Hass Claims Only Socialism Could Remedy Capitalistsills

by WILLIAM BLOCK

OCT. 9—Ernie Hass, a nationalist of the Socialist Labor Party, charged tonight that automation will create a job problem that can be solved only by replacing capitalism with socialism. He declared that already "three-do unto others before they do dog-eat-dog" system Which operated in capitalism will create a job problem that can be solved only by replacing capitalism with socialism. He claimed it is a "change of masters" which allows an "un-Chrlstian," he said, "to put to pay tribute to a I wish Ralph Allen were here to see you," Kintner said, calling for "more simple witness" on the part of students, college officials, and political leaders. Would have said he been unusually charged. The representatives from Trinity marched double file through Hartford to the State Capitol, where contingents from the State of Georgia on a responsible and serious mission. By all accounts, he was carrying it out well until August 8 of this year. On that date, as you all know, he was seized and thrust into jail illegally. He remains behind bars awaiting trial on serious charges. AFROTC activities planned for the commencement of the semester; AFROTC activities planned for the commencement of the semester; AFROTC activities planned for the commencement of the semester.

Gov. Dempsey's Statement

Ralph Allen, a young man from our neighboring state of Massachusetts who came to Connecticut to complete his education at Trinity College, has brought credit to our state by his courage and work in behalf of civil rights in the South. I am proud of this Connecticut student. I know that my pride is shared by every Connecticut citizen sincerely concerned for the establishment of true equality throughout our nation.

Ralph Allen's efforts in behalf of citizens seeking to obtain their rights are in themselves an effective answer to those who condemn all the youth and young people of this nation because of the irresponsible antics of a few. Ralph Allen went to the State of Georgia on a responsible and serious mission. By all accounts, he was carrying it out well until August 8 of this year. On that date, as you all know, he was seized and thrust into jail illegally. He remains behind bars awaiting trial on serious charges.

We question whether the violence aimed against such charges; or, indeed, any charges.

The request of the Trinity College Student Senate that there be a complete investigation of the Ralph Allen case by appropriate authorities is a proper and reasonable one. It has my full support, and I have so informed Attorney General Robert Kintner.

You who have responded to the call of the Committee for Ralph Allen to attend this rally are here for a worthy purpose. I commend your presence on this occasion and regret that I am unable to be with you.

My deepest sympathy goes out to Ralph Allen, his family, and his friends and associates.

I call upon all men of good will to redouble their efforts in behalf of the cause of civil rights to make certain that the suffering of these young men is not in vain.
Socialism...
(Continued from Page 1)
In a true socialist society, Hass said that everything affecting the economy would be socialized by the Socialist Industrial Congress, thus forming a non-bureaucratic democracy. The emphasis of the economy would change dramatically, he added, from "how many shoes we can sell" to "how many shoes do we need." He claimed that this would produce a different landscape of values that people need, thus abolishing the concepts of competition and profit.
During the question and answer period which followed, Hass answered queries about specific concepts in his socialism with "This is the hypothesis of socialism," Questioned concerning control of national defense, he explained that socialism would also be world-wide, that the international friction "caused by capitalism" would be erased, and thus that there would be no need for national defense.

touch with Allen's case, and Dodd reminded that notices about their situation in Americus can be called the Americus situation "one of the most glaring examples" of the misuse of the law, "We must protest" the misuse of the law, Dodd stated.

GERMAN TEACHERS

The American Association of Teachers of German will meet tomorrow in Wean Lounge and Hamlin Hall.

ANYTHING ELSE?

In case we have forgotten anything else, this space is devoted to those who wish to tie a string around their finger instead of reading.

Campus Notes

GREEK SLIDES
A program entitled "Traveling in Greece" will be sponsored by the Greek Slide Society. The lecture will be presented by Peter Perhonis who will present film clips and commentary. Coffee will be served.

SOCIETY MEETING

The seniors class will meet on Wednesday, at 1:00 p.m. in the Chemistry Auditorium.

TEXTBOOKS RETURN

Textbooks will be returned before beginning Monday. Students are therefore urged to purchase what they need now.

Oct. 8—David L. Charlesworth was today elected president of the class of 1966. In an election in which 182 out of 270 sophomores voted, or 67.4%, Bill Black was chosen secretary-treasurer.

Campus Notes

All organizations on campus are reminded that notices about their events should be brought to the Tripod as early as possible to ensure inclusion in Campus Notes.

There will be a dance at Sarah Lawrence College, this evening.

A mixer will be held tonight at 8 p.m. in a common room at St. Joseph's College.

Did you know that a total of 402, or 78 per cent, of 1903 graduates may have been able to graduate if they had not been inducted into the armed forces? Did you know that a total of 402, or 78 per cent, of 1903 graduates may have been able to graduate if they had not been inducted into the armed forces? This is why we need to support our military and our veterans.
Letters to the editor

For TRIPOD will publish letters arising out of the experience of the college community. Letters may be on any topic, as long as they are intelligent and must meet the canons of good taste. Letters will be published but names may be withheld at the request of the writer.

The 1963 IVY chose as its theme a bell. If the Trinity man is as this production suggests, the bell has chimes of music in its lap, because the horizon-the chart of hope, the hope of which the class of 1964 can pre- fer, the possibility that they can live for life with an attractively honest such as this if they investigate the plans for their future. It seems to me, however, that the a part of Trinity life to be sure, but that the majority of them have heads and feet.

I showed the IVY to several friends. They were more than satisfied: ""Friend, what is this Trinity?"" ""It's a movie,"" I answered. They readily gave in to freely exhibiting this book.

