**Chesq Donations Reach $4,100**

**M. John Blaynfeld**

The Student Council grandstand, which trumpeted its name, "The Student Council," to all passers-by, was the focal point of the campus last week as the annual Student Council Fund Drive got under way. The drive was sanctioned by the college administration and several student groups.

**Bill Richardson Nominated To Head WRTC-FM Board**

**John Henry**

In an effort to broaden the horizons of the student body and strengthen the school's image, the Student Council has established a fund drive to raise $4,100. The drive, which will continue throughout the semester, is to be used for the purchase of equipment and materials to improve the quality of programming at WRTC-FM. The goal was set at $4,100 in recognition of the college's status as a "top 10" institution.

**Lacy, 'Man To Be Avoided,' Discusses Aspects of Job**

By JOHN HENRY

Lacy, a 3.8 student and member of the basketball team, has been named the "Man To Be Avoided." Lacy's reputation as a troublemaker and his constant complaints about the administration have made him unpopular with his peers. However, Lacy's candor and honesty have won him the respect of his peers and staff members.

**Honor System Defeat Fared**

**M. John Blaynfeld**

The student body has voted down the implementation of the Honor System, which was proposed by the Student Council last year. The vote was 170 to 50 in favor of the proposal, which would have required students to sign a statement of honor before being admitted to the college. The students felt that the Honor System would be too restrictive and would interfere with their freedom of expression.

"Anything..."
A Better Senate

We hope that some day the College will scrape away the "Special Senate," an organization which will not only represent members of the Senate, but also the students' opinions and vigorously pursue their demands.

The officers of the Senate are far from being an entirely powerful organization, but particularly dynamic, have done as well as they could with little help from the faculty. In the past the Senate has suffered in quality of the senators when the officers direct. Some senators have been sufficiently motivated to attend the meetings and to work on their constituents' opinions. In other cases, however, the Senate has been an afterthought for some students.

Although in a majority, a few senators have not been dedicated to fulfilling their responsibilities. Some senators have been either too busy or too involved in student activities to attend the meetings. They have not been particularly effective in bringing the student body's opinions to the attention of the Senate.

In this case, the Senate is not being held responsible for fulfilling through an amendment process the students' opinions. This is due to the lack of representation of the students in the Senate. A large number of representatives are not present and represent their interests. If this process were held, it would alleviate this problem, and the Senate would be in a better position to make progress.

The Tri-kap boards in the Senate have been found to have little influence on the Senate's decisions. The membership of the Senate is not often held accountable for their actions. The Senate should be held responsible for the decisions which are made by the Senate.

The Senate has been known to make some decisions without a vote. This is due to the lack of representation of the students in the Senate. The Senate should be held accountable for their decisions and should be required to vote on all decisions which are made.

The Tri-kap boards should be replaced with a more representative Senate. The Senate should be held accountable for their decisions and should be required to vote on all decisions which are made.

The community interest in the Senate should be encouraged. One reason for this is to encourage more students to attend the Senate meetings and to work on their constituents' opinions. This is due to the lack of representation of the students in the Senate. The Senate should be held accountable for their decisions and should be required to vote on all decisions which are made.

The third election of the senate has been found to be unfair and to be held under the Honor System. The Senate should be held accountable for their decisions and should be required to vote on all decisions which are made.

The community interest in the Senate should be encouraged. One reason for this is to encourage more students to attend the Senate meetings and to work on their constituents' opinions. This is due to the lack of representation of the students in the Senate. The Senate should be held accountable for their decisions and should be required to vote on all decisions which are made.

Amherst Tops Floundering Bantams, 73-63; Eighth Loss In Row Drops Record To 2-9

The story was much the same as it has been many times over during the past few weeks. The Lord Jeffs grabbed an early lead by making advantage of the Bantams’ seven turnovers. Amherst then cruised to the final tallying in the hands of a rather weak Bantam team.

INTERVIEWS ON CAMPUS
FEBRUARY 22

Through a comprehensive EDP training program emphasizing operational and management know-how in RCA's proven Electronic Data Proc-essing, a student gains a thorough understanding of the mechanics and business application of high-speed data processing systems. RCA has developed a comprehensive set of training materials that provides the student with a thorough understanding of the principles and practice of data processing.

RCA offers careers in

ELECTRONIC DATA PROCESSING

GETTING DOWN TO CASES . . . WITH AN ELECTRONIC COMPUTER

A young lawyer may spend many years searching through the voluminous volumes in a law library before he ever gets a chance to plead a case. His job is to research the many cases which provide legal precedent, it's a very long and tedious task.

Recently it was demonstrated that an IBM computer can perform the same kind of work in a fraction of the time. A team of computer scientists at the IBM Watson Scientific Computation Center in Yorktown Heights, New York, used an IBM 1401 computer to analyze the text of a legal case and identify the key points. The computer was able to do this in a matter of minutes, whereas a human lawyer would have taken hours or even days.

Putting computers to work in unusual ways is not new at IBM. Computers are now doing remarkable jobs in a wide variety of industries, including government, medicine, and manufacturing. If you are interested in a career with IBM, we will be glad to discuss any one of these fields with you. Write to IBM, 1133 Broadway, New York, NY 10036.
