This will be the last issue of The Tripod for this year as it is planned to publish the Tablet on June 17.

FOUR OUT OF FOUR

With the last meet last Saturday, Trinity’s track team won four of its meets last week, and the last meet was the championship. This is an enviable record and worthy of the highest commendation and praise.

May we voice the thanks of the school to those men who have done so well after four consecutive years of trial and retrial until success was reached? Many of those stellar lights who appeared suddenly and shone so brightly during the season? May we thank Professor Oosting, who guided the efforts of all?

It has been a successful team which merits our congratulations.

TILL THE LAST SHOT IS FIRED!

This year’s academic race can be made a really successful run if as many students as possible stay around the campus until the last shot is fired on Monday, June 30, for the one hundred and sixth Commencement.

It is realized that for some students there are ghosts and nightmares hiding in the woods and among the trees. These student flee in all fear after their last examination. Others have summer positions awaiting them. (At least some for the summer deserves to be excused.) There are, however, many to whom a few extra days of what is perhaps the most exciting part of the academic year are no hardship at all.

To these students we appeal to make this a gala commencement.

The four days, beginning Friday, June 17, as planned, are full of interesting events for us as well as the Alumni. Glance at the calendar for the week-end. The Class Day Exercises in the afternoon on Friday, and the Grand Assembly that evening should prove interesting. On Saturday there will be the Commencement of the Chapel, for which we have waited two and a half years. The Commencement will mean much to those who can see it, and the unobstructed view from the rostrum of Bishop Bartlett of North Dakota. The academic procession and Commencement on Monday morning will bring the week-end to a close.

We sincerely hope that all students who can possibly do so will remain at college over the week-end and among the trees. This time that the students demonstrated their interest in Trinity by being here where the Alumni arrived. Let us keep the pulses of the college going over that week-end, and not leave a corpse on the sixteenth of June at the completion of the final examinations. Let us stay in the race until the last drop of sweat or ink as an offshoot of our visiting alumni, Take up the run! We’re tired, so we’re going home.

UNITED GREEKS

It is late in the season to dip our pen into the ink of battle. We cannot satisfactorily report our progress against other fraternities, but the importance of suggesting a new field of endeavor for next September.

We can think of no other group on the campus at the present time which is so difficult to do, and which by fraternity and college alike as the Interfraternity Council. For years the fraternity has been striving to build an organization which could serve as a chamber of peace, conduct a true and unadulterated administration for the combined Greeces.

A successful failure has been the result, the Council’s only activity being the control of rushing. Rushing has become para mount in importance to the almost total exclusion of other and more important interfraternity matters. The Council has been forced to wrangle over rushing regulations in order to save its face and avoid punishment.

The Council has been weakened in two ways, each distinctly important and each capable of elimination. First, the fraternities have been unwilling to present their problems for discussion and, if possible, cooperation. The Greeks are fighting. That is because their powder is wet. A little, drying heat, and we might have an explosion. Each fraternity must have its defense. Second, separation is death, and amalgamation is increased life. Such amalgamation is obtained from intelligent and active representation of each group at Council meetings, and each group is above-board and cooperative.

The other reason for sluggishness lies in the hands of the Administration. By limiting the Council’s powers and functions, the Administration has made it a half-hearted organization. Perhaps the most important controlling factor of what is going on in the Council is the recent refusal to allow the Council to sponsor dances. The Senate ran the dances. The argument was offered that the Council is not a social organization. We can hardly agree that the Senate financiers are more socially suited for an interfraternity than the unalumni.

The Greeks must unite on this campus as they have never done before, and the authorities must grant full recognition to these representational efforts.

Let us stay in the race until the last drop of sweat or ink as an offshoot of our visiting alumni, Take up the run! We’re tired, so we’re going home.

UNITED GREEKS

It is late in the season to dip our pen into the ink of battle. We cannot satisfactorily report our progress against other fraternities, but the importance of suggesting a new field of endeavor for next September.

We can think of no other group on the campus at the present time which is so difficult to do, and which by fraternity and college alike as the Interfraternity Council. For years the fraternity has been striving to build an organization which could serve as a chamber of peace, conduct a true and unadulterated administration for the combined Greeces.

