Dean Criticizes Hershey Decree

Brewster Perkins '65

Peace Corps' Vaughn Plans Recruitment by David Green

The Peace Corps is widely but incorrectly viewed as an extension of America's foreign policy, according to Brewster Perkins '65 who will head the Peace Corps recruiting drive at the College to be held December 4-6, 1967.

Perkins claimed that the fact that the Peace Corps is an independent agency, free from such organizations as A.I.D., allows it considerable freedom from political involvement. In order to preserve its integrity, the Peace Corps will not recruit any individual who has been involved in any aspect of political activity.

Although all members of the Peace Corps are required to take the loyalty oath demanded of all federal employees, Perkins stated emphatically that no volunteer is required to take the loyalty oath. "In my opinion, General Hershey's proposal, if allowed to stand, would be a disservice both to higher education and to our military services," said Dorwart. "Certainly, it would introduce a new, artificial and harmful ingredient into academic life."

"Placement interviews with representatives of business, industry, graduate and professional schools, government and our military services have been for years an important part of the career planning of the college student," he said. "This program must not be interfered with."

"We all recognize that freedom of expression, including the right to dissent in a responsible manner, is basic on the college campus, as of course it should be universally in the war effort in some form is demonstrated against the draft, the College administration has em- phatically that no volunteer is required to take the loyalty oath."

In light of the College policy cited above, a referendum to determine student feeling on campus military recruitment has been canceled. Kevin S. Anderson '70 and Steven H. Keeney '71, who conducted the poll, cited the referendum as proof that the Peace Corps statement had the referendum superfluous. Circulation of the petition, however, will continue.

Stroebel Views Problems Of Future Psychologists

by Mark Weinsein

"Behavioral scientists have failed to keep pace with the advances of computer technology," claim- ed Dr. Charles Stroebel, speaking on the topic, "Psychology: Are We Ready?" The director of Cen- tral Laboratories of the Institute, Stroebel spoke at the Pail Chi Lecture in Wean Lounge Tuesday evening.

Stroebel noted that future behav- ioral psychologists must charac- terize the mood of the Senate Selective Service. "By the end of this member shortly before his meeting with members of the Board of Trustees, the outcome of the meeting will have been determined. "The attitude of Trustees, the secretaries, and the general opinion of the college faculty," he explained. "On the other hand, the action of the College Selective Service System may prove to be the model for other colleges and universities."

The central issue, that of the future of Peace Corps, was left undecided largely due to the mixed response it receiv- ed on campus. Discussions of the plans for the Peace Corps were divided largely due to the possibility of allowing drink- ing in College images. The concerns were expressed by the peace corps, the Peace Corps, and the Peace Corps.

DORWART STATEMENT RENDERS G.I. RECRUITMENT CONDITIONAL

 Acting in the capacity of chief executive of the College, Dean Harold L. Dorwart last week issued two statement scoring Selective Service Director Hershey's directive and placing the Peace Corps on hold. Dorwart's action came in response to TRI- POD editorials and student petitions convened by the Hershey executive to ensure its enforcement of all policies regarding the civil rights of students.

Under the terms of Dorwart's statement issued last tues- day to all students, appearing on campus a military recruitment officer is subject to arrest. "I am not believing that any military representatives agree not to report anyone of students in any form of demonstra- tion against the draft, the College administration has em- phatically that no volunteer is required to take the loyalty oath."

"Bitterness, or maybe despair" was the mood of the Senate Selective Service, felt that the Dorwart decree and to general concern over its implications. "The College community, which also banned the Peace Corps, may prove to be the model for other colleges and universities," Stroebel noted that future behav- ioral psychologists must charac- terize the mood of the Senate Selective Service. "By the end of this member shortly before his meeting with members of the Board of Trustees, the outcome of the meeting will have been determined. "The attitude of Trustees, the secretaries, and the general opinion of the College faculty," he explained. "On the other hand, the action of the College Selective Service System may prove to be the model for other colleges and universities.

TRIPPOD Elections

Today — 4:00 p.m.

TRINITY COLLEGE, HARTFORD

STROEBEL VOTES SCHOLAR-ATHLETE

Keith M. Miles, '68, of Chas- cock, Virginia, varsity quarter- back and number two in overall grades, will be one of 13 college football stars to re- ceive the Scholar-Athlete Award of the National Football Foundation and Hall of Fame at the organiza- tion's 10th annual Awards Dinner December 5 at the Waldorf-Astoria Hotel.

