**Dr. Lockwood To Lecture In November**

Dr. Theodore D. Lockwood, President-elect of the College, will be on campus this November to deliver a lecture to the students. The announcement was made by Professor Brown of the Faculty Committee on the Arts and Sciences.

During his residence, and instructor of Philosophy Brown, will be engaged in a talk with the students on his philosophy of science.

Brown, who is responsible for planning the residence term, will be on campus for the academic year.

The entire building has been altered and extended. According to Librarian Donald R. Rigley, such a feature is not directed at "creating new areas on earth" but is rather a way to "utilize space on the B floor for office purposes." A new study, with a total capacity of 150, is a divided into 50- and 100-person rooms. The area also includes a study lounge. The study lounge is open to seniors completing theses, conducting research, or preparing for the comprehensive exams.

Higgins Derides 'Slavish Acceptance of Social Norms'

John H. Higgins, Professor of psychology, spoke at the Foundation Grant Gives Library Air Conditioning

A $400,000 grant from the Old Ivy Alumni Council will allow the College Library to make a number of major renovations. The grant, which is the largest single disbursement ever given to the original building in 1900, provides the means to expand and improve library facilities. Total book capacity now stands at 56,000, and the reader space increased from 350 to 1080 square feet."

The twenty children who will attend Saturday's game were selected from the group of 50 applicants who submitted their applications in the first two weeks of extended office hours. Some parents reported that "it perhaps one of the first attempts to give children who might have been excluded the chance, an opportunity to attend something like this. We are glad to have a chance to participate." One parent said, "I'm hoping that this weekend is the beginning of a new era and the Platz will be kind enough to sponsor another group in the future."
The Bantam Offense is a major asset to that backfield. Koppa will be on the field as soon as Truesnor Hinkle finds a way to protect his strong-arm shoulder separation (initialed by Williams two weeks ago). A small but strong, senior halfback, Mike, has 31 pass attempts for 218 yards in two weeks of play. Halfback Larry Roberts, the team's captain, leads the runners with a 5.3 average on 28 carries. Harvey at fullback is a sophomore averaging five yards a carry with a season total of 107 yards.

The pre-game booting problem was largely written off at Mal in last Saturday's loss to Cheverus. A fast break, with a second player, made his way out of the extra points and Jim Hurvitz averaged 30 yards in both punts.

Miller is still experimenting with Jerry Crowly, a sophomore, as the kick-off specialist.

Sophomore quarterback Jay Bernardoni, who had the entire second quarter offense untracked, "had his way" through Bates last Saturday, has taken advantage of last week's minus yardage by the opponents' defense.
