**FRANCE**

**CONCERT HELD**

Artists From Hartt School of Music Entertain.

What might be called a new high was reached last Friday evening when the established last Friday evening at a recital given by artists of the Hartt School of Music in the chapel of Trinity College. This was a great event, for those of us who have been away for some time or who are not familiar with the auspices of the Language Department and the French Program of Trinity College.

Two recitals of lasting interest were held last week. The first of these was given on May 9th, by Miss Merriam, who is a student at the school. She gave a recital of French music, including works by Berlioz, Dukas, and Ravel. Her performance was exceptionally fine, and she received a well-deserved ovation from the audience.

The second recital was given on May 10th, by Miss Delannoy, who is another student at the school. She sang a selection of French songs, including works by Poulenc, Chausson, and Debussy. Her voice was clear and expressive, and her diction was excellent.

Both recitals were well attended, and the audience was greatly impressed by the musicianship of the performers. The recitals were sponsored by the French Program of Trinity College, and they were a great success. We are looking forward to more such events in the future.
The Chapel Question.

We think that the student body deserves much credit for the way in which it is taking hold of the chapel question. The motion calling for the re-opening of the chapel was made at a regular meeting of the Student Senate, which it is taking hold of the chapel with apparent assurance. We think that the student body deserves a great deal of praise for the excellent concert which was held under the auspices last Friday evening, in Alumni Hall. The selections which were chosen of great interest to us.

It redounds greatly to the credit of the college to have such an excellent entertainment made possible through the efforts of some of its departments and we wish to congratulate Professors Galpin and Professor H. Naylor, on the behalf of the student body, their singers thanks and appreciation.

CAMPUS SINGING.

We want to congratulate the Senate for the good work it has done in fostering the plan of having the Student Senate hold the Thursday Evening Reading Club.

As things stand now, there is only one place on campus where in which the students hold a mutual interest. That place is the Union. It is run by the students for the purpose of providing a place for all the out of doors fellow students—supposedly. In fact, it is the Thursday Evening Reading Club. It is a gathering place of the type where few who find the amusements there to their liking will continue to frequent unless by the students themselves.

This is not due to mismanagement of any nature on the part of the Student Senate; the matter is rather to be complimented that they have kept the Union open as long as they have. The Union Committee cannot make any improvements; on the other hand, they cannot make impractical demands without these improvements.

It is to be seen that the financial situation explains the faults of the Union. If a sum of money large enough to make the additional improvements introduced from outside, the Union would certainly be able to run it; but the present state of the college in the face of all of its difficulties is eloquent proof of that. But the solution of the Union's problem is not to be found outside the Union. There is a chance of outside capital becoming interested.

The only solution at present is to turn the Union over to the college itself. Certainly, if the college were to take the trouble of improving the Union they would find it not a difficult task. It is not that their control could put a man in to run it on the shares plan, and in a short time have it ready for use. There is a chance of outside capital becoming interested.

It is our opinion that this is an important question, one which must be faced by all who are interested in the college—trustees, administrators, members of the faculty and students. We think that the dignity with which this question is handled by the students is a good indication of the higher morale of the College Body.

The theater.

There has been a considerable discussion during the past year over our common theater, which is now taken to consist of a gathering place for the student body as a whole place in which the various groups can get together and mingle in their amusements. Some of the tentative plans have been advanced during the last year to meet this situation. President H. Q. C. Smith has charged us for having all the freshmen eat together at the Commons during the first half of the year, which would have gone a long way towards meeting the expressed. But this plan was abandoned. The cause of this move is_the inactivity of the freshmen during the first half of the year, which was set aside for some time. Again, there have been the Thursday Evening Reading Club during the whole year, which have offered a first rate opportunity for the students to get together. The motion was found impracticable. There was a want of the education department; the influence of the Student Senate soon became limited to a very few regulars, composing what might be called the Thursday Evening Reading Club.

This is not due to mismanagement of any nature on the part of the Union. The Union Committee cannot make any improvements; on the other hand, they cannot make impractical demands without these improvements.

It is to be seen that the financial situation explains the faults of the Union. If a sum of money large enough to make the additional improvements introduced from outside, the Union would certainly be able to run it; but the present state of the college in the face of all of its difficulties is eloquent proof of that. INTERCOLLEGIATE NEWS

If college men really were like some of the so-called collegians now in the movies—thirty-year-olds in wide pants and coon costs, with a passion for racing cars and all-night parties—college days would indeed be happy days. And think of those gloridictory dances and the four-course breakfasts served in true hotel style that we see now and then some Friday night, sparkling, college picture.