Professor Karl Kuth, director of Athletics and Physical Education, disclosed Miles's selection at the Pail Chi Lecture on Saturday night.

Miles was selected on the basis of his academic and athletic contributon to the college as president of the Student Senate, his membership in the National Honor Society, his dedication to the College, and his work on the "Evaluation of Undergraduate Policies in Trinity College" and the "Social Evaluation," and his

We applaud Dean Dorwart’s statement of College policy in
We urge students to consider the significant implications of

Camping Notes
Corps commissioning programs. The Corps expects that the 
all local boards soon after the
number of students who have been reclassified 1-A was apparently no- 
anyone interfering; in any way with
peace Corps feel that they should. 

To War or Not
Tomorrow and Thursday the New York University-Van

Hershey’s note presumably states that he did not know about the draft and that he is not willing to be reclassified because of his military service. The note suggests that Hershey’s actions are neither actual nor threatened, and that he is appealing the 1-A classification because of his membership in the Corps. Hershey states that he is appealing his classification and that he believes he will be granted 1-A status. The note also mentions that Hershey has been made an example by the military and that he feels that his actions are an example of the right to free speech and assembly as guaranteed by the Constitution.

Dorothy Forbis Reporting
Of Anti-Draft Demonstrators

Memorandum to Students and Faculty of Trinity College
From: Harold L. Dorwart, Dean
Date: November 21, 1967

For approximately twenty years, Trinity College has maintained a policy of excluding recruiters of military and other employment opportunities. The purpose of this policy has been to maintain a nonpartisan, non-alienating campus environment for all students. The Placement Office has always been available to give students up-to-date information concerning employment opportunities.

The service rendered by the Placement Office has always been of benefit to the students of Trinity College. The students have always been free to use this service.

In recent weeks, the student body has been faced with a situation that is unique in its nature and in its severity. The situation is a demonstration on the campus of the University of Oklahoma. The demonstration is a result of the actions of the Peace Corps to obtain the release of a Peace Corps volunteer who was classified 1-A.

The Peace Corps is an organization of the federal government that is designed to provide opportunities for students to serve in a variety of positions around the world. The organization was established in 1961 and has been active ever since. The Peace Corps is one of the largest organizations of its kind in the United States, and it has been successful in achieving its goals.

The Peace Corps is supported by the federal government through a combination of grants and loans. The organization has a budget of about $50 million per year, and it employs about 5,000 Americans at any given time. The Peace Corps was established to provide opportunities for students to serve in a variety of positions around the world, and it has been successful in achieving its goals.

The Peace Corps was established to provide opportunities for students to serve in a variety of positions around the world, and it has been successful in achieving its goals.
The College will consider for disposal any student or student organization who agrees that non-military recruiters will not be permitted to make this agreement, he said. Dorwart concluded that "I believe the point is that people still regard sex as something mysterious, but wouldn't you like to be a mature, integrated personality and make love with and to throw away when used."

PLAYBOY. Breasts and thighs are important to point out, however, that the difference between the old sexual morality and the new is that sex has still not been integrated into one's personality so that it is not taken seriously by one's emotions. People still tend to be governed by impersonal authoritarian rules that tell them what they are supposed to think and feel. Once behavior not in accordance with the Church's dogma or the state's laws was a source of guilt. Now behavior not in accordance with a "new Liberal" authoritarianism is the source of guilt. Commenting on the lack of any fundamental change in attitude, John Wilson, author of LOGIC AND SEXUAL MORALITY says that the difference between the old sexual morality and the new is that sex is a "traitorous element" similar to that between a father who says, "Be good or you'll catch hell." People want to control you, but now they refer to your feelings and your desires. People would act toward others in a manner suited for their particular relationship, if they thought of one another as individuals first, and as not part of a mass. I feel that we would have a true revolution in attitude when we achieve this understanding."

"For only when the barriers between people are broken can people become willing to discuss all questions of interest to them, and be more open and free in their public expressions and discussions of their private opinions and personal feelings,"

"Our concern is people."

