, and its foundations are already laid. It will be marked by four corner towers, and will contain an entrance-way for carriages, with smaller ones on either side for pedestrians. The several stories above are admirably planned for students' apartments, and will furnish some of the finest rooms in the whole range of buildings. Underneath the gate-way it is proposed to locate at a proper level the steam-heating apparatus.

Both in internal arrangement and external design the Lecture-Room block is eminently well adapted to the purposes of its future use, which are to provide the college with a philosophical apartment, a laboratory, a library, and recitation-rooms. The wings of the buildings are two stories in height, the ground floor being over sixteen feet high, and the one above, showing the open truss-work of the roof, twenty-one feet high. The basement will be extensively utilized for apparatus and working-rooms connected with the Laboratory, and in one of the wings the Library and Cabinet will be temporarily located, occupying the basement and ground floors. The design of this block, while in keeping with those adjoining, presents externally a different treatment, demanded by the requirements of the structure. The façades are pierced by pointed windows of effective composition, embodying in their design ample facilities for the admission of light (sometimes of the utmost importance) in great abundance to recitation-rooms and other apartments.

The main approaches to the College will connect with a boulevard one hundred feet wide extending along the front, and the principal entrance to the buildings will be at the gate-way of the great quadrangle on the east, a corresponding gate-way opposite serving as the main exit, beyond which an esplanade, effectively treated with a terrace, will be thrown out to a distance of a hundred feet. The ample tract of land set apart for the Campus will afford unusual facilities for the exercise of artistic taste and good judgment in the distribution of lawns, groves, walks, and other ornamental features of a park.”
