C H A N T E D How the World Began.

"A great mass of material was shot forth from our sun as a result of the explosion of 1863, which is supposed to have been visited this region in the dim, distant past. This material was hurled out into space from a sun a little more than a million years ago, and the earth was a mere speck in the dust of the universe. But with further increase in mass and size, the earth became a molten ball of metal, and the greater part of its mass was drawn into a solid core, which is believed to be about the size of the moon. At this stage, the earth was a little more than a billion years old, and it was very much like a solid mass of iron and nickel.

Earth is Growing.

The increase in size is still in progress, and the earth's mass is increasing at an almost imperceptible but actual increment. Accepts Metal Core Theory.

On the structure of the earth, the Trinity professor is generally agreed on the theory that the earth is a sphere of metallic and mineral material. The innermost one, composed chiefly of iron and nickel, has a radii of about 4000 miles, and is supposed to be a solid core, surrounded by a shell, and finally the outer shell of the earth is composed of the lighter elements and chemical compounds. From the outside in, the earth is composed of strata, which man knows, then a great transition zone of material which yields under pressure yet is non-metallic.

THE JESTERS.

The Trinity Jesters is an old organization at Trinity College which until a few years ago that it was revived. The Society is an admirable organization which reflects the true spirit of the college. It is a place where students can find relaxation and enjoyment.

COMMUNICATION

CONCERNING FRESHMAN RULES.

The writer of the article, "Objection to Freshman Rules," which appeared in last week's "Tripod," seems very anxious to have the Freshman Rules abolished here at Trinity. In his anxiety, he has made some statements which are not true. To cite one in particular, "The main purpose of this scrap (St. Patrick's Day) is to arouse the ire of the Hartford authorities against the college." Where did the author of this statement ever get such an idea, may I ask? Does it not seem strange that if the main purpose of this scrap is to arouse the ire of the Hartford authorities, that President Ogilby would allow the Sophomores and the Freshmen to hold such a scrap? Next year? Never.

Presently there are no so-called "hostilities" between the two lower classes at Trinity. There is, however, a spirit of rivalry between them, and there should be. What sort of place would Trinity be if the classes didn't get together and even for a little bit? And what are the scraps, but means of having a good time?

On the other hand, why should Trinity follow the examples of many other colleges and introduce a false rivalry between the Sophomore and Junior classes? Trinity College is not an ordinary student body a mind of its own, or must it fail just in line and drift into the hands of the Sophomores?

To be sure, some of the other colleges have abolished the Freshman-Sophomore scraps, but why? Just because the scraps were carried too far, and not because any given scraps were seriously injured. But, how far do we carry them at Trinity?

We are the only college in the country which has so many dear old men, and it is of far more importance in college than in the world, where, and that world affairs run smoothly only when everyone pulls together.

So be it's not to try Trinity into turning its face to the墙壁 and its back to the world, and to the student body, devote all of his time to this work. He will continue as Chairman of the Business Board.

WILLIAM DUNLOP OGG, who has done a great deal for "The Tripod", deserved praise. We are indebted to him.

CHANGES IN THE BOARD.

News of the resignation of Arno Henry Moses, Jr., as Editor of "The Tripod" came as a complete surprise. Mr. Moses has been ill and he feared that it was only a question of time before he would have to leave the student body, devote all of his time to this work. He will continue as Chairman of the Business Board.

DAVID DEPP, who has done a great deal for "The Tripod", deserved praise. We are indebted to him.

Our Policy.

In order to prevent the possibility of any misunderstanding we shall state the policy of "The Tripod". Last year, by dint of hard work on the part of a few men, "The Tripod" became an active organization at Trinity College. The Society was difficult; the wrecked machinery of our predecessors lay at every hand. We passed through the gauntlet and were victorious. We have gained the confidence of our advertisers. We hope that the Alumni will respond. However, we will not continue until our funds are exhausted.

"The Tripod" prints news and reflects all important legislation. All communications must be signed. Names are withheld at request. We welcome criticism and any suggestions whatever.

OBSCURE OBITUARY

This is a very good opportunity to congratulate the new editor. In certain respects his position is enviable a prospect. When one has a new job there is not so much as one might expect.

