Allen Released In Georgia; Law Is Unconstitutional

CONGRESS, Ga., Nov. 1—Ralph B. Allen, 26, a student at Savannah State College, was freed today after being held since May 15, 1961, as a suspect in a demonstration for civil rights.

Allen was imprisoned as the result of a federal court decision that the 1957 statute was unconstitutional. The three plans Thomas, McIntosh, and Sallie Max Durrham, and Zor Asley were freed on bond totaling 311,150.

In reply, the Grand jury will try them on charges of rioting, arrest, assault with intent to morder, and rioting. The second charge carries a maximum sentence of five years.

Also passing are charges the city has lodged, Thomas, McIntosh, and Sallie Max Durrham, both local citizens, were jail tonight, and their bonds are set at 30,000 each. Councilman James W. Jones announced his intention to bring the cases to a new trial, this, violating a state law.

Allen explained, after the decision, that he had no immediate plans for the future. He hopes to see Governor Demsey sometime during his brief stay in Hartford today and to discuss the plans for his return. He wants to revisit his school and the city as well.

Poli-Sci Plans Campus Debate

Nov. 5—The "campus-wide" debate on Public Accommodations, will be sponsored by the Political Science Club and the American Constitution Club. It is the third debate and will be held at the Philo Lecture Hall according to the "plan" to which the spectators will be treated.

The debate is the result of a proposal by the Student Nonviolent Coordinating Committee. The minority of the majority in the audience will be permitted to join the debate, the directors of the political science department said.

The debate will be held at Trinity College. The date of the debate is November 26.

Library Study Ready For Use

Nov. 4—Library Study Room is ready for use today. The library has set aside a study room for students to use. The area is available for use during the day, but is not available for use during the evening.

The area is located on the first floor of the library and is available for use by students. The library staff is available to assist students with their research needs.

Series to Question Tax Exemptions of Churches

Nov. 4—Are organized religious groups taking advantage of their tax-exempt status to go into business and compete unfairly with private businesses located within heavy tax areas? By T. NIELS

The Rev. Richard Sabo, the president of the church, will speak on this issue on November 8th, at 8:00 p.m., in the Political Science Club and the Newman A.

In his lecture, he will attempt to prove his argument that the church has advantages in certain areas, and that these advantages should be considered when determining the tax status of these groups.

The speaker will discuss the problems of churches in the area, and will offer suggestions for improving the current tax laws.

NILES PROPOSED that the class privative to be made members of the Special Committee which would study the tax laws.

By BRUCE FRIER

The Constitution and amendments reviewing the organization and elections of class officers were held for the consideration of the members.

The three SNCC (Student Nonviolent Coordinating Committee) members were freed of charges that they attempted to violate the United Nations' settlement agreements.

The three plus Thomas and Schwartz '64, President of the American Constitution Club, expressed their anger at the decision.

The club, to be known as the Herman Crown Investment Club, has "complete control of expenses." The club, which consists of students majoring in economics, is sponsored by Professor Leon E. Burt.

The club was organized as a way for students to learn about the stock market and to gain experience in managing a portfolio.

The club has a $4,000 portfolio, said Schaefer, added, and "is a group of friends who have "complete control of expenses." The club, which consists of students majoring in economics, is sponsored by Professor Leon E. Burt.

The club was organized as a way for students to learn about the stock market and to gain experience in managing a portfolio.

The club was organized as a way for students to learn about the stock market and to gain experience in managing a portfolio.
In the following article, Professor Richard Bloomsteln '64, of the Trinity College history department, examines the role of honor codes at colleges and universities in the light of what is occurring at Trinity.

The foundations on which an Honor System may be built are of primary concern to any college or university that administers an honor code. One basic question asks whether a student who is presumed fundamentally honest has learned to bear the responsibility for his own actions.

In the introduction to a booklet explaining the Honor System to all entering freshmen, one answer may be found:

"The Honor System is Wesleyan's most important tradition. It is a voluntary system based on the personal integrity of its members... It is founded on the principle that men, each man, faces his own responsibilities, carries them out honestly and is capable of judging himself objectively."

Occidental College carries the analogy one step further, there, the Honor Spirit lies within you, and consequently, what it depends on is what you decide to do. Honor is not a slightly different for each student; an individual student's sense of honor is shaped to a great extent by his environment throughout his college life...

What remains steadfast throughout the history of the Honor System is merely a matter of personal integrity. It is not a requirement of the system and their obligation is to the point at which the system is applied to the everyday life of the student.

