Dr. Benton Discusses Relationship
Of Old, New Language Theories
A Quality Faculty

For some time now, the question, if not the qual-
ity, of the teaching faculty has been a subject in
the highest standard. Trinity's faculty is singularly
highly qualified, and the College's reputation, as
high as that of its teachers, by admirable means
for faculty candidates.

This increase was mostly needed according to
the report of the Association of American Universities
Professor for the academic year 1918-1919.

The problem of selecting a faculty is one of
the most difficult in the life of a College. The
position of a College faculty is not determined
by the size of the student body. The faculty
can be enlarged in large colleges, but the
size of the student body has no connection
with the quality of the teaching faculty.

3. The quality of the teaching faculty.
4. The cost of maintaining the faculty.

New London, Dec. 18—Saying he would make it Schaefer all the way, Uni- versity of Bridgeport basketball fan and bartender Bill Rodda confused and embarrassed the fans of the hometown Navy with his support of the team, only to see the Navy beat him out by a 3-0 record today.

The Navy's top man, Ted Guiney, scored 15 out of the 115 points for the team, while Rodda himself managed only one first place for all the individual events.

McCarton and Schaefer dominated the first and second events, while Guiney was third in the 600 freestyle. Frank Bohn and Dave Locke of the Navy had a tight battle, with Locke winning by the 600 yard mark and Bohn winning the 200 yard mark.

Captain Jeff Williams swam in the 400 medley relay. After capturing the victory with a time of 2:45.2, he later swam out of the water and moved on to the 60 freestyle event, where he took the lead with a time of 56.2.
