

BASEBALL TEAM LOSES TO FORDHAM.

Inability to Hit at Critical Times Gives Fordham the Victory 4-2.

In a game filled with excitement from start to finish, the baseball team went down to defeat on Saturday to Fordham University at Fordham, N. Y. Poor base running coupled with inability to hit the ball at critical moments brought about the defeat, for in nearly every inning Trinity succeeded in getting men on base and in the fourth, fifth and sixth innings filled the bases. Neither catcher seemed able to locate second base and as a consequence a total of sixteen stolen bases were registered, ten for Fordham and six for Trinity. The features of the game were the batting of Mahoney of Fordham who secured a three bagger and a home run and sensational catches by Gildersleeve and Smith of Trinity. Gildersleeve's catch came in the fifth inning on a hot liner by S. McCarthy that Gildersleeve picked out of the air about four feet over his head with one hand. Smith got a foul fly which looked impossible.

Trinity started things in the fourth inning. Carroll hit safely but was out at second on Horan's attempted sacrifice. McCaffrey and Schiess of Fordham making a double play. With two down, Abbey hit safely and stole second going to third on Gildersleeve's hit. Gildersleeve stole second and Brainerd went out on a grounder to short-stop.

In the last half of the same inning Fordham secured its first run. Scanlon, the first man up, hit to center field, stole second, went to third on a passed ball by Smith, and tallied on a wild throw to third base by Cook.

In the fifth Trinity filled the bases but was unable to score. Cook singled to center field and reached second when the center fielder fumbled the hit. Smith hit safely sending Cook to third and then stole second. With none down Webster twice attempted to work the squeeze play but both times the ball went foul and then went out to the pitcher. L'Heureux struck out and Carroll being hit by the pitcher went to first filling the bases. The side was retired on Horan's grounder to the second baseman.

Trinity's two runs came in the sixth. With one out, Gildersleeve was given his base on balls and reached second when the short stop let Brainerd's grounder go by. Cook hit safely filling the bases. Smith made no attempt to work the squeeze and flew out to the first baseman. Webster's single brought in Gildersleeve and Brainerd but the side went out when the next man knocked a fly to second base.

Fordham scored its remaining runs in the last half of the sixth. Mahoney, first up, secured a pretty home run over a high bank in left field. Scanlon hit safely, stole second and went to third on Sharkey's sacrifice. McCaffrey secured his base on balls and stole

RENSSELAER DEFEATS TRINITY.

Meet Ends 76-50.

Rensselaer Polytechnic Institute of Troy, N. Y., won the dual meet against Trinity Saturday afternoon on Trinity field, by a score of 76 to 50. The visitors took 11 firsts, 5 seconds and 6 thirds, while Trinity only pulled out 3 firsts, 9 seconds and 8 thirds. The individual point winners were: Fenton of Rensselaer—first, with 9; Parthesius, Schellenger, and Schrafford of Rensselaer, and Nelson of Trinity—second, with 8 each; Stark and Shearer of Rensselaer, and Maxon of Trinity—third, with 6 each.

The only feature of the meet was the pole vaulting of Wessels of Trinity, who won his event at 10 ft. 6 in., and broke the college record for the same event, clearing the bar at 11 ft. ¼ in.

The score and summary:

100-yard dash—Schellenger of R. P. I.; Parthesius of R. P. I.; Collett of Trinity. Time, 10% sec.

1 mile run—Schrafford of R. P. I.; Craik of Trinity; Creighton of R. P. I. Time 4.58%.

INTERCLASS TRACK TROPHIES.

Mayor Smith makes Presentation.

One of the features of Saturday's track meet was the presentation of the new trophies to the captains of the teams that took first and second places in the interclass meet on April 23. Mayor Smith, who acted as honorary referee of the Tufts meet, made the presentation, first of the trophy for the victors, which was gracefully accepted by Captain Craik, 1912, and then of the cup to Captain Maxon, 1911, whose team carried off second honors. The Mayor's few words were as hearty as appropriate, and were an earnest of the friendly feeling existing between the college and the city.

COMMUNICATION.

