THE CLASS OF 1976

The Class of 1976 brings the total enrollment of the College to a new high of 1675. Connecticut supplied the greatest number of freshmen to the class with 133 entering. Massachusetts supplied 63, New York 65, Pennsylvania 63 and New Jersey 38. The remaining students come from 29 states—plus the District of Columbia, England, Germany, Mexico, Nigeria and Puerto Rico.

Approximately 500 freshmen, the largest class to enter Trinity, reported to the campus Thursday, August 31, for a week of orientation. The class includes 198 women as the College begins its third year of coeducation and its 150th academic year.

Last year's freshman class numbered 297 (157 women, 240 men) with an approximate 20% increase in enrollment in the Class of 1976.

150th Anniversary

October 1, 1972

To All Alumni, Parents, Students, Colleagues and Friends of the College:

With the arrival of the Class of 1976 and the first cracking of books last month, Trinity began her 150th year, an anniversary well worth celebrating. The College has come far since those first days in 1823 when the faculty numbered only six and the student body nine. And despite the serious pressures on higher education—and Trinity—which I have discussed on other occasions, I am confident for the College's future. With careful management and strong support, Trinity will continue to thrive, to maintain a fine faculty, and to draw outstanding students.

May 16, 1973, is the 150th anniversary of the signing of the College's Charter, and several days of celebration are being planned for that period. In addition, various events throughout the academic year will be designated as 150th Anniversary Events. The College Seal, which is printed at the top of this issue of the Trinity Reporter, has been redesigned for the anniversary year.

This is an occasion to take especial pride in Trinity. We hope you will join with us in the various forms of celebration which will take place this year, and let your loyalty show for a College we feel is growing more graceful with age.

It will be a good year.

Cordially,

Theodore D. Lockwood
President

Ralph S. Emerick Takes Over As Trinity's Head Librarian

Ralph S. Emerick, librarian at Hobart and William Smith Colleges, Geneva, N.Y., has been appointed Head Librarian and College Professor at Trinity, succeeding Donald B. Ingley, who has become Associate University Librarian at Yale.

A native of Franklin, Ohio, Emerick received a B.A. degree from Xavier University in 1951, an M.A. from the University of Cincinnati in 1952, and an M.L.S. (master of library science) from the University of Michigan in 1956.

He was assistant then associate librarian at Lawrence University, Appleton, Wis., from 1956-64; library director at Stephens College, Columbia, Mo., from 1964-67, and librarian at Hobart and William Smith from 1967 until this year.

He is a member of the American Association of University Professors and the Modern Language Association. His wide range of experience includes acquisition work and cataloguing, administration, and audio-visual. He was involved in the substantial expansion of the Stephens College Library and in planning for a new building as well as expanding the staff and collections at Hobart and William Smith.
CAMPUS NOTES

Dr. DREW A. HYLAND has completed two books, "The Drake of Philosophy" which will be published by Putnam in the fall, and "Plato's Charmed" and the Nature of Philosophy" now in manuscript form. Hyland will be on sabbatical during the Trinity term when he will be studying Hegel and Aristotle in preparation for teaching and further research, concentrating on the nature of reason. He plans to study near Lausanne, Switzerland, with several friends who will be on sabbatical from other universities at the same time.

Benton has been appointed a member of the Editorial Board of the "ESQ." He has been for some years a member of the Editorial Board of "Poe Studies" as well as an editorial consultant for publications of the Modern Languages Association and the "American Quarterly."

Dr. MARTIN G. DECKER, associate professor of education, who has been acting chairman of the department this past semester, will be on sabbatical next year. During the year he will be doing research for the Competence Based Teacher Education Program sponsored by the City University of New York, Office of Teacher Education. He will work with a team of students as assistant to committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUNY, will assist in the field testing of existing materials designed for competent teachers, and coordinate, systems to assist teacher competence in 12 areas of teaching bring developed by committees at CUN

JUDY DWORIN '70, instructor in dance and coordinator of the dance program, spent six weeks studying dance at the Connecticut College American Dance Festival. This was the 25th anniversary of the festival which draws noted dancers and choreographers throughout the country to teach in this special program. Mrs. Dworin participated in workshops in dance technique and improvisation taught by Shirley Ririe of the Taliferro who gave master classes at Trinity this past year and Raymond Johnson who was artist-in-residence at Trinity for one semester.

Dr. HARVEY S. PICKER, assistant professor of physics, was visiting assistant professor of physics, a full academic position, at the University of Maryland at College Park last summer. His duties included research and the examination of a doctoral thesis. He also contributed a paper to be read at the International Conference on "Few-Particle Problems in the Nuclear Interaction," sponsored by the International Union of Pure and Applied Physics at Los Angeles in August.

At the June meeting of the Trustees' Executive Committee the reappointment of three department chairmen was announced. Dr. GEORGE B. COOPER, who was appointed chairman of the History Department in 1964, was reappointed for a period of three years to July 1975. Dr. RICHARD SCHREICH, who was appointed chairman of the Economics Department in 1967, has also been reappointed for a period of three years to July 1975. Dr. WALTER J. BLICKZEK, who has served as chairman of the Mathematics Department since 1967, was reappointed for a one-year term to July 1973.

JOHN L. HEY, alumni secretary, and LEWIS J. GOVERNAN '68, assistant registrar, will assist the Master of Science in Management Program at RPI (Rensselaer Polytechnic Institute) in Hartford beginning in September. They hope to gain a better understanding of business techniques which can be applied to management of colleges.

