Tuition Rises $150; Budget Is $9.3 Million

Trinity is increasing tuition by $150 for next year, bringing tuition costs to $2,850. The tuition increase was announced by President Lockwood who also reported the College's budget for next year will be $9.3 million, up from $8.5 million for this current year. Main features of the budget are that a larger percentage of the total budget are given to instruction, and to scholarships.

The 1973-74 budget is balanced, Dr. Lockwood said, because of additions to endowment and "more aggressive management of our portfolio," which has helped increase endowment income. "If, as we hope, the Annual Fund continues to increase, our revenue projections will have been reasonable."

The tuition increase is $50 less than anticipated. Tuition costs at Trinity have "been rising steadily in recent years," and since 1969 the College catalog has been warning that annual increases of $200 may be expected "so long as educational costs continue to rise."

"Room rents will remain the same even though many of the institutions in this region have elected to raise theirs," Dr. Lockwood said.

Total costs for a student at Trinity next year are expected to be about $4,400, including tuition, general fee ($125), student activity fee ($50), campus parking fee ($20), room rent ($700), general deposit ($50), and board, currently at $600 for a 7-day-a-week meal plan.

Commenting on the budget and the tuition increase, Dr. Lockwood said it was Trinity's aim "to improve our services and at the same time slow down the rise in costs."

14 IDP Students Become Part of Trinity Family

Fourteen people officially became students at Trinity on Saturday, April 7, in a quiet ceremony designed to show that they were no different from the College's 1,600 other undergraduates.

But the youngest of this group was 21, the oldest 61; among them were a chrome plater, a bank official, a housewife/secretary, a substitute teacher from as far away as Woodbridge, Conn., and Woodbridge, Conn., and Woodbridge, Conn.

They were the first students in Trinity's IDP (Individual Degree Program), which the College designed as a way to make the regular bachelor's degree available to people who have job or family obligations and simply can't attend college full-time.

For these 14, and for two Freshmen also enrolled in this program, there will be no semesters to measure, no course-credits to count, and for the most part, no class schedules to heed.

Instead, they will earn their degrees by completing blocks of work called Study Units, and through educational projects. They will work closely with faculty, and be able to earn their degree in three to ten years.

"This is not just a gimmick, but a real breakthrough in college education," said Dr. Louis Rabineau, vice chancellor of Higher Education, who has been observing the development of the IDP, and who spoke to the new students after the matriculation ceremony.

Dr. Rabineau said "I understand correctly, what is being offered is one of the finest examples I know anywhere of attention to quality of education, respect for the uniqueness of the College (Trinity), coupled with concern for special interests of the larger student population which is represented here in this first group.

"I'm sorry to say that in too many instances in other quarters attempts have been made to hop on a popular bandwagon without regard to merit,"
Dr. Richard Morris, Historian Of Submarine, Makes Gift to Library

April 1973 was a day for the Hollands in the Nutmeg State Government when the first submarine launched in the U.S. Navy, the first submarine to be launched by Richard S. Morris, professor of Education at Trinity, was named. The submarine is considered a collector's item.

Among the outstanding books in the collection are:

* The volume of history of the submarine by Alan Burgoyne, published in London in 1903.
* The semi-fictional biography of Commander Richard S. Morris, generally attributed to E. Tomlinson, a Yale librarian, though no author appears on the title page.
* The autographed copy of Frank_physic's book on the Battle of the Submarine, 1st ed. (1925), which was general manager of the New London Ship & Engine Co., which merged with Holland Ironworks Co. to become today's Electric Boat Division of General Dynamics Corp.
* Simon Lake's submarine in War and Peace, which Morris considers much better than the autobiography and of more value to the historian.

These books, according to Dr. Morris, were relied on by writers on the early United States submarine, perpetuating the chronological errors and incorrect emphasis which they contained. "I'm sure the errors are the result of the source which has always chosen the subject of submarines," he declared.

The Memory Club, a private collection of letters, papers, newspaper clippings, and rare photographs taken between 1865 and 1905, is also a part of the collection.

