Bias Splits Delta Phi As Rush Week Starts

6 Faculty, Staff Resign Posts; 7 Plan Leaves

Biological documentation shows that women live longer than men, and that women are more likely than men to die of heart disease, cancer, and stroke. These findings have important implications for public health policy and for research on aging. Women live longer than men, on average, because they have better access to medical care and because they are more likely to have better business relationships and social support. Women also tend to have lower stress levels and to be more physically active than men. These factors contribute to their longer lifespans.

Local Youths Charged With June Thefts

If you're a landlord of a multiunit building, you're going to have to put some thought into the security of your property. While some multiunit residences may be able to afford private security services such as patrol officers or security guards, most cannot. However, there are several cost-effective measures you can take to improve the security of your property.

First, you can install surveillance cameras throughout the building. These cameras can help deter potential intruders and provide evidence in the event of a crime.

Second, you can adopt a strict policy regarding the distribution and use of keys to the building. Make sure that only authorized personnel have access to the building and that they are required to use their own keys.

Third, you can conduct regular security patrols of the property. This can be done by hiring a professional security service or by having a member of the building's staff conduct the patrols.

Fourth, you can provide your tenants with information about how to respond to emergencies. This can help reduce the number of false alarms and can improve the speed and efficiency of emergency response.

Finally, you can work with your local law enforcement agencies to ensure that they are aware of the security measures you have implemented and to establish a good working relationship.

Taking these steps can help improve the security of your multiunit building and can help reduce the risk of crime.

Delta Phi is a social fraternity that has been on campus for over a century. The fraternity has a long history of providing students with opportunities to develop leadership skills and to engage in educational and social activities. However, in recent years, the fraternity has faced several challenges, including a decline in membership and a series of incidents involving alcohol and drug use.

As Rush Week begins, the fraternity is faced with the task of welcoming new members and of creating a safe and inclusive environment for all students.

To that end, Delta Phi has implemented several initiatives, including a stricter policy on alcohol and drug use and a greater focus on educating members about the risks of substance abuse.

Delta Phi is committed to ensuring that its members are held to the highest standards and that the fraternity remains a positive influence on campus.
Principle Or Expediency

The Sigma Chapter of Delta Phi took a bold and autonomous stand last May against a discriminatory clause in the organization's constitution which it felt was unfairly restricting membership. The chapter was willing to stick to their stand, despite the fact that it was denied return to the national body. As a little known fact about this gesture is that the Sigma chapter has won many points out that it is in no way impossible to do it that way, and that it is the right way.

We hope those who renounced the national will not be offended by the Sigma chapter's action, for we hope that this chapter's decision will not cause anyone to lose his head.

What Do Beanes Prove?

Just what do beanes prove? Of course, this can easily be answered: They give the supervisor a measurement of the heights of the students. The beanes show how high the students are as compared with their countrymen. They show how high the students are in comparison to the heights of the students in other countries.

But what about the beanes? The beanes are not necessarily a measure of the heights of the students. They may not necessarily be a measure of the heights of the students in other countries. They may not necessarily be a measure of the heights of the students in other countries.

What's Here Instead?

And what's here instead? An informal congenial sphere during the Christmas and Trinity terms, but it's of no great importance. What's here instead is the fact that the Sigma chapter has done something to the fraternity. What's here instead is the fact that the Sigma chapter has done something to the fraternity.

The Sigma chapter of Delta Phi took a bold and autonomous stand last May against a discriminatory clause in the organization's constitution which it felt was unfairly restricting membership. The chapter was willing to stick to their stand, despite the fact that it was denied return to the national body. As a little known fact about this gesture is that the Sigma chapter has won many points out that it is in no way impossible to do it that way, and that it is the right way.

We hope those who renounced the national will not be offended by the Sigma chapter's action, for we hope that this chapter's decision will not cause anyone to lose his head.

**Letters**

**Q. E. D. Deserts Delta Phi**

*To the Editor:*

After we learned about our organization being restricted by a few percent of the membership, we were shocked by the revelation that the organization's constitution was discriminatory. The organization is comprised of students from the national fraternity of Delta Phi, and as such, it is our contention that the organization is not seeking to exploit the spirit which can be synthesized by the organization. It is our contention that the organization is not seeking to exploit the spirit which can be synthesized by the organization.

**Suggests End To Apathy**

*To the Editor:*

"Don't tell me that being a member of Delta Phi is no big deal;" - this is the sentiment that many of us feel. "Don't tell me that being a member of Delta Phi is no big deal;" - this is the sentiment that many of us feel. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal.

We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal.

We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal. We feel that being a member of Delta Phi is no big deal.
Student Group Sets Up Plan To Fight Apathy

Seniors, President Roger Marson, and President-elect Robert Miller are the leaders of the newly formed "Project Apathy." The group was formed primarily because of the belief among students that "the organization of the University is becoming more and more a club for the juniors and seniors, and the freshmen and sophomores are left out." The group will plan some events to help "wake up" the freshmen and sophomores and get them interested in University activities.

Dean's List

The following students have been placed on the Dean's List for the Spring quarter: Mortimer W. Lucas, '43; Robert E. Stearns, '44; Thomas J. Smith, '44; and Robert E. Swenson, '45. The students were placed on the list because of "outstanding academic performance and great cooperation with the faculty."

Calendar

TUESDAY, FEBRUARY 8, 1960

Sund (1st February at 3:00 p.m.) 

'32, who are members of the 32nd Volunteers Association, will be honored at a dinner at the University Club of New York.

Detza Phi

From Page 1

"...and the class of '64"...it's almost certain that the members of Delta Phi are working, 41 are in the business world, 19 are in education, 6 in medicine, and 3 in law. The group is quite capable of thinking for itself and will only be steered by its leaders in the direction of the club's overall philosophy, which is to promote the welfare of women and to "prepare them for the responsibilities of life." The club's activities include social events, educational programs, and community service projects.

Church Group Selects Officers

The Church Group has selected its officers for the coming year. The officers are: President, George A. Zierdenen; Vice-President, David A. Hynes; Secretary, John A. O'Brien; and Treasurer, William J. O'Brien. The group is concerned with the spiritual welfare of the members and is affiliated with the United Methodist Church.

MacMillan's Speech

"...and the class of '64"

The Class of '64, still some-thing of a mystery to many, will meet with the class of '65 at the annual meeting of the class of '64 today at 4 p.m. in the University Club. The meeting will be followed by a dinner at the same location. The event is sponsored by the class of '64 and is open to all members of the class. The meeting will provide an opportunity for members to discuss the future of the class and its role in the University community.

Trinity Men Are Welcome At The English Shop

The English Shop at 270 New Britain Avenue is open to Trinity students. The shop offers a wide variety of clothing and accessories for men and women. The shop is open Monday through Friday from 10 a.m. to 5 p.m. and Saturday from 10 a.m. to 1 p.m.

Barber Ltd.

The Barber Ltd., located at 105 New Britain Avenue, near Corner of Broad St., offers a variety of services for men, including haircuts, shaves, and hair styling.

Self-Solution Goal Of New Advice Group

The new advice group, "The Advice Group," has been established to help students deal with personal problems. The group consists of experienced counselors who provide guidance and support to members. The group meets weekly and is open to all students.

TRINITY TRIPOD PAGE THREE

Dr. Lanseberg's talk was given by Dr. Lanseberg, who is well known for his work in the field of psychology. The talk was on the topic of "The Psychology of Idle Hands." The talk was well received by the audience and was followed by a question and answer session.
