172 Swell Fraternity Ranks
Delta Phi Leads With 22

September 17--Fraternities to
pick up 172 pledges for the
fall. When Delta Phi netted 22 pledges,
15 more than any other fraternity.
Thes number of pledges this year
shows an increase of 25 over
those received last year.

Alfa Phi Rho: G. Boyd, B. Bod-
ner, R. G. Carlson, D. Charles-
worth, A. Depetris, M. Krisiloff,
last September.

Phi Kappa Alpha: R. Bagley, G.

University, received his Ph. D, degree
from physics and engineering with
highest distinction.

Daniel Alpert to Speak
At Science Center Dedication

Daniel Alpert, associate professor
of physics and technical director
of Control Systems Laboratory,
University of Illinois, was the
guest speaker at the dedication
of the Science Center at the
University of Illinois.

Dr. Daniel Alpert to Speak
At Science Center Dedication

He is the technical director of the
Science Center and is responsible for
the laboratory space, the main
auditorium, and the administrative
offices. He is also the director of
the Physics Center, which is located
near the Science Center.

The Science Center is a facility
for the study and teaching of
physics, with a focus on
research and development.

Letters Ask Congressman
To Investigate Allen's Plight

A far-reaching campaign was un-
dertaken this week by the Black
shepherd, a group of students
seeking justice for the three
Negro demonstrators who were
shot by Governor George C.
Smith of Alabama.

The campaign included a
petition addressed to Congressmen,
asking them to take action to
investigate the murder of
Allen, Perdew, and Harris.

Negro demonstrators charged
with assault and battery, rioting,
and interfering with a lawful
arrest.

They were ordered held for
the November session of the Grand
Jury, which meeting was scheduled
for September 25.

Preceding Georgia Super-
r

into the Americus situation.

As in previous years, upper-
classmen did better than fresh-
men, and married students slightly
exceeded independents and single
students.

The total number of grades
received in 1962 was 18 students
in A's, as in 1961-62, but the number of
B's increased from 1,814 to
2,050.

Together, grades of B and
B+ represented 54.4 of the total
grades obtained, while C's and
D's represented 30.5 and 15.1
respectively.

As always, teachers and
students were pleased with the
high grades achieved.

Campus Notes

GRADUATE SCHOOL
Trinity College's evening graduate school will offer 72 courses in eight major fields during the 1963-1964 academic year. The eight fields, all leading to advanced degrees, include economics, English, government, history, mathematics, philosophy, and physics. Courses are open to both men and women, and most classes are scheduled for one evening a week for three hours.

SCHOLARSHIP AID
The Quaker Oats Foundation has granted Trinity an unrestricted gift of $500 under its Program of Financial Aid to Higher Education.

Newman Series to Analyze Contemporary Moral Issues

SEPT. 19 - Newman Apostolate Lecture Series this year will ex-
amine the race problem under con-
nection with marriage legislation, fed-
eral aid to education, and other such con-
temporary questions. The series will be
announced by the club president Vincent Os-
noski.

In an attempt to draw Catholic students away from their indifference to the Church's social teaching, Ossow ski intends to in-
stigate this new type of lecture pro-
gram based on answering the questions
frequently thrown against Catholics by such-
non-Catholic writers as Paul Blan-
chard, Harry K. Thomas, C.S.C., and A.
M. BLOOMER, FRIEDMAN AND CATHOLIC POW-
ER.

Charges that Catholic priests tell
Catholic physicians when the life of a sick
person is about to end are a target.

Coach Searches for 'Lost' Freshmen

With the cross country season just around the corner, Coach Bill Smith is busy building a squad that will attempt to equal or better last year's 6-1 record. With the early season peacetime of most coaches, Smith predicts, "a fair season," even though three of last year's lettermen have returned, "losing two of your top free—especially when one was Mai McGawn—presents its problems, but a good freshman turnout has helped matters."

Although cross country is still only an intramural sport at Trinity, it has gathered much interest in recent years. This season alone ten freshmen alone have shown an active desire to participate, while their coaches has been bolstered by seven or eight, fresh- men.

Allen Gardner, a senior, will serve as the team's captain, while returning lettermen, Steve Horne and Bart, holder of the fresh mile record, should strong indication of becoming the barriers' number one man.

Dave Brenner and Ed Mobser are the only other members with any inter-collegiate running experience, but the team does have all its head manager, Bill Chapin, re-turning to lend strong moral support.

Four meets have been scheduled thus far, with the opener coming on October 13, at Trinity with the Coast Guard Academy. The first away meet, with the University of Hartford, is scheduled for October 20, and Trinity travels to Anheurast for a three-way meet with Worcester Polytechnic Institute and the Lanesfield November 9.

Participation in the Eastern finals is also planned, as the fresh will be out to defend the co-championship won last year by the class of '65. The record for Trinity's 3.89 mile course is held by McGawn with a clocking of 16:20:4, Greg Higelow of Central Pennsylvania State College owns the 2-3/4 mile record set with a time of 16:48.4, McGawn's record was established in 1962, while Bigelow set his mark in 1961.

Practice began on September 12, and since then the boys have been averaging between 3 and 5 miles a day in training sprints.

According to Smith, many freshmen showed an interest when the team was being formed; however, when the time came to practice, only two hands appeared at practice and ready to work. The coach said he would appreciate hearing from those unaccounted for.

The Wesleyan freshmen outwitted them for the first time. The tennis team should improve mark for the first time. The tennis team should improve last year will be intact. Barry Leghorn and Hill Gish are potent Redactors
