CRYPT OF NEW CHAPEL COMPLETE BY MID-YEARS

Brickwork of Roof Now Nearing Completion in Spite of Mid-Summer Delay

FRATERNITY CHAPEL NEXT

Wall on Northern End of Main Nave Has Reached Height of Fifteen Feet—To Open Directly into Chapel Nave.

With the work of laying the bricks which form the ceiling of the new crypt being rapidly carried forward, the first unit of the new Trinity Chapel, the crypt, will reach the stage of completion by this year, according to Mr. Fred Bent, the supervising foreman.

Since June, when the work had only reached ground-level, much progress has been made, the walls in some parts of the structure now reaching nearly twenty feet in height. This progress has been made in spite of the fact that work was held up in July because of the heat, and again in August, when Indiana, where it is being quarried and cut.

The crypt chapel which will be below the choir at the east end of the nave will be circularly crowned inside but pointed outside. The floor of the crypt will be one hundred and fifty feet in diameter. There will be six windows, which are circularly crowned inside but pointed outside. The window in the circular eye of the crypt consists of three barrel-vaulted arches, running east and west, with stone columns in the center of each window. The three slit windows in the east end of a row of corbel tables will be set in the clerestory. The side windows in the crypt have not been finished.

Leaving the crypt, which will hold one hundred and fifty people, one reaches the vestibule, another entrance to the Church of the Crucifixion, a small chamber of dark stone, and with two narrow windows and one door leading to the choir at the east end of the nave.

(Continued on page 5.)

Requirements and Advantages of the Rhodes Scholarships Outlined by Mr. Van Santvoord

On December 6, 1930, thirty-two seniors have been selected to represent the United States as Rhodes Scholars at Oxford University. The usual stipend of each of these scholarships is an annual stipend of $2000. Each scholarship is tenable for two years, but the holder may be reappointed for a third year. Professor Lloyd Smith, who is in charge of the Rhodes scholarships, has already introduced ten new scholars, several of them taken from the Harvard Glee Club series. It is his intention to divide the men into quartets for outside rehearsal, secondary tryouts being made after the quartets have had sufficient time to rehearse their parts together. Only those men who are able to maintain their individual parts will be admitted to the choir at the east end of the nave. The details of the windows in the crypt have not been finished.

Dining Hall to Be Completed by Next Fall; Work on Cook Dormitories to Start at Once

Although the plans for the new Cook dormitories have met with general approval before the trustees, a few unfactory details have made a slight delay imperative. The architect, Messrs. McKim, Mead, and White, of New York, who have been working continuously on the project for almost a year, are now engaged in making minor changes to meet the requirements of the Corporation, and it is expected that the dining hall and accommodations for about seventy students will be completed by next fall.

The grounds are already laid out, and the heating connections from the new central plant are ready for immediate use. The dining hall itself will be the first section to be completed, and the plans are designed to allow for the construction of the entire building in sections. The completed structure will be joined by an arch to the south end of South Hall, and, extending west, will occupy a corner lot on the corner of West Street and the Memorial and the new chapel, adding another side to the quadrangle of the future.

The exterior architecture will follow the same type as that of the existing buildings, with certain changes making them even more distinctive. The new archways, one of them constructed beyond the present student rooms, and the other, which is to be located by Boardman Hall on the south, will follow in the line of the one adjoining the library. The construction of Cook Hall will be aided considerably by the fact that bedrock lies within eight to ten feet of the surface, preventing the necessity of such extensive excavation work as has been required in the case of the new chapel.

