## FOOTBALL PROSPECTS.

### Shifts in Team for Springfield Game.

The disaster that met the football team at Providence has resulted in an important shift being made in the backfield by Coach Cole. Jarvis has been shifted from quarterback to half-back. In both the games played this season the sturdy little quarterback has shown himself to be a consistent ground-gainer, and consequently of great importance to the team at a position where he would carry the ball more often. The shift of Jarvis displaces Purdy from the 'varsity, but Coach Cole has been trying him at left end, where there are no particularly strong candidates. Harry Lennon is filling Jarvis' former place at quarterback on the 'varsity.

An interesting tussle is expected with Springfield Y. M. C. A. on Trinity Field Saturday afternoon. The Springfield College is expected to unearth a bewildering mass of trick formations and its strongest point is said to be in its use of the open play.

The practice all this week has been hampered by a woeful lack of second-team men to stand up against the blows of the 'varsity in its preparation for the stiff games that still remain on the schedule. Captain Woolley has been out of the game all the first half of the week with an injured leg, and center rush Breslin is bothered with an injury to his arm received in the Brown game, that has prevented him getting into the scrimmages which are a part of the daily practice.

Myron Jackson has not been in the best of condition for almost a week, and is resting up in preparation for the Springfield game, while Seymour Jackson, who has started both games at right guard, but has not shown up very strong, is being coached by Captain Castator, and has shown great improvement in breaking through the second team line the last few days.

The combination that has been tried out in the backfield by Coach Cole looks more formidable than the one employed in the two previous contests, where strong interference and clever carrying of the ball have not been shown. Hyland is now playing right halfback, Jarvis left back, and Phillips, fullback, with Lennon at quarterback.

After a week of illness, Andersen has greatly strengthened the right side of the line by his return to the right end position. The weaknesses of the ends have been noticeable in their failure to get down under kicks and box opposing tackles on the defense, and the return of Andersen to the 'varsity will greatly help the team, as he is fast and well able of taking care of his opposing tackle.

With a week of practice since the Brown game the team has recovered courage and will enter the Springfield game bent on a victory for the Blue and Gold.

## SOPHOMORES BEAT FRESHMEN 15 TO 4.

The opening game of the Freshman-Sophomore series ended disastrously for the Freshmen today. The two teams came up to the plate as follows:

Freshmen	Sophomores
Church, l. f.	Leek, 3 b.
Scott, 1 b.	Buckley, s. s.
Reddish, 2 b.	Thalheimer, 1 b.
Lynch, s. s.	Kenney, c.
Feldman, 3 b.	Prescott, p.
Purves, c. f.	H. E. Pressey, l. f.
Puffer, r. f.	Valentine, c. f.
Smith, c.	King, r. f.
Ortgies, p.	Rorison, 2 b.

During the game both Captain Feldman and Captain Prescott made several changes, giving other men a chance to win their numerals. The freshmen who went in were: R. P. Pressey and Ramsay. Captain Feldman also shifted the other men a good deal in the several innings, taking the catcher's place himself, and putting Lynch in place of Ortgies.

The sophomores who also played were: Curtis, Armstrong, McGuffy, Haase, Faucett and Segur.

The freshmen came up to bat first, and made one run. The sophomores registered two.

In the second inning, the freshmen were shut out entirely; and the sophomores batted Ortgies out of the box to the tune of eight runs.

In the third inning, Lynch held the sophomores down to three runs, and in the fourth, two.

In each of the third, fourth and fifth innings, the freshmen managed to make one run, bringing their grand total up to four.

There were few sensational plays made by either team, and many errors by both.

Kenney, catcher for the sophomores, seemed to be the grandstand favorite, winning much applause by his many walks to first.

Smith also amused the crowd by losing himself at third base, and coming to when it was too late.

After a couple more practice games, the boys ought to play like veterans.

## SOPHOMORES WIN ANNUAL BASEBALL SERIES.

The Sophomores defeated the Freshmen by the score of 4 to 0 in the annual interclass series and thereby proved themselves champions of the two lower classes. The game was much closer and better played than the first one as is shown by the score.

(Continued on page 4)

## ON THE CINDERS.

### More New Men Wanted for Track.

The following men are showing lots of spirit in track work: Williams, '19, Carlson, '18, Segur, '19, Bond, '20, Griesinger, '20, Mercer, '18, Taff, '20, Fox, '20, Wessells, '18, Muller, '18, Schlier, '17. This is encouraging for Captain Bjorn, and there is no reason why we ought not to have a good team this year.

However, the more men who go out, the better chances we stand, so go out and do your part.

Seven men will be picked for the trip to Springfield November 4. This is a good chance for the lucky men. Will you try for it?

The Inter-class Meet will be held Monday, October 23. This will give the men on the squad a chance at track also.

Remember that a fellow in college gets just as much out of it as he puts in, and no more.

