MARCH 3 -- Dr. Murray S. Stedman, who has recently retired as chairman of the government department here after a 37-year career in the university, has been named to head the 10th Air Force, Washington, D.C. Dr. Stedman, 62, a political science specialist for 30 years as an Economist, "is one of the 'Economic Journal', one of the leading periodicals in economics, and has written THE SIGMA of the department of mathematics at the University of Michigan, "UNESCO in Paris, "Dr. Stedman's book, RELIGION AND POPULATION IN AMERICA, will be published this spring by Harper & Brothers." Some of his other works include EXPORTING ARMIES, 1915-1917 which of which he is co-author with his son, John P. Roche of Brandeis University, is announcing Dr. Stedman's appointment, Dr. Jacobi said: "Trinity is exceedingly fortunate to get a person of Dr. Stedman's stature and ability to become the chairman of the important Department of Government...."

LECTURES LAST WEEK

Dr. Murray S. Stedman

FEB. 25 -- Dr. Cecil J. Neubt, professor of mathematics at the University of Michigan, explained how "the advent of electronic computers has greatly increased the actuary's power to develop refined models."

Dr. Neubt, High-Pothesis Lecture Hall on "Some insurance Models from Risk Theory and Other Sources," Dr. Neubt reviewed the basic mathematical models that the insurance actuarial community systems, and showed that the use of electronic computers have greatly increased the actuary's power to develop refined models.

The main task of risk theory, Dr. Neubt said, is to study deviations between the results predicted by the actuary's mathematical models and the actual behavior of insured groups. These deviations occur, he observed, because the insured group is only a finite sampling from the entire population.

Dr. Neubt is associate chairmen of the department of mathematics at the University of Michigan, which is currently on sabatical leave from the University, and together with Mrs. Marvin Butcher, lecturer in mathematics, has written a book, THE MATHEMATICAL THEORY OF INTEREST.

FEB. 25 -- Four members of the student body brought the civil rights movement to campus last Thursday by leading a demonstration in the "Economics Journal," one of the best known being "Economist," Gen. Whisenhunt.

Gen. Whisenhunt To Be Speaker

Major General James F. Whisenhunt, USAFR, now retired and a colonel in the Air Force Corporation and the Martin Aerospace Company will be the guest speaker at the spring concert to be held by the AFROTC next Monday, at 6:30 p.m. in Hamlin Hall. Gen. Whisenhunt, who was special assistant to the chairman of the Chiefs of Staff, 1965-1969, was the assistant Deputy Chief of Staff, 1945-1946, and a colonel during World War II in China, Burma and India, as a fighter pilot and went on to become by the end of the war Chief of StrategicTrinity Tripos

Chairmen Named

Senators Set Stage

by BRUCE W. FRIER

Senators Louis Hainsworth '65, and William Worthy '66, two of the four co-chaired a committee of the Senate that was charged with the appointment of the important Department of Government, which has been vacant since last year. Dr. Stedman, who has "abused freedom of expression," has been appointed to the position of the "Best Reverend John Doe," announced the suspension of the newspaper until April 1, on the grounds that the newspaper has "abused freedom of expression."

"There have been misrepresentations of facts when the newspaper has been published," the editor added, "An unworthy spirit of cynicism has characterized the "Suffield's Daily News," which has been a "Medusa's" relationship, the proposed foreign student scholarship programs, respectively. The two alternate delegates are John Roxette and Bob Moss, Students Riot At Seton Hall

An estimated several hundred Seton Hall '67-Newark students demonstrated for nearly half an hour last Thursday, protesting the suspension of their college newspaper. Students and police using fire hoses ended the protest.

The student newspaper, "The Seton Hall Reporter," was suspended last week because of an editorial that attacked the administration and the college's policies. The students say the suspension was in retaliation for their coverage of the student government and its activities.

The students plan to appeal the suspension to the university administration.

They have been told that the newspaper will be restored to publication if they agree to abide by the terms of the agreement.

The students are demanding the resignation of the university president and the replacement of the editorial board with faculty members and students.

They also want the newspaper to be run on a non-profit basis, with funding from the university and the student body.

The students say they will continue their protest until their demands are met.

The university administration has said it will not restore the newspaper until the students agree to abide by the terms of the agreement.

The students say they are not authorized to speak for the newspaper and that they have not been consulted about the suspension.

They say the suspension is an attempt to silence criticism of the administration and the college's policies.