The trustees, considering that the present dormitories and the old kitchen were not adequate, voted last spring to start work with the new cook facilities, the appropriation, left by Charles W. Cook, of Windsor, who died in 1912. Half of the residues of this fund are available for the benefit of Mr. Cook's sister who died in 1923. Mr. Cook's will was paid over to the college in 1927. It is expected that all the interior of the dormitories in the new building will follow the general plan of the old ones, such as Jervis Hall, which is in line with the new plan. The new building will involve an entry with stairs up the center and on each floor, two dormitories, having a large study in the front of the building, and two bathrooms in the rear, one being fire hazard and noise—considerable problems in buildings of the corridor type.
JESTERS ELECT THREE NEW SENIOR MEMBERS

Guckebuehler Re-elected as President of Dramatic Organization

At the opening meeting of The Jesters, which was held last Tuesday evening, September 25, in 37 Jarvis Hall, the formal admission of senior members took place following the report of the executive committee for the past year, which was presented in conjunction with the re-election of William D. Guckebuehler, '31, of New York, N. Y., as president of the organization for the coming year. Mr. Paul J. Frauendorfer, assistant property manager, while H. Rees Mitchell, '31, stage manager appointed the other candidates for the management committee. At present the positions of business manager and literary manager are filled, the duties last year having been carried out by C. Leslie Muenchinger, '31, of Crawfordsville, Ind.

Those appointed senior members of the Jesters are Nathaniel B. Abbott, '32, stage manager; Leslie Muenchinger, of Newport, R. I.; both of the class of 1932; and Philip M. Harris, '31, of Minneapolis, Minn., the junior of the Orange, N. J.; C. James Warren, '32, of Beechhurst, L. I., is as assistant business manager; Edward Saulta, '31, of Hartford, Conn.; Richard Veloz, '32, of St. Paul, Minn.; Richard Veloz, '32, of Detroit, Mich.; and John MacVicar, '32, of West Hingham, Mass., are newly elected junior members, with the exception of the above-mentioned business manager and literary manager who are still in the old line. All men having been elected are now members of the cast of George Kelly's "The Show Window," which is now in rehearsal for the spring.

A committee composed of members, Laurence L. Staffe, T. Robert Stumpf, business manager, and Richard Veloz, literary manager, went to the office of the Began, P. J. Frauendorfer, to revise and amend the constitution so that it may be feasible without the assistance of any outside authority to deal with matters of the organization. It was also voted unanimously that if the new officers were not satisfied with the old officers, that they should have full power to include on the committee any other members of the Jesters who might be needed in the work. A short dis- cussion was had as to the rules and regulations that are being presented for more time for new men and upperclassmen to make their choices.

The list of the new men pledged is as follows:

Local Fraternity of Alpha Tau Kappa: J. J. Albani, Charles Bearkin, E. Crockett, J. J. Kennedy, and John Tracy.

ALPHA CHI ELK'S "MINORS" AS "MAJORS"

The fraternity scoring the highest points on the "varsity machine" will receive the Ogilby Trophies. The "varsity machine" is to be composed of the following men on schedule for the season:

1—In swimming and track, each fraternity represented by six or more men may compete for the trophies. The men chosen must have the longest time to finish their events will be awarded the trophies.

2—In cross-country each fraternity represented by three competitors who have finished in the top three places will get a point. In basketball, tennis, and squash, each team which will finish the first team with the most points will be awarded the trophies.

Aims of the Intra-Mural Program

1.—To provide good, wholesome and safe recreation for the large campus population.

2.—To develop ideals of sportsmanship.

3.—To encourage an interest in the different sports that will carry over through graduate life.

OYSTER PLANTS FOR CLASSMATES

The Physical Education Department is offering for sale an additional batch of "Oyster Plants" for the spring term. This year, because of the increased number of students interested in this popular sport, the original batch of 100 plants which were thoroughly propagated and ready for planting was exhausted and reprinted.

The sports will be divided into two groups, "majors" and "minors," as follows:

Majors—Basketball, swimming, and track.

Minors—Squash, racquets, tennis, and floor hockey.

The physical education department will accept orders for the "Oyster Plants" and will fill them in the order in which they are received. When the order arrives, the students will be notified immediately. The department will make every effort to get the plants in the students' hands as quickly as possible. All orders must be submitted by March 31st.