The Annual Giving Campaign has raised 85 per cent of the $475,000 goal as of the end of March, 1973. The goal was $475,275, in gifts and pledges. However, Ross said, a large proportion of the alumni have not yet contributed to the drive.

"Although (the goal of $475,275) is within reach," Ross said, "we are still $72,000 short of the mark. The 76 per cent of our alumni who have not yet made their gifts can assure success by making their gifts before June 30." Goal for the Alumni Fund is $275,000, of which $229,128 has been raised.

In addition to President Connolly, the board of trustees, and the Alumni, faculty, staff, and friends of Trinity, Ross and his associates have the support of the local community. The campaign is under way.

The Alumni Fund is mailed to alumni, parents, faculty, staff, and friends of Trinity. Copies are available to students. There is no charge.

Letters for publication must be no longer than 500 words and typed. The printing of any letter is at the discretion of the Editor and may be edited for brevity, set appearance.

Editor, L. Henry Wilson; Associate Editor, Alfred C. Burfeind, '64; Assistant Editor, Milli Silvestri; '64. Issued nine times a year in October, November, December, January, February, March, April, May, and June. Published by the Office of Public Information, Trinity College, Hartford, Conn. 06106. Second class postage at Hartford, Conn. THE REPORTER is mailed to alumni, parents, faculty, staff, and friends of Trinity. Copies are available to students. There is no charge.

Dr. Richard Morris, Historian Of Submarine, Makes Gift to Library

Dr. Richard Morris, Professor of Education at Trinity, has donated to the Library 57 books and two volumes of history of the submarine, by Alanburgoyne published in London in 1903.

Among the outstanding books in the collection are:

- The volume of history of the submarine by Alan Burrow, published in London in 1903.
- The semi-fictional biography of Commander Richard S. Morris, generally attributed to E. Tomlinson, a Yale librarian, though no author appears on the title page.
- The autographed copy of Frank Cribbins' book, published in 1925. Cribb was general manager of the New London Ship & Engine Co., which merged with Holland Ironworks Co. to become today's Electric Boat Division of General Dynamics Corp.
- Simon Lake's submarine in War and Peace, which Morris considers much better than the autobiography and of more value to the historian.

These books, according to Dr. Morris, were relied on by writers on the early United States submarine, perpetuating the chronological errors and incorrect emphasis which they contained. "I'm sure the errors are the result of the source which has always chosen the subject of submarines," he declared.

The Memory Club, a private collection of letters, papers, newspaper clippings, and rare photographs taken between 1865 and 1905, is also a part of the collection.

The Annual Giving Campaign has raised 85 per cent of the $475,000 goal as of the end of March, 1973. The goal was $475,275, in gifts and pledges. However, Ross said, a large proportion of the alumni have not yet contributed to the drive.

"Although (the goal of $475,275) is within reach," Ross said, "we are still $72,000 short of the mark. The 76 per cent of our alumni who have not yet made their gifts can assure success by making their gifts before June 30." Goal for the Alumni Fund is $275,000, of which $229,128 has been raised.

In addition to President Connolly, the board of trustees, and the Alumni, faculty, staff, and friends of Trinity, Ross and his associates have the support of the local community. The campaign is under way.
Private colleges and universities should concentrate on raising more scholarship money if they are to compete with public institutions, according to Dr. William S. Curran, professor of economics and director of institutional planning at Trinity.

Speaking April 17 as the George M. Ferris Lecturer in Corporation Finance and Investments, Dr. Curran said it is essential for private institutions "to offer a viable alternative to public higher education."

Dr. Curran spoke on "The economics and financing of private higher education."

Commenting on "the rather pronounced decline in the relative importance of private institutions in higher education," Dr. Curran said the dilemma of these institutions occurs because "there is a greater subsidy to a student attending a public university than to a student attending a private one."