Editor Tripod:—

Last Friday's fire, which but for quick work on the part of members of the college might have resulted in the total destruction of the Psi Upsilon house, should serve as a grave warning. It has been common experience, I think, that fraternity houses are unusually prone to catastrophes of this sort whether due to the youthful carelessness of their occupants or to the lack of proper discipline in servants. At Cornell there is a serious fire almost every year, generally resulting in total destruction, and other colleges have proportional losses. Up to this time Trinity has been remarkably fortunate, but one shudders to think what risks are run almost daily, and how often it is only the merest fool's luck that prevents a serious holocaust. Had the recent blaze come during the night, who can say what limit to place upon the horrible possibilities?

Let us not tempt fate any longer. Let it be seen that each house is properly equipped with extinguishers and with some escaping device, fire-ropes at least. But most important of all, there is need for a greater degree of discretion, less taking of long chances.

FRESHMEN DEFEATED.

The freshman baseball team lost to New Britain High School Saturday, at New Britain, by the score of 17 to 2. Errors combined with the hard hitting of the high school boys to make the result. The battery for Trinity was Thomas and Sayres.

FIRE IN FRATERNITY HOUSE.

Psi Upsilon Lodge Suffers Loss.

On Friday, May 6, a fire was discovered in the Psi Upsilon Fraternity house, 81 Vernon Street, shortly after 12 o'clock. The blaze was discovered by the housekeeper and the butler. Among the first on the scene were John D. Reichard '11 and Professor Urban, both of whom sent in alarms. In the meantime the news of the blaze had spread and a large crowd of students were on the grounds and started to remove the furniture. The fire is supposed to have started from a pail of wood ashes left on the floor of the elevator. In a short time a hot blaze shot up the elevator shaft and began to eat its way through the roof, which was well under way by the time the fire department arrived.

Several streams were immediately applied at critical points and the fire was soon checked and kept in hand.

Meanwhile professors and students alike were active in clearing the house of all furniture. Pictures and curtains were torn down and hurled from windows together with armfuls of books. Someone ran up and grasped the carpet on the stairs at the top step and ran down bringing the carpet with him in a heroic manner. While some were carrying mattresses, bedding, and neckties down two flights of stairs, others were hurling furniture, china and iron beds from the third story windows. Here also some heroic work was done. Several students were deftly balancing a chiffonier on a window sill, preparing to let it fall while another was below with arms out ready to catch it. He caught it—but on the end of his chin. One careful member of the fraternity was seen dashing madly from the back door with a tray piled high with loaves of bread. No one has been able to discover where he hid them.

The loss has not yet been adjusted, so no estimate of the damage can be given. The servants' quarters suffered the most from the fire and all the rear part of the house was damaged by water. It is said that the entire loss is covered by insurance.

Repairs were started the same afternoon and a temporary roof has been put over the house. The members were sufficiently settled to sleep in the house that night.

EDITORIAL.

That the proper spirit does exist among us here at Trinity was adequately shown at the fire of last Friday. We all know that one of the most convincing arguments for the small college is that the good-feeling which exists between the professors and undergraduates cannot be duplicated elsewhere. The personal contact between the two is also raised to a higher degree than one would ordinarily expect. To illustrate the point in view, we quote the Hartford "Courant," which in telling the story of the recent fire says, "Professors forgot their dignity in the excitement and several of them were seen tearing across the uneven and recently plowed field, which separates the campus proper, and the lot on which the building stands, and with coat tails flying and arms outstretched, they fairly soared toward the burning house, while crowds of students tore along in their wake." Needless to state, neither body rested until their work was completed, and the understanding of both more firmly cemented than ever before.

The other side of the picture was no less pleasing, men of all classes, all fraternities, and any affiliations whatsoever, joining in the common work, and fighting the common foe, with no less zeal and care than if it had been purely personal. It was as it should be.

