Famous Geographer and Explorer Will Show Moving Pictures and Slides of Conflict

Professor Michail Dorizas, renowed geographer and explorer, will deliver a lecture on "The Sino-Japa­nese War." He will elaborate on the discovery of anesthesia. For a long time generally attributed to Dr. Horace Wells, who in 1842, two years earlier, gave himself to the experiment until 1846, when he was ex­tracted by his friend, Dr. Riggs. The exact date of the operation was December 13. On Saturday, the an­niversary of that discovery, a pow­erful end is to be made to the West End. As in the case with Dr. Wells, who, in 1844, two years earlier, gave himself to the experiment until 1846, when he was extracted by his friend, Dr. Riggs.

The Department of Chemistry Laboratory on Friday evening, December 10, Mr. Dorizas will lecture on the Chemistry of Silence. The talk will be addressed to the students in the lounge at 7 p.m.

SIGMA NU, Chartered in 1918, Youngest Fraternity on Trin Campus

By Henry Hayden, '29

The Theta Chapter of Sigma Nu was officially chartered March 19, 1918. Sigma Nu officially en­ter­ted Trinity campus.

Sigma Nu was strong in every sec­tion of the United States. It numbered over 37,000 men and approxi­mately one thousand are initiated every year. The fraternity magazine, "The Delta", has a circulation of ten thousand. The chapter is proud of its relations with other New England chapters and every winter journey to meet Morris College. The annual meeting of the fraternity is held in the spring, at which time the officers of the fraternity are elected.

Moch has been contributed to the management and campus policies of Sigma Nu. The fraternity has a charter for five fraternities and the first president of Sigma Nu, Raymond Segur, who is regional supervisor of New England. With a pledge delegation of ten, Sigma Nu looks forward to greater success among the other fraternities on Trinity's campus.

SIGMA NU was located at a house on Allen Street, a house that was be­ing used by local men for the most part, but in 1918 the headquarters be­came located at a house on Allen Street. A famous geographer and explora­tor, Professor Dorizas, was born in Con­stantinople and went to the Roberts Institute at thirteen, where he later be­came teaching at the university. He was enrolled in the University of Penn­sylvania where he was a great success. Dorizas was a member of the Sigma Nu fraternity. He was a native of Greece, but was better known as an athlete, and this year, as last year, he will take on "all comers" in wrestling and give an exhibi­tion of the skill during the after­noon of the convention.

WHY NOT A SUCCESSFUL DANCE?

During our comparatively short stay of three and a half years at Trinity, we have had the pleasure of attending most of the formal dances in that period. To the best of our knowledge, not one of the so-called "big formats" has even come close to breaking even so far as the financial angle is concerned. In fact, in that time, only one minor format has paid expenses. It was truly deplorable condition, but true.

Looking at the problem from a different angle, we find that we have enjoyed the products of the big form dance too much to be depressed in the words of a sophomore overheard about a week before the Hop. When approached by a member of the committee Williams, was reported to have said, "Oh, that's the use of going out to a lousy Soph Hop? There hasn't been a decent one yet."

In these few words, that undergraduate expressed what has long been apparent in all too many undergraduate activities, the "technological and pessimistic attitude of the average Trinity student" which will spoil any effort to give a format. Fortunately, the right, the crowd was sufficient and extensive, and so forth. These two occasions include last year's Senior Ball and the recent Soph Hop. The music was good, the program was interesting, the food was excellent, the weather was fine. All in all, it was a very good evening.

One: Steps to be taken immediately to overcome the prevalent idea that a dance can't be a success at Trinity. Trinity is just a college. It is not a high grade dance hall. It is not a night club.

Two: A wise selection of dance chairs and committees.

Three: A careful budgeting of finances at the start of the sophomore year, so that bigger and better dances may be given as the class progresses.

Four: Changing the time of the dances. The Soph Hop should be held earlier in the fall, preferably on some football weekend. At least we should make it a contest of the various houses to get away from Trinity as fast as possible when exams end. Such is the program followed by Yale, Harvard, Princeton, and others. The Senior Ball is all right where it is.