Whether one prefers "honor" to "integrity" will not change the consequence, for the name attached to the system is merely a matter of personal preference. What remains steadfast throughout the history of the Honor System is that no one student's adherence to it is periodic or arbitrary, but that each student's adherence will be observed with the same care that any honor code will be observed with the same care that any honor code, for it is not punitive.

The witness of a violation and the payment of a fine or any other penalty, if a conviction is determined, is not punitive.

If a conviction is determined, the penalty is determined at the discretion of the Committee on Academic Standing, and the hearings are determined at the discretion of the Committee. If a conviction is determined, the penalty is not punitive.

Various measures are taken to strengthen the effectiveness of the honor code. In the face of violations, a special committee is established to determine if the violation is merely a matter of personal integrity. If it is, no conviction is determined. If it is, no conviction is determined.

Any formal investigation of fraud may be conducted publicly or privately by the honor code committee. The student will be advised of his rights, and a hearing will be held. The hearing will be conducted by a member of the Academic Board.

The primary goal is to further the student's understanding of the honor system. If the student does not understand it, he will be advised of his rights, and a hearing will be held. The hearing will be conducted by a member of the Academic Board.
It's a snap with *Arrow*

"For want of a horse, the battle was lost"... so said the poet, but never let it be said that if you want to avoid sticking your collar button your date was lost after washing.

Decton (65% Dacron*, 35% Nylon) has a secret weapon to ensure perfect fit washing after washing. Keep that date in an ARROW button. The material is designed to retain its shape and prevent puckering, even after repeated washings. It is easier to tab collar without the fuss and fumble of a collar button.

CREDITABLY ACTED

The cast acts creditably with Colleen Dewhurst turning in a flawless performance in the role of the manish, insouciant, Miss Amelia. Michael Dunn and Eddy Markey, who plays the goody old maid, are the best of the supporting actors with their colorful presentations.

Low Antonio is hot and cold, but he is very impressive as the unrefined lover in the scene following the end of his ten-day marriage when he dictates a letter to Amelia (Miss Markey). In the later scene, Low Antonio is about to call the Northern Student Movement and ante up his ante.

The Northern Student Movement's efforts are the result of a constructive program and a firm of Blakey, Miller, and Hines, Hall management and not to the college staff who based their decision on an exhaustive study of prices in competing restaurants which creates a mysterious feeling that others were taking their place. The Chairman of the Senate Subcommittee to investigate Caffeine prices announced last night that in his effort to combat this situation he will not allow for an intimacy or conversation with the customers. He is trying to improve the service and actions are often confusing because of their solitary nature.
President Albert E. Holland at a dinner in honor of Dr. Shepard on Thursday night, said Morse Allen Thursday night. His own ideas for the conversation of young men. And, as young men, we are more eager for the opportunity to talk with him.

We hope that the college will invite Dr. Shepard to lecture monthly. Moreover, we hope that Dr. Shepard will consent to meet with students for a more intimate exchange of ideas every two or three weeks at his home in Waterford.

It is our wish that the College will create a limited enrollment non-credit seminar course for selected junior and senior English majors. And it is our belief that students will value highly this experience in their college careers.

Odell Shepard recalled that when he approached the College for the first time, he was wary and in his "homelike dignity" and had decided, "This is the place for me."

We think so, too, Dr. Shepard.

Once a Week

This week, after publishing a twice-weekly paper for almost two years, the TRIPOD returns to publishing once a week.

The editors are not pleased to take this step. The history of the TRIPOD has, in the past few years, included many significant improvements, among them being a twice-weekly publication, the change to tabloid size pages, and the utilization of the photo-offset printing process.

In view of these improvements, the return to once-weekly publication appears to be a step backward. In a sense it is, but perhaps not so great a step as might be thought.

Our feeling is that we have not been able to make the TRIPOD, as a college publication, really worth the time we spend producing it. Many journalists, we take pride in the way our newspaper looks, and in the way it presents the news. We are concerned with accurate stories, well-written stories and headlines, attractive makeup, and intelligent analysis of current issues.

And in the course of producing a twice-weekly paper, we have discovered that we do not have adequate time to spend reading the aspect as are given proper consideration.

Therefore, we have decided to suspend publication of one paper a week, in order that we may devote ourselves to the production of one fine newspaper for the student body and our subscribers.

On February 5, 1962, when the TRIPOD began (twice-weekly publication) we said that "our success as a twice-weekly... will not be determined so much by our ability to put out a paper twice a week, but in the campus' willingness to grow along with us. We need your letters, articles, reviews, and opinions to succeed in this undertaking."

We still urge this support. For it is with pride that we abandon the Friday paper. We have been successful, until recently, as a twice-weekly paper, and we hope that support will continue to grow until we can once again fulfill the duties necessary for twice-weekly publication.