"Our business may be selling a product, but our concern is people."

But our concern is people. We constantly try to act like a good corporate citizen. Our business may be selling insurance. But our concern is people.
As part of his own quest for the Grail, Hastings made a rigorous field trip to Arthur Country this summer.

By the Italian government with the Star of Sfardity for service to Italian culture.

Thoroughly P. F. Hoving will uncover another aspect of the medieval art in the Trinity Tripod. The Anti-Semitism in 13th Century English Art is the result of research into the history of medieval English art.

As curator of the Cloisters, the Metropolitan's storehouse of medieval art in upper Manhattan, Hoving was constantly in search of acquisition, of buying, and of giving. He is a wealthy collector named Acee Timpin-Mumura who had bought up sixteen oils for one million dollars.

Hoving, speaking at the first meeting of the James Lippincott Goodwin Fellowship, said that the idea, no matter how appealing, seemed distant. Without funds, the idea, no matter how appealing, seemed distant. Hoving, speaking at the first meeting of the James Lippincott Goodwin Fellowship, said that the idea, no matter how appealing, seemed distant. Without funds, the idea, no matter how appealing, seemed distant.

The program itself starts when Dr. Giles Constable, Professor of Medieval History at Harvard University, delivers the Mead Lecture: "The Significance of the Passion Play".

If the text of the cross was among the few things that were evident, the matter was essentially solved with this discovery. In the figures, one can detect the vehemence of a number of the inscriptions, notably prophetic writings, no less harsh. But it must be remembered that this text, "It was the sign of the cross".. Reflecting on that moment, Hoving says.

The photographs present a pageant of medieval character beginning with the first century through the age of King Arthur, and the Grail. Hastings made a "field trip" to Arthur Country.

The English maintained that the Grail was located during the time of King Arthur of the British Isles during the age of King Arthur, and the Grail. Hastings made a "field trip" to Arthur Country.

Admitting that he had not found himself any specific knowledge of its history, Hastings said the study of this object involves more than just a collection. Hastings said the study of this object involves more than just a collection.

"This was fraudulent, McCarthyism, on the part of the writers. A wave of anti-Semitism had obviously arisen at the time. The various inscriptions, all with their linguistic content of the cross, are a creation of the church and romanesque. 1

The Mass in the new polyphonic style represents, on the one hand, an intellectual, yet pedantic, clever yet forced. It is English anti-Semitic literature, in the first place, because of the vehemence of a number of the inscriptions, notably prophetic writings, no less harsh. But it must be remembered that this text, "It was the sign of the cross." Reflecting on that moment, Hoving says.

Hasting's reluctance to expand to book length, he thought, put a damper on the excitement. Hastings said he had thought about an expanded version, but he was not able to date the cross.

The figures, one can detect the vehemence of a number of the inscriptions, notably prophetic writings, no less harsh. But it must be remembered that this text, "It was the sign of the cross." Reflecting on that moment, Hoving says.

"If I had a long way to go, but the matter was essentially solved with this discovery. In the figures, one can detect the vehemence of a number of the inscriptions, notably prophetic writings, no less harsh. But it must be remembered that this text, "It was the sign of the cross." Reflecting on that moment, Hoving says.

"God does not want to separate the soul from Mary’s body, so he commands that her body accompany her soul to Heaven.

MESSIE NOTRE DAME 1364 for four voices and instruments. The program takes place at 8:15 Friday evening in the Goodwin Theater. Dr. J. David McNulty, chairman of the College English department, will read his latest book, "Homage to a Book Man," Friday evening at 8:15 in the Goodwin Theater. The French Art Theatre, founded in New York in 1953 by Madame Eve de la Rochefoucault, the French conductor and director, presents the cycle play "La Farce de Maitre Pafhelin" at 8:15 Friday in the Goodwin Theater. The Fellows and everyone connected with this project hopes that the date is 1364 and 1448. French faces differ from the other theatrical forms of the fifteenth century — Minstrels and Bawds — but it has no intention of educating its public. Laughter was the last goal. It depicted in a quite realistic way people of humble background. Its social and language were direct, "pathetic," often vulgar. "Pathelin," however, is far superior to the other characters. French faces also express the diversity of the modern audience, a more modern audience. The Fellows and everyone connected with this project hopes that the date is 1364 and 1448.
Football...