President LOCKWOOD has announced the following administrative appointments effective September 1, 1972: Miss ELSABETH BELDEN, Administrative Assistant, President's Office; Miss MARGARET COLLINS, Assistant Director of Personnel; Mrs. AGATHA GALLO, Administrative Assistant, Development Office; Mrs. ANN W. GRIEVE, Administrative Assistant, Treasurer's Office; Miss CAROL M. LAWSON, Administrative Assistant to the Dean of the Faculty (includes Graduate and Summer Studies) and Mrs. AMELIA SILVESTRI, Assistant Director, News Bureau.

HARRY O. BARTLETT, who has served as Assistant to the President since 1964, has been named Director of Administrative Services. His duties include personnel and labor relations, staff housing, space coordination, parents association, coordination of information on Federal programs and affirmative action.

William Coulin, left, of the Distribution Committee of the Hartford Foundation for Public Giving, discusses terms of new Foundation grant with Robin Wassersug, Director of Financial Aid, and President Lockwood. Grant will support financial aid program for transfer students.

Foundation Grant Provides Aid For Transfer Students

The Hartford Foundation for Public Giving has granted $60,000 to Trinity to support an innovative scholarship program for area transfer students.

Students who have completed two years at a state community college in Connecticut, or a junior college in the Greater Hartford area, and who are in financial need, would be eligible for the scholarships to attend Trinity for their junior and senior years.

As an additional stipulation, the students must be residents of the 22 nearby towns in the area served by the Hartford Foundation.

The Foundation grant, being made available from the Howard Hunt Garmeny Trust, will be distributed over the next two academic years, beginning with $5,000 for the spring semester of this academic year, with $25,000 and $30,000 distributed over the next two academic years respectively.

In his will, Mr. Garmeny, who never attended Trinity, asked the Foundation to consider periodicals the needs of the college.

This is the second time in three years that the Foundation and Trinity have combined to initiate a community service program. In 1969 the Foundation awarded the College $52,772 to establish an Office of Community Affairs and initiate programs matching College resources to meeting community needs. The costs of the Community Affairs office are now home by the College. At the end of the 1973-74 academic year, Trinity expects to support community college scholarship program from its own resources.

According to President Lockwood, "The Hartford Foundation grant will initiate an important new part of Trinity's program of financial aid which will make it possible for more students from the Hartford area to transfer to Trinity and complete their college education."

And he said, "With 42% of all students in this country now attending two-year institutions we are persuaded that four-year colleges must provide greater opportunity for transfer. Some 35 to 50 transfer students are expected to be assisted during the grant period."

Lockwood explained that since the bulk of Trinity's financial aid is committed to students who began as freshmen, "there has in the past been little or no financial help available for promising students who transfer to Trinity as Juniors. The College is grateful to the Foundation for helping this program get started."

TRINITY REPORTER

October 1972 Vol. 3 No. 1

Issued nine times a year in October, November, December, January, February, March, April, May, and June. Published by the Office of Public Information, Trinity College, Hartford, Conn. 06106. Second class postage paid at Hartford, Connecticut.

The REPORTER is mailed to alumni, parents, faculty, staff and friends of Trinity. Copies are available to students. There is no charge.

Letters for publication must be no longer than 200 words and signed. The printing of any letter is at the discretion of the Editor and may be edited for brevity, not substance.

Editor, L. Barton Wilson '57; Associate Editor, Alfred C. Burfeind '54; Assistant Editor, Richard L. Silvestri; Sports Information, Richard J. Marrone '77; Photographs, David R. Lowe; Alumni Secretary, John L. Hey '66.
Student Activities In 'Renaissance'

The use of College facilities last year declined slightly from 1970-71 with 2,608 events held, down from 2,651. But in the fall, the number grew to about 10 or 12 a day. The Women's Organization and the Trinity Coalition of Blacks had special weeks for a variety of events and other organizations sponsored numerous lectures and discussions.

Foreign

registered in some institution of higher learning outside of the United States.

At Trinity, the number of students who went abroad in 1970-71—and even a decade ago—was not large enough to warrant keeping separate records. Vice President Thomas A. Smith recalls that in the 1950's, "about a handful" of Trinity men went abroad, on what he called an "educational" basis. He feels he has settled for a number in the early '60's, the number grew to about 10 or 12, he said.

But in the '60's, foreign study was in full swing nationwide, and Trinity experienced a similar surge in interest. In 1969-70, there were 15 students abroad. In 1970-71, the number dropped to nine. But in 1971-72, the year just ended, there were 60 Trinity students abroad. For the current academic year, there will be 89, studying in 16 foreign lands.

Foreign student programs at Trinity, according to the Department of Modern Languages and Literatures, have increased in popularity. Besides the 41 Trinity students, 10 students from other colleges will be studying at the Rome Campus.

He feels he has settled for a number in the early '60's, the number grew to about 10 or 12, he said.

The 48 Trinity students will be in France, Greece, Germany, Hong Kong, Spain, Greece, Germany, Italy (in programs other than Trinity/Rome), Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Belgium, Bel tra to be a trip to Columbia, South America, and a trip to East Africa, both in February. Interested alumni and parents should contact the Alumni office for details.

Dr. Robert Vogel Named Director Of Consortium

Dr. Robert M. Vogel, former dean of Trinity College and president of Bradford College, has been named the first executive director of the Greater Hartford Consortium for Higher Education.

The appointment is effective immediately. The Consortium, founded this year, is a cooperative educational venture involving Trinity, the University of Hartford, St. Joseph College, Hartford College for Women, and the Hartford Graduate Center of Rensselaer Polytechnic Institute.

