AMERICAN MEN OF SCIENCE.

Good Showing Made by Trinity Faculty in This New Book.

"American Men of Science" which has just been published is a "Biographical Directory" containing the names of four thousand men of science throughout North America who have accomplished "work that has contributed to the advancement of pure science—the term is used in the narrower sense—or because they are found in the membership lists of certain national societies" which "must be regarded as the basis for the organization of science."

The editor, Mr. J. McKeen Cattell, has also selected one thousand names representing the students of the natural and exact sciences whose work is supposed to be the most important. An interesting fact is the distribution of the thousand among the sciences which follows: Chemistry, 175; physics, 150, zoology, 150; botany, 100; geology, 100; mathematics, 80; pathology, 60; astronomy, 50; psychology, 50; physiology, 40; anatomy, 25; anthropology.

Of our faculty, President Luther (mathematics, mechanics), Prof. Edwards (zoology), Prof. Riggs (chemistry), Prof. Perkins (physics), Prof. Genthe (zoology) and Prof. Urban (philosophy) are included. Prof. Edwards is also one of the one hundred and fifty men whose work in zoology is of the most importance.

THE COLLEGE SMOKER.

Will be Given by the Sophomores on Monday Night.

The committee for the 1908 Smoker have decided that the affair shall take place next Monday evening, in Alumni Hall. Letters have been received from many Alumni and from practically all of the faculty expressing their intention to be present. The Smoker is a decided innovation at Trinity and can only be successful through a hearty support from the undergraduate body.

The committee has arranged a program of twenty pages, including cuts of the Track Team and the Glee and Mandolin Clubs. The program is an excellent one for such an occasion. It includes speeches by Dr. Luther, Senator Wilcox, and other Alumni, and also addresses by the managers and captains of the football, track, and base ball teams. The Glee and Mandolin Clubs will contribute several selections to add to the pleasure of the occasion. For the sake of a little excitement, there will be a boxing match between two freshmen, Clendinen and Shearer.

Pipes, cigarettes, tobacco and lemonade will be at the disposal of the guests of the class of 1908, and, in short, it is hoped that the success of this affair will be so pronounced that class smokers will become a regular feature of the college year.

The names of the committee follow:—Frederick Stevens, Chairman, Bern Budd, Frederick J. Corbett, James K. Edsall, Herbert M. Geer, LeRoy A. Ladd, Edwin J. Donnelly, ex-officio.

TENNIS.

A committee composed of Dr. Shearer, Bowne and Page, appointed by the Tennis Club to consider the advisability of sending a team to the New England Inter-collegiate this spring have reported in favor of having Trinity re-enter this association of which she was a charter member.

Manager Victor E. Rehr of the Musical Clubs is in New York arranging the final details of the Easter trip. A few engagements have already been made, but he is working very hard to have the Easter trip a great success.

TO ALUMNI.

THE TRIPOD is published for the Alumni even more than for the Undergraduates. With this in mind we are striving to produce a paper which shall be interesting and necessary to Graduates, and also to reach as large a number as possible. We are very largely dependent on the Alumni both for our moral and financial support. If you are not already a subscriber will you kindly give this matter your attention?

"NOW THEN—TRINITY!"

EDITORIAL.

The College Smoker which will be held Monday night in Alumni Hall is something which it will be the duty as well as the pleasure of every undergraduate to attend. In a college where the social conditions are such as we have at Trinity, we cannot lay too much stress on the value of an occasion which brings men of all classes and fraternities together. We have an opportunity to meet our fellow undergraduates on the athletic teams and similar organizations, but scarcely no occasion in the year finds a large number of the men gathered together solely for pleasure. The Sophomore class has provided such an opportunity and an attractive program has certainly been arranged. We are sure that the occasion will be a very successful one and will benefit the college in many ways, other than that which we have discussed here.

