CHAPEL SPEAKER TALKS ON COMMUNITY CHEST
LeRoy Ramsdell Outlines History of the Movement in United States
At the regular Wednesday chapel service held before Christmas recess, LeRoy Ramsdell, who has had experience in several community chest projects besides the one in this city, gave an interesting account of this rapidly spreading idea of organized charity.

The first general community chest was instituted in Cleveland, Ohio, in 1915. Now there are 300 chest established in many cities in the United States. The obvious need of such an innovation, said the speaker, can be no better demonstrated than by an account of the work it has accomplished by the people of these cities.

The idea was the outcome of the inefficient and unsatisfactory method of "competitive philanthropy," during which the many organizations with which the public must deal have had to raise their funds with which to carry on their work. The results of this system were dissatisfaction on the part of the many organizations with which the public must deal, and since this preliminary experience, the idea was tremendously effective because of the mighty words written by Sir Arthur Conan Doyle, "The idea was the outcome of the movement in several community chests."

The string trio, composed of prominent, was also delightfully humorous. Dr. Carlson is the Harry C. Cowles

TRINITY SQUASH COURTS

The Reverend Nelson of Windsor, Connecticut, will address the Belgian squash tourna-
ment on the Ten Years' Operation of the League of Nations. This year marked the fiftieth anniversary of the founding of the league.

In preparation for the cup tournament in squash rackets to be held in the United States, the tournament was held for the benefit of those who wished to get experience in match play. This tournament started two weeks before the Christmas holidays, and was being played before the college closed. Thirty-two men entered, the end of the fourth round leaving D. Britton, '21, and A. A. Arnold, '32, as contenders for first place. Britton was defeated by his opponent E. A. Duran, '21, by a score of 3 to 0, and Arnold from G. R. Rockwinkel, '21, by a score of 2 to 1.

During the tournament, the coach said, "by no means indicated the possible number of the cup to the annual tournament, since many of the men who have been showing steadily improving games this season, and since this preliminary experience will prove mutually beneficial to the players who played.

Mr. Newton Brainerd has offered a beautiful silver cup to the man who wins the annual tournament this year. Notice will be given within the next two weeks announcing the details for entering the tournament, and will begin in the middle of the following week. Coach Ousting is urging all who can to enter, as the experience to be gained in this way is of the utmost value.

The overwhelming defeat of the big boys in the preliminary games is up to last year's standards, but if the game gets any harder it is only a matter of time before the year's standards must be raised considerably to cope with the situation. As a matter of fact, it is the only part of the whole schedule this year which is being played on the Springfield and Wesleyan campuses.

In the opening seconds of the game, Norwich stepped forward and took the lead. It did not take long for the Blue and Gold to take those teams into camp on their own court, and was played at home. The Blue and Gold will help things a great deal.

Harvard Coach Writes Favorably in Recent Article Printed in Magazine "Tennis"

(The following is an article reprinted from the December issue of "Tennis" and written by Harry C. Cowles, squash rackets instructor at Harvard. Mr. Cowles recently spent a week at Trinity instructing students in squash rackets.)

Trinity College students are fortunate in having six of the most modern courts I have seen. There is the forced draft cold air, a heating arrangement which drives the surface of the court to a uniform temperature and makes it damp, good lighting and first-class construction. This is the type of court which has sponsored the game. . . . Belmont Hill School and Brooks School of Andover are the only schools with such courts this year. The sport has been on the rise in the last few years and Trinity has made gains in the number of matches played. The words by Nathan Haskell Dole, "The love of humanity is a force in the world," and "being a dragnet, are written by Barowski, was also delightfully humorous.

BOOK REVIEW

SALT WATER TATTOO, by Corey Ford; $26.00; $2.50.

"She's just a girl, man, ain't she?" spluttered the hot air of the tropical sun. She was in, drifting right and night with the Southern sides for a blanket, the Southern stars like asterisks over her, and all the seven seas to supply her with fresh air. Should she ever do Corey Ford open his delightful little satire on travel stories (a recent one) and in reviewing the first written in the present by June Tripoli and dedicated to Corey Ford, who encouraged me by writing this autobiography for me.

