FOUR HOUSES SCHEDULE DANCES OVER-WEEKEND
Alpha Delta Phi, Psi Upsilon to Give Joint Affair Tonight in Cook Hall
Four family fraternities are a prominent feature of dance-weekend activities. On Thursday, February 3, the Beta Eta Chapter of Sigma Nu will give a joint dance in the same hall. Saturday night, the Sigma Delta Chapter of Delta Phi, and the Delta Chi Chapter of Sigma Nu are giving dances in their houses.

Italian Club Receives Congratulatory Letter
Hon. Joseph Buffington Writes Message of Praise to New Society
Following the announcement of the organization of the society, B. Cleve Daniel, in the Tripe, has received congratulatory messages and words of encouragement from many colleges.

Your Young Friends:
I see by the Tripe that you and your fellow students of Italian descent have organized a new society. It really goes to my heart that you have taken this step. I have had great interest in the Italian people and the Government has honored me with the Order of the Chevalier of the Crown and later on with Commanders of the Crown. Some four or five years ago, when I was in Rome, I had a really beautiful bronze work made, which was laid on the tomb of the Unknown Soldier in Rome; so you see I am more or less in touch with Italian affairs.

I will inform my Italian friends here in the city of the step that has been taken by you at Trinity and I shall send my greetings to each and every one of you and give you all the encouragement I can in your effort. I feel very keenly the desirability of keeping alive the traditions of the different mother countries that are represented by our American citizens. I have always strongly ad- vocated the education of the schools of mental habits and pages and folk recreations. The more a man learns to love the mother country from which he has sprung, the deeper will be his love and appreciation of America.

Congratulations! You have been on the right step you have taken, I am sure, Sir.

Very cordially, your fellow Trinity man.

JOSEPH BUFFINGTON.

SQUASH TOURNEY TO COMMENCE SHORTLY
Competition will start soon in the individual squash racquets tournament. It will be played off on the same day as the tennis tournament. A list will be posted and anyone wishing to enter may compete. The matches and awards will be made and announced. The winner of the tournament will receive the chill trophy donated by Newton C. Bierkan of Hartford, the winner of the game being named place on the plaque in the balcony of the dining hall. Last year this honor was won by J. E. S. Burle.

The team squash racquets trophy was won by St. Anthony Hall which gives them permanent possession, as they have won it three times. This trophy was donated by Sydney T. Mill, of Detroit, also a trustee of the college.

TWO VICTORIES OF LAST SEASON
Give Team Record of SIX STRAIGHT WINS
JINX IS BROKEN
Amherst is Among Victims in Games Played Away from College
Counting the two victories with which Trinity finished her last year’s basketball season, the Trinity team has run up a string of six straight victories. The usual jinx which foreign courts hold for a team seems to have been brushed aside. Three years when the team had a record of twenty-five straight victories on the home court, they lost eight out of twelve games played away from home. This makes the more impressive the fact that this team has won six in a row away from home as well as the home games, winning from Pratts Institute and West Hartford by two points, and from Wooster by a large margin. Only a fine working unit could produce such results, Daut, Amherst, Pratt and Wooster.

NATHANIEL T. CLARK.

N. CLARK CHAIRMAN
New Dining Hall Paves Worthy Location as Diners Enjoy Themselves
Last night the second large social event of the college year, the Junior Prom, took place in the new dining hall. As the first large college dance to be given in Cook Hall, the event was proclaimed by all attending—of course, with S. S. Leviathan Orchestra provided most adequate music for the large group of students and their friends. Simple decorations comprised the function for, unlike the former Proms held in Alumni Hall, the crepes and busting were missing. The dining hall was brightened by flowers and some greenery, and everyone present, including some who feared lest the limelight would run away with them, really enjoyed the event, remarked on the beauty of the heartland of the school in a large part responsible for the success of the Prom.

The plan in the fraternity boxes placed beneath the hall in the primary floor, and the atmosphere as a result of the continental cafe, the decorating company succeeded in producing a most pleasing atmosphere. At 12.30 an even better supper was served in the individual boxes. Prom dancing was continued until shortly after supper.

