## NEUTRAL BODY SMOKER.

### Mr. Bussom Gives Talk on his European Experiences.

Last Friday evening, the Neutral Body in college held a meeting at which Mr. Bussom, the speaker of the evening, was introduced by Rabinovitz, president of the Neutral Body.

Mr. Bussom gave a very interesting recital of his trip abroad last summer. The first thing that he had to do was to procure a government passport, which he showed to those present. This contained a full description of him as well as his picture.

As the ship upon which he was sailing was a French liner, it was necessary to take all precautions against submarines, and Mr. Bussom told about the drill which the passengers had to go through upon entering the danger zone. He remarked that he went to bed that night intending to remain awake, and he never slept better in his life.

When they arrived at Bordeaux it was necessary for all the passengers to exhibit their passports and explain their purpose. They had to tell where they intended to stop while there and where they were going. Mr. Bussom told of one German traveling for a New York firm who was put through a rigid examination. He was finally allowed to pass on, but he had to report to the police three times a day.

Mr. Bussom told of interesting sights in Paris. There are soldiers of all the allied armies; French Arabs, English and Belgians, as well as the others who are not quite so numerous. The women in the city, who hold most of the positions formerly held by the men are all dressed in black whether in mourning or not.

Professor Bussom told the story of one soldier with whom he was talking. He said he had lost his brother three months before, then his father and mother died from grief, and he was going back to the trenches for the fourth time, not knowing what would happen to his sister, whose sole support he was. This man told him of the terrible scenes at Verdun which he had been through. Mr. Bussom had pictures showing scenes there, a mother snatching her child from the flames; and a Belgian soldier shaking his fist at the Germans.

Having heard so much discussion about what Europeans think of America, Mr. Bussom took pains to ascertain the facts of the matter. He said that the Belgians especially have a wonderful sense of gratitude for what America has done. The French also appreciated our help and consider it America's right to do as she thinks best.

From France Mr. Bussom went to

## NEW YORK ALUMNI ASSOCIATION SMOKER.

The following letter has been sent to all members of the New York Association of the Alumni:

### New York Alumni Association Smoker.

The New York Alumni will hold a Smoker at Delmonico's, 44th Street and Fifth Avenue, on Thursday evening, December 7, 1916, at 9 o'clock.

President F. S. Luther, recently returned from his leave of absence of one year, will be present and it is hoped that all Trinity men will join in giving him an enthusiastic welcome to New York.

A special entertainment has been provided and a buffet supper will be served during the evening. It is suggested that those Alumni who have no other engagement dine together in the Delmonico Cafe prior to the Smoker.

It is hoped that you will realize that your presence adds to the success of the evening and will make a special effort to be present and do what you can to make this the largest and most successful gathering of Trinity men ever held in New York.

Please notify the Secretary promptly of your intention to be present, in order that adequate provision may be made. Tickets \$2.00.

F. C. HINKEL, Jr., Secretary,  
30 Beekman St., New York City.

## COMMUNICATION.

Hanover, Germany,  
October 27, 1916.

To the editor of "The Tripod",

Dear Sir:

Enclosed please find a check of two dollars (\$2.00) for my subscription to "The Tripod" for the coming year. It is always a pleasure to receive the publication and specially so when one is so far away from the old college. Last spring the issues came very irregularly and I am asking you to see that they are sent according to the address stamped on the back of this envelope. In this way they will go through the official pouch and arrive in about two weeks.

I wish that I could write something for "The Tripod" about my work but that is, of course, impossible. Perhaps, if Sir Gilbert Parker sends the library further copies of the British White Papers in regard to prison camp inspection, you can get an idea of the type of work. It is really intensely interesting and instructive, even though it may seem from the reports as though it would be monotonous.

With the best wishes for a very successful year, I am

Very sincerely yours,  
Jerome Pierce Webster, M. D., '10.

Spain, where he had an enjoyable time.

After Mr. Bussom had concluded his address, refreshments were served to those present. In all there were about thirty present.

## RED CROSS CHRISTMAS SEALS ON SALE FRIDAY.

At the office of the State Tuberculosis Commission in the Capitol, it has been figured that over Four Million Red Cross Seals have been shipped to the various agencies throughout the state. The demands have been so great that it has been necessary for the Commission to order another half-million seals from the printer.

The largest local order was received from the Visiting Nurse Association of New Haven for 900,000 seals; the Public Health Association, Meriden, ordered 600,000; Visiting Nurse Association of Bridgeport, 500,000; Anti-Tuberculosis League, Waterbury, 350,000; and Hartford Society for the Prevention of Tuberculosis, and the Tuberculosis Relief Society of New Britain, each received 250,000.

The sale will open all over the country on the day after Thanksgiving, December 1, and it is thought that there will be great competition, not only between states of the Union, but between the cities and towns of this state.

### INTERCOLLEGIATE NOTES.

As Connecticut Agricultural College was the first land-grant college to conduct a summer camp of military instruction under the directions of regular army officers and in company with the regular enlisted men, so is it the first land-grant college to receive from the war department the new branch of government service, the Federal Reserve Officers' Training Corps.

West Point alone, is the only institution, not including colleges such as C. A. C., permitted by the war department to give this training, that may graduate men as commissioned officers in the regular United States army.

When the courses were being arranged at all the leading institutions of the country, last June, the Connecticut college was one of the few colleges and universities to provide for the new course. Accordingly, it is among that same few to inaugurate the course this year.

Beginning with the present junior class and including all juniors and seniors in the future, the war department will furnish a uniform and a regulation army subsistence to all the students at the college who take this course. In other words, an upper classman will be paid approximately \$100 a year for learning to be a second lieutenant in the service. Besides this, all students at the college will be allowed full expenses, including railroad fare, for attending a summer camp at Plattsburg or some other designated by the secretary of war.

The primary object of establishing units of the Reserve Officers' Training Corps is to qualify, by systematic and standard methods of training, students at civil educational institutions for reserve officers. The system of instruction prescribed by the war department presents to these students a standardized measure of that military training which is necessary in order to prepare them to perform intelligently the duties of commissioned officers in the military forces of the United States, and it enables them to be thus trained with the least practicable interference with their careers.

The aim of every institution maintaining a unit in the Reserve Officers' Training Corps is to be able in time of national emergency, to furnish a sufficient number of educated men, trained in military science and tactics, to officer and lead intelligently the units of the large armies upon

A living endowment of a million dollars is being raised at Syracuse. Under the plan, subscriptions are made for any stated amount, but instead of paying the amount, only the interest on the subscription is paid. In this manner the University gets the income without having the difficult problem on their hands of getting a good return from their investments. Also, the subscriber may terminate the agreement at any time, if he should be financially unable to pay the interest.

As in previous years there will be no smoking on the campus of the University of Oregon this year.