## UNITED STATES CIVIL SERVICE EXAMINATION.

### Expert Electrical and Mechanical Aid (Male), \$12.48 Per Diem. November 14, 1916.

The United States Civil Service Commission announces an open competitive examination for expert electrical and mechanical aid, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$12.48 per diem, in the Bureau of Yards and Docks, Navy Department, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position cover the expert maintenance and supervision of the operation of all navy-yard power plants, embracing the economical production, distribution, and utilization of electric power for manufacturing, pumping dry docks, charging submarines, and for ships undergoing repairs; compressed air for manufacturing; steam for power and central heating, and production and distribution of hydraulic power; also investigations of power plant operating conditions, tests of plants and equipment, and efficiency engineering work in connection with improvement of operating conditions and instruction of plant operatives to obtain economical operating results. The appointee will give expert advice upon, and will be held responsible for, the design of new projects for the economical production of power, and in which will be included pumping plants for dry docks, power plants and distribution systems for experimental laboratory, projectile plant, armor plant, equipment for supplying

(Continued on page 2)

## TENNIS TOURNAMENT.

Much interest is being shown in the Fall Tennis Tournament. Johnson and Hartzmark will play the winners of Harding-Humphreys and Ortgies-Porter teams in the doubles. In the singles, Hartzmark is in the semi-final class with Reddish, Pratt, P. C. Harding, Levin, Robertson, Tilton, Boyce, Porter and Evans. They will finish probably next week.

On October 12 practice for the Southern trip was held, but Captain Harding states this match is not regular. Harding-Johnson and Hartzmark-F. Humphreys will represent Trinity.

## RAILROAD MEN'S EIGHT-HOUR DAY.

(From *The American Agriculturist*.)

It was only about a dozen years ago that the country was threatened with a railroad strike. The very people now demanding more pay and shorter hours had been receiving ten hours' pay for ten hours' work. At that time they contended that they were entitled to ten hours' pay whenever a crew started out, regardless of whether the men worked an hour, or five hours, or ten hours. Another plank in their demand was ten hours' pay for a 100-mile run, and they wanted this whether in running the 100 miles a total of ten hours was required or not. In case they ran over 100 miles, then there was to be extra pay. After many conferences the railroads acceded to these demands.

The problem now is, shall the limit be reduced to eight instead of ten hours? It is obvious that the whole thing in a nutshell is to get more pay for less work. The railroad men are not working, as do other laboring men, a full stated labor period for what that labor is worth, but rather ten hours' pay for eight hours' work, and if the time required does not amount to ten hours, of labor, then to get ten hours' pay just the same. What would a farmer think of paying his hired hand a full day's pay in case he set him to work on a job that might be completed in two or three hours, or if a shower came up and temporarily stopped further work that day the man quit, refusing to do other work but demanding a full day's wage? Unreasonable, of course; and unjust. Higher wages for less labor mean ultimately substantially higher freight rates, and of these the farmer will have to pay his share. It means less profit; as low as it now is on every farm crop or unit of live stock raised. Though the country may be committed to fewer hours in a day's work, the country is not committed to any political demagoguery that does not give a full day's service, regardless of the number of hours in it, for a full day's pay.

## "RILEY" BOOKS 50c each

The lovers of the Hoosier Poet will be glad to know that the works of James Whitcomb Riley are now on sale at our store for 50 cents a copy, instead of \$1.00. Here they are: "Child Rhymes," "Love Lyrics," "Farm Rhymes," "Songs o' Cheer," "Songs of Summer," "Songs of Home."

Poems that voice in homely fashion the things in life that appeal most strongly to all.

## "NOW THEN TRINITY"

We learn from one of our intercollegiate notes that Harvard is giving credit towards their degrees for courses in military training. When will Trinity be awakened by the cry of "Preparedness"? Even if we are not given credit, can we not at least have some classes in military training and tactics? The students must have the time for such training, because it takes almost superhuman efforts to find enough news about college to fill the *Tripod*. How about spending one less night a week down town and devoting it to military training?

The *Tripod* hopes that the students will take advantage of their opportunity to see the productions of the Portmanteau Theatre Company. They are worth seeing on account of their novelty alone, but the plays that are to be given are gems of the English drama which should be witnessed by any student of English literature. The "cuts" used in this issue give a good idea of the bare mechanism of the Portmanteau outfit.

The *Tripod* prints an article in another column of this issue on the "Eight-Hour Day". This article was received from the New York, New Haven and Hartford Railroad. In our opinion it sums up the situation in the right light. In this unjust demand by railroaders we have the best paid class of labor in the country demanding even more pay for less work, at the expense of the less-favored labor classes. If the recent bill goes into effect, the railroads will have to secure the extra money. They will have to raise the freight rates. Employers will therefore have to economize, and the common laborer, whose wages cling closely to the subsistence minimum, will be pinched. We as college men and thinking voters should use all our powers to abolish this "eight-hour day". It is terribly unfair, and is the result of an administration which felt itself unable to cope with a nation-wide railroad strike.

Once again the *Tripod* calls the attention of the alumni to a condition in Williams Hall, which mars its beauty. The appearance of the lobby on the second floor is spoiled by the protrusion of several pipes from the wall. These pipes await the erection of a drinking fountain which is to harmonize with the architecture of the lobby. We ask, When is this to be put in, and by whom?