Dr. Vogel was a faculty member and administrator at Trinity from 1947 to 1967, when he left to become president of Bradford.

Dr. Vogel, who served Trinity first as an assistant professor of English, then as director of Evening Studies and Summer Session, as dean of Graduate Studies and finally as dean of the College, earned a reputation as an effective educational administrator.

He originated and developed the Trinity "Transition to College" plan which permitted selected 11th and 12th graders to work for college credit in some undergraduate courses. The innovation was widely emulated at colleges elsewhere.

He developed a program which, in cooperation with several corporations, (see VOGEL, page 4)
ANATOMY OF LITERATURE

Reviewed by Dr. Leo Rokas, Associate Professor of English, University of Hartford

The publication in 1957 of Northrop Frye’s “ Anatomy of Criticism” stunned and still stuns the literary and critical world. In the opinion of some observers Frye was the first to give systematic and significant work of criticism since Aristotle’s “Poetics,” published some 2300 years earlier. Its influence, much as music is organized into certain keys within which an infinite number of compositions can be imagined, but there was a brilliantly poetic, somewhat erratic quality about Frye’s thought and style that left many readers baffled. Frye generalized vastly and exemplified sketchily, adding, with magnificent humility, “there are many questions of where would you put so-and-so?” type that cannot be answered by the present writer. Since 1957 Frye, who is a University Professor of Massey College at the University of Toronto, has published a number of small books, mostly collected lectures, which may be taken as introductions to or applications of his big book, but not directly or fully enough explanations of it.

Now two professors and critics, colleagues at Trinity College until Ms. Foulke moved to Skidmore, have done much of the thought and fleshed out much of the system that Frye’s “ Anatomy” left in shimmering uncertainty. Because their work is an outgrowth of the present book, they have had to take their stand on literary examples from English and American literature, in addition to the sample introductions and commentary to the four sections of their book, which realize Frye’s insights with new and clear explanations and examples. They have centered their attention on Frye’s third essay on archetypal myths, and partly on his first essay on historical modes, the two best received sections of Frye’s book. (Frye’s fourth essay on genres is suggested only in a final “Generic Table of Contents.”) Frye implies that however many stories, genres, and plays can be written, they will all range within a circular system of four myths—the romantic, the tragic, the comic, and the ironic—and these comprise the four sections of the present book. It is difficult to explain how respectful the authors have been to Frye and yet how freely they have felt to amend or simplify his work as they see fit. Unlike many textbooks, this one gives the impression of an intelligence at work on every page, and that will report only what can be accepted on its own careful reconsideration.

It is sometimes said that he feels his systematic criticism is teachable as early as the elementary school. But teaching even of the elementary college, have often been reluctant to mention his work. Still some colleges have made real attempts to introduce something of his system. At Trinity the undergraduate curriculum, no doubt through the labors of the present authors, has introduced the four myths from Frye; at the University of Hartford the tragic and comic myths have so far been introduced. Now the four myths are presented and available to all. It is to be hoped this splendid new book will be widely used in colleges. Other teachers and general readers who want to form themselves of the most significant recent advance in criticism will find this book both an agreeable introduction and an enlightening introduction to the subject. Readers of this book will come to a new respect for the academic frill it is sometimes considered, but as the inseparable study of the dimensions of the human imagination. Vogel

Vogel (from page 3)

enabled Connecticut youths to take summer courses at Trinity in engineering and philosophy of science. He also served on evaluation teams of the New England Association of Colleges and Secondary Schools in accreditation work.

In his new post, Dr. Vogel will be the chief administrator for the Consortium, which was organized to pool the resources of its member schools to reduce duplication of efforts, to provide increased services to their students and to the community and to make a broader selection of courses for students of each institution.

The Consortium, funded under a three-year grant from the Hartford Foundation for Public Giving, is the outgrowth of a limited cross-registration program over the past several years involving students from Trinity, the University of Hartford, St. Joseph College, and the Hartford Seminary Foundation. Under that program, the Intercollegiate Registration Program, students from one college were allowed to register at another college for courses not available at the “home” institution, and without paying additional tuition.

Dr. Vogel will be responsible to the Governing Board of the Consortium, which includes the presidents of the five institutions.

Dr. Vogel, a native of Indiana, was graduated from Northwestern College in 1928. His master’s degree was earned at the University of Michigan, and his doctorate in education at Cambridge. Besides his long career at Trinity, Dr. Vogel has also taught at Adrian College (Michigan) and the University of Rochester.

Cross Country

From page 16

teams in the future.

Senior captain Bob Haff is the team’s outstanding performer and a veteran of three years of intercollegiate competition.

Second-year Rick Ricci is the only other returning letterman.

Among the newcomers, sophomores Marty Dobb and freshman Rick Ricci are fast becoming outstanding runners. In early season practice sessions, Forbes has been pushing Haff for the top spot.

Another new addition to the cross-country team is freshman Ruth Veal. A Manchester, Connecticut native, Ms. Veal ran cross-country in high school and was the state’s AAU women’s mile champion in 1971. Although Ms. Veal cannot participate in intercollegiate meets, she runs with the team and doubles as the manager.

TRINITY’S FINEST—Dave Brown (left) and Rick Ricci cross the finish line 13 seconds ahead of the competition in the quarter-finals of the Olympic Trials held at Lake Waramaug, Connecticut in July. The Collegiate Championship pairs were eliminated from the competition in the semi-finals.