The department will not accept any orders after this date. The plants will be available for pickup at the department's office on April 1st. Victory girls will be on hand to assist the students in picking up their plants.

In conclusion, the department encourages all students to sign up for the "Oyster Plant" program and become involved in physical education. This is a great opportunity to get some exercise and have fun. The department is looking forward to a successful spring term.
FOOTBALL BAND STARTED BY W. H. DUNBAR, 1931

Makes Debut at Game on Last Saturday Giving Fair Performance

BASSES NEEDED

Trombones and Bass Horn Necessary for Proper Balancing—Jazz Orchestra Now Under Organization

With several more candidates reporting for practice with the college band, it was announced that the band at the game on Saturday, W. H. Dunbar, 1931, leader and organizer, announces that the band will be increased to twenty pieces in the next home game, and that its organization will be complete by the end of the season. He stated his satisfaction with the performance on Saturday, which, under the circumstances of the fact that the men had held only one rehearsal on the night previous, was very creditable.

The main purpose in the organization of the band is to lead the freshman masses in the contest with the Harvard and Yale fans as the company the singing in the stands, although it is probable that it will parade and form letters between the halves as soon as its numbers are sufficiently increased. There are many other uses to which a band of the college is put, such as playing at Harvard and Yale games, as well as in football and basketball games. It is impossible for it to make any great showing either in marching or in banding. It is possible that only its function in the practice of banding will be shown in the stands during the home games.

At present the band is composed of only eight pieces: four cornets, two trombones, and alto saxophone, and there is need especially for bass instruments. All those desiring to try out for the band should report to W. H. Dunbar, 1931, at or before H. K. Prior, 1932, at 78 Vernon Street.

Along the same line of organization, W. A. Boeger, 1932, and A. S. Watt, 1932, are organizing the college band, which is a well known collegiate jazz orchestra. No plans have been completed as yet, but those interested in this line of activity should see either of the above at 81 Vernon Street during the week. It is probable that membership in the band and orchestra would be duplicated in many cases, and if so, the holder of a ticket should be held on the same evening each week, which is the possibility that the jazz orchestra would operate along the same lines of those at other colleges, renting its music for extra outside the college.

With the Glee Club and band under way, the jazz orchestra makes the third musical organization on the campus, and it is hoped that a regular orchestra and band club will be formed soon to give joint concerts with the Glee Club.

RHODES SCHOLARSHIP OUTLINED IN DETAIL

(Continued from page 1.)

other universities, usually ending off the season with a match against Cambridge.

The opportunities of study at Oxford are numerous. The American student with a good college record behind him is exempted from the freshman work, and embarks at once upon a course of study in some particular field of his own choice. On this he spends two whole years. These courses (or "schools" as they are called at Oxford) include Classical; Mathematics; a modern language and literature (e.g. English, French, German, Spanish); Physics; Chemistry; some other branch of natural science; Law; Theology; Medicine; Music; Languages. All these may be pursued in three or four years, and it is even possible, under special circumstances, to obtain B. A. and M. A. degrees in one course of study, which would be less than five years of study. It is, in fact, possible to obtain a Master's degree in any subject in three years.

To be eligible as a candidate for a scholarship a man must:

(1) Be a native of the United States and unmarried.

(2) Have been born between October 1, 1899 and September 30, 1901, and a graduate of a college preparatory or academic course.

(3) Have completed at least five years of college work, either at home or abroad.

(4) Be a citizen of the United States (i. e. by June, 1931).

(Continued on page 4.)