Another Increase

Why the Tuition

New Tuition Schedule Compares
To Those of Colleges

The median annual tuition cost for a student enrolled in a private liberal arts college in the United States (continental and Hawaii and Alaska) was $1,600 in 1962-63.

For those enrolled in a public university, their home state it is $1,700 while for out-of-state students the average cost is $1,250. Education is more expensive in the North Atlantic states, ten per cent of all North Atlantic higher educational institutions have charges of at least or over $1,475, in the accompanying chart, Trinity's current tuition of $1,400 a year is consistent with charges of other prominent institutions of the North Atlantic area.

This data was obtained from current copies of the school catalogues found in the library. An extensive cross section of student costs at educational institutions across the country is found in BASIC STUDENT CHARGES, 1962-63.

According to this publication, there are only five colleges in the United States that had the present time tuition and fees costs higher than the announced tuition and fee costs ($1,800) for Trinity this year.

The colleges and their present and future tuition costs are Bard ($1,800), Smith ($1,800), Sarah Lawrence ($1,800), Wellesley ($2,020), Bennington ($1,950), and Bennett ($2,000).

Trinity's current combined tuition and fee costs are $1,400.

TRIPOD returns to publishing once a week paper for almost two years, the TRIPOD might be thought. In view of these improvements, the editors are not pleased to take this step. The history of the TRIPOD has, in the past few years, included many significant improvements, among them being a twice-weekly publication, the change to tabloid size pages, and the utilization of the photo-offset printing process.

In view of these improvements, the return to once-weekly publication appears to be a step backward. In a sense it is, but perhaps not so great a step as might be thought.

Our feeling is that we have not been able to make the TRIPOD, as a college publication, really worth the time we spend producing it. Many journalists, we take pride in the way our newspaper looks, and in the way it presents the news. We are concerned with accurate stories, well-written stories and headlines, attractive makeup, and intelligent analysis of current issues.

And in the course of producing a twice-weekly paper, we have discovered that we do not have adequate time to spend reading the aspect as are given proper consideration.

Therefore, we have decided to suspend publication of one paper a week, in order that we may devote ourselves to the production of one fine newspaper for the student body and our subscribers.

On February 5, 1962, when the TRIPOD began (twice-weekly publication) we said that "our success as a twice-weekly... will not be determined so much by our ability to put out a paper twice a week, but in the campus' willingness to grow along with us. We need your letters, articles, reviews, and opinions to succeed in this undertaking."

We still urge this support. For it is with pride that we abandon the Friday paper. We have been successful, until recently, as a twice-weekly paper, and we hope that support will continue to grow until we can once again fulfill the duties necessary for twice-weekly publication.

One of the main reasons for the increase in tuition is that the College wants to be in a better position to secure outstanding teachers. As one of the 2,065 recognized institutions of higher learning, it is in a very competitive market. According to a recent survey by the National Education Association, there were 499 teacher vacancies on the college level, even though more critical is the fact that of all outstanding Ph.D.'s in 1953-54, 31.4 percent had Ph.D.'s. In 1955-56, Ph.D.'s. In 1955-56, N.B. Except for Amherst and Harvard those costs are for the current yr.
The $250 tuition increase is not designed to meet rising current costs or to extend the services and be in a better position of preserving a superior faculty, the trustees inform you. It will provide the College with additional funds which will help in the future, and to provide the same constant financial support to the College that it has to offer.

By this small increase, the College is providing the means for extension of services. Specifically, this tuition increase mentioned the increased needs of the library and the Fine Arts Center. Currently, for example, there are two people working full time in the library just buying books, because the demand is overwhelming.

### A Position by Wealth Alone?

The tuition rise, the trustees believe, will not only be an increase but also a necessity. The trustees believe that this increase will not only provide the College with additional funds but also help in the future and to provide the same constant financial support to the College that it has to offer.

### The Brookside

A good place to meet

(Author of "Rally Round the Flag, Boys!" and "Beyond Boy With Check.")

### I Was a Teen-Age Slide Rule

In a recent learned journal (Playboy) the distinguished board chairman (Ralph "Hot Lips" Sigafus) of one of our most important and influential corporations (the Arf Mechan- 

ical Dog Co.) wrote a trenchant article in which he pinpointed our single most serious national problem: the lack of culture among American youth.

