THE TRIPD

The trip from New York to Chicago by rail is a long one, but the scenery is beautiful. The train leaves the station at 5:15 a.m. and arrives in Chicago at 3:30 p.m. There are many stops along the way, allowing passengers to see the beauty of the countryside.

The train is a modern one, with comfortable seats and ample space for luggage. The food service is good, with a variety of options available. The conductor is friendly and helpful, making sure that passengers are comfortable and their needs are met.

In summary, the trip from New York to Chicago by rail is a pleasant one. The scenery is beautiful, the service is good, and the comfort level is high. It is a great way to travel across the country.
ASSISTANT SECURED FOR PHYSICAL TRAINING.

Frederick Stone, Former Choate Coach, to Assst Dr. Swan.

Frederick Stone has been secured as an additional assistant in physical training, as provided by the trustees at their last meeting. He was very active in organizing boys' clubs in St. Stephen's Parish in Boston while President Ogilvy was assistant there, and was persuaded by Dr. Ogilvy to take up physical training as a profession. He was graduated from the Springfield Y. M. C. A. College in 1915, and took charge of the physical training department of the high schools of Springfield and coached all branches of athletics. During his three years in the Springfield high schools and subsequently in the High School of Commerce, his teams won the championship of Western Massachu­setts in the following sports: twice in football, three times in basketball, twice in track, and once in baseball.

During the war Stone served with the Y. M. C. A. and was stationed near Tours. His work was mostly in athletics.

Last year he had charge of the physical training department at Choate School. He has coached all branches of scholastic sports and turned out some famous athletes. Nine out of eleven men that com­posed the football team that he coached in 1917 made a college team the following year. He was persuaded to his work at once as instructor in the gymnasium.

With Stone in as well as Drew to as­sist in the class work, Dr. Swan plans to have gymnasium classes from 9.45 until 9.55. When weather permits, most of the work is to be on the athletic fields. From this larger choice of hours, juniors and seniors can select two each week. The other classes will be held very much as usual.

The subtle something that makes your college different from any other, and dearer to you, than all the rest com­bined. In cigarettes, it’s the signal success that makes so many college men of discrimi­nation prefer Melachrino, the one cigarette sold the world over.

Remember that Melachrino is a master blend of the finest Turkish Tobaccos as originated by Mnalches Melachrino. Each impure cigarette is simply those that originated in Egypt. But the to­bacco is what you want to know about — and if it’s Melachrino — it’s right
