Historical Stones Secured from England for Proposed Chapel

In addition to the pieces of stone from England, William O. Whitehall, which were given to the College many years ago by Mr. Cuse of his estate, has been donated by Trinity College Chapel, President Ogilby on for the Academy following stone to be embodied in the Chapel.

A piece of Roman tile, probably seventeenth or eighteenth centuries in date, was purchased, part in succession of an ancient British Church, a health

in Saxxon temple, and the Church of St. pancras in the Abbey church of St. Augustine, Canterbury.

A piece of Caen stone from Normandy, formerly part of St. Ethelberht’s tower in the Abbey church of St. Peter, St. Augustine, Canterbury, built about 1060. This stone later was used in screen behind the Great Altar in Canterbury Cathedral.

A piece of carved stone given by the Dean and Chapter of the cathedral from the Cathedral itself.\n
(4) A stone from the churchyard of the College, now part of the home of the Washington family. This stone was given to the college in 1850, and was the original name of our college was Washington College.

(5) A piece of stone from Trinity College, Oxford, not yet determined.

(7) A part of a pillar from the church at Chapel in Trinity College, Cambridge, taken down about a hundred years ago.

trinity graduate gets high honors

Dr. bowie admitted to institute of france

Distinguished honor has recently been accorded to Dr. William bowie, of the Class of ’85, by reason of his contributions to the French Academy of Sciences. The honor was bestowed upon Dr. bowie for his book on isotropy. Dr. bowie is professor of Chemistry at the University of Paris.

A photographic copy of the communica
tion from the Institute has been for-
warded to the college to be deposited in the archives. It reads as follows:

Institut de france académie des sciences

Paris le 7 janvier 1929.

“Tortoise” for “turtle”, received.

Ernst SICARD.

Mr. bowie, it will be remembered, lectured at Trinity College two years ago, on the subject of isotropy. His treatment of the subject, though very scholarly, was extremely interesting to the students.

New york alumni meeting

On Thursday evening, February 14, at 8 o’clock, the Alumni Association will hold its annual meeting at the five and ten room of the University Club in New York city.

The meeting will be addressed by President Benson B. Ogilby, Dean Thurman L. hoott, James A. wales, 1902, M. W. Clement, 1901, Ammon T. McCook, 1902, and William G. Brill, Alumni Secretary.

DEDICATION OF GYM

Short Ceremony Held at Cornerstone Laying

In a short ceremony held at 12 o’clock yesterday morning, President Ogilby laid the cornerstone and dedicated the new gymnasium to the memory of Samuel Brock Parkrrow Trumbull, Trinity.

Scattered groups of students picked their way through the snow toward the corner of the building, surrounding the excavation in search of advantageous positions, and then stood around the corner wall in the presence of the President concluded the dedication with a silent prayer. Faculty Manager of Athleti 

Brill continued by reading a short descriptive account of the cornerstone box which was placed in the cornerstone. According to President Ogilby, plans of the new buildi 

ings, together with various college reports, a copy of “The Tri-Cornered,” and a silver coin (dated 1828) were to be in the cornerstone box. Dr. Ogilby and representatives of the local contractor and the contracting organization participated in the sealing of the cornerstone. Peter Blake, of the Thompson Construction Company, with Miss Patricia Smith, represented the contractor and the students. Miss Smith was putting in their share of the cement.

George Morgan completed the pro 

gram by reading “The Architect,” the speech, and the suppor 

tation of four points, and in all, the team made a good showing and will stand up well in the utility role.

Dr. bowie was born and brought up in Dublin, and graduated from Trinity College in that city. Early in life he studied music in London, and is a music critic and musician, and made preparations to become a violinist. He has written a long poem on the subject of being one of Ireland’s leading violinists, and has been made a member of the Academy of Litterature.

In addition to the pieces of stone that stood bareheaded as the President stepped into the chapel service last Wednesday. Next Monday a cornerstone will be laid for a new building to be erected on the site of the present chapel.

Mr. bowie, it will be remembered, lectured at Trinity College two years ago, on the subject of isotropy. His treatment of the subject, though very scholarly, was extremely interesting to the students.

New York Alumni Meeting

On Thursday evening, February 14, at 8 o’clock, the Alumni Association will hold its annual meeting at the five and ten room of the University Club in New York city. Among the speeches to be delivered will be by President Benson B. Ogilby, Dean Thurman L. hoot, James A. Wales, 1902, M. W. Clement, 1901, Ammon T. McCook, 1902, and William G. Brill, Alumni Secretary.

Ernst SICARD.

Mr. bowie, it will be remembered, lectured at Trinity College two years ago, on the subject of isotropy. His treatment of the subject, though very scholarly, was extremely interesting to the students. The basketball team managed to get an even break on its New York trip by winning from Brooklyn Poly last Saturday night by score of 22 to 21. Bowie led the Trinity attack with ten points and played his usual sensational game. At no time was the outcome in doubt, and at the end of the first half, the “trioy,” led by scores of 11 to 12. Good defense work, featuring Captains Deschamps, in the second half helped the final outcome.

The whole game was played with aggressiveness and Coach Ogilby’s men-for-man system worked to perfection. Silver staged a rally at one point, with Silver scoring three points, and in all, the team made a good showing.