Rowing Champs Pull Hard Along the Olympic Route

EDITOR'S NOTE: The following is a summary of the rowing events in which Trinity’s National Champion crew pair, Dave Brown ‘73 and Rick Ricci ‘73, participated this past summer.

On June 3, two Trinity students—Dave Brown ‘73 and Rick Ricci ‘73—became one of the few small college crews ever to win a national collegiate rowing championship.

Rowing in the final of the pairs without coxswain event at the Intercollegiate Rowing Association’s (IRA) Championships held on Lake Onondaga, New York, Brown and Ricci from the likes of the University of Wisconsin, Yale, Dartmouth, and San Diego State, to win the title with only one second separating them from the rest of the field. The race represented a breakthrough for small college crews as a pair from Morris Harvey College of West Virginia—its first entrant even in the IRA Championships—took second place honors.

It was at this point, that the Trinity pair and their coach, Norm Graff, were invited to compete in the Olympic Trials, July 20-22 at Lake Waramaug, Connecticut. In preparation for the trials, the pair rowed in three Elite Class races which were reserved for international level competition. The first test took place in Philadelphia (as did the other two) in the Schuylkill Navy Regatta on June 15. The Battants again rowed away from the competition—U. Penn, and Vasper Boat Club of Philadelphia—to take first place by two lengths.

With another victory under their belt, the pair, who were now practicing at Cape Cod at Coach Graf’s summer house, returned to the Schuylkill River on July 2 for the Independence Day Regatta in which the finest pairs in the Eastern United States were participating. This time Brown and Ricci were not victorious but still took third place.

The final test before the trials was the National Amateur Championships, July 14-15, in which, every competitor had already been invited to Lake Waramaug for the following week. Brown and Ricci recorded the fourth best time on the preliminary heats but were not among the six teams chosen for the finals. The pair had placed third in their heat, but under competition rules, only the top two crews from each of the three heats were selected for the final event.

Brown and Ricci got back on the winning track in the quarter-finals of the Olympic Trials. As the pair easily put away all but two teams, they were already among the four teams chosen for the final event.

The semi-finals, held July 21, brought the pair up against the finest in the country. The Battants took fourth place (the first three finishers qualified for the final) and the dream of a trip to Munich came to an end. The winners of the event and the U.S. representatives to the Olympic Games were Dick Lyon and Larry Rough of the Stanford (Calif.) Crew Association.

In commenting on the race, Norm Graff said, “The boys and I concurred that they rowed a good race. I think they really accomplished something over the past seven or eight weeks. The true realization of the whole thing won’t settle in for a few weeks. I think this will be even more true for Dave and Rick, because they still are the National Collegiate Champions and have won several medals.”

PARENTS WEEKEND

NOVEMBER 2-3

Special class visits, sports, director’s meeting at the State Capitol, dinner at the Hartford Hilton, panel discussions on academic programs and career opportunities, dance program, carillon recital, coffee hour at President Lockwood’s home and more...
Again Trinity alumni, parents, business associates and other friends have achieved new levels of generosity with their gifts to the College during the past year. The statistical results are impressive, as you will note from reading the accompanying report. But certainly of equal importance is the personal response of thousands who gave of themselves for Trinity College. It is reassuring to me, as I am certain that it is to you, that so many recognize the necessity to preserve and sustain Trinity as a vital force for learning.

As we all know, successful results just don't happen; there must be positive resolution and conscientious effort. I salute all who participated in this magnificent campaign—Andrew Onderdonk '34, Chairman of the Alumni Fund; Willard W. Brown, Chairman of the Parents Fund; Ostrom Enders, Chairman of the Friends of Trinity Fund; Seymour E. Smith '34, Chairman of the Business and Industry Associates; and the scores of other alumni and friends who served in the ranks of volunteers. To those who served and to those who gave, Trinity is profoundly grateful.

Theodore D. Lockwood
President

SUMMARY OF GIVING

I. Annual Giving for Unrestricted General Purposes:
   - Alumni Fund ........................................ $248,996
   - Parents Fund ........................................ 88,099
   - Business & Industry Associates .................... 60,714
   - Friends of Trinity Fund ............................ 23,964
   - Foundations ......................................... 18,700
   **Total** ............................................... $440,473

II. Annual Giving for Restricted Designated Purposes
   - Academic Departments and Faculty ................. $195,859
   - Buildings & Grounds Improvements ................. 26,800
   - Friends of Art – Trinity College .................. 7,050
   - Friends of Trinity Rowing ......................... 12,428
   - Hockey Association ................................ 3,511
   - Library Associates ................................ 4,682
   **Total** ............................................... $345,092

III. Bequests and Other Deferred Gifts:
   - Bequest Receipts .................................... $3,147,461*
   - Life Income Fund Receipts ......................... 23,840
   - Life Insurance Receipts ............................ 5,235
   **Total** ............................................... $3,176,536

*Less: Estimate reported last year for
   - The Estate of Charles A. Lewis '93 ............... $2,000,000

**Total Gifts and Pledges from All Sources .......... $1,962,101**
Annual Giving for Unrestricted General Purposes as of June 30, 1972

President's Message at Annual Convocation

A convocation is a conventional affair. My use of the term "Conventional" is not pejorative; we are at Miami anyway. In officially opening the 150th year of Trinity College, I am preserving a tradition and attempting to make marks of an inevitable occasion. But the fact that Trinity celebrates its 150th anniversary makes of this occasion something unusual, however customary the language of greetings. In welcoming all of you, I think that I need to open with a few remarks about the old Trinity. First, it wasn't Trinity. The college began as Washington College on the grounds where the State Capitol now stands. It overlooked the Park River, now no longer detectable beneath the romantic or early lithographs suggest it may once have been. The Founders lived there to celebrate the occasion, without a permit. Although the local papers were appropriately loud in their praise of the founding, the Gold Medal College, later Trinity became the official name in 1845 when, incidentally, tuition was $33. The annual cost of $50. Among the early heroes was a custodian affectionately known as Professor Jim. His assertion that if you could only furnish your mind with a good education to go anywhere might well serve as the theme for this talk on education. One other historical note: One of the earliest student protests at Trinity occurred when the College decided that no one could walk on the lawns. Presumably the same restrictions would have applied to an outdoor convocation.