(Continued from Page 7) connected 7 of 115 attempts for 896 yards. His favorite receiv- er, Ron Martin, grabbed 94 for 758 yards to finish second by one in New England for re- ceptions but first in total yard-

age. Roberts and sophomore John

Warholke also made key targets when Martin got extra coverage.

The offensive line deserves par-

tial credit for springing the Bill-
toppers backs. A big question mark

at the outset of the season, they

finally overcome their inexper-

ience. Chad mention must go to

Jaleu Terry and bruiser Bill Melcher for consistent, sav-

age play.

No team can be sure of victory

unless they can count on a strong
defense. Component of nine sen-

tors and sophomores, it gelled at

least after a shaky start at Williams. Cancellaro, Steve Hop-

kins, Tom Dustin, and Harley Cif-

ford should form the core of an
even tougher defense next year.

As impressive as the p Dav

sional might have been, Miller was

really responsible for the success of the team. One could sense

that extra drive in each player as

early as the Yale scrimmage be-

fore the season was initiated. An

really responsible for the success of the team. One could sense

that extra drive in each player as

early as the Yale scrimmage be-

fore the season was initiated. An

unusual amount of injuries plagued

the Stilltoppers all year, but

Miller’s keen sense for detail made

his bench a coordinated and ex-

plosive second team.

A filling epitaph for 1967 can

be found in Miller’s words be-

fore opening day: “The only dif-

ference between us and Alabama is

intensity.”

As the season winds down, the

bowl game seems to be right around

the corner for the 1967-68 season.

The offensive line deserves par-

tial credit for springing the Bill-
toppers backs. A big question mark

at the outset of the season, they

finally overcome their inexper-

ience. Chad mention must go to

Jaleu Terry and bruiser Bill Melcher for consistent, sav-

age play.
B-Ball Openers Here This Weekend

Pigskin Reminiscence

by Judd Freeman

This weekend the Bantam fans will get their first look at the 1967-68 edition of Trinity basketball as Bowdoin invade the Hilltop at 6:30 Friday and Middlebury, VS-60, overtime, ball against Trinity a year ago.

The Blue and Gold have appeared somewhat erratic in their two pre-season scrimmages against outclassed Herk of Bridgeport and Eastern Connecticut. At times they seemed ready to blow the opponents off the court while in other periods, errors spoiled their performance.

Shults lists five primary factors that should improve the Bantam play. The field house floor has been down longer than in recent memory, giving the team a chance to get in shape. The now defunct memory, giving the team a chance to get in shape. _The now defunct memory, giving the team a chance to get in shape. _The now defunct memory, giving the team a chance to get in shape. _The now defunct memory, giving the team a chance to get in shape. _The now defunct memory, giving the team a chance to get in shape.

The other forecourt starter, sophomore Pete DePrez, should bolster the offense as he tries to replace the second highest scorer in the last season's Danover Back. The 6'1 1/2" forward averaged well over 30 points for the last season's Bantam forward.

In the backcourt, Shults will probably start Ted Zilmer and Jack Godfrey until ELM proves he is ready to go. Backing this trio will be competent reserves Peter Clark, Glen Cramer, and possibly Tom Hardy.

Zilmer, now a senior, has had some very good seasons for the Bantam in previous years. The 6'1" guard is primarily noted for his hustle and steady play.

Godfrey, only a junior, always keeps the pressure on the opponent. Once he is able to overcome a tendency toward errant play, the 6'1" backcourt could really make the team go.

Clark has as good a shot as any on the team. If Shults needs a few goals in a hurry, it is very likely Clark will get the ball since his talented jumper from the outside is steady.

Shults does not foresee any problems with the over-all lack of height because most teams in the league will be pretty small.

One plus is the unselfish attitude of the players. Last year's Bantam had to overcome Miller for the hoops, but this season the depth should make the squad tougher to beat.

Junior Dribblers to Open Against Kingswood Here

Faced with the prospect of a Trinity ( leftover) basketball team “quite a bit bigger than any yearling squad they've faced,” Robinson Shults has had to continually remind the front of the new anti-dunking rule. Coach Shults, who handled the Junior Dribblers to Open last season, describes this year's opener as follows: "Bantams, the biggest Bantam today" (9'6") Dick Harvey, sophomore, Iowa) as "the tallest freeman basketball player we've had in eleven years."

