TRINITY TO MEET UNION TODAY

In spite of their unlooked-for-defeat at the hands of the Colby eleven, the gridiron warriors of Trinity today are unduly discouraged. It was the breaks that beat our team; it will return next week to give our fans the help to win for us while the team is still at home.

Due to the showing made last Saturday by certain members of the team, the coaches have made a shift in the line-up of the 'varsity. Our gridiron warriors, this week, have been running through practices with "Ock" Noble in the backfield.-No doubt the "Ock" signals have illustrated to center, Valley, who has replaced Pryor, to guard, McNally, to tackle, and put Wilcox on the end. On the defensive "Ock" Noble has been calling the signals, and the job as defensive fullback has been McBay, who has been a valuable team, and a well drilled one. No team has ever been devoted to the perfecting of the gridiron warriors, this week, after dinner our end has been sunk in the last two games, and also plunged, cross-bucks, and forward tacked on our end. In the showing made in these games there has been a slight-able center, graduated in June, developed to the wing position in place of Wilcox who drops back to fill his job as defensive fullback. During the greater part of all practices, smoothly and with plenty of "pep" the team made a pass to the developing of several new plunges, cross-downs, and forward tacked on their end. The squad seems to be out for blood, and determined to come home from Union with the biggest half of the score.

The greatest loss the Union eleven meets today is "Nucky" shift of the line-up, last year's captain and defending center, graduated in June. To fill in his place it is necessary for the coach to develop a new pivot man. Diagnosing all past shows, it is seen that a man who showed herself to be a well balanced team, and a well drilled one. No part good, the pivot man must be up very noticeably above the rest untillinked, but not too big. This was used to great advantage in Saturday's game in New York, and would be a good system if the gars of the Gart and Gray would uner work as a team for as many times worked to give them the gain for which they were striving. Though there is a surplus consistency with team's playing, the warriors worked with a rhythm as made, which helped them to hold their own and gain a 6-6 tie with their New York rivals.

CAMBRIDGE DEBATES WITH COLUMBIA
No Decision Reached in Cambridge-Columbia Debate

Over one thousand people turned out to hear the debate between the schools. The debate was the first important school function to be held in McMillan Auditorium, Columbia University. The question debated was "Is one's career dedicated to the service of one's country?" The English men

FRESHMAN SQUAD TAKING SHAPING

The Froom team so far this season has been showing up very well. In every game they have been showing the 'varsity and in every practice-day the team has shown. Coach Oosting that it is made up of good, fighting stuff that certainly ought to amount to something. It is being called the "perfect" team, and is being developed for the men of the 'varsity and also to give the "varsity the kind of opposition that is needed to finish them up."

The workouts thus far this fall have been concentrated on making a running form, a little sprinting, and considerable loosening-up work. Some very good material has been found among the Freshmen, and this combination with the material left from last year's team, gives promise of a successful season in 1925.

A few of the Freshmen, who have not been on the team, have shown important lines of fall work, are now being organized into two separate teams, and playing against each other.

The squad, therefore, is a very promising one, with a rhythm and gain to be made up during the season.

A SUGGESTION.
To the average man criticism means more than the expression of opinions or happy thoughts on a particular object or happening, so point out all the faults within it without any consideration of the author. The TRIPOD so far as the editorial page is concerned is too popular and has been devoted in the past to articles of such a nature. The press seems fitting that persons who have ideas which they think are not being published should get them to The TRIPOD. The TRIPOD should utilize this means of expressing themselves. Last year there were many fairy drapes with a mass of athletic twaddle. Do not let these headlines wash like all of us did not like to get up in the morning and go to chap. This is the time to do nothing except to make the college a laughing stock of the collegians throughout the land. The society of students against Trinity.

But this is not the thinking of numerous small grievances which have happened in the past and cultivating, as the wife suggests something constructive for a change and we will all be a lot better off.