It does not seem to us that the fellows appreciate sufficiently the advantages which are offered to them in the course of public lectures which are being given in Alumni Hall. The faculty arrange to have men come here at no little cost in time and trouble and no lecturers are invited who are not really distinguished men. One of the most broadening parts of a college education is the privilege of gleaning something from those who are specialists in a line perhaps not directly con-

ected with our own interests. The man who appreciates these opportunities is the one who wakes up some day to the fact that he is known as a man with an "all-around" education.

To-night if we care to walk a few dozen paces we may hear a man whose reputation in scientific circles is world-wide. Dr. Brooks has been made a fellow of the Royal Astronomical Society of England. Suffice it to say that out of the two hundred and fifty known comets Dr. Brooks has discovered twenty-five. Why not rouse ourselves out of our own little worlds and give an hour to learning about "Other Worlds Than Ours?"

COMMUNICATION.

To the Editor of the "Tripod:"

It is time that something was said about the Musical Clubs. If we are to have an Easter trip, we must have one that is worthy of a joint class club. If we are to have a joint concert with Wesleyan, we must show improvement.

All men will have to attend rehearsals more promptly and faithfully. Some men who have been here long enough to know better are not showing the attention that is worthy of a secondary "prep" school club. We have an excellent trainer, who I know has at least twice been absolutely disgusted with the spirit of some men about coming to rehearsals. For instance, the 2d tenor part, which has been by far the worst, for the last two rehearsals, has been represented by but half of its members. This is very discouraging. Some men have been faithful, very faithful, and you will find that it is the best men who attend most regularly. Let the others take notice and show their appreciation of a prominent director.

Just think how the athletic teams would appreciate and work for as competent a coach in their line as Mr. Davis is in the musical line, and yet some of the men seem to think it is only a matter of personal comfort whether they come to a rehearsal or not. How can an inexperienced club learn new songs when the parts are not fully rehearsed? Just see the reason of this appeal and all, everyone, please come to the few remaining rehearsals on time, which does not mean ten, fifteen or thirty minutes late.

D. W. Gateson.

WEATHER HINDERS TRACK MEN.

But Hard Work Will Begin Next Monday Without Fail.

The track team is somewhat handicapped by the unusual weather this week, and Captain Gateson has decided not to hold the men strictly to work until Monday, when daily attendance will be required. The work will be hard and the individual faithfulness of the men must be relied upon. Arrangements are being made for securing a trainer.

Owing to the fact that several of the men interested are on probation the Indoor Meet has been postponed until after the "make-up" exams which are now being held. When these are over Manager Haight will post the final date of the meet.

Frederick Stevens 1908, will be the toastmaster at the next banquet of the Sophomore Dining Club.

The course covering four years begins the last week in September and continues until June.

A preliminary training in natural science is of great advantage. All the classes are divided into small sections for recitations, laboratory and clinical bedside instruction. Students are admitted to advanced standing after passing the requisite examinations. The successful completion of the first year in any College or University recognized by the Regents of the State of New York as maintaining a satisfactory standing is sufficient to satisfy the requirements for admission which have lately been raised. The annual announcement giving full particulars will be mailed on application.

The Connecticut Mutual Life Insurance Company,

HARTFORD, CONN.,

Why should I insure my life?

Because it is a debt you owe to those who are dependent upon your earnings for their support.

You admit that it is your duty to supply their needs from day to day, but forget that it is equally your duty to provide an ever ready and sufficient equivalent for your earning power, which your family stands in constant jeopardy to lose by your premature death.

Guard your family against disaster and yourself against dependency in old age.

When should I insure my life?

Now! The cost will never be less, and tomorrow you may not be able to obtain insurance at any price.

Even if others are not now dependent upon you, take time by the forelock and you will be the better able to meet future responsibilities, and at a smaller premium.

Where shall I insure my life?

In a purely Mutual Company. In a company that earns, declares, and pays annual dividends. In a company that is doing a conservative business.

Such a Company is The Connecticut Mutual Life Insurance Company of Hartford, Conn. It furnishes perfect protection at lowest cost.