The students say they will continue their protest until their demands are met.
Alfred a record sale sponsored by the Glee Club will be held Friday, March 6, in the Cardroom of Mather Hall, Works by Beethoven, Brahms, Bach and the Beatles will be on sale.

Professor Edwin P. Nye will discuss "Why I Worship With the Hartford Times" in the Chapel on Thursday at 4:30 p.m. All are invited to attend.

The Triumph Trip

Two Views of Man's Lust

By DAVID NOREIK

The Jesters presented two suspense-packed productions of Maeterlinck last season. 'A Man for All Seasons' is a play based on the life of Erasme, a pragmatic humanist who was unable to reconcile his beliefs in humanism and science with the superstitions and superstition of his time. 'The Absurd' is a play by a Belgian writer who believed that the universe is a cruel and violent place where man is but a cog in the machine of existence. Both plays were performed by a small cast directed by the Jester's regular director, and were well received by the audience. The Jesters also presented 'The Elixir of Love', a comic opera by Giacomo Puccini, which was performed by a cast of seasoned singers headed by such well-known performers as Tagliavini and Tito Gobbi. The opera was directed by the Jester's regular director, and was well received by the audience. The orchestra was well rehearsed and provided a fine accompaniment to the singers. The chorus was well-rehearsed and provided a fine accompaniment to the singers. The performance was directed by the Jester's regular director, and was well received by the audience.
A College Primer

"Look, Jane, Look."

"See the word."

"The word is apathetic."

"What does it mean?"

"It means to be happy."

"Oh, let's skip rope and be apathetic."

(We hope the rope doesn't wear out!)

Freshman Advisory Council

For some time, the nebulous comments of freshmen and sophomores, in criticism of the Freshman Advisory Council, have precipitated a palpable malaise throughout the whole system. The reason is, of course, the lack of advice given by many of the participating faculty members. However, according to Dr. M. Curtis Langhorne, Chairman of the Council, the purpose of the FAC is "to get the students to solve their own problems", and to develop a peer who can think on his feet.

I think that the Council is largely a failure, for too many students relate accounts of advisers' signing permission for course schedules with only cursory examination and frequently no examination. Other students claim that advisers are not even familiar with their advisees' names.

Perhaps it is time for a change.

Under the present system, the Freshman Advisory Council appoints faculty advisers after conferring with the Dean of Students and the Registrar. Some 50% of the faculty is drafted this way.

Before appointments are made, those professors who indicate that they are not interested in becoming advisers are discharged. All of the prospective advisers then have to be cleared with department chairmen in the event that some faculty members already have a full complement of advisers for the major.

The problem of an already appointed adviser's refusing his position "has never been put to a test," also according to the present Council chairman.

Finally, new advisers are given an adviser's manual, which includes a discussion of the policies of the advisory council, hints about what to do and not to do, and mention of referral services open to students with emotional problems. A list of faculty advisers in September, however, throughout the year are intended to keep the adviser in touch with developments.

The council, reports Dr. Langhorne is doing a "pretty good job...as good as you can find anywhere." He further notes that freshmen who are probationers and fewer have been required to withdraw from Trinity than previously, partly due to the admissions department.

What about the faculty advisers, however? Happily, some advisers do take a sincere interest in their advisees and are a real aid. But what about that great quantity of apparently unconcerned men?

No Invitation

To the Editor:

The TRIPD's February 18th issue brought to your readers' attention that there still remain some apparent conflicts with regard to Dr. Meade's proposal to visit South Africa for the purpose of "concentration camps." If there is still such a conflict, then the intent of this letter shall be to clarify any misunderstanding that might still be present.

First, Dr. Rhodose was correct in his statement that no official invitation had been offered to Dr. Meade. It will be remembered that the concept of an invitation arose from my letter published in the TRIPD's December 3rd issue. The idea came about during a conversation with Dr. Rhodose. The following is in part what I told him:

"Recently a number of British newspapers ran a series of articles on South Africa. In several of these articles, accusations similar to Dr. Meade's were made. (a) concentration camps exist in South Africa. If there are then the presence, the South Africans are tied to this newspaper to see for themselves whether or not what has been written was true. Only one accepted the challenge. Their journalist did not find any such camps, the statement was recanted with a front page story..."

I then assumed that this was an open invitation to Dr. Meade, who was eligible to make the trip and accordingly included it in my article. However, it is understandable to reason that the South African government is not interested in clearing up a situation that already has been done so conclusively by the British Press. Nevertheless, my neglect of not clarifying this point has undoubtedly caused some inconvenience to the party involved. Consequently, I then apologize for any misunderstanding that has been brought about.