Last year, by dint of hard work on the part of a few men, "The Tripod" became an active organization at Trinity College. The Society was difficult; the wrecked machinery of our predecessors lay just about everywhere. This venture exists in our colleges, as well as elsewhere. Which is quite as it should be, since our colleges can not be an exception to the rule.

But today, everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world. Everything conspires to prevent the success of the actual world.

We do not think there is much to be hoped for, from the average college faculty, in the establishment of a proper outlook on education and the attainment of perspective as the (Continued on page 3, column 2.)

WE FROSH

Dearest Dora:

I am sure that what you said in your letter about not being right with me, is not true, but I wish you would wait till Thanksgiving—"I knew you were going to do it—"

ON THE NEED OF PERSPECTIVE.

(Continued from page 2, column 2.)

form for our higher education. Most teachers either are wedded to an old outworn Synthesis, or are plunged as balefully in the modern chaos as their students. The task is up to each fellow. And the setting up on the fulfillment of the task is comparatively simple.

What I should like to see, is a greater tendency on the part of the individual to put each practice of his intellectual life in its place; and to make this putting-it-in-its-place an almost automatic latency of his reception. He reads a book. It's a lucky good book, let's say. If he takes it as an atomic entity, he's lost; the more lost, the more he's moved by it. But if he synchronously, with enjoyment and assimilation, puts himself upon a quest as regards its sources at its place, then he has that particular book; he is indeed bound to be nourished by it.

This quest, moreover, will make him go back to cultural history with a dynamic purpose. To read Frost or Joyce without perspective of causes, and I do not mean what we call literary causes, is as sterile an entity, he's lost; the more he's moved by it. But if he synchronously, with enjoyment and assimilation, puts himself upon a quest as regards its sources at its place, then he has that particular book; he is indeed bound to be nourished by it.

THEY ARE YOUTHFUL!

By Helen Taft Manning.

(Copyright by McCall's Magazine, 1927.)

We have become so accustomed to talk about Youth Movements and Wild Young People that it may seem superfluous to ask whether the members of our younger generation really are as much inclined to shake off the leadership of their elders as is commonly supposed. But middle-aged critics might well consider the convention for the fourteen college newspapers recently held at Amherst College.

These young men, who we may assume are representative of undergraduate thought at the present moment, deplored certain tendencies in modern collegiate life including the drinking and the overemphasis on athletic prowess. But they went on to assert their belief that these evils did not originate on the college campus but were brought there from without. They felt particularly myopic members of the family or community that the boys (and often the girls) learn to drink and it is from the alumni rather than from the undergraduates that the demand comes for a totally exaggerated attention to athletics.

I cannot believe that these college boys at Amherst were merely "passing the buck," I feel convinced that they were looking deeper into the causes of things than many of their critic friends. We are constantly hearing criticisms of the present day under- graduate from the alumni of the women's colleges. She is accused of being utterly irresponsible, lacking in public spirit, and guilty in individual cases of all sorts of misconduct presumably unknown in happier, purer days.

Now it is true that college girls smoke more cigarettes, wear less clothing and go on more late parties in automobiles than their predecessors in 1916. But for the most part college girls have been very little discouraged in these practices at home.

HAMPTON GAME.

(Continued from page 1, column 1.)

The pass was grounded. Knurek lost two yards on a double pass. Knurek gained three yards. Captain Warmoth threw Taute for a five-yard loss. Hamilton's ball. Chatfield was stopped at the 40-yard line. War*en made six yards on a lateral pass. Chatfield didn't gain at the 35-yard line. Taute made two yards on the line. Brown made two yards. Ulbig went off tackle for five yards around O'Leary's end. A pass to Trine's 35-yard line. Ulbig made one yard and a first down on the same form. Chatfield didn't gain. He made three more. Ulbig threw Taute for a five-yard loss. Captain Warmoth threw Taute for a five-yard loss. Hamilton's ball. Chatfield was stopped and a penalty was assessed. Ulbig went off tackle for five yards around O'Leary's end. A pass to Trine's 35-yard line. Taute made two yards on the line. Brown made two yards. Ulbig went off tackle for five yards around O'Leary's end. A pass to Trine's 35-yard line. Ulbig made one yard and a first down on the same form. Chatfield didn't gain. He made three more. Ulbig threw Taute for a five-yard loss.