The *Tripod* received a letter from the president of the Civil Service Commission of the United States, enclosing the article found in another column of this paper. He requested that we print it as a news item, and regretted that the Government did not appropriate money for the Commission to advertise. It is unfortunate that some of the "campaign funds" could not be used to help one of our most important departments to secure its needs.

### COLLEGE NOTES.

Dr. Luther made the address at the Political Science Meeting October 12, in the Public Speaking Room.

Candidates for Assistant Manager of Track, report at Gym, Friday, at 4.30 p. m.

Freshmen and others wishing to try out for managerial positions on Trinity "Jesters", will please report to Joseph Buffington, Jr., 81 Vernon Street.

### ALUMNI NOTE.

'93—William Bowie, a graduate of the Class of 1893, who also received from the College the Honorary Degree of Master of Arts in 1907, has recently been appointed the Member from the United States of the Permanent Commission of the International Geodetic Association. Since 1909 Mr. Bowie has been Chief of the Division of Geodesy of the United States Coast and Geodetic Survey, and in 1912 he was one of the delegates from the United States to the Convention of the International Geodetic Association, which met in Hamburg, Germany.

## UNITED STATES CIVIL SERVICE EXAMINATIONS.

(Continued from page 1)

power to radio stations, heating and lighting equipment for various prospective public works, such as hull-construction shops, foundries, machine shops, barracks, storehouses, offices, etc.; also upon the design and layout of extensions to present plants to provide for prospective expansion of yards and stations and the remodeling of lighting systems in existing buildings and shops.

Competitors will not be assembled for examination, but will be rated on the following subjects, which will have the relative weights indicated:

### Subjects.

1—Technical education . . . . .	40
2—Experience and fitness . . . . .	60
Total . . . . .	100

Graduation with a degree of mechanical engineer, or electrical engineer, from a college or university of recognized standing, and at least ten years' subsequent experience in responsible charge of the design, installation, and operation of central power plants and distribution systems for light, heat, and power, with executive experience in handling successfully large numbers of power-plant employees, are prerequisites for consideration for this position.

Additional credit will be given candidates who have had special experience in connection with the power and operating requirements for radio work.

Under an act of Congress applicants for this position must have been actually domiciled in the State or Territory in which they reside for at least one year previous to the date of examination. The county officer's certificate in the application form must be executed.

Statements as to education, experience, and fitness are accepted subject to verification.

Applicants must not have reached their fifty-fifth birthday on the date of the examination.

This examination is open to all men who are citizens of the United States and who meet the requirements.

Persons who meet the requirements and desire this examination should at once apply for Form 1312, stating the title of the examination desired, to the United States Civil Service Commission, Washington, D. C.; the secretary of the United States Civil Service Board, post office, Boston, Mass., Philadelphia, Pa., Atlanta, Ga., Cincinnati, Ohio, Chicago, Ill., St. Paul, Minn., Seattle, Wash., San Francisco, Cal.; custom-house, New York, N. Y., New Orleans, La., Honolulu, Hawaii; old custom-house, St. Louis, Mo.; Administration Building, Balboa Heights, Canal Zone; or to the chairman of the Porto Rican Civil Service Commission, San Juan, P. R. Applications should be properly executed, excluding the medical certificate, and must be filed with the Commission at Washington, prior to the hour of closing business on November 14, 1916. The exact title of the examination as given at the head of this announcement should be stated in the application form.

SOPHOMORES WIN ANNUAL BASEBALL SERIES.

(Continued from page 1)

The Sophomores started off well by getting three men across the plate in the first inning. After this inning, however, the freshmen steadied down and played good ball. Leeke pitched a fine game for the Sophomores and his opponents could not get more than two hits. After the first inning, Church pitched a goood game.

The game brought out little material for the 'varsity next year. Feldman being the best prospect among the Freshmen. Prescott is back in college and put up a good game at third for the Sophomores. It looks as if Prescott was sure of a regular position next spring.

The lineup is as follows:

Sophomores	Freshmen
Thalheimer, 2 b.	O'Neill, c.
Buckley, s. s.	Scott, c. f.
Lennon, c.	Reddish, 2 b.
Sturman, c.	Lynch, s. s.
Leeke, p.	Feldman, 3 b.
Pressey, r. f., 3 b.	Puffer, 3 b.
Bernklow, l. f.	Purvis, l. f.
Alling, l. f.	Pressey, r. f.
Valentine, c. f.	Casey, r. f.
McGuffey, c. f.	Smith, 1 b.
Rorison, 1 b.	Church, p.
Faucett, 1 b.	
Prescott, 3 b.	

Score by innings:

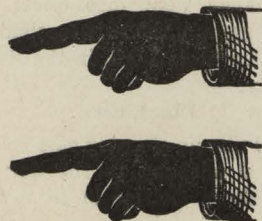

Sophomores.....	3 0 0 0 1—4
Freshmen.....	0 0 0 0 0—0