One of the most amazing features of the book is the illustration (photography, and that cannot lie), with inspecting pictures such as "By the G0 TTo'fs", "Lying Alee", and "An old ad for Naples" which lobs lingers an aspect of the mighty medium which has never been seen before. But by far the best part of it is the skillful way in which the book is put together, chapter by chapter, with a macabre humor and grace which leaves no place for a libel suit and yet tells it all. In fact, it has flaws, but these are not significant. Old ladies have written in to Mr. Ford to say that they are unable to understand what the book is all about (Georges S. Campbell's) "Crusaide of the Kawa" came out three years ago, and that he is to have contributed a delightful realistic book of travels!

Ford has taken Captain Tropp's brood, but he has perfected it. The nautical talk and the whole spirit of the book is exemplified by the scene where the narrator exclaims to the "Torrivvrrrrrrr!" is echoing across the deck: "Aye, aye!" everybody replied, having no idea what he meant.

"Try to whirl the kiatee'sw'ight' with your belly."

"Why, surely," replied the embarrased son, who was silent in the direction, some hoisting the sails, others rowing them, and lowering the anchor or nervously shifting the cargo, while two or three sailors in their confusion manned a lost and rowed rapidly away to the east.

When Jone Lowell wrote "The Cradle of the Deep", she little knew what lay in store for her, for she also might have been a woman.

From the treatment of the female shark (she learned about sex from her) to the Virgin Islands episodes, Corey Ford has succeeded in so thoroughly describing the book that the reading public can feel reasonably sure that at least one copy of the long time before another would-be traveler succeeds in selling it books. Books in Books (in Books, and "The Cruise of the Kawa", are of course records of travels, and inspired newspaper reviewer can hail hysterically as classics, but they are certain to have been read and safer place to live in—the given by us something to laugh at, and the latter by depicting it.

The "trip" of the most amusing features of the "America's Cup"IFFE's has been formed to make students on the whole deck:

"Aye, aye!" everyone replied, having no idea what he meant.

"Try to whirl the "kite'sw'ight' with your belly."

"Why, surely!" replied the embarrassed son, who was silent in the direction, some hoisting the sails, others rowing them, and lowering the anchor or nervously shifting the cargo, while two or three sailors in their confusion manned a lost and rowed rapidly away to the east.

VARSITY BEATS ALUMNI IN FIRST GAME OF SEASON

Grades Fail to Provide Any Serious Competition for Regulars

Playing its first game of the season the 'varsity basketball team defeated the Alumni decisively in a 29-14 game in the Hopkins Street gymnasium. At no time during the game did the Alumni give any real serious opposition. It was the typical 'Varsity-Alumni type of affair which proved to be a good work out for the Trinity regulars, but did not show them in their best form.

The 'Varsity played it pleased, scoring and sure passing when the spirit moved them. At other times, the passing was exceedingly poor. However, with the meeting against Norwich tomorrow, we expect a new spirit, a Trinity fighting spirit, to be present in each and every man on the squad.

After the first quarter the Alumni had no chance to catch up to the pace set by the 'Varsity players, who were placed entirely at the will of the 'Varsity. It was with great difficulty that the 'varsity players broke through the defense led by Captain Bissell to score their three baskets. At times the 'varsity came out with both hands outstretched and left the two corners and foul lines which often landed in baskets by Bissell, Nye, and Fleming. As on last year's team, Bissell was the leader of his team and made enough tries from back of the foul line to raise the score ten points.

Slossberg was right there, as in the Connecticut Aggie game of last year, when it came to taking the ball away from the opponents without fouling the man with the ball. His passing was always accurate. "Dutch" Deschamps, captain of last year's team, also made himself conspicuous by his accurate passing and adding two points to the score by his field goal.

For the Alumni, Jepson, '26, and Masstancs, '26, were most conspicuous.

During the first ten minutes of the game every Alumni stuck with the 'Varsity fairly well. But then Knemel and Fleming started the ball rolling and gave the team a lead that the Alumni were never able to approach for the rest of the evening.

The final score was 29 to 14 in favor of the 'Varsity.