Trinity had an off-day last Saturday. Three of her teams were simultaneously defeated. Yet no one murmurs or groans, and why? Because Trinity spirit is not the kind that bows itself before anything except the force of circumstances, and that was what occurred on the day mentioned. The track team fought hard, so did the baseball team—but the other team was in each case a little bit better, else why did they de-

feat us? This is not the time to do anything but say a good word for the men who represent the College in their various lines. There is nearly a week before the track meet with Wesleyan, and all of three before we line up against her on the diamond. During that time, one thing only must be done, and that is to develop. In whatever way you choose, but develop. We must fight for victories in both cases, as everyone well realizes, since they will not be idly wooed. It is distinctly both the privilege and duty of each and every one to feel that he is responsible for a victory or defeat in either case, in part, at least.

The right kind of support is not given the Trinity "Ivy." When the business manager of a good annual, as that of 1910 undoubtedly is, sells his book and that of the class, by sheer necessity at a cut-throat price, in order not to go any deeper into debt, where are we to look for the responsibility? Certainly not at the business manager. And why? Because less than one-half of the class of 1910, the class which should be most interested, by the very nature of the thing, has subscribed to the "Ivy." A number of copies are sold scatteringly in the other classes, and among the faculty, but one can readily see that the outlook is rather discouraging for all concerned, now—isn't it?

AN OPPORTUNITY FOR A FEW INVESTORS.

The 8% 10-Year Purchasing-Fund Gold Certificates

ISSUED BY

THE WHEEL-MOTOR TRACTION CO.

This company has the sales monopoly of an improved form of commercial automobile, now in successful use by the U. S. Government and leading business concerns. The \$25,000 accumulated by the sale of these certificates is to be used for one purpose only—buying machines at the factory to fill orders. The machines are then shipped C. O. D. to the purchasers. Thus there is no credit risk, and the investors' money is neither tied up in equipment nor dissipated by expenses, but is either in cash on hand or convertible thereto at short notice.

Investors in this purchasing fund have the option of withdrawal of principal before maturity. A strong National Bank has agreed to act as Trustee of this fund for and on behalf of investors—to see that it is kept intact and used only as a purchasing fund. This bank will pay dividends as they fall due and will return to any certificate holder, upon sixty days' notice, the amount of his investment or any part of it, should he desire to withdraw same at any time before maturity.

The total issue is only \$25,000, each certificate being for \$25. For the present, with each \$25 certificate is given one share of 8 per cent preferred stock, par value \$10; and with each \$100 purchase five shares of preferred are given. This unusual opportunity really brings the net return up to about 12 per cent, with the prospect of selling the preferred for nearly enough to pay for the whole investment. We make this offer so that it will not be necessary for this announcement to appear extensively, as previous issues have been largely oversubscribed.

If interested in absolute security of principal, large and definite interest return, and opportunity of speedy withdrawal of principal before maturity if desired, this investment should receive your immediate attention. Communications and orders should be addressed, and checks made payable to,

The Connecticut Mutual Life Insurance Company,

HARTFORD, CONN.,

Why should I insure my life?

Because it is a debt you owe to those who are dependent upon your earnings for their support.

You admit that it is your duty to supply their needs from day to day, but forget that it is equally your duty to provide an ever ready and sufficient equivalent for your earning power, which your family stands in constant jeopardy to lose by your premature death.

Guard your family against disaster and yourself against dependency in old age.

When should I insure my life?

Now! The cost will never be less, and tomorrow you may not be able to obtain insurance at any price.

Even if others are not now dependent upon you, take time by the forelock and you will be the better able to meet future responsibilities, and at a smaller premium.

Where shall I insure my life?

In a purely Mutual Company.

In a company that earns, declares, and pays annual dividends.

In a company that is doing a conservative business.

Such a Company is The Connecticut Mutual Life Insurance Company of Hartford, Conn. It furnishes perfect protection at lowest cost.

The Library contains about 56000 volumes, 30 per cent of which have been purchased within the last twelve years. It is open daily for consultation and study.

The Laboratories, Physical, Chemical, Biological, and Physico-psychological, are fully equipped with modern apparatus for work in these departments. Special attention is given to work in preparation for Electrical Engineering, Civil Engineering, Industrial Chemistry, and Medicine.

Extensive courses are offered for study in Mathematics, Ancient Languages, Modern Languages, Economics, History, Ethics, and Philosophy.

A large list of valuable scholarships and prizes may be found in the Annual Catalogue.

For Catalogues and information address the President or the Secretary of the Faculty.