JOHN C. BANGERTER '62

Thanks Psych Club

To the Editor:

Amidst the multitude of assorted groggers and growing fear of having to fill your "letter to the editor" columns may I insert this brief note of appreciation to one who, I think, speaks for many in attendance at the Psychology League Lecture on Thursday evening, Medical psychologist Dr. Arthur C. Carr of the N.Y. State Psychoanalytic Institute and the College of Physicians and Surgeons of Columbia University delivered a most stimulating and informative talk. If this distinguished and informal gentleman represents the sort of mental analysis the Psychology Club members plan to bring to the Trinity campus in the future, they may rest assured that their activities will receive the enthusiastic and sympathetic "non-jokers" is myself.

THOMAS B. WOODROSE '65

Sour Grapes Logic

To the Editor:

I notice with some dismay that the small apologetic note (that with all its apologies, I do not think the "opinions expressed in this column are necessarily those of the editors") did not accompany the "antagonistic" endorsement, but this shows only the concept of an invitation arose from my letter published in the TRIPD's December 3rd issue. The idea came about during a conversation with Dr. Rhodose. The following is in part what I told him:

"Recently a number of British newspapers ran a series of articles on South Africa. In several of these articles, accusations similar to Dr. Meade's were made. (a) concentration camps exist in South Africa. If there are then the presence, the South Africans are tied to this newspaper to see for themselves whether or not what has been written was true. THOMAS B. WOODROSE '65

Published weekly on Tuesdays during the academic year except vacations by students of Trinity College. Published at West Hartford, Connecticut. Printed at Interstate Press, West Hartford. Student subscriptions included in activities fee; others $6.50 per year. Telephone: 246-1829 or 527-3153, ext. 252. Advertising Managers: Leon Shillton '65, Editor-in-Chief. Circulation Manager: Edward H. Bennett. Telephone: 246-1829 or 527-3153, ext. 252.
The TRIPOD regrets that this will be the last column by Keith Watson '64. Keith just last week was notified that he made Phi Beta Kappa. In addition he is president of the Senior Class, a position he has held for 3 years. 

The value of this weekly effort has often been as enigmatic to the author as it must surely have appeared to the reader. It has discussed such questions as dash course, Dean's List recognition, Negro students, graduate school entrance exams, the Medina, the North End tutorial project, Chapel attendance, and faculty evaluation reports. It has touched on some seemingly sacred areas, often to the dismay of several campus personalities (and also to the dismay of my parents who thought the column displayed a hostile attitude). In such areas as the Dean's list, dash course, and Chapel attendance, the issues have been at least partially resolved (although a causal effect is not necessarily implied). In other areas, questions raised have been almost universally ignored.

AND YET SUCH a tally sheet should not be regarded as the criterion for success. Indeed, in view of its objectives, the column has been most worth-while if no action at all has been taken, for the goal was more to than to prove, to question, to analyze in hopes that some discussion would be stimulated. Ironically, such discussion seemed to occur more at the faculty objectives, the project would have been most worth-while if no action at all had been taken.

Problems Begin Before Freshman Week

In athletics, for example, thousands of dollars will soon be spent for a football press box, membership in the Basketball Hall of Fame, and a hockey rink. In admissions, recruiting visits still favor the prep schools of the East and the fashionable public schools of subur- ban, the only discernable benefit being a high rank among "social register" colleges. In extra-curricular activities, over $5,000 is spent every year with dubious value to a majority of the student body. We are not saying that such funds are not honestly spent or that no results are being derived. Rather, with her limited funds, Trinity must stop trying to match the Little Three in its great diversity. It must begin to speculate in excellence to the classroom. It must break away from ivied traditions, find a purpose and char- acter of its own, and, hopefully, establish a thoughtful challenging, and truly new "new curriculum."

