$475,000 is Goal for Anniversary Drive

An annual giving goal of $475,000 has been set for the anniversary year 1972-73, according to Judson M. Rees, Director of Development. The goal is slightly less than $500,000, the amount contributed in last year’s successful drive. Contributions to the annual giving campaign will go towards balancing the College’s operating budget, which is nearly $8.5 million for 1972-73.

President Lockwood, in a message announcing the campaign, observes that the College’s 150th anniversary is a milestone which “provides the opportunity for alumni, parents, and friends to honor the College by contributing more generously than ever before so that Trinity may become an even more effective force for learning.”

He said he hopes that those who have not contributed in recent years will respond on this occasion.

Breakdowns of the various goals are: Alumni Fund, $275,000 ($248,944 contributed last year); Parents Fund, $95,000 ($88,099 last year); Business and Industry Associates, $65,000 ($50,714); Friends Fund, $30,000 ($23,964 last year); and Founders, $10,000 ($8,000 last year). A total of $440,421 was contributed last year.

Gifts at $1,500 or more will qualify the donor for membership in the Founders Society; a gift from $150 to $1,000 qualifies for membership in the anniversary Club.

Members of the Parents Fund Steering Committee are: Bruce N. Bensley, Morrissetown, N. J.; national chairman; Rudolph M. Montegals, Darien, Conn., vice chairman; C. Barse IV Jr., N.Y., special gifts chairman; Frank K. Griesinger, Gates Mills, Ohio, past parent chairman; Ralph L. Hauser, Philadelphia, Pa., Class of 1973 chairman; Pamela S. Crandall, Westley, R.I., Class of 1974 chairman; John N. Fisher, Weston, Mass., Class of 1975 chairman, and Robert A. Lawrence, Westwood, Mass., Class of 1976 chairman.

John T. Wilcox ’39 is chairman of the Business and Industry Associates; J. Ronald Regnier ’30 is chairman of the Friends of Trinity Fund.

It is hoped that a successful completion of the campaign will be announced on May 16, the 150th anniversary date of the signing of Trinity’s charter.
The mother of young freedom (aka, at Yale) is a full-time job. It's no wonder why everyone's trying to find The Right Path for their children. However, there's an even more daunting task waiting for them: The choice of Clustering Techniques!舞蹈技术

Taking on the Selection of Clustering Strategies

Dance Technique Nov. 3 at the College of Tennis Tournament held last August in articles in professional journals: "Educational Psychology, and " the Pine Acres Swim and Tennis Club, also in physical education, and his wife, Lee, '54 of Wethersfield teamed up with Shults to considered to be the foremost authority on theDec. 13. Speakers and moderators are:

professors George Higgins, Drew Hyland, Bard

Mohamed Jibrell.

"Career Counseling Is The Emphasis"

(continued from page 1)

field; those who have general but immediate goals and intend to go to work after graduation, usually in such fields as banking, insurance, government teaching, and those who have no immediate career goals after college.

In the above groups, Mrs. Robbins says constituted almost a third of the Class of 1972, appears to be part of a growing trend. "Whatever seems to be happening," she says, "is that the career development of upper middle class students is moving in the direction of permanent employment only from the ages of 25-55, and we certainly feel this is the case among many of our students."

Compounding the problems of career development she says, is the fact that "students often receive a great deal of pressure from their parents and peers to make a career choice. Often students enter graduate school to get away from this pressure which requires without requiring any actual commitment." She suggests that "this may be one factor in the situation to "leave the academic world and try out a number of jobs" to test these demands which they feel."

"Some people simply take longer than others to find their own direction, and one such group, which Mrs. Robbins says, "having deferring career goals by graduation," she says.

The job market also puts its pressures on students. "The placement function at a college like Trinity," Mrs. Robbins says, "causes us very effective except in a time of a boom job market, as was in existence five and ten years ago. We do not look forward to a situation of a foreseeable future." Additionally, she says, "population trends show that there will be an overabundance of graduating college students for the next ten years," creating intense competition for the available jobs. Subsequently, recruiting by businesses and industry has declined.

The situation today is radically different from the post-war boom which made college students very much in demand, and helped the placement office flourish during its first 20 years.