In the course of this 150th year we shall have other occasions on which to draw attention to Trinity's history. So far not having to deal with contemporary issues. Or better: to some of those issues which are excitingly academic, and different from those which are on political; we are not in Miami anyway. In this respect some have criticized me for "poorly conceived experiment" - a phrase about which I am wont to be merely a consensus-taker. Or, less kindly yet another castigation is the "Mr. President, you're just behind the times." I hope I am at about to push yet another "reform" or "innovation" or, less kindly yet another "poorly conceived experiment" down the faculty's throat. Of course, being totally objective, I have never understood these things, but there is only one obvious answer: Not this month! But seriously, I see our present task to carry out and evaluate the consortial arrangements already made. We have a wide enough range of programs that other institutions are now imitating us. We owe ourselves, and others, a certainty of the effectiveness of those programs. On the whole, I think that the "Curriculum of 1969 has brought most favorable results and the programs which emerged from the summer task force of 1971 promise to do the same. But gut reactions are a pale substitute for careful evaluation - and accordingly I hope we can both consolidate and analyze out these curricular changes over the next year. Physically the College is in better shape. We are making progress on deferred maintenance; and, though the list of campus improvements is long, at least the chemistry classrooms are brighter. More of the plumbing and heating have a twentieth-century look to it. We have enlarged the post office so that you may actually get your box, which you no longer share with others. And are even paying for these projects rather than adding to our indebtedness.

We have renderings on a long-term beautification of the quadrangle to the East of Mather Student Center, and I hope that, as part of our 150th anniversary, we can all work together on something we can call a "campaign." But I hardly need to add that much remains yet to be done. To those who would argue that we cannot hope to do this in this country, I can only reply that we must preserve one of this country's most attractive concepts of what repair conducive to effective learning.

If learning is to be effective, there ought to be no place for remedial courses. Surely there must be a universal quality against which we measure our contemporary configuration of organized learning. Recently Robert Hutchins, once the pukish, boy-wonder president of the University of Chicago, acutely commented: "The substance of learning should be independent thought and criticism, and the purpose of learning being of the world in which we live. What goes on in its institutions should be some combination of some education, some child care, some training, and some vocational certification.... He could be even more Rodgersian. We talk about a lifetime of learning and then act as if we ran an information center for tomorrow's admission. We must revitalize the community of learning. Some of you may recall my earlier attack on the notion of a "market" (see CONVOCATION, page 14) for a call for a sense of community at Trinity in 1969. The timing was mistaken, for we were busy with the actual academic problems. In response to national events. I kept quiet and then found, in response to skeptical questions, that, as one student remarked, "Mr. President, you don't understand: we do have a sense of community today but not in the times." I hope he is right, for we need to agree in keeping Trinity an independent and intellectually vital community. We need what Robert Wolff has called "flow of sentiment which makes the preservation of the community an object of desire, not merely a matter of prudence or a command of duty." (Robert Wolff, The Ideal of the University, p. 127.) Of course, that is an ideal, but it still should be our goal to preserve and advance knowledge. To pursue the truth, to enhance collectively our moral aspiration to improve the condition of the human mind, is the religious commitment of education - not its magnificent temples, honored times, exclusive rituals, and ministering priests.

In this respect some have criticized me for not exerting leadership more vigorously, presumably on the assumption that dicta from over the arch would miraculously create agreement. As an ardent believer in democracy, I have always assumed that we would do better by working forward through less obvious channels. From a Marxian perspective: a conscious about what is worthwhile at Trinity. At the same time, I have never wanted to be a principal concern. But, as I have studied the predicament of the university, to use the title of Professor Charles McClintock's (see CONVOCATION, page 13), I do accept the responsibility of reminding all of us that we shall serve ourselves best by being articulate. One hand, we often become caterers as we try to make the material we present "relevant"; on the other, we may be bound by, and offer to the freshening winds of student unbelief.

Faculty and students, I hope we shall achieve better results.

One thought recurs in thinking about financial aid, especially as seen within the context of the College's financial situation. Can we simultaneously improve our ability to hold down overall costs and increase the opportunities for students to meet expenses by using more student labor? Are there jobs which students could perform every bit as well as others and thereby help themselves more easily pay for their education? I am not sure and I do wonder how many students are willing to accept this approach, but I think it is worth exploring and I shall ask the Trinity College Council to review this problem and make any recommendations it considers appropriate.

In other respects also, Trinity is in basically good shape. We now have sufficient curricular flexibility in the programs begun in 1969 and expanded since then. I am also pleased that, by and large, we have the requisite academic condition again. Careful stewardship explains in part this success at a time when so many colleges are continuing to run deficits. But forebearance is another reason.