The problem among the student body begins before Freshman Week: a shoddily high number are entering college only because of family and social pressures and an even greater number are entering Trinity only because of rejections from the Ivy League or the Little Three. Unfortunately, the new arrival does not find an institution with a character of its own, but one desper- ately trying to emulate and identify itself with those other colleges only because of family and social pressures. While dormitory, athletic, social, and extra-curricular activities are quite changed with the addition of 250 students, Trinity sends very few of its students to graduate school only because of family and social pressures. Indeed, the one Institution which con- sistently admits Trinity students to Its graduate programs is Harvard, for example, the Medical school has admitted very few students in the past decade; the current enrollment of Harvard Law lists 52 students from Williams, 47 students from Amherst, 1 student from Trinity. Indeed, the one Institution which consis- tently admits Trinity students to its graduate schools may be more impressed with the excellent reputation of its President than with the high quality of its students. It may be. In the next five years, the face of the college will be quite changed with the addition of 250 students. While dormitory, athletic, social, and extra-curricular activities are quite changed with the addition of 250 students, Trinity must stop trying to match the Little Three in its great diversity. It must begin to speculate in excellence to the classroom. It must break away from ivied traditions, find a purpose and character of its own, and, hopefully, establish a thoughtful challenging, and truly new "new curriculum."

In essence, then, the college must break away from its ivied traditions and chart a new course of intellectual excellence that will do more than the "second-best" to wealthier rivals. There must be a complete re-orientation of attitudes implanted by Admissions, im- plemented in the Classroom, and implemented in the Administration. The re-orientation requires a metamorphosis of values and perhaps even new personnel.

But above all, it demands an offensive rather than a defensive attitude toward the concept of change. Eighteen months were consumed in changing the policy of fraternity autonomy. Even more months will elapse before the chapel issue is resolved. How long will it take to recognize and meet the truly basic and signif- icant questions that confront the College? Is there time?

RCA, Church Give College $7,500 Grant

FEB. 21 -- President Albert C. Jacobs today received a gift totaling $7,500 from the Rev. John C. Hayes on behalf of the Church and the Vestrymen of Trinity Church, New York City.

Of the gift, $5,000 is for the College Chapel Maintenance Fund and the Vestrymen of Trinity Church, totaling $6,200 from the Rev. John C. Jacobs today received gifts to continue the RCA Scholarship and $800 is a stipend for the College grants totaling $1,300, it was announced today by President Albert C. Jacobs on behalf of the Church.

Talk on Poet Here Friday

MARCH 3 -- Dr. Neville Rogers, visiting professor of English at Brasenose University, will address members and friends of the College at 8:30 p.m., in Mather Hall.

Professor Rogers will speak on "Poetry and Action." M. D. C. "Poetry and Action," he has been a Senior Research Fellow, tutor and lecturer at the University of Birmingham, England, since 1965. He received a Bachelor of Science degree in 1966 and a Master of Arts degree in English in 1968.

Phil Beta Kappa Names 12 Seniors as New Members

Twelve seniors were elected to Phi Beta Kappa last Thursday, Dr. Isidore W. Mauzer, Secretary of the College chapter, announced today.

Elected were Howard Brown, Jr., John Churchman, Jr., James Cusson, Richard Defeo, Bruce Frier, and Frank Kirkpatrick, also James Lapenn, Christopher McNeill, Edward Mosher, Peter Orr, Wilson Riley, and Keith Watson.

Howard Brown, Jr., one of six independents to be initiated, is a history major.

John Churchman, Jr., also a history major, is a member of ODE. He has been historian and recording secretary of the Alpha Phi Society.

James Cusson, a modern language major, has been president of Le Cercle Francais and has worked with the Foreign Department of WPRC-FM.

Richard Defeo, an English major, was on the freshman track team and was a junior advisor. He is a member of the Glee Club and president of the Jesters.

Bruce Frier is the president of the Alumni Society and has been associated with the Young Republicans and the Vestry. An independent, his major is history and classical languages.

Frank Kirkpatrick is a religion major, a member of the Vestry, and a member of the Alpha Society.

James Lapenn, a history major, is a member of the Medical Society and the Students for Social Equality.

Christopher McNeill is a pre-medical student and a member of Phi Kappa Psi. He is also a member of the Glee Club and has been on the varsity baseball and swimming teams.

Edward Mosher, a math major, is president of ODE. He is president of the Band and has earned a letter in varsity track.

Peter Orr is a psychology major, a member of Theta Xi, and a psychology major.

Fencers Cop
Fifth By 20-7

Last Saturday the Trinity fencing team slashed its way to a 7-1 victory over Bradford-Durfee. The first six bouts were fenced by the Epee team, and it looked tense, as the Epee had lost three and won three, but then Taylor and Hoff in Sabre and all three foil-masters, Pratt, Heflin, and Depree, recorded wins.