Added to student attitudes and the job market is the nature of a liberal arts education which seeks not only graduates but also represents -i.e., self-employment. "This office does offer advice on job-hunting and interviewing techniques, as well as assistance with resumes and locating contacts among alumni, faculty, and friends."...

Following are the kinds of reasons, Mrs. Robbins says, the Career Counseling Office "concentrates its efforts more upon long-range career counseling than upon services of an employment agency. In line with this, the office provides the following services:

Assessment of interests and abilities. The office suggests ways to evaluate past accomplishments and aptitudes in terms of their applicability to possible career goals. Vocational interest testing is available free to students.

Placement. Information on students with the kinds of available jobs. The office maintains a library of career information, as well as a placement file of interests which they may have varying chances of success. Assistance in finding jobs. The office has no initial job-hunting and interviewing techniques, as well as assisting with resumes and locating contacts among alumni, faculty, and friends. Placement. The placement office also wears the hat of a career counselor as well as an adviser. Mrs. Robbins says, "I can promise to do so." The office does offer advice on job-hunting and interviewing techniques, as well as assisting with resumes and locating contacts among alumni, faculty, and friends.

Graduate and Professional School. The office maintains a library of graduate and professional school catalogues, and a variety of fields, information regarding fellowships, and application forms for a variety of graduate examinations. The office also provides a career counseling file which whereby letters of reference from faculty are kept on file. The service may be used in applying to graduate schools or, if necessary, for employment. Regarding post-graduate study Mrs. Robbins says, the office endeavors "to be as helpful as possible to students before they apply to school, in assisting them to obtain all the necessary information before they apply and to help them to present themselves in as favorable a light as possible through letters of evaluation. However, we are not able to assume responsibility for "getting a student into graduate school."

The services of the Career Counseling Office are also available to alumni. About 185 alumni contacted the office last year, both for job placement and for advice about post-graduate study. "Many alumni who were undecided at graduation are coming back to inquire about programs in business, law, and even medicine," Mrs. Robbins says.

Career counseling itself has become a professional career. In its early years, placement officers were frequently men who held a bachelor's degree and came to a college with a wide background in business or industry. Frequently -- as was the case at Trinity in 1955 -- the placement officer also wore the hat of an alumni secretary. Mrs. Robbins, who was graduated from Vassar College, holds an M.Ed. degree in counseling, and is currently working toward a doctorate.

---

Students, Alumni May Obtain Info On Fellowships

The Career Counseling Office has information on a variety of fellowships available to alumni, including the Danforth Foundation Fellowships for students pursuing a Ph.D. program, and planning on an eventual career in teaching. Trinity may nominate one recent graduate each year for this fellowship in addition to the two senior nominations. Alumni may also be interested in the White House Fellow Program under which applicants between the ages of 23 and 35 may be nominated for a year's service as a student assistant to a member of the Cabinet or to a senior member of the White House Staff.

Alumni interested in either of these programs or other graduate fellowships may obtain information from Mrs. Paula I. Robbins, Director of Career Counseling, Trinity College, Hartford, Conn. 06106.
Philip H. Frohman, Architect
Of College Chapel, Dead at 84

Philip H. Frohman, 84, architect of the Trinity College Chapel, died Monday, Oct. 30, in Washington, D.C.

Considered to be a genius of Gothic design, Mr. Frohman was the architect of the Washington Cathedral. He died of complications resulting from injuries received when he was struck by a car Aug. 7.

He had designed some 50 Gothic churches in the United States, including the Episcopal Cathedral in Baltimore, the Roman Catholic cathedral in Los Angeles, and several in Washington, including St. Paul's Episcopal Church, Announcement Roman Catholic Church, Wesley Methodist Church and St. Paul's Lutheran Church.

However, he considered the Trinity College Chapel to be his best work.

He was also an inventor of electronic organs, and held patents on several such instruments.

Mr. Frohman was descended from a French Catholic family of architects, civil engineers and inventors. One of his forebears was Director of Works under King Louis-Philippe; another built the first Liverpool to Manchester Railway, and another designed New York's famed Chelsea Hotel.

A Roman Catholic, Mr. Frohman spent more than 50 years of his life planning the Washington Cathedral. The work was a lifelong dream, for although he was appointed its architect in 1921, he had been interested in the Cathedral since 1904.

