Giniff is a Valedictorian and Jacobson Salutatorian for Graduation

At the Senior Class elections held yesterday, Laurine L. Saffell of Milford, Mass., was elected Class Day Chairwoman, and Chairman of the Senior Class; Denton D. Guckenbuhl, W. D. Guckenbuhl, N. J., was elected Vice-President, and G. Laurence Blauvelt of White Plains, N. Y., Secretary and Treasurer, Saffell, as Class Day Chairman, automatically becomes president of the class.

The following elections were made for Class Day: Historian, J. P. Coyle; Advertising Manager, E. S. Diman; Business Manager, J. F. Stoddard; Art Editor, Alfred F. Kerbel; Life Editor, E. L. Coyle; and Assistant Art Editor, J. E. Meekoff of Weequahic, N. J.

Ginuff was also elected Valedictorian, and C. E. Jacobson of Perth Amboy, Salutatorian.

VERMONT CHAMPIONS CONQUER THE 'VARSITY
Norwich University Five Win in Season's Finale—Game is Sluggish

TRINITY'S LEAD CUT DOWN
'Varsity Ahead at Half Time—Glynn and Mawhinney Finishes Third Season of College Basketball.

The Blue and Gold 'varsity quintet suffered defeat in its last game of the 1930-31 season, last Friday night, when the strong Norwich University team rallied in the last few moments of play to come up from a losing fight and defeat the Trinity team by a score of 23 to 16.

Although Norwich was favored to win due to her 11 victories out of the 11 games which she played this season, Trinity had high hopes of victory because of our good showing in making a 3-0 lead and continuing to play the game on our own court.

Trinity led in scoring for the first three quarters of the game, the score at the half being 10 to 9. In the last five minutes of the game the Norwich team hit a good stride and proceeded to run wild, with the scoring being concerned. The game itself except for the Norwich rally, was rather dull. It was quite different from the few spectators present. There was a good deal of back court play, each of the middle of the grid attempting to take any rack. The playing was equally as bad on the part of both teams.

Although Trinity trailed by one or two points in the first few moments of the game there was little scoring done, until Glynn and Golino started a rally for the Blue and Gold which kept it in the lead throughout the game. For the first part of the game the Norwich team brought it within one point of Trinity at the first period.

The first ten minutes of the game saw Norwich take the lead, and Golino scored so that Trinity had a 10 to 11 lead, almost enough to assure victory. The Blue and Gold took the lead back and refused to give it up for action soon. Battery men are up for action soon. Battery men are

JESTERS CAST PICKED TO PLAY "THE PIGEON"
E. S. Diman to Play Leading Role—Play to be Given May 16

At the final tryouts for The Jesters held last night, the committee of judges composed of Mr. Eyer, the President, and Miss R. H. S. Golbhauber, and President N. B. Abbott selected the cast for "The Pigeon," by John Guare. The cast which has been set for May 16, in Alumni Hall.

The play is an adaptation of the novel, "The Pigeon," by John Guare. The play has been given in several English colleges of the class of 1930, who died in the winter of his senior year.

The Glee Club

At the College Body meeting held in the Public Speaking Room Wednesday morning, March 4, Howard Schumos, "31, manager of the club, asked that more students try out for the Glee Club, adding that new members were always welcome. At present the group consists of about 30 men, and could be conveniently enlarged to 40 or 50. Anyone who thinks he might like to try out for the Glee Club is cordially invited to attend the club's next rehearsal, which will be held Thursday evening, March 12, in the Public Speaking Room at seven-thirty.

ROSEMARY, 262 ASYLUM STREET

BLUE AND GOLD MERMEN OVERWHELMED BY AGIES

Trinity Swimmers No Match for Experienced Opponents—Lose 45 to 17

An inexperienced Trinity swimming team was completely overcome by the record-breaking Congregational Aggie mermen in a meet held Saturday, March 7, at the Trowbridge Memorial swimming pool. Credit for 20 of the 25 records established by the visiting team, who placed first in every event but one, and second in all but two.

Wyeckoff, who set a sensational upset early in the meet when he placed first in the diving, the final score was 47 to 15 with Trinity on the losing side.

20-yard dash—Won by Harber (C); second, Gage (T); third, Stella (T), time, 26.0 seconds.