That is why Trinity's success has its gray side. We know that, despite the favorable public reaction to our management of resources, there are troublesome features to our situation. Despite annual salary increases, the faculty at Trinity are not as well compensated as their colleagues at those institutions with whom we so often compare ourselves. The patience, the hard work of the Trinity faculty deserve commendation, for in the economist's terms productivity twenty-five percent in four years; that is, in gross terms they are handling that many more students per faculty member than they did in 1968.

We have enlarged the post office so that you may actually get your box, which you no longer share with others. And are even paying for these projects rather than adding to our indebtedness. We have renderings on a long-term beautification of the quadrangle to the East of Mather Student Center, and I hope that, as part of our 150th anniversary, we can all work together on something we can call a "campaign." But I hardly need to add that much remains yet to be done. To those who would argue that we cannot hope to do this in this country, I can only reply that we must preserve one of this country's most attractive concepts of what repair conducive to effective learning.

If learning is to be effective, there ought to be no place for remedial courses. Surely there must be a universal quality against which we measure our contemporary configuration of organized learning. Recently Robert Hutchins, once the pukish, boy-wonder president of the University of Chicago, acutely commented: "The substance of learning should be independent thought and criticism, and the purpose of learning being of the world in which we live. What goes on in its institutions should be some combination of some education, some child care, some training, and some vocational certification.... He could be even more Rodgersian. We talk about a lifetime of learning and then act as if we ran an information center for tomorrow's admission. We must revitalize the community of learning. Some of you may recall my earlier attack on the notion of a "market" (see CONVOCATION, page 14) for a call for a sense of community at Trinity in 1969. The timing was mistaken, for we were busy with the actual academic problems. In response to national events. I kept quiet and then found, in response to skeptical questions, that, as one student remarked, "Mr. President, you don't understand: we do have a sense of community today but not in the times." I hope he is right, for we need to agree in keeping Trinity an independent and intellectually vital community. We need what Robert Wolff has called "flow of sentiment which makes the preservation of the community an object of desire, not merely a matter of prudence or a command of duty." (Robert Wolff, The Ideal of the University, p. 127.) Of course, that is an ideal, but it still should be our goal to preserve and advance knowledge. To pursue the truth, to enhance collectively our moral aspiration to improve the condition of the human mind, is the religious commitment of education - not its magnificent temples, honored times, exclusive rituals, and ministering priests.

In this respect some have criticized me for not exerting leadership more vigorously, presumably on the assumption that dicta from over the arch would miraculously create agreement. As an ardent believer in democracy, I have always assumed that we would do better by working forward through less obvious channels. From a Marxian perspective: a conscious about what is worthwhile at Trinity. At the same time, I have never wanted to be a principal concern. But, as I have studied the predicament of the university, to use the title of Professor Charles McClintock's (see CONVOCATION, page 13), I do accept the responsibility of reminding all of us that we shall serve ourselves best by being articulate. One hand, we often become caterers as we try to make the material we present "relevant"; on the other, we may be bound by, and offer to the freshening winds of student unbelief.
Mohamed Jama Jibrill and David Lee have been appointed to administrative positions in the offices of community life and student services. Jibrill, who will be assistant dean of Community Life, will also be a lecturer in African social and political thought. He received his B.A. from the University of Bridgeport and is a candidate for his masters in history at Trinity. Last year he served as a special assistant in the Office of Community Life and as a lecturer in Non-Western Studies.

Jibrill is a member of the Board of Directors of the Community Film Works and the African Studies Association and the Association of African and Black-American Studies. Lee, who will be assistant dean for student services, received a B.A. from Pacific Lutheran University and an M.A. in college union administration from New York University.

He is listed in Who's Who in American Colleges & Universities.
Mr. Mackinnon Dies; Education Professor, Emeritus

Alexander A. Mackinnon, Jr., professor of education emeritus and former chairman of the Department of Education, died at his Hempstead, N.Y., home after an illness. He had served Trinity for nine years prior to his retirement in 1971. A memorial service was held in the Chapel College on August 5.

In contributions to memory of Professor Mackinnon: "Those who knew him will remember with pride his many achievements as chairman of the Department of Education; they will also recall the countless ways in which he served others so cheerfully and so effectively."

Mr. Mackinnon "dedicated his life to education," Dr. Lockwood observed. "He knew Hartford and Trinity well; he brought to both places the highest standards."

Mr. Mackinnon, a native of Truro, Nova Scotia, attended Amherst (Mass.) High School and then entered Amherst College. After graduating from the latter school in 1924, in 1928 he graduated from Amherst College with a master's degree and then entered the University of Chicago. In 1929-30 he served as assistant professor of education at Amherst College, and then in 1930-31 he taught at the University of Virginia.

In 1931, Mr. Mackinnon became a member of Trinity's faculty as professor of education and served in that capacity until 1943, when he left Trinity to serve in the Army for the duration of World War II. In 1946, he succeeded in obtaining from the Connecticut Board of Education a federal charter.

Mr. Mackinnon is survived by his wife, Margarette Mackinnon, to whom he was married in 1925, and by two daughters, Elizabeth Mackinnon of Fort Sam Houston, Texas, and Annabelle Mackinnon of Washington, D.C.

IN MEMORY

JOSEPHINE BOUMAN CRANE, 1936

Mrs. Winthrop Murray (Josephine Boardman) Crane, who received an Honorary M.A. degree from Trinity College (New Haven, Conn.), a graduate of the Commercial Department of Keene (N.H.) High School from 1913 to 1917, has been a lifelong friend of Trinity. She leaves her husband, Mr. Murray Crane, and their children, Mrs. Dick Darr, 27, and Mrs. Howard F. Dunlop, 29, and a sister, Mrs. William Collins of Charlotte, N.C.