He was a perfectionist in his work, and believed that Gothic architecture is "art not archaeology, Gothic is the only modern style that is logical and functional."

In a statement after Mr. Frohman's death, the Very Rev. Francis B. Sayre Jr., dean of the cathedral, said that "since the Middle Ages, there has not been an architect of Gothic to compare with him, nor is there likely ever to be another."

just received a "flash" from John L. Hoy, alumni secretary, announcing the Reunion Homecoming dinner and Ambrose game on November 11. Let's all be there who can. Also May of 1973, most important reunion. LLOYD MILLER wishes me from his "retirees" home at Ogdenburg, N.Y. that his wife and daughter are away in August 1971. You have our sympathy, Lloyd. He is busy at St. John's Church as senior warden and also hosting on the St. Lawrence.

RAY MONTGOMERY '25 and wife Oba hosted his usual fine lawn party and buffet with New Haven Alumni. He sponsored for the first time this year an evening dinner for freshmen and their parents and friends. This annual affair at Ray's country home in Woodbridge has grown to surprising proportions and is a fine gesture.

YOUR SECRETARY is about to take off on the World War I Overseas Flayers Reunion in

Frazier, about 70 of us and some 32 wives, including my own Carol. We are to be received by French aviation officials at a reception FRANK LAMBERT '16 cannot make it, and WASHINGTON BALEY '16 with PITY PHILLY last along and hopefully other Trinity men that I have not heard about yet.
The Rev. David J. Graybill graduated from the Harvard Divinity School in 1980 and has been a ordained minister since 1981. He is currently serving as the rector of the Church of the Transfiguration in Cranston, R.I. Ordained to the ministry in 1979, he has served in various parishes in Massachusetts and Rhode Island. His current position involves pastoral care and preaching. At the invitation of the congregation, he has accepted a call to the Church of the Transfiguration in Cranston, R.I. The Rev. Graybill has previously served in the New York area and has cultivated a strong reputation for his pastoral ministry and biblical teachings. He is a member of the American Council of Church Leaders and has been involved in various religious organizations. His leadership is characterized by a deep commitment to spiritual growth and community service. He is known for his ability to connect with people from diverse backgrounds and his passion for spreading the message of faith and love. He is married to Louise Graybill and they have three children. 

Mr. John Joseph Minard, Jr., of 506 West End Ave., New York, N.Y. 10024, has been appointed assistant to the chairman of the board of directors of the American Cancer Society. He will be responsible for overseeing the Society's national programs and initiatives. Mr. Minard brings a wealth of experience in both the public and private sectors to the role. He has served in various leadership positions, including as the president of the New York City chapter of the American Cancer Society. His appointment is a testament to the Society's commitment to addressing the critical issue of cancer care and prevention. The American Cancer Society is dedicated to saving lives and eliminating cancer as a major health threat. Mr. Minard's tenure will be crucial in advancing the Society's mission and ensuring a brighter future for those affected by cancer.
**Recent Bequests and Memorial Gifts**

Trinity acknowledges with a deep sense of loss the passing of alumni and other friends of the College. It seems appropriate to list the bequests and memorial gifts that have been made to the College.

A bequest of $4,212.86 has been received from the estate of Edmund S. Carr '05 for general purposes. A bequest of $5,000 has been received from the estate of Mrs. Mary Gormly Bowne to establish a scholarship fund in memory of her husband, Garrett D. Bowne '06.

An additional amount of $430.31 has been received from the estate of Mr. and Mrs. Charles B. Besant '18 '19 to establish the scholarship fund for the senior who has shown qualities of executive ability and leadership in the senior class.

A bequest of $1,185.24 has been received from the estate of Mr. and Mrs. Lawrence C. Card '33 '35, for the benefit of student veterans.

An additional amount of $3,215.90 has been received from the estate of Thomas W. Russell, former Trustee of the College, bringing the total bequest to $4,217.15 for general purposes.

Gifts totaling $873 have been received to start a scholarship fund in memory of Professor Alexander A. Mackinnie Jr., a member of the faculty at Trinity.

**Dr. E.L. Trosell**

**Mr. Geology? (Dead) 1988**

Dr. Edward Leffingwell Trosell, professor emeritus of geology at Trinity, died September 21, in Winter Park, Florida, his retirement home. He was 88.