The grand march was led by Nathaniel T. Clark, chairman of the Junior Prom Committee, and Miss Laura Ann Smith, President of Delta Phi Epsilon. Members of the Prom Committee were as follows: William C. Benjamin of New York City, Harold R. Bale of Forest Hills, N. Y., Charles E. Bierkan of Hartford, Charles B. Bierkan of Phila­delphia, Graham A. Day of Hartford, Philip J. Connolly of Green Bay, Bx. J. Howard of Hartford, Charles A. Tucker of Hartford, and G. H. Uhlig of Woonsocket.

The patronesses were as follows: Mrs. Arthur Adams, Mrs. LeRoy R. Barber, Mrs. Vivian E. Bird, Mrs. Lyman C. Brainard, Mrs. William G. Bell, Mrs. Harrison H. M. Dadourian, Mrs. J. R. Kofo Davis, Mrs. Stanley L. Gafen, Mrs. Thurman L. Good, Mrs. Edward P. Hamblin, Mrs. Daniel E. Jessen, Mrs. Remsen B. Gillies, Mrs. Alfred P. Kelley, Mrs. Henry A. Perkins, Mrs. Sidney A. Sinney, Mrs. Edward S. Trexell.

TRACK TEAM NOT TO USE METRIC SYSTEM
In answer to the popular question "Will the track team this coming year use the metric system?" the answer given by the team is that the present system and distances is very slight and it seems hardly worth the trouble to make the necessary changes until it becomes a necessity that the change is to be uni- versal.

former Trinity prof. VICTIM OF PNEUMONIA

Dr. William L. Robb Dies in Troy Following Illness—Was Physics Professor

Dr. William L. Robb of Troy, 71, formerly director and executive officer of the Hartford Electric Light Company, professor of physics at Trinity College from 1888 to 1906, and chief of the head of the Department of Electrical Engineering at Rensselaer Polytechnic Institute, died of pneumonia at Saratarnai Hospital, Troy, early on Friday morning, November 24. Dr. Robb was born in Saratoga, N. Y., May 9, 1861, son of the late Alexander J. and Esther (Lepandeau) Robb, and was 71 years old.

While a professor at Trinity College, Dr. Robb was prominent in social circles in this city. At that time he was organizing many friendships which he kept throughout his long and distinguished career as an engineer for the Hartford Electric Light Company, a position he held with several other large utility enterprises in this section of the country.

Since 1902, the year Trinity College conferred the LL.D. degree on Dr. Robb, he had been head of the department of electrical engineering at Rensselaer Polytechnic Institute, having gone there after spending a year abroad in Saratoga, N. Y., May 9, 1861, son of the late Alexander J. and Esther (Lepandeau) Robb, and was 71 years old.

WATKY RATCH WHEN?

The following are a few quotations chosen at random from Trippers of previous years. We offer them to you for your amusement.

The first from the issue of Friday, February 17, 1906, is strangely reminiscent of the "may massive decree", referring to a German:

"Watky reatch when?"

The next from the issue of Friday, February 17, 1906 makes us wonder just a little:

"The hall was simply decorated with rugs and flowers, and in corners."

THIS MONEY-SAVING FUEL
Saves Many Ways!

Just talk to any user of Connecticuts Rock—there are three times more now than there were only two years ago—and you will hear the most astoundingly beautiful story of saving you ever heard about AVL fuel. Not only saving in money... but saving in labor... saving of time... saving of worry—saving of all kinds. To be sure, AVL fuel is more expensive, certainly; but what an investment it is... one that will pay dividends for the rest of your life.

Better plan for a supply of the modern high-test fuel. Call your fuel dealer, or 5-3191.

It's fun to be fooled
...it's more fun to KNOW

Another "magic show" is cigarette advertising. One of its greatest tricks is the illusion of cigarettes can be made miraculously "MILD" through manufacturing processes.

EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some more intensively than others, because raw, inferior tobaccos require more intensive treatment than choice, ripe tobaccos. The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. This is why Camels are so mild. This is why Camels have given more pleasure to more people than any other cigarette ever made. It's the secret of Camel's rich "bouquet"...their cool flavor...their non-irritating mildness.

All the natural, ripe goodness of Camel's tobacco is kept fresh, for you by the famous air-tight, welded Humidor Pack. Don't remove it.