200-yard free style—Won by Slade (C); second, Kompatschik (C); third, Day (T); time, 2.209.9 minutes.

100-yard back stroke—Won by Standish (C); second, Hartz (C); third, Smith (T); time, 1.171.9 minutes.

100-yard free style—Won by Wiseman (T); second, Stewart (C); time, 1.018.9 minutes.

100-yard breast stroke—Won by Kaplan (C); second, Smith (C); third, Chapman (T), time, 1.158.9 minutes.

200-yard relay—Won by Aggie; Hargraves, Stansfield, Stobin, Wiesinger, time, 2.471.9 minutes.

This meet was the last on the Trinity schedule and leaves the coming season to be played.

The Delta Phi team, led by Harvey Dana, were winners of the consolation tournament, and will play the Gold Neutrals for second position sometime next week.

POL. SC. CLUB MAKES PLANS FOR THE SPRING

Several Speakers Engaged and Trip is Planned

At a recent meeting of the Political Science Club, John Fleet Isherwood, president of the club, announced that a number of speakers had been engaged for the near future. Among these are Prof. Charles W. Dowell, and the Reverend Mr. Archibald. Arrangements are also being made to have a representative of the Chautauqua Movement of Corporate East Hartford speak to the club on "Aviation."
1872.

The Reverend Doctor Frederick William Harriman, former rector of Grace Church, was born in New York, Conn., died last week at the home of his son, Lewis G. Harriman, in Buf­falo, N.Y.

He was born in New York, Conn., May 23, 1827, at the age of 90. He died at his home in Buffalo, N.Y., on May 20, 1920. Dr. Harriman was the son of Dr. Edward Miner Gallaudet, Founder of the College and a member of the Class of 1817 of Trinity Col­lege. The services were conducted by Dr. Herbert Gallaudet, son of the President.

1885.

A Chicago paper gives of Professor Hiram B. Looons, of the Class of ’85, as a “Modern.” He has for 12 years been superintendent of the public schools of Chicago. He is a member of the Board of Trustees.

1897.

Fred C. Hedrick represented Trin­ity in the celebration of the Twenty-Fifth anniversary of the founding of the University of Florida, at Gainesville, Florida, on February 13. On the same day memorial services were held for Dr. John B. Benton, of the class of 1897, late Dean of the Engineering College of the University of Florida. A memorial fountain and a tablet were unveiled, both to be placed in the Engineering Building, now known as Benton Hall. Mr. Hed­rick is a member of Alpha Delta Phi.

1919.

Recently a son was born to Mr. and Mrs. Harmon C. Bierer of Washington, Conn., at the Hartford Hospital.

The Chicago paper speaks of the total lack of friction between students and faculty at the Hyde Park school since Professor Loomis has been principal. Professor Loomis was born in Hartford, and after graduating from Harvard University, he attended the Chicago School of Fine Arts and the Art Institute of Chicago. He is a member of the Delta Kappa Epsilon Fraternity.

1922.

Dr. Hugh Kinder, who for thirty-five years has been a staff physician at the Flower Hospital in New York, died at the same time. He was a member of Phi Delta and of the Phi Beta Kappa Society. His younger son, Lewis G. Harriman, is a member of the Board of Trustees.

1927.

A son, Wales Scribner Dixon, Jr., was born on February 25 to Mr. and Mrs. Wales Dixon at the Hartford Hospital. Mr. Dixon is a member of the Alpha Delta Phi Fraternity.

Robert F. Gibson of Charlottesville, Va., who returned to this country last fall after two years in the Orient, is studying for the degree of Master of Arts at the University of Virginia. He is a member of St. Anthony’s Hall.

OBITUARY.

Members of the Alumni will regret to learn of the death of Dr. Hugh Kidder, who for 30 years was Dean of the University of Chicago. Dr. Kidder, who was a member of the Class of 1875, was born in New York, Conn., on April 7, 1850. He graduated from the University of Chicago in 1872, and received the degree of Doctor of Laws in 1878. He was the second president of the University of Chicago, serving from 1878 to 1885. He was also a member of the Board of Trustees of the University of Chicago.

Mr. Kidder is survived by his wife, Margaret, and three sons: Dr. Hugh Kidder, Jr., who is a member of the Class of 1878, late Dean of the University of Chicago; Dr. John B. Benton, of the class of 1897, late Dean of the Engineering College of the University of Florida; and Dr. Edward Miner Gallaudet, Founder of the College and a member of the Class of 1817 of Trinity College.

