SATURDAY, JUNE 9, TO BE ALUMNI DAY

"Peter's Cup" Presented to Delta Phi at College Body Meeting.

The April meeting of the College Body, held Monday, April 16, was addressed by Walter S. Schutz, '24, representing the committee in charge of arrangements for the Centennial celebration in June. Before announcing the results of some of Mr. Schutz's efforts to improve upon the program will be attended in two weeks and that the committee is very anxious to have as many names as possible by that date.

This program is now crystallized so far as the official portion is concerned. The only time left open by the committee is Sunday late afternoon or the intermission at the President's residence at 115 Vernon Street. Old custom was to have this after Commencement so that the President could receive the seniors as they left the gymnasium. This year it is to be held at Alumni Hall by Trinity undergraduates. The program will be a combination of musical and dramatic efforts, the latter of which will be given in Alumni Hall next Saturday night.

Then we read of an address by the president of the College, in which he described the program of spending millions annually in the effort to cut down the crime of bootlegging and enforcement of one law, when no attempt is made to enforce many other statutes of the state. The whole question is considered serious enough for a man of such caliber to speak upon it, surely some thought should be given to it by college men.

On the other hand, the last election some senators and congressmen were elected on outright "wet" platforms. Does not this prove that the people want the present law to continue? There are two parties. The one which wants to continue the present law is demanding its enforcement, while the other, which is winking at others in such a manner as to promote the sale of liquor, is saying that we do not care to do." The other side is constantly seeking new ways to sidetrack the Prohibition policy.

The worst feature of it is that spasmatic raids and enforcement are being made to try to drive idle incipient concern, while the determination of this same class is not one whit abated by this fact. Those who are weakening the system of liquor, the rest take another tack and try to turn the law with a smile, and will continue to do so as long as human instinct are uncontrolled.

Nowhere, as much as in the colleges, (unless it be in high schools) is there an instance of the conflict being felt among youth. To drink there is a right and a wrong. There is no drunkenness in the real sense of the word, and never miss an opportunity to do so now. We do not pretend to vance any reason for this. We are in favor of the enforcement of the "wet" ideas. "Is it not about time for decent puritanism to be brought back on the campus?"

If there is any undergraduate here who wishes to enter the contest, announcement of which started this fall, he must get his ideas cleared up. "The Tripod," aged two, assisted by his father, present his cup to Capt. of the Delta Phi basketball team, which won the Intramural Basketball League this winter. Sigma Nu won the cup last year, but the Douglas, won this year, thus being led by Delta Phi. The cup will remain with the Delta Phi Fraternity until next year.

The meeting was then turned over to the Secretary, who will be

English Economist Lectures on European Financial Situation.

POLITICS, NOT POVERTY, KEEP GERMAN DEFICIT

Says English Situation is More Critical than Commonly Supposed

In a lecture on "Financial Conditions in Europe," before the Political Science Club, Henry Higgins, distinguished English economist, said that financial situation of France, Germany, and the new nations created by the war is desperate. Mr. Higgins is the author of numerous important books on the history of paper money.

"The French are firmly convinced," Mr. Higgins told his audience, "that the Germans have no intentions of meeting their obligations. The time has come when France must have France, and not words," stated the lecturer. "The French have had enough. They have more than a gap in the collection of revenue which is the result of the falling value of the standard, and a rise in the expenses. Budgets are balancing shortness becomes impossible under these conditions.

French Need 390,000 Homes.

In addition, public finance is becoming a national question. According to Mr. Higgins, requires that there can be no radical change in the currency system, and if a balance is expected. The temporary will not be no better off than those without. Not long ago he said that the government was able to print money for themselves for an issue a day."

Debating of the currency in the European economic situation, Mr. Higgins expressed the discouragement of commerce and thrift. It has even made commerce impossible in France. At times, the speaker, for even while goods are too much in the price of the price valuation greatly.

It is Mr. Higgins' opinion that the two conditions in Europe will not be bettered until Germany has met her obligations.

What do they mean "Senior Wrangler"?

You may not have met one of those dear old boys, — Oxonian stuff, what, what?— but our idea of a senior wrangler is a 23 man trying to work up a lather with the wrong kind of shaving cream.

There’s no “wrangling” necessary to get a lather with Williams’ Shaving Cream. Squeeze out a spendthrift’s dab or a tightwad’s dab—it’s all the same. Either way you get a big, efficient lather that softens the beard right down to the base of every hair.

And best of all, this big Williams’ lather has a distinctly beneficial effect on your skin. No complexion soup could do more for you than Williams’ does every day. Get a tube of Williams’ today and begin giving your face this helpful care.
