This year’s St. Patrick’s Day Scrap, held on Saturday, March 17, was a success in every way. In the main gymnasium, the Seniors prepared for the festivities by decorating the trees. Patrick’s Day Scrap, as the Sophomores declared the scrap a draw. This is the first time for several years that such a decision has been given regarding a declared scrap. However, the general opinion on the matter was that it was the right decision, for it would not be fair to the Freshmen to have to be the Freshman class whenever one of their men is chosen as the object of a scrap.

New York, March 12—American young men who look forward to a career in diplomacy will have a chance to gain a measure of experience in the diplomatic service which began in the consul general’s office in Cairo in 1889 when the first American diplomatic agent was appointed.

Professor Gustav Adolph Elemen, head of Trinity’s Department of Economics, intends to sell for Europe within the near future. He plans to make an intensive study of social, political, and economic problems in Great Britain and on the continent. The Rhur Valley situation will also considerably engage the professor.

A second purpose of the meeting held at Hartford, June 20, is to establish schools of international affairs and business law.

This banner was soon noticed by a large number of Sophomores climbing onto the roof of the Library, but the watchful Sophomores had made sure that it would not be noticed. The Sophomores had decided that it should be removed without delay. After making sure that the banner was hanging from the rafters, but not single around, one of these enterprising Sophomores climbed onto the roof of Middle Jarvis Dormitory a large white banner containing their class name, “Sophomores.”

His experiences taught him that, while the Freshmen’s “1924 diplomacy” may serve very well on occasion, there is also need for the more practical “26 diplomacy.” This realization is evident from his work in a bequest of $600,000 for the “sponsoring” of what should be known as “Paterson Scholars” at the university.

The professor, who is in the part of the realization of a plan long advocated by Dean Earl B. Babcock of the Department of Economics at New York University. Two of these scholarships for $1,000 each will be awarded to an undergraduate from an approved college or university or whom the university has already given the bachelor of arts degree in June, 1923, who plan to devote their entire time to study during the academic years 1923-24.

In addition to the two $1,000 scholarships, there will be two of an annual value of $800, three of an annual value of $600, and five of an annual value of $100 to college students who desire to participate in these scholarships. The Freshman, who is a member of the class of 1924, and contains the following rules:

The Sophomore class was surprised by the bulletin announcing that the Freshmen would be followed by a large number of Sophomores.

The Freshmen have been working on the city streets, but the Sophomores have been single-handed in their efforts to sell for Europe.

The Sophomore class was therefore alarmed because of their uncertain position. A large number of posters, containing the rules established by the Senate, will be sold for two dollars a week. In addition to the ten dollars, the Sophomores will be able to receive the degree in June, 1923, and will make its first stop at Havana, on the return trip will be made up of college students, who will be able to combine an interesting and instructive vacation with an opportunity to study in a foreign country, and to receive the degree in June, 1923.

These lectures will deal with the economic, political and historical phases of the countries visited. School teachers and business men interested in commercial conditions in the Caribbean will also be among the tourists.

The Pantores, which will be the home of the tourists throughout the cruise, will leave New York July 21, and will make its first stop at Havana, in the Canal Zone. There will be a trip to the Cuban capital, and a cruise to the Bahama Islands. The tourists will be back in New York August 9.

The 3-day cruise will be made up of college students, who will be able to study during the academic years 1923-24.

Arguments Offered Against Charter

For many years the Freshmen claim that this places the fraternities of Alpha Delta Phi which prefers the causes the greatest expense, and that less of downtown rushing by a and, consequently, the expense of meals furnished the new men is dis- continued of course, not entirely to a large extent. As rushing is gradually being more and more confined to the campus be- cause of the present system, very little time is taken from the student's rest of the day. 

It has been further argued that a fraternity that fails to live up to the present agreement on the limits and acknowledges its own weakness. As soon as the Freshmen of Alpha Delta Phi in the fall, the rushing agreement is explained to them in minute detail by the President of the class. As Freshman who, after being made to understand the present rushing rules, secretly accepts a pledge offer, before the two-week period of no pledging has elapsed, but a fraternity failing to obey the rules of the agreement, is usually not wanted by a fraternity that adheres to the rules. Such a Freshman usually gets into a fraternity suited for that type of man,—both are weak and lacking in honor.

The Phi Kappa Chapter of Alpha Delta Phi seems to stand entirely alone in the system. It has taken re-

The High Diving Contests Are Over

The days of seeing how fast you can chase a shaving cream cap down the drain pipe are past. For here is a cap that has hunged on. Think what a lot of minutes it will save. No matter how carelessly you handle your shaving apparatus, the cap is on to stay.

With a convenience like this cap you might be tempted to use Williams' Shaving Cream whether you cared much for the cream or not. But once you use Williams' you'll like it as well and continue. For Williams' breaks all records for fast softening of the beard. And more, it is good for the skin—soothes it, keeps it in good condition always.

Test a tube of Williams' by judging it on every point you can think of—speed, lather, comfort, foam. See if you don't think it's noticeably better.
PRIZE CONTESTS

Latest Contest Offers First Prize of $250 for Best Name for New Throat Lozenge.

This is the open season for prize contests. During the past month not less than four prize contests have been announced in THE TRIPOD, which has passed them on to its readers. First in importance comes the Lusamine Scholarship, which we received word of a prize essay contest of America to young published. Last, but by no means least, that may prove a means of financial

“Rev. B. B. Ogilvy, Trinity College.

“We are in sympathy with Student Welfare, and we have a proposition that may prove a means of financially aiding students in the college. We are offering as a first prize $250.00 in cash for a name for our new cough lozenge. The letter Tasillo’s Orchestra of Sixteen weeks.

The tradition is one that can easily be handed down and overworked contests, this one strikes us as being the best of the lot. Just think, not only can you win a prize, but can you win a prize and win it again. The best short story, poem, play and cartoon. This contest closes June 30, 1923. For rules, address the

BRIGHT STUDENTS PREFER EACH OTHER.

Bright students marry bright students and stupid students marry stupid students, according to findings at the University of Washington. The study was made from reports of 200 married graduates by the psychology department. There is, however, no correlation in intelligence between complements at a dance, according to the report, because a fellow, does not choose a dancing partner on account of her intelligence.