We feel sure if such a program were followed, the situation would improve greatly. Not only would the dances themselves be better, but also much more cooperation would be obtained in the form of dinners, house parties, etc., from the various houses.

CAMPUS OPINION

The Question: "Has the repeal of the 18th Amendment been a success or detrimental to the nation as a whole?"

The Answers:

T. D. Benson, '38
"The repeal of the 18th Amendment has been beneficial for several reasons. It has lowered the price of liquor, and made drinking more respectable than it was before."

E. A. Kidder, '38
"I don't think it has improved the moral standards of the students, but it has made drinking more respectable."

P. K. Kennard, '38
"I don't think it has increased the amount of drinking to any extent."

K. G. Neish, '39
"From my experience, I think the country as a whole is gradually getting used to this change. It is a matter of taste. As soon as people learn proper drinking habits to remain in public favor.

The sports of the year have been the greatest triumphs we have had at Trinity. The Mighty Blue and Gold team remains the best. It has been a mighty Maroon eleven strove to the Land of Roses and Eternal Sunshine, for sunny reasons.

Our football team has won the last six games, and we are the only unbeaten team in the nation. The team has been successful due to drunken driving. There will be no moral dissension, no argument.

The class of '38 will do the best : Prince the 18th Amendment shall have been beneficial, because it has not-! would say that it has been obviously a failure. It has increased the revenue by 50 per cent. If it has increased the number of alcoholics, it has increased the revenue by taxation.

If we were to judge the word beneficial, whether it makes people happy or notI would say that it has been beneficial. It is conducive to a more wholesome attitude towards the law. When a man is thinking of the law, it has increased the revenue by 50 per cent. It has made drinking more respectable."

Sports Sidekites

It's really quite amazing...yes we have, and we have seen the Crimson Tide, Alabama's own, should finally receive the annual bid for the national championship in college football, and participate in a friendly tiff as 92.000 fans the Pasadena Chamber of Commerce promised to the witness the struggle with glee, be it ever so. It is a matter of success.

We are never, never, never! Rather it is left to us for no less than to remember the many times the yardarm the true American hero.

ON OTHER FRONTS

The fate of the Spanish Normal football team, from Spearfish, S. D., hung on a pair of football pants, two weeks ago.

The team had come to Aberdeen to play the Northern State Teachers College. The spearfish team had an "All-Americans" tackle, according to its coach, who stated that if they couldn't find a pair of pants to fit his 200 pounds of brown and muscle.

"We've wired every sporting goods company and if a pair arrives in time for the game so I can use him, well have a good chance to win," said the coach.

An English professor in the Massachusetts Institute of Technology is "taking it all back."

In 1929 he told the Institute's gradu­ ing class: "As a man marry the boss's daughter."

"Now," he declared, "I've decided the advice didn't work out as well as I expected." By marrying the boss's daughter, the young man took the chance of acquiring the boss's liabilities along with his fortune.

Besides, it seems that the young man so advised were noted by the fair—and wealthy—objects of their affections if the offices of marriage were inspired by love or their professor's advice.

"Two percent of the people do the thinking for the remaining 98 percent and you are a part of the 2 percent," Dr. William F. Quillian, Director of Ham Southern College.

"It may seem strange but all great men slipped off their pedestals as easy as a man can slip to the bath tub," Dr. Sanders, a professor in education at De Paul University, answered a question remark picked up by a campus columnist.

A department in manners—the first in a publicly supported university—has been created at Hunter College.

 Ary has been appointed as assistant rector of the Grace Episcopal Church, Cincinnati, Dec. 9. He wrote "The Church in the House," and a year later brought out a volume entitled, "The New Men."