Let us hasten to state that Mr. Sigafus's article was in no sense derogatory. He said emphatically that the science graduate, what with his grinding curriculum in physics, math, and chemistry, can hardly be expected to find time to study the arts too. What distresses Mr. Sigafus—and, indeed, all of us—is the loquacity of today's science courses: graduates who can build a skyscraper but can't compose a concerto; who know Newton's Third Law but not Beethoven's Fourth Symphony.

**The \** **Bespoke result of today's science**

Who are familiar with Franklin's laws but not with Shelley's.

Mr. Sigafus can find no solution to this lamentable imbalance. He, however, believes there is one—and a very simple one: It is this: if students of science don't have time to come to the arts, then the arts must come to students of science.

For example, it would be a very easy thing to teach poetry and music right along with physics. Students, instead of being called upon to take physics or poetry, would be offered both, and then be required to rhyme their answers and set them to familiar tunes—like, for instance, the stirring Colonial Bogy March. Thus recitations would not only be done but would become important facts but would, at the same time, expose the students to the aesthetic delights of great poetry and music. Here, try it yourself. You all know The Colonial Bogy March. Come, sing along with me:

**But what is it praiseworthy to know?**

You will find yourself projecting yourself into the minds of the crescent colleges,

The costs of College Double in Decade; Library Budget Increases Fourfold

Among the most significant changes in the expenses of the college is the doubling of instruction and library costs, two areas vitally connected with the main purpose of the college—education.

All expense categories have increased, most having doubled, but sharp rises were noted in administrative and scholarships costs, each of which has tripled in this ten-year period of 1950-51 to 1960-61.

The role of contributions from alumni and other concerned sources has become increasingly important in preventing deficits from occurring.

Over the last ten years the share of expenses of the General Expenditures devoted to faculty salaries has increased from 46.4 per cent to 56.5 per cent. These percentages not only include outright salaries but also increased social security and other benefits such as insurance and reimbursals.

The cost of the library has tripled if last year’s total of $132,500 is considered instead of the 1960-61 figure of $303,624.98.

The cost of student activities has more than tripled. The figure for 1960-61 does not include the cost of operating the Student Center. The costs for this last year were $72,870, almost double that of its first year of operation.

The increase in scholarships funds is almost four times what it was in 1951, it has increased from $61,045.40 to $214,031.00 in 1960-61.

Amendment to the By-Laws

IV. Functions of Class Presidents

1. Each class president shall be a member of the Senate and shall be considered as having the same status as all elected Senators.

2. Each class president shall call a class meeting 90 days prior to the planned date for the class social function to present his plan to the class for consideration and approval.

Amendments to the By-Laws

II. Dates of Election

The date of election shall be announced in the Calendar of Events, the exact time and place designated when necessary. The date of the election for rising sophomore class president and rising junior class president shall coincide with the Senate budget committee. The election of the rising senior class president and the rising senior class marshalls shall be held two weeks following the election of the Senate executive committee.

### Senate...

(Continued from Page 1)

The Senate also acted on a motion proposed by Senator Keith Watson '64 concerning the campus religious requirements. The motion repeated similar requests from previous Senators asking for the total repeal of religious restrictions.

Watson noted there was no apparent relationship between the chapel endowment and the continued existence of the chapel requirement.
Injury-Ridden Trin Faces Revenge-Minded Amherst

Trinity just three games ago was on its way to an undefeated season, or so many people believed. Now 5-3, the Bantams face Amherst next Saturday at 1:30 p.m. on Pratt Field. This will be the fifth meeting between the two clubs, with Amherst holding a 2-3-0 series edge.

Last year the Lord Jeffs were Little Three Champions with a 7-1 record, their only loss coming in the field at the Pidgins as they set the then undefeated Saintags 25-0. After their 7-0 rout over Tufts last Saturday, Amherst now stands 3-3. It's only loss coming on its way to an undefeated season, or so many people believed. Now 3-3, the Bantams face Amherst next on the home field at two o'clock Saturday.

The ground game rolled up 125 yards on 34 carries. The fine running of these frosh backs indicate that the varsity's weak running game could receive considerable help next year. The frosh will meet Amherst next on the home field at two o'clock Saturday.

CUBS TRIP WILLIAMS Saturday, 12-0. Two Joe Moore runners, finishing 14, 16, and 17, respectively. The frosh will be senior Rick Jarvis, 5-7, 170. The quarterback will be senior Wayne Knits, 5-10, 175, who is an accurate scalawag passer but an in-experienced runner.