VARSITY DEFEATS AGGIE TEAM BY LARGE SCORE

Fontana Scores Twice in First Quarter After Machine from 50-Yard Line

SECOND QUARTER SLOW

The game started when Nelson kicked off to Lou Wadlow who ran the ball to his own 40-yard line. The visible goal line and Phippen returned it to the New York's 20-yard line. Nelson returned the punt and Trinity put the ball in play on the visitors' 45-yard line. Trinity made first down with Armstrong and Fontana carrying the ball. A pass, Phippen to Blalock, was good for another first down at the 30-yard line. Trinity put the ball back into the game for his second touchdown. Hester blocked Phippen's try for point. The second quarter started with the ball in the Aggies' possession on the 33-yard line. Trinity held and Nelson put Trinity's 45-yard line. Blalock, with a 2 yards runs, put the ball to Trinity's 60-yard line. Three attempts at the Aggie line netted 1 and Phippen putted. Phippen, Red and Nelson made two more first downs in the Aggies' 33-yard line. Nelson put Trinity's 10-yard line, where the ball was grounded by Burton of the most important ones that ever reported to a Freshman coach at Trinity, reported two weeks ago to Assistant Coach Harry Herbert. The squad, numbering about fifteen men was coached for the first time by Harry Herbert, who is now helping with the 'Varsity, and R. H. Nyn, 1930, and A. F. Krumke, 1929, and is now being coached by J. C. Clark, assistant in the Physical Education Department, who has been appointed Freshman coach to take Herbert's place.

The squad has already held several scrimmages with the 'Varsity and put up a good fight. The grading is expected that it will be in good shape for its first game with William and Son on Saturday. One of the early disappointments of the squad was the injury of Jack Boyd, all-scholarship tackle from Philadelphia, who plays, and is one of the strongest Northsman of that city.

Among the men who are showing very well so far are the implementers of the Travellers Insurance Company, Hartford, Conn.

The Right Reverend Philip Bishop of Delaware, will celebrate the 15th anniversary of his consecration on October 14.

Benedict D. Ryan was recently awarded a special grant for the treatment of cancer in Pennsylvania.

1905.

The following men are out for the backfield: Bill; Brewer, Ward, Ely, Smith, Bishop, and Richard. The team is composed of thirty-five men was coached for the good for another first down on the 40-yard line. A pass, Phippen to Bialick, was good for the first down and a first down on the 20-yard line. The ball was put in play on the 40-yard line. The ball was put in play on the 40-yard line.

FOOTBALL

For a week, at least, the alumni are satisfied. Gaillin’s well-coached machine, creaking in some of its parts but moving smoothly, has demonstrated the fact that it can win games. It is true that the team they beat on Saturday was not one of the best, but it was a heavy, fighting organization with plenty of reserve strength, and the high score, although not coming quite to the level of newspaper predictions, shows that they were beaten pretty thoroughly. In opening the season with a score bigger than last year’s total, the team predicts a renewal of the football supremacy which was once Trinity’s. The Worcester game on Saturday will be more of a test, and the real tests will come in the Wesleyan and Amherst games. Amherst’s showing against Princeton on Saturday shows that Gaillin has a Trinity A team to contend with for his last game, and a championship season this year will very certainly put Trinity in the ranks of the best college teams.

THE TRIPOD learns with deep sorrow of the passing of the Reverend Robert Hudson of the Class of 1871 on Sunday morning.
Mr. Irwin A. Buell Continues in Charge of Courses Now Already Started

REQUIRED OF TEACHERS

Seniors with Intentions of Entering Teaching as Profession Urged to take Up Extension Courses—No Extra Fee.

The following communication was received from the president of the charge of the Trinity Extension courses. Extension courses held their first year in January, 1929, has shown that there is still possibility of enrollment for those interested in the courses or intending to take up teaching as profession. Mr. Buell's letter is printed:

"Dear Sir:

Editor of TRIPOD, Trinity College, Hartford, Conn.

Dr. Ogilvy's suggestion I am writing to you concerning the Trinity College Extension Courses, as not duplicated in the regular college program.