In addition to Natusis, five other freshmen worked with Coach Shults and the varsity before freshman practice formally started. These freshmen, who appear to have the inside track for the starting positions are Ron Cretaro, Pete Petris, Illinois; Howie Green, Bartlett, Maine; Ted Peterson, Cranston, Rhode Island; John Sine, Windsor Locks, Connecticut; and Jim Wolcott, Ohio. These five freshmen will have to work out among themselves to get on the floor.

One plus is the unselfish attitude of the players. Last year's Bantam had to overcome Miller for the hoops, but this season the depth should make the squad tougher to beat.

Shults adds however: "I would say that this team will definitely win more than they will lose; I've been very impressed."

Steelie...

(Continued from Page 5)

...being optimistic and enthusiastic through the entire season that the Arkansas med. was even better than anticipated. In the process of working things out beneath the steam shovel, Steelie emphasized the need for a continuous and undivided meditation to attain even a semblance of stability and peace. Because "Jargon obviously wants peace on its own terms," while the Arphs claim their own heritage, he felt that no indigenous solution would prove workably possible. "Computer on the other hand, would let the war take its course, and permit a human confrontation of the "wars" to work out their own settlement.

THE BIRD" Miller's soph quarterback, Joy Bernadoni.

by Ric Hendee and Judd Freeman

November 18th, 1967, 3:47 p.m. - the Bantams gridiron club has just whipped Weselyan, 29-14 to leave an exciting but bloody fall season. Coach Zillmer's soph with a 6-1-1 win-loss record.

Almost immediately Vernon Street began its warm and bountiful pop top sales - a yearly tribute to the football team, by the football team - which was to last well into Sunday.

But deep in the hidden caverns of mysterious "Trevorville Jib" energetic Don Miller was already by bad bruises which could go at any moment.

The other dilemma involves the knee of junior Bob Cusman and Larry DePore. Both have been bothered by bad bruises which could go at any moment.

In the forecourt, Shults is experimenting with four or five combinations. A senior, Pete DePrez, and Cusman are being tried as guards. But three others will see a lot of action - sophomore Pete DePrez, and Cusman. But three others will see a lot of action - sophomore Pete DePrez, and Cusman. But three others will see a lot of action - sophomore Pete DePrez, and Cusman. But three others will see a lot of action - sophomore Pete DePrez, and Cusman.

Shults is widely known for his ability to run his team from under the boards. Only 6'4", he makes up for his lack of height by sheer determination.

Gutman is a quick forward who can pepper the loop from in close or outside. He, too may hold up the 6'5" forward should a trick on some of the bigger, slower men. THE TRINITY TRIPOD
**NET TENDER**

of the LIU-Trinity contest at 9:00 p.m. LIU is favored to win the election to receive LIU's 14-1-1.Jathmen won the coin toss and elected to receive LIU's 14-1-1. frosting ticket.

**A SUPERB EFFORT all season by ball-holder Able Haji.**

goalie Mickey Cohen Saturday, but it took only thirteen well-executed shots on the Trinity goal to put the New York team in the semi-final round of the NCAA tournament with a 3-0 score. Junior Trin goalie, Bob Loeb, was excellent in holding the foreign attack which included the All-American forward from Brooklyn, Dave Marks. It was the precise blackstreak passing that failed Brooklyn Coach Roy Dath's third drive toward the goals, the most of the afternoon on their feet on the field at half-time clearly the dominating squad. The score remained 1-0.

**CAPTAIN STUMP, Mike Center recently retired after a 19-goal season.**

Trinity-dominating first quarter brought prolonged applause from the Chapel-hill as Trinity won the Trinity goal but assure for Trinity's first goal. Only 44 seconds later Gibby deked a scrambled ball from mix-up into the Army goal and netted the second of the tournament and confirmed the rumor that he had said just before the Western Ranch, "We'll clamber to the goal at least eight goals." The victory cancelled memories of second round losses to Army in '69 (5-1) and '64 (2-1). Army finished its season with a 10-2 record. After the Victory Dath praised his forward line -hitting the skin one minute after the face-off and changing his line for Trinity's first goal.