Mr. Kidder was the son of Dr. Hiram B. Kidder, who for 12 years was superintendent of the public schools of Chicago.

TRINITY COLLEGE, Hartford, Conn.

BOOK REVIEW

The current notion among authors that to acquire whatever acclamation those cognizant of literature feel justified in omitting, one has only to reveal the evolution of some family from the pioneer days to the present supposed history. The organ-organized portion of this country, has been responsible for a startling galaxy of books depicting such evolutions. Joseph Hergesheimer's "The Limestone Tree," perhaps is the best of the galaxy, not for its historical importation of fairs and portraits, but because it is written in a style that is a joy to read.

"The Limestone Tree," is the story of Gabriel Sash with his family and descendants through more than a hundred years in Kentucky. It is the story of a man, affectionately written, of a wholly American tradition of responsibility and courage and honor. The pattern of successive lives and deaths is brilliance of the writer. The style is more peaceful, often, than the bitter text of apparent appearances. The poverty, the rags, the small things of pioneer times, change into the great racing estates of 1840. The Civil War divides Kentucky and the Sashes.

COMMUNICATIONS

Written in a spirit waving between indignation and our unspoken guilt, I fear, in this good book of the "The Tripod," I feel that I am quite justified in writing a few words of criticism—for the most part—undeservedly adverse.

I in spite of the helpful cheering of Sigma Nu's, the Kappa Epsilon was a well-earned victory from the Willimantic "Y" by the score of 26 to 21. It was an athletic write-up in a recent issue of the "Tripod." The phrase "in spite of Sash with all of whom and his family's rise into a wholly American tradition of responsibility and courage and honor. The pattern of successive lives and deaths is brilliance of the writer. The style is more peaceful, often, than the bitter text of apparent appearances. The poverty, the rags, the small things of pioneer times, change into the great racing estates of 1840. The Civil War divides Kentucky and the Sashes.

BLINDNESS IN OUR COLLEGES

We learn from an authoritative source that in England and in no other foreign countries students in the higher institutions of learning find the greatest benefits of their scholastic apprenticeship in their extra-curricular activities. "Book-learning," it seems, is subordinate to the active, live, effective, and gainful, and the result has been the establishment of a system of education unequalled by the excellence of all that has preceded. In the United States we can see this situation breaking down. The "Frank Meriwether" frolic is dying out of our institutions and the thinking portion of American students are rapidly reacting against too great versatility in activities and too much specialization.

THE TRINITY TRIPOD

TRINITY BASKETBALL
SEASON COMPLETED

Victories Over Wesleyan and Pratt Outstanding Successes of Team

Trinity basketball came to a close with the team having as Coach Ouellette stated to the representative of "The Trinity Tripod" an unusual, not successful, season. The team lost six of its games, and won six. The general attitude, however, all season toward the team had been such as to show that with bit of last year's team which was the best that ever represented Trinity on the court.

The next Friday night the team played their last game of basketball, completely sweeping Wesleyan along in a flashing attack during the first half. In the second half a changed Wesleyan team took the floor, but Trinity was not to be vanquished, finally winning 33 to 29. The next day the team traveled to Brooklyn to defeat Pratt Institute 19 to 16, for Pratt's only defeat of the season. They did. The team played superlatively basketball, completely sweeping Wesleyan along in a flashing attack during the first half. In the second half a changed Wesleyan team took the floor, but Trinity was not to be vanquished, finally winning 33 to 29. The next day the team traveled to Brooklyn to defeat Pratt Institute 19 to 16, for Pratt's only defeat of the season.

The prospects were none too promising in the early part of the season, but the team began well by defeating the Cooper Institute team in its first game. Following this the team proceeded to lose five of its next seven games. Then came the Wesleyan game. Trinity marched out on its home floor determined to win, and win they did. The team played superlatively basketball, completely sweeping Wesleyan along in a flashing attack during the first half. In the second half a changed Wesleyan team took the floor, but Trinity was not to be vanquished, finally winning 33 to 29. The next day the team traveled to Brooklyn to defeat Pratt Institute 19 to 16, for Pratt's only defeat of the season.

Why we spend $2,000,000 to put CAMEL cigarettes in the new HUMIDOR PACK

...Continued from page 4.)

