Evening Classes 1953-1954

The evening classes at Trinity College are particularly designed for college graduates who desire to engage in advanced study. This concentration on graduate study results from a growing community need and from the logical interest of the College in the educational, governmental, business, and industrial activities in this area. Classes are open to both men and women, and Master's degrees are awarded to both.

Trinity's new library gives graduate students the unique opportunity to combine the advantages of small classes in a small college with library facilities usually found only at large universities. The Watkinson and Trinity collections of almost 400,000 volumes are available in a single building designed to encourage

and facilitate serious study.

Any college graduate may, upon proof of his graduation, take courses for graduate credit. Submission of a transcript of previous college work is recommended as evidence of graduation. Those who desire to become candidates for the Master's degree at Trinity must meet the requirements for admission to candidacy. A statement of these requirements may be obtained from the Secretary of the Graduate Committee.

UNDERGRADUATES

A number of classes are open to undergraduates who have had some previous college training. This attendance does not constitute admission to candidacy for the Bachelor's degree at Trinity College. Undergraduates must have left their previous college in good standing. Anyone who has been required to withdraw from another college will not be admitted.

REGISTRATION

Students may register by mail on the form inserted in this catalog, or they may come to the Evening Class office. This office will be open Monday through Friday from 9:00 a.m. to 5:00 p.m. In addition, the Director will maintain office hours Monday evenings from 6:00 until 8:00 when the College is in session.

All courses are limited in size. Students will be enrolled in each course in the order in which their registration cards are received. To have a wide choice of courses a student should register as early as possible.

Students who expect to attend both terms should indicate their choice of courses for both terms. In this way students attending during the entire year will have priority in registration for second term courses. Payment of tuition may be sent with registration cards which are mailed, or may be made at the office of the Treasurer on or before the opening day of each session. For additional information, see COSTS.

It is each student's responsibility to determine his eligibility to enroll in a specific course. A student is not eligible for credit in a course for which he has not completed the prerequisites. No registration will be accepted after the second meeting of each class, nor will changes be permitted after this day.

NON-CREDIT ATTENDANCE

Persons who do not wish to receive college credit for specific courses may, with permission of the Director, audit courses. They will receive no credit and no grade, but a record of their attendance will be made. They need not always fulfill the prerequisites of the course, and are not required to take examinations. The charge will be the same as if the course were taken for credit.

Graduate students who have been accepted as candidates for the Master's degree at Trinity College and who have completed or are currently enrolled in six semester hours of graduate courses will be allowed to audit without charge a total of six semester hours of courses. This privilege is without time limit; the courses may be audited prior to or after the completion of the degree requirements. In each case, however, permission to audit must be obtained from the Secretary of the Graduate Committee.

COURSE NUMBERING

Students should understand the system of numbering courses. Undergraduates are, in general, eligible to elect courses numbered from 100 to 499. Courses numbered from 100 to 199 are at the first year level. Those from 200 to 299 are at the second year level, 300 to 399 at the third year level, and 400 to 499 at the fourth year level. Undergraduates may not register for courses numbered 500 or above. Courses with a single number (101) meet for one term and carry three or four semester hours of credit. Courses with a double number (101-102) extend through both terms and carry six or eight semester hours of credit.

All courses numbered 300 or above may be taken for graduate credit. It is the usual practice in courses of the 300 or 400 group to require graduate students to do additional work to earn graduate credit. Graduate students may register for courses in the 600 group only with the permission of their advisors.

COSTS

Tuition charges are determined on the basis of the number of courses and half courses for which the student enrolls. A course is defined as a unit of study for which either six or eight semester hours of credit are awarded. A half course carries three or four semester hours of credit. The tuition charge for a half course is sixty dollars. For a course the charge is one hundred and twenty dollars. Graduate students should note the statement pertaining to them under heading "Non-Credit Attendance".

Tuition charges must be paid at the office of the Treasurer on or before the opening day of each semester. This payment of tuition charges is the student's responsibility; no bills will be sent. Each student will fill out at registration a double card. Half of this card is to be used for course registration; the other half will bear information regarding the payment of tuition. Students are asked to fill out the two sections carefully.

To receive a refund of tuition the student must, on or before September 28, notify the Evening Class office of his withdrawal. After this date refunds will be made only in case of sickness or call to military duty. No refunds will be made after the seventh week of classes.

Evening class students who wish to pay tuition on an instalment basis may do so by utilizing the services of the "Tuition Plan". Information may be obtained from the office of the Treasurer.

Additional fees, as noted in the description of courses, are payable in the same manner as tuition.

REGULATIONS

Absences—Each instructor will maintain his own record of absences, and will report to the Director all cases of excessive cutting. An absence from an announced examination may be excused only for sickness certified by a doctor or for emergencies by the Director. Excessive absences will be sufficient cause for required withdrawal from a course.

Parking—Students in evening classes must observe the parking rules indicated by signs on the campus. A large student parking area is located behind Hallden Engineering Laboratory.

Withdrawal—Absence from class does not constitute withdrawal from a course. If a student is forced to withdraw from a course in which he is registered, he should notify the Evening Class office immediately.

Student conduct will be governed by the applicable sections of the Trinity College Regulations. Copies of this publication may be obtained from the office of the Dean of Students.