The Reverend Hills graduated from Trinity in 1884, when he received the degree of Bachelor of Arts. Three years later he obtained the degree of Master of Arts and it was also during this year that he was ordained priest. While at Trinity Mr. Hills was one of the most active members of his class, he was particularly well known for his marvelous voice and for was a member of the Glee Club. Reverend Hills was a member of the Alpha Delta Phi Fraternity, and he headed the Lawn Tennis Club of this fraternity in his senior year. He was also a member of the "ivy" Club, the Coaching Club, Trinity Dramatic Club, and the Kneickerbocker Walking Club. His ability as a musician is shown by the fact that he was a member of the Royal Egyptian String Quartet, the Morgan and St. Denis, Hills, and Second Tenor on the Alpha Delta Phi Quartette, and the Glee Club.

Between 1885 and 1897, he served as assistant at St. Mary's Episcopal Church, Burlington, New Jersey. A year later he became the rector of Christ Church, Irvington, New Jersey, remaining there until 1911, when he went to Westville, N. J., where for seven years he was rector of Holy Trinity Church. Called to Chicago in 1898, where he served for a short time, he later went to act as rector at Christ Church, St. Joseph, Mich. Later he served in Atlanta, Ga., Minneapolis, Minn., Milwaukee, Wis., and finally in New York City.

Dr. Hills had served as Chaplain of the Sons of the Revolution, and during the World War he was religious secretary of the Y. M. C. A. at Aix les Bains, and Director of the Officers' Club at Cannes. At his death he was a major in the United States Army Reserve.

Dr. George Hills, '84, dies at home in Ohio

Dr. George Hills, '84, active as a minister for twenty-five years of the Grace Episcopal Church of Cincinnati, died last Friday at his home in Cincinnati at the age of seventy-five. A native of Syracuse, New York, son of George and Mary Hills, Dr. Hills served churches in the East for several years before 1898, when he assumed the post of assistant rector at Grace Church, Chicago. In 1902 he wrote "The Church in the House," and a year later brought out a volume entitled, "The New Men."

REV. WILSON TALKS ON LIMITATIONS IN LIFE
Speaker at Wednesday Chapel is Rector of Christ Church in Greenwich, N. Y.

Speaking in Wednesday morning Chapel, Rev. Wilson used as his text the story of Nahaman, who was a leper, and yet was great and honorable despite his limitation. Mr. Wilson said that a man is able to face life in spite of his limitations. One is apt to say that Nahaman was a rare character. We would change places with others, forgetting that others have difficulties. Nahaman was envied for his power; but he had, nevertheless, limitations.

We all, at home and at college, have limitations. We are now partaking of a great spirit of fellowship at Trinity. Later, however, we will recognize limitations of one form or another in ourselves and in others. No matter what form it is, the temptation will be to say that for this limitation we could succeed. When this time comes, let us think of Nahaman. We should profit by the example of Nahaman. Nahaman faced his limitation with courage. Many people today are faced with the problems of serious sickness and are filled with despair. Nahaman had no hope because of his leprosy. Yet he said that while there was life there was duty. Nahaman recognized difficulties into duty.

God accompanies us through our troubles. Nahaman, however, lived in a pagan country. He did not have the advantage of Christianity which we have today. Nahaman revealed the fact that man can face life with courage. Man is happy because he is useful, not useful because he is happy. Nahaman was a leper. He was great and honorable. Jesus, limiting Himself in many ways, pressed onward. Mr. Wilson finished press onward until we eventually become citizens of eternity.

Mr. Wilson said that a man is able to face life in spite of his limitations.

When this time comes, let us think of Nahaman. We should profit by the example of Nahaman. Nahaman was great and honorable. Jesus, limiting Himself in many ways, pressed onward.

COMMONS CLUB NOTICE
At the regular meeting, Wednesday evening in Cook Lounge at 7:30 p.m., Clem Motten will give a talk on some of his experiences this summer while in Europe as an American leader of an American Youth Hostel Group to Italy. He will accompany his talk with moving pictures taken in France, Austria, Italy, Germany, Belgium, and England during the course of the summer. The meeting will be open to anyone interested and all are invited to attend.

Between 40 and 50 members of the faculty and their wives were the guests of the Commons Club at the annual tea held in Cook Lounge Sunday afternoon.

President and Mrs. Aydelotte of Swarthmore College were also present.