Why we spend $2,000,000 to put CAMEL cigarettes in the new HUMIDOR PACK

We have been in the tobacco business a long time down here at Winston-Salem and we take a lot of pride in the quality of the cigarettes we make.

While we have spent a good many million dollars advertising Camels, we've always held to the old fashioned idea that the thing that really counts is what we put into our cigarette and not what we say about it.

If we know anything about tobacco, and we think we do, Camels contain the choicest Turkish and the mellowest, rippest domestic leaves that money can buy.

In fact we have every reason to be proud of the quality of Camels as they come from the factory, but the remark of an old friend of ours from Denver some time ago emphasized a point that has been the problem of the cigarette industry for years.

As he inhaled the smoke from a Camel we gave him in our offices one morning, he sighed with evident enjoyment and then asked jokingly, "What is this, a special blend reserved for Camel executives?"

"Certainly not," we told him. "This package of Camels was bought at the corner store this morning."

"Well," he said, "I've been a dyed in the wool Camel smoker for a good many years, but upon my soul I never got a cigarette as good as this in Denver. If you would give the rest of the world the kind of Camels you sell here in Winston-Salem, you ought to have all the cigarette business there is!"

That statement simply emphasized again the cigarette industry's most important problem. The more we thought about it, the surer we were that he was dead right, and that somehow, something must be done.

Denver isn't getting a fair break. Neither in fact was any other town. The only people who really know how good Camels could be were the folks right here in Winston-Salem.

That was due to a factor no cigarette manufacturer had ever been able to control.

Naturally there is no difference whatever in the quality of the tobacco in Camels, whether you buy them in Winston-Salem, Denver or Timbuctoo. But up to now there has been a very real difference in the condition of the tobacco by the time they reached the smoker.

The flavor and mildness of fine tobacco depend upon the retention of its natural moisture, no added, moisture content which is prime at about ten per cent.

In spite of our great pains always to make sure Camels left the factory with just the right amount of natural moisture, no cigarette package had ever yet been devised that could prevent that precious moisture from drying out.

There are three things about a cigarette that can sting the tongue and unkindly burn the throat.

1. Cheap tobaccos.

2. Particles of peppery dust left in the tobacco because of inefficient cleaning methods.

3. A parched dry condition of the tobacco due to loss of natural moisture by overheating or evaporation.

Always certain of the quality of our tobaccos we had already made Camel a "dustless" cigarette by the use of especially designed vacuum cleaning apparatus to aid us.

Now, if we could perfect a package that would actually act as a humidifier and retain the natural moisture content, then Yuma, Arizona, could enjoy Camels as much as we do here at Winston-Salem.

We knew what we wanted. We tried many things. We asked the Pittsburgh Testing Laboratory to help us.

After many experiments and humidity tests covering all methods of packing cigarettes came the detailed report of which this is the net:

(A) No existing cigarette package, including those wrapped in glassine paper or ordinary cellophane, gives anything like adequate protection against evaporation.

(B) All cigarettes so packed tend to dry out rapidly from the day they are released from the factory.

(C) Only a waterproof material with a specially devised air-tight seal could give the desired protection.

(D) This measure, while costly, could be relied on to keep Camels in prime condition for at least three months in any climate.

If you have a technical bent, the graph below made by the Pittsburgh Testing Laboratory will show you the exact results of their exhaustive study.

You may be sure we gave this report a lot of careful study. We checked it and re-checked it and then we went ahead. We tried this device and that. At last we met success. The air-tight wrapping involved the designing of special processes, special machines.

That costs a lot of money. More than $2,000,000 the first year, but after you have tried Camels packed this modern new way you are sure you will agree it is a fine investment.

For some time now every Camel that has left our factory has gone out in this new Humidor Pack.

We have said nothing about it until now, to make sure your dealer would be able to supply you when the good news came out.

Camel smokers of course have already discovered that their favorite cigarette is better and milder now than ever before.

If you aren't a Camel smoker, try them just to see what a difference there really is between harsh, dried out tobacco and a properly conditioned cigarette.

You can feel the difference, you can hear the difference and you certainly can taste the difference.

Of course we're prejudiced.

We always believe that Camel is the world's best cigarette.

Now we know it.

Just treat yourself to Camels in the new Humidor Pack and see if you don't agree.