In the shooting of the Blue and Gold was again good, the players mak 

ing eight out of twelve tries, and in the second half, it played an important factor in the final outcome. Kurner, who got into the game in the first half, played a good game and ac 

counted for three. At the end of the game, Kurner was forced out of the game because of personal fouls, in the second half.

Bowie also played well, although their play 

ing was not of the sensational type. The “Varn” played well, and the Trinity Institute team proved to be too strong for the fighting 

Blue and Gold and as a result Coach Ogilby’s players were forced to work hard all evening to keep the game in hand. The game was fast all the way through, and in the second half, the Blue and Gold showed up good, which fell just short of coming out successful.

At the half, Bowie led by two points, due mainly to the good work of Otis, their center, and Laf 

/er, one of the forwards. “Bill” Nye, Trinity pivot man, had to leave the game because of personal fouls, in the second 

half, and his loss weakened the Blue and Gold passing quite marked in this last half. Services showed up well in the utility role.

The shooting of the Blue and Gold was very good, with Otis leading with four points, and in all, the team scored a total of 14, which is good shooting.

The Blue and Gold had a little trouble putting at the gate, but the out of hand with the number one team, they were able to drop in consistently. Bowies was high scorer with points for the Blue and Gold, and Bowies made four and Nye ac 

counted for two. Otis also played a good game and four points, and the trinity team tomorrow afternoon, out of 14, which is good shooting.

Negro Spirituals Presented in Chapel

Tuskegee Institute brought a message of good-will to Trinity, when its quartette sang and Mr. J. O. Neely, second tenor, delivered an address at the chapel service last Wednesday. The Negro spirituals, a familiar one to the students, were sung well and received with pleasure.

Mr. Neely, who addressed the as 

sembly, gave a tribute of gratitude to the white people of the North for their generous support of the work being done by Negro laborers in the South. The Negro are weaned that the club has achieved a similar status.

He touched on the history of Tuske 

gee Institute, which was founded by Booker T. Washington, a graduate of Hampton Institute, who went to Tus 

kegee Institute and established a similar institution.

Washington under 

stood the most adverse conditions and the movement that he started has grown remarkably. Tuskegee has a student body of 1800 students, a faculty of 229 men and women, with nearly 100 modern brick buildings. The speaker mentioned the loyalty which all Ne 

gro feel for their race, at the same time that they are true Americans as much as the white people.

Better Adjustment.

The efforts at adjustment between high schools and colleges have been utilized recently to some degree. The problem was not solved by treating symptoms, but was utilized, and so has been treated from the inside.

Some years ago, according to Dr. Judd, there came into the offices of the College an English student, who introduced himself in broken English as the father of one of the boys. He at once asked his son's teacher to go to high school. He asked the principal if his son could go to high school. The principal encouraged the father to take his son back to high school, but the boy was already doing well in school. The principal proceeded to declare the advantages of high school education, and the student abruptly interrupted with the question, "What will it cost me to have the boy go to high school?"

"Nothing," was the reply.

"Excuse me," said the father, "I do not understand English very well. Say it again."

"The principal repeated it several times and the argument was closed. All that the father or the boy wanted was an opportunity to go to high school. There was enough skilled labor for the graduates to find through the generations of European repression, to guarantee in advance the solution of the problem of adjustment. Now that the process of the learned profession has been setting up a number of mechanical impediments to adjustment by means of which, if properly timed, the inner urge of society and the child has been successfully dammed up—even of some who do not live in stock yards districts. This inner urge, this sense of wonder in the spirit of the best high schools, the germ of independent thinking may be discovered in the junior high school or even high school periods.

THE ANNUAL

ALUMNI NOTES

Andrew W. Forrester of the class of 1917, has been teaching at the Brook- School, Baguio, Philippine Islands During the past year, Mr. Forrester has been a member of the football squad, and prominent in other extra-curricular activities. He is member of Alpha Chi Rho.

James M. Cahill, also of the class of 1917, has been exceptionally brilli- ant in competitive work at the D’Sau- sers Insurance Company. Mr. Cahill is a member of Alpha Chi Rho.

Edwin W. Emmison, ’27, whose engagement to Miss Gladys Starbuck of Hon- poned, has been doing well with the Southern England Temple Company. Mr. Johnson is a member of the Alpha Tau Kappa.

John Mansfield Young and Frank Thorburn, of the class of 1929, areas. Both are members of Phi Upsilon.

Robert F. Gibson, ’28, is teaching at the Bronx School, Baguio, Philip- nes. Gibson is a member of St. Anthony Hall.

Henry A. Moses, ’28, is connected with the Acta Life Insurance Com- financial which a member of Alpha Delta Phi, was editor of the "Student Bulletin, a con- active in many other fields of extra- curricular achievement.

The Literary Club plans to hold its second meeting on Tuesday evening, 'February 12, at 7:30 o'clock in the Professor's Room. Election of officers will be held, and there will be stops taken toward the formation of a definite policy.

There was an encouraging turn-out at the first meeting, before the exami- nation period, and the sponsors of this literary movement were well pleased over the lively interest evin- ced by those in attendance. The results of the examinations has left more time available for the club's development, and further constructive work is expected to go forward with all speed.

Announcement... Sam Slossberg, the well-known Trinity Tailor, corner Lincoln and Baguio, is now having a big Reduction Sale on all New Custom-made Garments and Tuxedos.