Dr. Trosell retired from teaching at Trinity in 1964 after 24 years in the faculty. A specialist in vertebrate paleontology, he was one of the leading men in this field. Among his most important contributions to the science was his discovery of one of the few complete skeletons of Eohippus, a 12-inch-high animal which lived some 50 million years ago, and which was the earliest ancestor of the modern horse. The skeleton is now at the California Institute of Technology. The skeleton is now at the California Institute of Technology.

Dr. Trosell was well known throughout the state, where his duties as head of the Geological and Natural History Survey were widely appreciated. His name is "Mr. Geology" for Connecticut. He was frequently called on to make court appearances, providing expert testimony on geological conditions and matters of land evaluation. Newspapers and wire services throughout the nation turned to him for analyses of local tremors and major earthquakes around the world as well as regional events.

Dr. Trosell moved to Winter Park, following his retirement in 1954, and served as president of the University Club of Winter Park.

Trinity continued offering geology courses through 1966, when the department was phased out.

Dr. Trosell leaves his wife, Mrs. Jane A. Trosell of Winter Park, Fla., and a brother, Irwin Trosell, of Ontario, Oregon.
Football Season Ends 4-4; Duckett Stars as Receiver

Trinity's varsity football team dropped its last two decisions of the year to Amherst (34-7) and Wesleyan (33-28) to finish out the 1972 campaign with a 4-4 record.

In the season's final encounter, played in Middletown, the Bants found themselves trailing Wesleyan 27-7 with a little more than 13 minutes left in the game. The remainder of the contest typified the erratic play that was throughout the 1972 campaign.

Quarterback Saul Wiezenthal teamed up with split end Ron Duckett for two touchdowns within a three minute period and Ed Raw's placements closed the gap to 27-21 with less than 13 minutes left in the game. The remainder of the contest was intercepted as many times as the Bants were outmanned by the big and talented Amherst (34-7) and Wesleyan (33-28) to finish out the season.

Wiezenthal was intercepted for a fourth time of the day from Lord Jeff's home turf.

The Ephs defense which stifled Amherst in its final contest was intercepted as a part of the game's season opener against Trinity which suffered its first shutout loss (21-0) in eight years.

A combination of opening game jitters and poor ball handling proved too much for Trinity in the final season's statistics. Trinity had twice as many turnovers - 26 as its eight opponents - and the opportunistic Ephs turned two Trinity fumbles into scores and returned an interception 97 yards for a third TD.

The following week's game versus Bates proved to be a more enjoyable occasion despite a 31-14 loss. Bates' defense was held to 244 rushing yards while Trinity rolled to a 2-0 victory.

A check of the Trinity record book showed that even though Bates had been held to negative yards, the incredible performance did not set a new team mark. The best overall defensive record for a single game is still held by the 1952 team which limited Dickinson College to -22 yards while the mark against the rush was recorded in 1939 when Trinity held Wesleyan to -18 yards on the ground.

The defense continued its excellent play in the team's first away game at Troy, New York, as it held RPI scoreless for a 70-0 victory. It was the first time since 1955 that a Trinity team had put two shutouts back to back.

The campaign's midseason saw Trinity record two victories over Coast Guard (35-0) and Rochester (26-6) and absorb a 34-14 beating against then undefeated Colby College.

The season's final statistics confirm that Ron Duckett is one of Trinity's finest receivers ever. The talented junior was ranked fifth in the nation as a sophomore last year with 65 catches and 844 yards. In statistical performance this fall with 46 catches for 723 yards and seven touchdowns, Duckett fell short of last year's performance but that good in his senior year he will surpass Trinity's career receiving records for receptions (120), yards (1728), and touchdown receptions (16) - all of which are held by Ron Martin '70.

The Bants will lose only eight starters through graduation, led by co-captains Ray Perkins and Joe Shults. Perkins finished his three years as a starter with 12 interceptions as a defensive back and McCabe's career rushing total as a fullback in 1465 yards. Other graduating senior starters are guards Bob Ghezzi and Ed Raw, defensive end Bob Thil, linebacker Phil Poirier, and defensive backs George Sutherland and Ken Stone.

Duckett was the team's kicking specialist this year and converted successfully on 16 of 18 extra point attempts.