Richard L. Kroll '63
To the Editor:

Last we should upset it in our haste to get on the "Right the wrongs done to Ralph Allen" band wagon, let me step back and analyze the situation. Ralph Allen was not wrong. From what I have been able to learn (and I'll readily admit that I've least Ralph Allen's research and information), Allen is a rather disreputable person, one who, unable to find the overwhelming acceptance and admiration that he sought at Trinity, decided to try to accomplish this by going to the South to stir up trouble in the guise of "a savior bringing freedom to the downtrodden masses".

I have been able to learn (and I'll freely admit that it's at least perhaps the class of 1964 who are as Ralph Allen and his "freedom worker" cohorts would have it. I say, "What right have they that they are not wanted in the South?" Why should they, who have no natural right to do so? I simply don't see which have existed for at least a century and a half, come down to them. I simply don't see which have existed for at least a century and a half. It is because Allen and his "freedom worker" cohorts have not the right to do so. I simply don't see which have existed for at least a century and a half.

The population explosion, I say, is upon us. Yes, science will ultimately solve the problems arising from the population explosion, but meanwhile America's colleges are in dire straits. Where can we find chemists and teachers for today's gigantic influx of students?

Let's see what the solution is to adopt the trimester system. This system, already in use at many colleges, eliminates summer vacations, has three semesters per year instead of two, and compresses a four-year-course into three years.

This is, of course, good, but it is good enough? Even under the trimester system the student has not solved his days off. Moreover, his nights are utterly wasted in sleeping. Is this the kind of all-out attack that is indicated?

I say, no. I say desperate solutions call for desperate remedies. I say that partial solutions will not work. I say we must do no less than go to school every single day of the year. That is not all. I say we must go to school 24 hours a day, every day.

The benefits of such a program are, as you can see, obvious. First of all, the classroom shortage will disappear because all the dormitories can be converted into classrooms. Second, the teacher shortage will disappear because all the night workers will be put to work teaching solid state physics and Restoration drama. And finally, overcrowding will disappear because everybody will go to school.

Any further questions?

Yours, a new friend

On Campus

1. Yes, our further questions: the makers of Marlboro, who sponsor this column, would like to know what you have tried a Marlboro lately? It's the filter cigarette with a man's world of flavor. Settle back and enjoy one soon.

2. Found: One potted elm, near vicinity of busy Jones in- tersection at morning rush hour. Condition, slightly flushed but due to elm blight. May not be claimed at Tripod Office.

McDaniel Photo

BOOM!

Today, forewarningly, let us turn our keen young minds to the principal problem facing American colleges today: the population explosion. I say, no. I say desperate solutions call for desperate remedies. I say that partial solutions will not work. I say we must do no less than go to school every single day of the year. That is not all. I say we must go to school 24 hours a day, every day.

THE CROSS COUNTRY season opens next Tuesday, Oct. 15, and in anticipation of this date, the members of the squad are undergoing rigorous daily work outs. Here they improve before their running. Last Tuesday the harriers jogged a distance of 11 1/2 miles around West Hartford. When they meet the Coast Guard Academy, however, the distance will "only" be 3.89 miles.

Improve teamwork Enables Booters To Clip U. of Mass. In Close Contest

By MIKE WEINBERG

The Bucknellians, who have won six of the last seven contests against the university, shot after 1:08 of playing time in the second consecutive soccer game of the year against Tufts, who has lost to Bowdoin and Colby so far this year will come to Hartford Monday for their first season victory.

The victory was doubly pleasing. Not only did the Bucknellians come from behind to up-end one of their strongest opponents of the season, but they gather before their running. Last October 9--The Bantams won their second consecutive soccer game of the year against Tufts, who has lost to Bowdoin and Colby so far this year will come to Hartford Monday for their first season victory.

The visitor's Tom Astaldi began the maneuvers of the Blue-and-Gold with an unearned goal of 0-4. The booters have sustained by Krai Prillaman, Dee Lumbard, and Gold several minutes to get back on the scoreboard. A well-placed shot by the bench last season. Doran, Doran, who at halfback was the most accurate passer in most cases, very effective.

It was no indication of the game that was being played. The Bucknellians did a masterful job of containing the ball and most of the first half was played deep in the Massachusetts territory. The passing and dribbling were, in most cases, very accurate, and the maneuvers of the Blue-and-Gold look very smarting opportunities. Hays away from the visitors. Goulet Bill Schindler did a fine job, although he was "hung up" to make an over-abundance of saves. Massachusetts, which boasts an honorable record throughout the season at right-back, has now a season at right-back. Massachusetts has faced extremely tough opposition in Army, Williams, and the Coast Guard Academy.

Strong Defensive Jumbos Could Hamper Jessemen

by Jack O'Neill

The Bucknellians won their second consecutive soccer game of the season by outscoring a strong University of Massachusetts squad 5-3 today.

The visitor's Tom Astaldi began play by blasting the ball into the net for the tying goal. To add to this frustration, Astaldi not only tied the score, but also caught out of the cage, but In any case took his shot after 1:08 of playing time.

The 15th and final Trinity tally came in the final quarter. Bob Bob, Long, a 5'-9" 183 pound junior has seen a good deal of action over the past two years. At the tackles will be Steve Morai, 5'11", 150 and Bob Kolewe, 5'10", 185. The two ends, co-captain Tim Brannan, 6'2", 200, and Pat McDevitt, 5'10", 185, will provide the Jumbos with a formidable scoring punch. As a whole, the team is a 6'-2", 172 pound junior who is looking for his first letter, Doran Smith, a Junior who is G'0", and Gold several minutes to get back on the scoreboard. A well-placed shot by the bench last season. Doran, Doran, who at halfback was the most accurate passer in most cases, very effective.