IN THE Family in Woods Hole, Mass., where she received an Honorary D.Litt. degree from Trinity in 1952, she leaves her parents, Mr. and Mrs. Earl Price Paper of Charleston, W. Va., and her sister, Mrs. Mary Jacobs Bromfield of New York City.

LUTHER DECK MILLER, 1946

Major General Luther D. Miller, retired, the recipient of an Honorary D.Litt. degree in 1946, died at his home in Washington, D.C.

Chaplains Miller received his B.A. from A. & T. State University; his B.S. degree from Chicago Theological Seminary; and his B.D. degree from Chicago Theological Seminary in 1918 and was commissioned in the Regular Army in 1920. In 1943 Chaplain Miller was appointed Chief of Chaplains, U.S.A. He became the first Protestant Chaplain to assume the title of Chief of Chaplains, U.S. Army in 1943.

His service Ribbons include Southeast Pacific Service Ribbon, American Defense Ribbons, and Philippine Crosses with one star, American Theater Campaign Medal, European-African-Middle Eastern Campaign Medal, and the Legion of Merit.

He is survived by his wife, Mrs. Theodore Hardey of Fort Sam Houston, Texas, and the Rev. Luther D. Miller, Jr. of Washington, D.C.

JAMES KIRTLAND EDSELL, 1908

James K. Edsell, who received his B.A. degree in 1908 from Trinity College, died at his home in New York City.

Until his retirement in 1955, Mr. Edsell was superintendent of the Price Paper Company, a major producer of paper products. As a member of the Board of Trustees, he was chairman of the Committee on Buildings and Grounds from 1955 to 1960.

Mr. Edsell was a member of the Board of the Commercial Department of Keene (N.H.) High School from 1913 to 1917, has been a lifelong friend of Trinity. He leaves his wife, Mrs. David Edsell, 27, and their children, Mrs. Dick Darr, 27, and Mrs. Howard F. Dunlop, 29, and a sister, Mrs. William Collins of Charlotte, N.C.

VERNEN WARREN CLAPP, 1922

Verren W. Clapp, who was named "the Librarian of the Library" by the Connecticut Board of Education in 1928, was the first professional librarian at the Library of Congress.

Mr. Clapp joined the Library of Congress in 1921 as a reference librarian in the main reading room. He was named librarian of Congress in 1928.

Mr. Clapp died of cancer in 1972. Since that time he worked with the Library as the director of the Library Resources and chief assistant librarian of Congress.

In addition to his wife, he is survived by her daughter, Mrs. Theodore Hardey of Fort Sam Houston, Texas, and the Rev. Luther D. Miller, Jr. of Washington, D.C.

ASA BARTHELMAO CARMICHAEL, 1936

Ass. B. Carmichael, a member of the class of 1936, died of a heart attack June 10, 1972.

A member of the class of 1936, Mr. Carmichael was a retired partner of Palace, Wehler, Jackson and Curtis, a brokerage house in Hartford.

In addition to his wife and god-son, Frazier Scott, he received his B.A. in 1971. He leaves his wife, Mrs. Mary Jacobs Bromfield of New York City.

IN MEMORY

RAYMOND ALLEN SLATER, 1961

Dr. Raymond A. Slater, who received his B.A. degree in 1961, died of cancer on June 1, 1972.

Dr. Slater entered Trinity in 1957, and during the next six years in the Air Force and then ventured to the Arctic Circle as a field representative of Western Electric, working on the DEW Line before returning to his former position as a manager of paper Price Paper Company, New York City.

He leaves his parents, Mr. and Mrs. Earl Vosburgh of Highland Park, Illinois; his brother, Mr. Douglas of New York City; and his nieces, Misses Katharine, Juliet and Jennifer, all at home; and a sister, Misses Williams Collins of Charlestown, N.C.

LINDON WILLIAM TYLER, 1969

Lindon W. Tyler, a member of the class of 1969, accidentally drowned at the West Hartford, Connecticut Metropolitan District Water Reservoir on June 10, 1972.

Mr. Tyler continued his education at the University of Connecticut, majoring in engineering, and was a member of Sigma Nu fraternity. He was killed in a one-car accident on June 10, 1972.

Since that time he worked with the library, where he was named a member of the Library Resources and chief assistant librarian of Congress.

In addition to his parents, Mr. and Mrs. David A. Tyler, Jr. of West Hartford, Connecticut, Mr. Tyler continued his education at the University of Connecticut, majoring in engineering, and was a member of Sigma Nu fraternity.

He leaves his parents, Mr. and Mrs. David A. Tyler, Jr., of West Hartford, Connecticut; a brother of Mrs. Tyler; and a sister, Miss Mark McMahon of Hartford; and his grandmother, Mrs. Elizabet Langedon of West Hartford.

GEORGE LACY COYLE, III, 1972

George Lacy Coyle, a member of the class of 1972, died of a heart attack July 1, 1972 while skin diving with his father in the Indian Ocean.

Mr. Coyle, who had just received his B.A. through the New Horizons Program. He is survived by his parents, Mr. and Mrs. George L. Coyle, Jr., all of Charlestown, Va., and his sister, Julia. He was the only child of Mr. and Mrs. George L. Coyle, Jr., all of Charlestown, Va.
Varsity Soccer Success Hangs on Forward Line

If head coach Roy Dath can find replacements for his depleted forward line among the 38 candidates who turned out for pre-season practice, the Bantam varsity soccer team could move back over the 500 mark for the first time since 1969.