Freshman Football

Trinity's freshman football team recorded its second consecutive undefeated season this Fall by coming from behind to tie Amherst 14-14. The Bants combined an explosive offense with a tenacious defense in dominating its other three opponents. Trinity's other victories came against Springfield (56-0), Coast Guard (34-0), and Worcester Tech J.V.'s (24-19). Wesleyan was forced to cancel when their fresh squad was back next fall.

Varsity Soccer Falters; Freshmen Win 6 Games

After two initial victories over MIT (3-1) and Tufts (5-3), Trinity's soccer team was able to make only one scoreless tie with Coast Guard for the rest of the ten game season.

The Bants first loss came against cross-town rival, University of Hartford. The Bants rallied from a 3-1 deficit as uplift Pete Mindich scored all three of the team's goals before losing on two penalty kicks to the Hawks who finished undefeated in the regular season.

Trinity was unable to produce a victory against any of the Little Three teams this fall, losing to Williams (44-0), Amherst (20-6), and Wesleyan (8-2).

High scorers for Trinity were Pete Heimann (5), Roger McCord (4), and Pete Mindich. All three of these scorers, along with four other starters, will be back next fall.

Ron Duckett goes high in the air for one of his seven receptions against Amherst this fall. The fleet-footed junior finished the season with 46 catches for 723 yards and seven touchdowns.

TRINITY'S WOMEN'S CREW defeated Yale, Connecticut College, and the University of Massachusetts in its first year of outside competition. The above picture was taken on the Connecticut River as the crew rows out to meet UMass in its final race of the season.

Help may be on the way for the varsity soccer team as a Konton Shults' freshman team won six of eight games this fall.

Cross-Country Wins A Meet

The cross-country team broke into the win column for the first time since 1968 on their sixth try of the season with a 15-48 victory over Quinnipiac College. Senior captain Bob Hoff led the way, finishing first in the dual meet, and was followed by Tim Teschman, John Suroviak and Don Burt.

The team had one other close encounter this fall, losing to Wesleyan 24-32. Bob Hoff was the leading Bantam in the match taking second place while Ricci was the next Trinity runner in sixth place.

The Bants leading ground gainer was Bill Mellis, an Elkhart, Indiana native, who rushed for 379 yards while East Windor, Conn.'s John Whooley rushed for 303 yards and was on the receiving end of 14 passes for an additional 184 yards.

The Bants finished the third undefeated season in six years for Coach Chet McPherson's freshman team. His record for the last six seasons now stands at 26-13-1.

RON DUCKETT

Bants' freshman team won six of eight games this fall.

Freshman football

Trinity's freshman football team recorded its second consecutive undefeated season this Fall by coming from behind to tie Amherst 14-14. The Bants combined an explosive offense with a tenacious defense in dominating its other three opponents. Trinity's other victories came against Springfield (56-0), Coast Guard (34-0), and Worcester Tech J.V.'s (24-19). Wesleyan was forced to cancel when their fresh squad was back next fall.

Ron Duckett goes high in the air for one of his seven receptions against Amherst this fall. The fleet-footed junior finished the season with 46 catches for 723 yards and seven touchdowns.

TRINITY'S WOMEN'S CREW defeated Yale, Connecticut College, and the University of Massachusetts in its first year of outside competition. The above picture was taken on the Connecticut River as the crew rows out to meet UMass in its final race of the season.

Help may be on the way for the varsity soccer team as a Konton Shults' freshman team won six of eight games this fall.

Cross-Country Wins A Meet

The cross-country team broke into the win column for the first time since 1968 on their sixth try of the season with a 15-48 victory over Quinnipiac College. Senior captain Bob Hoff led the way, finishing first in the dual meet, and was followed by Tim Teschman, John Suroviak and Don Burt.

The team had one other close encounter this fall, losing to Wesleyan 24-32. Bob Hoff was the leading Bantam in the match taking second place while Ricci was the next Trinity runner in sixth place.

The Bants leading ground gainer was Bill Mellis, an Elkhart, Indiana native, who rushed for 379 yards while East Windor, Conn.'s John Whooley rushed for 303 yards and was on the receiving end of 14 passes for an additional 184 yards.

The Bants finished the third undefeated season in six years for Coach Chet McPherson's freshman team. His record for the last six seasons now stands at 26-13-1.