If folks who never went to college got their ideas of college life from a few few-fetched college pictures their views would be subject to considerable, correction. College men are he-men; a reasonable decline, and breakfasts even at fraternity houses consist of grapefruit, toast and coffee. In fact, the cash rate for college men eating at the house at most fraternities is twenty-five cents for breakfast, forty cents for lunch, and sixty cents for dinner. And sunken gardens and swimming pools are an exception.

With all the thousands of stars new born, the same lights few are college men, fewer still of the directors are college men, so here’s the opportunity for ten representatives to form a star to movie in the help, to make college pictures real pictures. First National Pictures and “College Humor” will send an advance man to more than thirty colleges in March and April to visit the dormitories and fraternity houses and eating places to interview as many men as possible, and a week later a camera man, make-up man, and competent judge of photographic personality and studio requirements will arrive to make the act a success. These men will be right from the lot at Burbank, and as soon as they have screened ten men, the film will be sent direct to California for immediate inspection. By the first of June the judges will be ready to announce the names of the ten men who will make the trip to California—with New York, Westchester Tech., etc.

A plan has been perfected and copyrighted by Mark Miles of the Equitable Life Insurance Society whereby life insurance can be granted to members of fraternity men by means of which he will have a $1000 policy at the and on terms of the requirements over to the company. With the plan to be adopted to liquidate mortgages, refurbish and perhaps even build houses without deeply in debt. The interest from the policies goes to the chapter, but the beneficiary may be anyone.

The University Travel Association has announced that women will be barred from the second annual college cruise around the world. There have been many courtship on the boat and foreign countries under to education in a number of cases contribute a wrong attitude to the falling university. It is vice suppression by education rather than by legal prohibition only attainable in Utopia?

Early in the beginning of the present school year we published an account of the new unlimited cut system in the Haverford College which was given its first tryout last term. Dean Palmer recently announced that in his opinion the new system is a complete success. There is little noticeable effect on scholarship and while more cuts have been taken by the average student in college than in high school has affected this permanent standing. During the first term only four men were expelled but two students, and only one undergraduate has been placed on probation of the term. Dr. Palmer stated that the system will probably be retained as a permanent policy. The privileges will not be extended to freshmen and sophomores.

A new plan to bring the college to the masses has been devised by the mayor of Chicago. It is his hope to make a few-year college course a part of the public school system where students may continue their education after high school at the expense of the city. As soon as the present deficiencies in school buildings are cared for and teachers’ salaries can be raised the school board will move to establish such a public college.

We would offer as our humble opinion after reading the college newspapers of the past two weeks that the cause of the present suicide wave in American colleges is the formation of Anti-Suicide Clubs.

Trinity College

"He was a happy combination of the amiable and intense. His habit of absorption became a byword; for if he visited a classroom his mouth and opened a book, oblivious of everything else, until the college bell rang for the next lecture, when he would jump up with a start, and dash off. The quiet and firm teaching of his parents, new fruit in his, he came to college with a body of rational moral principles which he made his guides, and not disdained or despised, and after a time he had formed his students were thrown off their balance on first surveying the Freedom which college life gives, or are dazzled and dazzled on first hearing the babel of strange philosophies or novel doctrines, he walked straight, held himself erect, and was notfooled into mistaking novelty for truth, or discarding for manliness."—Theodore Roosevelt.

JUNIOR CLASS MEETING HELD. 

(Continued from page 2, column 4.)

United States Senate, Finance committee, spoke and urged all those who had not paid their assessments to at least pay something because he said that it was absolutely necessary for better credit to be established for all college men, so that no class activities would have to be curtailed in the spring.

Jacqueline—"Most people admire my mouth. Do you like it?"

Jack—"Do I? I think it’s immense."

Little Willie—"Mamma, is Papa going to heaven when he dies?"

Mother—"Why, son, who put such an absurd idea into your head?"

THE TRIPORD

OBIRE OCULUS

The announcement which was made at the college body meeting about the coming Smoker was in several respects somewhat of a shock. It is the first public work and the general feeling of cooperation which exists will be a most feverish one. We are glad to see that the "T" Club has chosen such a work as this. It is made so that its ideals are not lost but are perpetuated, Dr. Joseph C. Naie, National Industrial Association, preceding for the smoker the best kind of spirit. The date for the smoker is Monday, May 3.