This was confirmed in the second round of Sabre and Foil, when the Trinity men won all their bouts. The necessary 16 bouts had been reached, but the team still moved ahead in the third round when they took six out of the nine bouts. In the foil, Harry Pratt won two. Jeff Melchior won all three and Jeff Depree won two. In Sabre Taylor and Scovill Staff won all their bouts and L. Smith won two. In Epee Mike Delos won one, and Bob White and Robin Wood each won two. All in all, the Foil team took seven bouts. Epee won five and Sabre won eight.

The team faces Holy Cross on Wednesday at Alumni Hall, and on Friday, Gerry had to teach for three different examiners.

The maximum score for the slalom and downhill runs, the demonstrations, and the teaching was 30% for each, while the written test accounted for the missing 10%. In order to pass, a total of 80% was required, which only 32 candidates obtained. Gerry scoring 84%, replied when asked about future plans; "This is just a hobby for me. I personally esteem a sound College education of much higher value. The interest that I take in Biology and Physics is a more intimate part of my life."

THE TRINITY TRIPOD

JIM EDWARDS, record-shattering swimmer from Williston Academy, relaxed after lowering two national prep school standards at Trinity's 27th annual Preparatory School Swimming Championships Saturday afternoon. Edwards swam the 100-yard freestyle in 48.6 and the 200-yard freestyle in 148.3 to smash the previous marks previously held by none other than Trinity's Dave Tyler, as his Williston club romped to victory with an 83 point total.

Austria, passed the Professional-Standards at Trinity's 27th annual Prep School Swimming Championships Saturday afternoon. Edwards swam the 100-yard freestyle in 48.6 and the 200-yard freestyle in 148.3 to smash the previous marks previously held by none other than Trinity's Dave Tyler, as his Williston club romped to victory with an 83 point total.

Bantams Blast Union, 86-60; Morisse Tramples W.P.I., 109-62

by BILL LING

FEB. 28 - Barry Leghorn made the final home game of his brilliant career an unforgettable one. Scoring 21 points as the Bantams routed Union, 86-60, Leghorn equaled Trinity's seasonal scoring record for the second year in a row. By Barry's new mark of 383 topped the one he set last season by a single point.

Jim Belfiore, who has followed Bart Leghorn closely all year, led all scorers tonight with 29 points. Jim connected on 12 of 23 shots from the floor, sank seven of 12 foul shots, and was Trinity's leading rebounder.

For the first time in three games, Bob Morisse did not set a personal scoring record. The second time this season, he tied his season high mark of 35 points. The second time this season, he tied his season high mark of 35 points. Bob did manage to pass his 1,000 point career milestone. He was 14-for-24 from the floor, made all seven foul shots, and collected nine rebounds.

Trinity's rebounding should be improved over the last encounter with Union. After a slow start Wesleyan found the right combination and has continued its winning ways last week, defeating Alpha Chi Ro for the St. A's Champs, Tops ACR 92-70, 61-33 victory over the Union. Dave Helming, who led all scorers with 26 points in Saturday's loss to Williams, has returned to the lineup, and should return to the lineup, and he will be the key to the Bantams' success.

Barry Leghorn was one of the big winners for the Bantams. He took the 50 and 100 free in the latter, set a record for the Union with 26 points. Other winners for the Trinity frosh were: Leghorn, 23 points; Dardani, 23; Dardani, 23; and Lin Scarlett of the Hall were the only others in double figures.

Bantam Breezes... Varsity Tankers Lose The varsity swimmers dropped a 55-40 decision to Union last week, snapping their 12-game winning streak. Before the season opening, Smith and Billikot took firsts for the Bantams, the complete 100 medley relay in 1:23.69, no time, Union disqualified. The Bantams' 400 medley relay of Jackie Strickland, Bob Morisse, Steve Smith, and Vinny Winkley was 3rd, 1:36.3.

W.P.I., now 5-11, was led by the big winner for the Bantams, the only two Trinity winners. The Bantams were 32-for-67. Bob Morisse was not the game's high scorer, but with Barry Leghorn, he of the 1,000 points, who poured in 27 tonight including 17 of 27 from the foul line, Bob was the game's high scorer with 35. And Bob Leghorn (0-for-15) and Dardani (0-21) were a combined 0-for-22 shooting percentage below Morisse. What, then, did Bob Morisse do? For three-quarters of the way, he played eight minutes more than he ever had before, and with 27 points, he led the Bantams to a 58-44 win.

Morisse, who has followed Leghorn closely all year, led all scorers tonight with 29 points. Jim connected on 12 of 23 shots from the floor, sank seven of 12 foul shots, and was Trinity's leading rebounder.