The Bantams on the other hand are still reeling from. With few exceptions, such as John Ferrich and Bruce Macintosh, not one member of the Bantams first team is in top physical shape. Captain Joe McDermott, who has lettered since his sophomore year, Hebbel, 6-0, 180, has deceptive speed and a stand-out on defense. Another three-year letterman in senior and John Haydon, 5-9, 175, who will be the target in the Jeffs aerial attack. Amherst's strong ground attack is led by senior end John Haydon, 5-9, 175, who is an acc-

Bantam Briefs

PHI PSI WINS

While the varsity football team has been having its troubles recently, other gridsiron teams on campus have been more successful. Amidst the usual number of broken bones, sprained ankles, and muscle pulls, Phi Psi emerged victorious in the Intramural League.

The National League champions, after two rugged play-off games against Sigma Nu, beat Tufts Tuesday, 12-0. Two Joe Moore runners, one to Bob Morrise and one to Dick Towe, led to 12 points, with the other two scoring on a game-ending safety. AD was the run-up to TX in the American League.

FROSH BRAW WES

The Baby Bantams showed good ground strength in their 21-7 conquest over Wesleyan Friday. Mike Caruso and Tom Sanders swept the Cardinal ends to rack up large gains with each scoring a touch-

Coast Guard Sails Past Trin, 45-20

by BILL LINN

NEW LONDON, Conn., Nov. 2 — Trumbull victory from part of an undefeated football team, the Cadets of Coast Guard overwhelmed Trinity, 45-20, for their third straight win in a row and sixth this season. The defeat leveled the Bantams' record at 3-3, and their third straight loss marked the first time in more than five years that the Jessewomens have dropped that many in a row.

Under drizzly overcast skies and with a bitter wind blowing off the Thames River, the partisan crowd of about 3,000 saw the high-flying Bears dominate their Hartford rivals in every phase of the game. It was even worse than the final score would indicate, as Coast Guard led 9-0 before the Bantams scored twice in the final minutes on long pass plays to give the hundred-odd Trin fans a chance to cheer.

For Cadet coach Otto Graham, it was possibly the most enjoyable afternoon since he retired from the Cleveland Browns, as his pro-type offense piled up 283 yards on the ground and ran 29 yards on the ground to Trin's 20, outgained the Bantama 321 yards to 214 through the air, and led 21-0 in first-half action.

Quarterback Ed Barrett turned in a passing performance reminiscent of Graham Vincente. The stellar senior (or "third-classman" in Cadet parlance) completed on of 23 attempts on a rain-soaked field, two for touchdowns, as he picked the Blue and Gold defense for square yardage, and it was a singlehandedly destroyed the All-America defense, Coast Guard moved in again, 48 yards down field, and led 21-0 in first-half action.

The Cadets' QB had able lieutenants in halfback Gerry Zanolli, another soph, and fullback Bob Doughall, a third-year man, who accounted for five points on two conversions and a 23-yard field goal, but it was set a totally successful day for Barrett with devastating passing options, he accounted for two touchdowns, as he picked the Blue and Gold defense for square yardage, and it was a singlehandedly destroyed the All-America defense, Coast Guard moved in again, 48 yards down field, and led 21-0 in first-half action.

The Bantams went into the game with a man picked off a Yavinsky pass made it 15-0. Zanolli's option pass to Maka made it 15-0.

The Coast Guard charge was led by guards Jim Thompson and Andy Horsey, a 175-pounder, and center Joe Hourihan (Dee Zanolli) converted to Horsey, Allen converted to follow up the blocking of Thompson and Horsey, Allen converted to make it 34-6, then added three more points a few minutes later with his fourth field goal of the season.

The Cadets took the ensuing kickoff and made a sustained drive deep into Cadet territory on their own 20, and could not be stopped on a determined goal line stand. The key play came on third down at the Cadets' one, when Yavinsky elected to roll out and was thrown for a 24-yard loss that was the turning point, from dawn it was all downhill for the Cadets, as Yavinsky was knocked off balance. The Bears' big threat, Coast Guard marched 95 yards in seven plays to rack up another one.

The Bears dominated their Hartford rivals, and also plunging for a touchdown, as they scored twice in the final minutes on long pass plays.

Coast Guard wasn't through, though. Zanolli scored their next touchdown on two passes in the second and third quarters, both to Doughall who jaekknifed to stay in bounds in the corner of the end zone, but were stopped by the Bears' defense.

The Bantams finally scored with 2:55 gone in the game, as they completed the appraisal on a 40-yard plunge by Joe Hourihan (Dee Zanolli). Zanolli's option pass to Maka made it 15-0.

The Bantams found scoring the second half, after receiving the kickoff and returning it on their own 15, the Cadets chucked off a TD in 12 plays. The last of these was a 35-yard scoring strike from Barrett to Peterman, who was 15 yards behind all Trin defenders, and led 21-6.