In his lecture, Dr. Curran reviewed statistics which showed that as recently as 1951, private colleges and universities enrolled over half of the nation's student population. During the 1950's and 1960's, the number of students at such a rate that by 1980, according to government projections, they will reduce the private institution's share of the student population to 19 percent.

And while enrollment has been declining, tuition and operating costs have been increasing at a faster rate for private institutions than for public ones. "The private institution has been able to finance its financial difficulties, Dr. Curran suggested that "tuition increases must be kept at a minimum" in order to continue to attract students on the basis of academic promise, rather than ability to pay.

But at the same time, he warned, "Attempts to hold down tuition increases by slowing down increases in per-student cost must not lead to an erosion "in the quality of education which the institution offers."

"Success, to balance the cost of education against its quality, colleges will have to rely "on somewhat more heavily upon endowment income and annual giving."
JOHN ROWLAND retired in 1970 after over 40 years with Actua Life and Casualty, Group One. He has been associated with the company since 1928 and has held various positions in various companies, expecting another. John spent his time at his summer home on Long Beach Island, New Jersey. He also keeps active playing golf, sailing, and traveling.

JOHN SOUNEY spent the last 18 years as an administrative judge with the National Labor Relations Board.

MR. FRANK M. GALLAGHER has been engaged in the insurance business in Glastonbury and vicinity for the past 28 years. He is now manager charter representative of the National Marine, Auto, General and Allied Insurance Co., Hartford, Conn., and is presently at University of North Carolina, Chapel Hill, working on his master’s while teaching and coaching the hockey and soccer teams.

MR. HERBERT R. BLAND has been retired from his position as a high school teacher in Michigan for 28 years. He has two children, Michael, a chemical engineer, and Barbara, a high school teacher in Michigan, “... and both are married.”

MR. ALBERT W. VANDERZAN, Jr., who is presently at Office of the Community for Eighteenth Century Studies.

Mr. Martin D. Wood was born in New Haven, Conn., and is presently at University of North Carolina, Chapel Hill, working on his master’s while teaching and coaching the hockey and soccer teams.

MR. R. HARRY GOSLING, Jr., is presently at Bloomfield, Conn., 06002.

MR. DR. GEORGE LEPAK, formerly assistant treasurer of AMF Inc. in New York, has been associated with the company since 1962 thru 1971. In the meantime Louis was an active member of the Connecticut State Medical Society, Elliott has been president of the society, and his son, Jeff (16) has two years of rowing experience with two more to go. The family augments the crew when not in school. His son, Jeff (16) has two years of rowing experience with two more to go. The family augments the crew when not in school.

MR. PETER M. WATERS, partner in the construction firm of Humphreys and Harding in West Hartford, CT, 06117, has been associated with the company since 1960. He teaches western civilization, United States history, and that his youngest used his last diaper in 1982.

MR. DON WIGGLESWORTH reports that he is living at 93 Russ Street, Bloomfield, CT, 06002. His son, Michael, is presently at University of North Carolina, Chapel Hill, working on his master’s while teaching and coaching the hockey and soccer teams.

MR. JOHN R. LANEY is presently at 27 Walbridge Road, Bloomfield, CT, 06002.

MR. PETER M. WATERS, partner in the construction firm of Humphreys and Harding in West Hartford, CT, 06117, has been associated with the company since 1960. He teaches western civilization, United States history, and that his youngest used his last diaper in 1982.

MR. DON WIGGLESWORTH reports that he is living at 93 Russ Street, Bloomfield, CT, 06002. His son, Michael, is presently at University of North Carolina, Chapel Hill, working on his master’s while teaching and coaching the hockey and soccer teams.
NEIL MUSCHLER coordinates the Pupil Personnel Services for the Hudson-Henry Schenectady Joint Union Free School District.

CARL MEALE, formerly an assistant at the Connecticut School of Law, is now a staff attorney at the Connecticut State Library and a member of the Section of Labor Law and Employment Practice of the American Bar Association.