After 18 consecutive winning seasons, Dath suffered through the 1970 campaign without a win. The Bants improved to 5-5 last fall and the return of 12 lettermen should make the Bants a dangerous coming season. Ms. Millspaugh will handle the Women's tennis team this fall while Ms. Preminger feels an optimistic one because of a sharp rise in the number of runners out this fall.

Another depleted area is at halfback with the graduation of the starting quartet. Junior fullback Bill Brouse may shift over to halfback to provide some experience but the rest of the starting backfield will most likely be filled by inexperienced players.

Fortunately the team has some depth at fullback with the return of Brouse, Burt and Dave Jickels. Junior Glen Preminger and Bill Lawson divided time in the goal last fall and are back for their second year.

The 1972 schedule is filled with rugged opponents. Included are Williams and Tufts, last year's NCAA Tournament qualifiers, and two perennially powerful teams - Williams and Wesleyan and Amherst.

Co-captain John Surovik and Don Butt lead back a group of seven starters including last fall's recipient of the Most Improved Player Award, Rick Marshall '73.

Dath's big concern is in forward where Marshall is the only returning starter. The Bants have three top sophomore prospects - Pete Mindich, Roger McCord, and Robert Andrian - to fill vacant starting berths but lack of varsity experience will be a problem in the early season.

Surovik and Scott Fitzpatrick are veterans at the "feeder" position in Coach Dath's offensive alignment and should provide a good backup for the sophs.

15 Runners Out For Cross-country

For the first time in a number of years the forecast for the cross-country season is an optimistic one because of a sharp rise in the number of runners out this fall.

The barriers haven't won a meet since 1968 and have run three 0-7 seasons together but coach Craig Phillips feels that his 15 man team (the usual turnout has been half that number) has the potential to break into the win column in 1972.

One of the most encouraging aspects about the turnover is that 11 of the 15 runners are freshmen and sophomores who should set the basis for stronger seasons in the future.

(see CROSS COUNTRY, page 4)

TRINITY
SPORTS

88th Football Season Opens With Optimism

A combination of 17 returning lettermen and the arrival of a fine sophomore class which produced an undefeated season a year ago is generating considerable optimism on campus as Trinity's varsity football team prepares for the opening of its 88th campaign, hosting Williams College on September 29.

Among the nine returning starters on the offensive unit is a pair of talented juniors - Saul Wiezenthal and Ron Duckett - who established themselves last fall as one of the finest passing-receiving combinations in New England.

Although Wiezenthal did not recover a starting assignment at quarterback until the third game of the 1971 season, his passing accounted for 12 touchdowns and 1,325 yards - for the fourth best total in Trinity's varsity football team history and was ranked statistically tied for second among New England quarterbacks.

Ron Duckett was on the receiving end of 51 of Wiezenthal's passes and was the New England Receiver of the Year in his first year of varsity competition. At season's end, Duckett was ranked fifth in the nation among receivers in the nation's College Division.

Three seniors on the offense are shooting for a third consecutive year in the starting lineup. One of them is co-captain Joe McCabe who has already accumulated 1,770 yards from his fullback position in two seasons and has also doubled as the squad's punter since his sophomore year. Center Ed Rawls missed most of the 1970 season with a knee injury after initially winning a starting berth but came on last fall to be one of the team's outstanding linemen.

At present, he is also the leading candidate to take over the extra point and field goal kicking chores left by Quentin Keith '72. Guard Bob Ghasse was the lightest member of the offensive line last fall at 180 pounds but was the recipient of the Dan Jesse Blocking Award.

The development of defensive linemen and linebackers appear to be Trin's most difficult problem despite the return of last fall's outstanding defensive player, linebacker Phil Potter, and two-year starter at defensive end, Bob Thiel. Senior tackle Mark Ziven and junior linebacker Barry O'Brien are the only other experienced varsity players in this area.

Fortunately the team has a number of good prospects up from the freshman defense which allowed its five opponents a total of 42 points. Jack Holik (6-1,240) and Lew Labbadia (6-2,200) have been impressive during pre-season ball and are the leading rookie candidates for the tackle slots.

Junior Adron Keaton (6-3, 265) saw some action last fall at defensive tackle and should be in the thick of battle for a starting berth.

Trin has a fine pair of veteran cornerbacks in the secondary in senior George Sutherland and co-captain Ray Perkins. The latter has led the team in interceptions for the last two seasons.

Although the squad has the potential to have a fine season, it will be facing one of its most rugged schedules in years. As always, the Little Three teams - Amherst, Wesleyan, and Williams - will field powerful and talented teams. The Bants will also be facing a rejuvenated Coast Guard outfit which won eight of 10 games last fall after several poor seasons.

Yet the toughest encounter may come on October 28 in New York when the squad meets the University of Rochester Yellowjackets in Rochester.

The varsity defeated its other three opponents - Bates, R.P.I., and Colby - last fall, but by an average margin of less than seven points.

COACHES Jane Millspaugh (left) and Jane Fox make preparations for the upcoming season. Ms. Millspaugh will handle the Women's tennis team this fall while Ms. Fox will coach the field hockey squad.

WOMEN COACHES Jane Millspaugh (left) and Jane Fox make preparations for the coming season. Ms. Millspaugh will handle the Women's tennis team this fall while Ms. Fox will coach the field hockey squad.