At Trinity, where a student who has an expectation of teaching in a public high school after graduation will find that state laws now make the requirement that a teacher in that State must furnish evidence of having satisfied the factory knowledge of Educational Psychology, History of Education, Language and the requirements of Secondary Education. By far the most satisfactory way of meeting this requirement is by taking such courses as these under an extension program. The State Board of Education accepts credits in the necessary subjects in the Extension program as an additional examination. These subjects are offered in the Trinity Extension courses.

A Trinity undergraduate may take any extension course which is not included in the regular program of the college if he can give a sufficient reason for such procedure. Such a subject may be included in his chosen major under an undergraduate at Trinity. The State Board of Education accepts credits in the necessary subjects in the Extension program as an additional examination. These subjects are offered in the Trinity Extension courses.

Very sincerely yours,

IRWIN A. BUELL.

Mr. Irwin A. Buell

THE TRIPOD

VARSITY DEFENDS AGGIE TEAM BY LARGE MARGIN (Continued from page 3)

next play Blaiklick intercepted one of Nelson’s passes and ran 33 yards to the goal line for a touchdown. On this run Mackie clipped Nelson just as it seemed that he would tackle Blaiklick. Phippen again got the point on try.

Five minutes before the final whistle, Gallivan started to send in the reserves, leaving Armstrong in at halfback and Maclay in at fullback for the bench of all the second and third string men except Muller and Tom Wadlow who were on the injured list. Although the opposition managed to make short gains at will, the reserves showed considerable defensive strength, breaking up several passes and holding on the center of the line for no gain.

Summary:

Trinity .......... 13

Touchdowns: Fontana, 2; Armstrong, 1; Phippen, 1; Nelson, 1.

Bialick (Capt.) Guard

Duksa (Capt.) Tackle

Bisel Bockwinkel L.E.

Rhodes Scholarships

OUTLINED IN DETAIL (Continued from page 4)

(1) Two unmounted photographs, not larger than 4x5 inches.

(2) A birth certificate.

(3) A letter or statement from the President of his college.

(4) Two copies of his academic record and record of grades attained, signed by the Registrar.

(5) A letter written by the candidate, giving an account of his general activities and intellectual interests at college and the plans by which he hopes to make his education more effective.

(6) A list of five persons to whom the Committee may write for information about the candidate.

The qualities desired by Mr. Rhodes in his scholars were defined by him as

(1) Literary and scholastic ability and attainments.

(2) Quality of manhood, truth, courage, devotion to duty, sympathy, kindness and in a word, manliness.

(3) Exhibition of moral force in character and of industry to lead and take an interest in his schoolmates.

(4) Physical vigor as shown by in outdoor sports or in other ways.

A full account of the scholarships will be found in "Out of Today." (Continued on page 5.)

The New York Herald Tribune is on sale in Hartford the first thing every morning. You can have it delivered to your room, either by carrier or by mail.
OOSTING STATES PLANS FOR CLASS ATHLETICS.

(Continued from page 1.)

and the fraternity's name will be suitably engraved on the cup. Smaller trophies will be awarded on the same basis for each sport with the one exception that the Alumni Trophy is a perpetual cup and will be in competition each year. The other trophies are on a three-year basis. When a fraternity wins a sport for three years, not necessarily in a row, they will keep permanent possession of the cup.

The following cups will be in competition besides the Alumni Trophy:
- Basketball—Peter Ogilby's Cup.
- Swimming—Alexander Ogilby's Cup.
- Cross-Country—Lyman Ogilby's Cup.
- Squash Raquets—To be announced later.
- Track—To be announced later.
- Tennis—To be announced later.

PROFESSOR DADOURIAN LECTURES ON RUSSIA.

(Continued from page 2.)

One naturally asks why the plan is not lengthened over a longer period than five years. The answer is that Russia cannot wait. They fear war by next spring. They expect that the United States will side against them.

In answer to questions on education, he said, "In institutions of higher learning, colleges and universities, the children of the industrial workers are given first preference, those of the peasants second, intellectuals and merchants next, and the children of the rich are last."