(Continued on page 4, column 2.)
HAMILTON GAME.
(Continued from page 3, column 5.)

was thrown for a two-yard loss by Carpenter on the next play. Ma stronarde punted to Hamilton's 25-yard line. Even tackled Jens, who received the ball. Jens made 13 yards around Jackson's end. First down. Campbell went through the line twice, each time for three yards. Warren failed to gain. Chatfield punted to Trinity's 25-yard line. Mastronarde made a yard through the line. The quarter ended. Score: Hamilton 15, Trinity 0.

Last Quarter.
Knurek made a yard on an end run. A pass, Mastronarde to Knurek, was good for 10 yards and a first down. Mastronarde made four yards. Knurek made six more and first down. Jarrott went in at end for Reiniec. Mastronarde was thrown for a four-yard loss. A completed pass to Knurek made no gain. Warren broke up a Trinity pass. Mastronarde made four yards. Tate went in for Whitaker. Hamilton's ball. Chatfield made two yards through center. Burr was hurt. He resumed play. Morris went in for Warren. McInnes went in for Burr. Even threw Morris for a two-yard loss. A pass from Chatfield to Jarrott was good for 12 yards and a first down. Jens fumbled and Knurek recovered for Trinity. Tate went in for Whitsker. Warren through Morris lost five yards. Mastronarde lost five yards. Mastronarde punted out of bounds on Hamilton's 30-yard line. Grade好处 Close went in as guards for Trinity. Allen went in for Carpenter. Morris made three yards. Morris went through the center of the line and through the secondary defense for 35 yards. Uhlig went in for Brown. Campbell made 11 yards through the center of the line and first down. Chatfield made six yards. Campbell failed to gain. However, on the next play, he carried the ball over for a touchdown. Hamilton failed to add the extra point. Hardman and a Hamilton substitute started a first fight. They were separated and the Hamilton player was put out. Trinity's second team went in. O'Leary went in for Hardman. O'Leary ran the kick-off back to the 46-yard line. Hamilton was penalized half the distance to their goal for slugging. Tate lost two yards. Two Trinity passes were knocked down. Trinity was penalized five yards. Mastronarde punted to Warren. Jens ran 20 yards. Jackson充实了 the whole line. No gain. O'Leary threw Pierce for a loss. Chatfield punted to Trinity's 35-yard line. A pass was knocked down by Pierce. Gordon and Niles went in at tackles for Trinity. Platt went in for Tate. Another incomplete pass. Mastronarde punted to Hamilton's 45-yard line. Pierce ran 40 yards. The game ended. Score: Hamilton 19, Trinity 6.

The Business Staff has come to the conclusion that next year's assistant business manager will probably be the man who gets the largest number of ads. There will be another meeting of The Jesters on Sunday afternoon at the Sigma Nu House.

JESTERS' MEETING.

WESLEYAN GAME.
(Continued from page 1, column 6.)

Coach Merriman gave his team a day off Monday, and Tuesday started work for that one game which makes Trinity break the freshman eleven. Tuesday afternoon he ordered a long signal session, and today will try out his men against the freshmen eleven, which is preparing for its own game with the Massachusetts Aggies two-year team.

The longer you smoke Prince Albert, the more convinced you become that it is the most satisfying tobacco that ever nestled in the bowl of a jimmy-pipe. You get a brand-new thrill every time you open the tidy red tin and breathe that wonderful aroma.

And when you tug a load into the business-end of your pipe, light up, and open the drafts—say, Mister! Cool as a letter from home, telling you to cut down your expenses. Sweet as an unexpected check in the next mail. Sweet and mild and long-burning.

THE TRIPOD

So mild, in fact, that it never bites your tongue or parches your throat, no matter how swift your pipe-pase. Yet it has that full, rich tobacco-body that lets you know you're smoking and makes you glad you are. Try Prince Albert, Fellows, and get the joy that's due you. Buy a tin today and get started!

PRINCE ALBERT
—no other tobacco is like it!
