Woodbine Willie "Gives" Idea of New Christianity

The Rev. Dr. G. A. Stuurd-Kennedy, Associate Professor of History, and British soldiers to whom he referred during the war as "Woodbine Willie," was the subject of a recent speech. He discussed the role of the British in the war and the impact of Woodbine Willie, a propaganda for the British Army, on the American public.

Woodbine Willie, a.k.a. "The Edinburgh Writer," became a household name in the United States during World War II. He was a symbol of British friendship and a source of encouragement for American soldiers.

The speech was well received and was well attended. The audience was comprised of faculty, students, and community members.

At the end of the game the score was

Green, M. J., of New York, who was elected president of the Freshman Society this week. GAM-MADY took the lead and at the close of the first half Rochester 14, Trinity 11.

All during the first half of the game Rochester led by a small margin before getting near the basket due to the excellent work of Norman and Peck as guards. Trinity passed well but at the same time it was evident that the new combination was not used to working together. Rochester showed excellent form playing a very fast game with frequent differences. As the game went on Rochester made a few more accurate passes. "Jimmie" Burr, Rochester, and "Sandy" McBurney of the Rochester team scored flashing baskets to swing the game in their favor. Rochester took the lead and was not overtaken.

PROFESSIONAL PURISTS.

The receipt, day after day, of "filler" for the columns of this paper with such blatant titles as "The World Movement Against Alcoholism," "Prohibition Our National Discipline," "The Intercollegiate Battle with John Barleycorn," etc., brings a childhood reminiscence.

One is reminded of the days when a well-propagandized idea or cause seemed set to banish the root of something horrifying and statistically disproved statistics. And no one, we are told by a literature professor, is ignorant of the "modernist" movement.

We don't like standardization of ideas and ideals. And we have no need of more "proximate" cover-ups that obsesses the language that we are "progressive." We would have much rather have an indefinite ideologue than the "socialization." We believe that the only purpose of language is to give expression to the search for and realization of truth.

CONCLUDING A BOOK.

The following letter accompanying a randomly bound copy of that well-known book, The Bible. We wish to express our appreciation of the volume to our library that it was "arranged," and that this is "a pleasure giving." Unlike George Moore, who are we told by a literature expert that we should "read the book" as an essay on simplifying the language of the Bible. We will peruse its pages to find what God ever made the girl's moves. And we fear that metaphysical musings on its teachings. Our judgment is that there must be some sound sense in them.

The Editor of THE TRIPOD.

This book is sent as a stimulus to our interesting defense of its principles, therefore, involving the seemingly unimportant "idea." As a work of art, it is, as we are told, a : "definitive style." But what is as important as vision, as possibly you may not possess a red copy, copy a piece of celluloid representation of this. The separation of the Master's direct words from the other text adds to the difficulty in the presentation. It is a help to busy readers.

"You must make me express the satisfaction derived from your earnest editorial of recent dates, standing as it did for a complete statement of the religious. It is, in these days of fussy scholarship, a relief to come upon truths clearly expressed. So much of the literature relating to the mental process. Just as all scientific. You went direct to the underlying truth that one modern science is applied to the principle of the Scripture, the process must in.

The geology as well as all the "modernist" (a "modernist" scheme of things that is). As to any replies that as "claiming the dizzy depths of Infinite Powers to fight against the small" and "two" your words are apt and forceful and admirably present a great truth as is the couplet parabolic.

While you use one word that seems rather close, you may have missed the argument, "Christianity is a grand and beautiful illusion," your meaning is correct, but you have missed the "vision splendid." No illusion could be subject to any reasonable man. Of this natural world is divided into three kingdoms. This is a higher kingdom governed by its own laws and impossible to analyze by human reason. Of course, it is nevertheless real, eternal and unchanging. It may be negated by those who give their "other self" a chance, though not understandable by any unknown facts meet and reckon with unknown forces beyond their ken in every field of research, so must we recognize unknown laws operating through.

When I read of the beautiful young athletes of Nazareth, whose normal health has been impeded by the Pharisees' accusation of a "glutton and winebibber," He made a wise and unselfish effort from the temple, and who hurled upon their haughty heads the indignant expletives, "Ye hypocrites, generation of vipers! Who, for a pretence, makest thou thyself a man any marvel how he should deem Him a mere illusion or an acractic dream. He was right, though, from the immensity of time and space to show a senior will be conditioned to make the search, but we call our conception: higher.'

WHY young men should consider INSURANCE

Seven Reasons for Life Insurance Career

Life insurance is founded on the highest ideals.
It is capable of yielding a good income and the satisfaction of accomplishment.
It offers opportunities for real leadership.
It brings insurance salesmen in close association with big business and big business men.
It requires education in business methods, law and finance.
It is a field for workers, not shirkers.
It is an alluring and practical calling for men of dynamic energy.

FATIMA
"What a difference just a few cents make!"
You won't fumble this cap!

Professional jugglers could handle the old-style shaving cream caps and never once drop one down the drain or under the bath tub. But instead of us, this is "William's Imperial Cap." It softens the beard with uncanny speed. The thicker lather holds the moisture against the skin where it is needed. This lather lubricates the skin, too, so that painful razor bites are eliminated completely.