A successful failure has been the result, the Council’s only activity being the control of rushing. Rushing has become paramount in importance to the almost total exclusion of other and more important interfraternity matters. The Council has been forced to wrangle over rushing regulations in order to save its face and avoid punishment.

The Council has been weakened in two ways, each distinctly important and each capable of elimination. First, the fraternities have been unwilling to present their problems for discussion and, if possible, cooperation. The Greeks are fighting. That is because their powder is wet. A little, drying heat, and we might have an explosion. Each fraternity must have its defense. Second, separation is death, and amalgamation is increased life. Such amalgamation is obtained from intelligent and active representation of each group at Council meetings, and each group is above-board and cooperative.

The other reason for sluggishness lies in the hands of the Administration. By limiting the Council’s powers and functions, the Administration has made it a half-hearted organization. Perhaps the most important controlling factor of what is going on in the Council is the recent refusal to allow the Council to sponsor dances. The Senate ran the dances. The argument was offered that the Council is not a social organization. We can hardly agree that the Senate financiers are more socially suited for an interfraternity than the unalumni.

The Greeks must unite on this campus as they have never done before, and the authorities must grant full recognition to these representational efforts.
In its eighth game of the season the Trinity baseball team chalked up its third victory by defeating Wesleyan 7 to 1 on May 18 at the local venue.

Bill Henebry continued to show the excellent form which accompanied the 11 to 0 defeat administered to Clark but a week before. He struck out nine batters and not one hit was scored for the first three innings. Wiggers, the Cardinal and Black pitcher, threw eight bases on balls, hit three men, and recorded one strikeout. Trinity scored in the sixth and eighth innings, while Wesleyan's only score came in the seventh.

Henebry got off to a good start, striking out the first two batters. One, however, singled for the first hit of the game, but Phippen's shortstop retrieve the side when Kelly took the Trinity captain's challenge ploy to nail the runner at second base. Vannie led off for the Blue and Gold with a single but was put out at second when the Wesleyan catcher evaded things up with a fast throw to Phippen. Phippen and Fontana both received bases on balls only to be stranded as Bockwinkel fielded out and Adams failed to score.

During the next four innings Henebry and Wiggers pitched steady ball. Trinity getting one hit to Wesleyan's two. Then in the last half of the sixth, the Blue and Gold came to life. Wiggers out Elliott zapped a sharp grounder and reached second on Johnstone's error. Henebry followed with another single, scoring Elliott ahead of him, and then tallied when Vannie, who had been connected for a hit, received a pass to first, and Bockwinkel doubled to right field to score two more runs. Armstrong, who had been substituted for Adams when the latter was hit by one of Wiggers' wild balls in the sixth, singled, only to be put out in a double play. Vineyard took the advantage of two errors to score both Trinity immediate scoring.

In the seventh inning Wesleyan lost advantage of two errors to score its only run. The Trinity batters calmed down in that inning, but opened up again in the eighth to score three more runs on hits by Fontana and Elliott and an error by Dave Wesleyan came in to bat in the ninth reversed a similar rally which appeared possible, but a promising rally was nipped by a fine double play, and Johnstone ended out of the game.

A frank discussion at last on a subject that has long been "taboo"

Let sleeping dogs lie! So said the cigarette trade when first we raised the subject of inhaling. But dodging an important issue is not Lucky Strike's policy.

Do you inhale? That question is vitally important. . . for every smoker inhales—knowingly or unknowingly. Every smoker needs in some part of the smoke he or she draws out of a cigarette! And the delicate membranes of your throat demand that your smoke be pure, clean—free of certain impurities!

Do you inhale? So far, Lucky Strike has dared to raise this vital question! For Luckies bring you the protection you want. . . because Luckies' famous purifying process removes certain impurities concealed in every tobacco leaf. Luckies created that process. Only Luckies have it!

So, whether you inhale knowingly or unknowingly, safeguard those delicate membranes!

"It's toasted"
Your Doctor Protects—Just Takes It— criticizes it.