A Roundup of Spring Varsity Sports

TRINITY SPORTS

FAST BREAK – Trin sophomore Dave Lewis (6) moves by an Amherst defenseman as teammates Chris Mooney (25) and John Westermann (19) look on. Lewis pumped in the winning goal with the winning team's top scorer – he currently ranks second in New England with 25 goals and four assists.

Varisty Crew Victorious In 3 Out of 4 Regattas

Trinity’s varsity baseball team has suffered through unusually cold weather, monsoon-like rainstorms, and a few snowflakes this spring—not to mention some terrible hitting—but has still managed a 4-3 record for the first half of the season. The Bants relied on a strong pitching staff which boasts a combined 2.29 earned run average to offset a team batting average of .260. Colonel, Conn., John Sutoriak is the club’s premier hurler with a 1.12 ERA and has a one-hitter over Coast Guard as well as a 3-2 decision against Wesleyan to his credit.

The only two consistent hitters on the squad have been juniors Rick Hall (.385) of Pleasantville, New York and West Hartford’s Bill Scully (3.33). Coach Robbie Shultz and his charges have “made a living” off of Wesleyan and Coast Guard who they have defeated three straight times. Losses have come against Hartford (7-3), Williams (3-3), and a 3-2 heartbreaker to Amherst.

LACROSSE

When the season started, Coach Chet McPhee was optimistic of erasing the memory of last year’s 2-8 record because of a stable group of returning starters and sophomores. The president’s optimism evaporated, however, as the laxmen lost their first two encounters to Tufts (5-3) and Holy Cross (12-9).

The Bants carried an 0-2 mark into a contest with perennially tough Amherst but emerged with a 5-5 double overtime victory with the winning goal pumped in by sophomore Dave Lewis of South Hadley, Mass.

The varsity opened its season with a 9-0 victory over Wesleyan in the Fred Emerson Trophy Regatta. The varsity and sophomore coxswain are part of a fine crop of oarsmen. Junior Charlie Mooney (25) and John Westermann (19) look on. Lewis pumped in the winning goal with the winning team's top scorer – he currently ranks second in New England with 25 goals and four assists.

The varsity jumped into the lead at the start and was never headed in scoring a three-length victory. Coach Graf later commented that, “We learned a lot from your loss against U. Mass and we put everything together today.”

The President’s Cup, hosted by Marist College, confirmed Graf’s observation as Trinity stroked past some of the best crews in the East to take a one-length victory over runner-up St. Joseph’s. Trailing in order were Temple, Marist, Worcester Tech, Manhattan, and Holy Cross.

Still smarting from their defeat, Trinity traveled to Ohio the following Saturday to engage Marietta College and Morris Harvey of West Virginia. Marietta had placed third behind Coast Guard and Rollins in last spring’s Dad Vail Regatta so the race provided Trin with its second major test in as many weeks against the nation’s top small college eights.

A severe wind and rainstorm made the 2,000 meter Hudson River course rough going in the junior varsity and freshman races. The latter was swamped after leading the field for 500 meters and was later joined by the Marist frosh at the 1,000 meter mark. Crews from Worcester Tech and Holy Cross were the only contestants able to plow through the entire course.

HEAVE HO – Varsity heavyweight coxswain Harold Anderson is about to hit the chilly waters of the Connecticut River for the traditional “victory swim” after the Bants scored a nine length victory over Wesleyan in the Fred Emerson Trophy Regatta held April 7.

Trinity’s varsity baseball team has suffered through unusually cold weather, monsoon-like rainstorms, and a few snowflakes this spring—not to mention some terrible hitting—but has still managed a 4-3 record for the first half of the season.

The Bants relied on a strong pitching staff which boasts a combined 2.29 earned run average to offset a team batting average of .260. Colonel, Conn., John Sutoriak is the club’s premier hurler with a 1.12 ERA and has a one-hitter over Coast Guard as well as a 3-2 decision against Wesleyan to his credit.

The only two consistent hitters on the squad have been juniors Rick Hall (.385) of Pleasantville, New York and West Hartford’s Bill Scully (3.33).