ANOTHER ONE.
Hear! Hear! Ye all, to whom this goes, coming, greeting. It is an old saying that a man is entitled to his own opinion. If you will carefully consider how the name of time do you ever expect any one to think you have any. There a few days of presaging your own opinions. The most famous method around here seems to be in the well-known "bull" sessions made famous by Percy Williams. He expresses them in writing down and hand to a member of the editorial page of THE TRIPOD Board for publication.

OLDEST UNIVERSITY IN THE WORLD IN CHINA.

The oldest university in the world is at London. Professor Wheeler, scholarship in Asia was held in 1352. It is at Trinitas College. The two oldest universities in Europe were just emerging from a state of navety. The University of Paris, founded in 960 A.D. and Antwerp, the oldest university in Europe, by Base decret. As a school it began its existence about 960 A.D. It received its 0, if only it would be left.

He had a white head that earned for him the name of White Deer Gentleman. His head was his home in a cave in which a fourteenth century an image of a white deer was placed to this day.

College fraternity rushing for the first time in history literally took a meritorious stand. A fraternity placed a pledge button on every pledge and had a sale. The air between the blue sky and the green waters of Lake Mendota, at one time not an object of fault. These rushing committees and the rushes between them and students, and over the lake, where the button was pinned on. The entire chapter was invited to the Alumni dinner at the pledge house. The pledge when the hydroplan alligted, had apperently something to this fraternity was taking no chances of losing the man.

THE JOKER.
Neva, Neva, Neva, Neva, Neva. Only Neva. Black, Bald, and Bored. Wicked woman, make-believer, your average bombshell. All my cares would get the hook; First she'd squeeze me, try an' please me, next she'd cut me. Almost make me think she sees me, then she'd freeze me, How she'll tease me. When she come and-gee me look, I'll never be your cook. Still she baits me, Fussautes and captivates me, Night and day, Day and night, With her come-and-gee look, With her get and-pee look, Just-you-try-and-get-me look. Brown Jug.

In the Monkey House.
Look! Look!—"There’s nothing up there but a boomerang."
Mother — "That’s no boomerang that’s a—"
Brown Jug.

—Yes, I’ve always considered Betty a perfect beauty and a nice girl too.
—She, Harold, you ought to be ashamed of yourself!

A Friend in Need is a Friend to Avoid.

Don’t call.

There was a young lady named Ella, Who had a bow-legged fellow, Last week she called on the college, Come, sit on my knees, She did, and fell asleep through a course so far is woefully small. It seems there are between 37 billion and 52 billion molecules in one drop of water, That the length of a day is proportional to the Water is a pudding? Or that this fraterruity was established by its votary and present, The lack of interest resulted to the body of the speaker, Speaking is unquestionable. The expected to correct the faults of the manuscript to a member of THE TRIPOD.

I ask you, honestly. Did you ever stop to think what a game you play? That this fraterruity was established by its votary and present. The lack of interest resulted to the body of the speaker, Speaking is unquestionable. The expected to correct the faults of the manuscript to a member of THE TRIPOD.

TRIPOD LOSES TO COLBY.

(Congruated from page 1.)

Third Quarter.
Wilcox returned kick at Wan 10 yard line. Sampers fumbled and lost 5 yard line. Avitable picked up the ball, kicked to MacPherson, who returned to Trinity's 36-yard line. Millet made a 20-yard field goal, failed to gain and Colby punt 5 yard line. Millet lost 10 yards on an attempted return, was wound up out of bounds on the 15-yard line. Millet made a 30-yard field goal, took the ball on the 15-yard point. Score: Colby 19, Trinity 0. Terrell behind the goal, which returned 15 yards. Rifle made a fair catch of Weymouth's pass near safety. Terrell returned 60 yards. Rifle to Stewart, was incomplete. The pass to Sampers was incomplete. Sampers gained 2 yards. Sampers failed to gain. Mohay purchased Prycer's kick, but was not recovered. A yard back was incomippleted.
