Henry Buck, Local Engineer, Takes Prof. Tripod reporter.

Mr. Buck is a member of the Connecticut Section of the American Society of Civil Engineers and is also a member of the American Society of Professional Engineers. He is also a member of the Connecticut Section of the American Society of Civil Engineers and is also a member of the American Society of Professional Engineers.

Mr. Buck was graduated from Yale School of Engineering in 1904 with the degree of Bachelor of Science in civil engineering. He then worked in the construction business for twenty years before going into business for himself as a structural engineer. He is now in charge of a large construction company and has been employed on many important projects, including the construction of the Panama Canal and the rebuilding of the State Capitol in Hartford.

Mr. Buck is a member of the American Institute of Architects and is also a member of the American Society of Professional Engineers. He is also a member of the American Society of Civil Engineers and is also a member of the American Society of Professional Engineers.

Mr. Buck has been active in the civic affairs of Hartford for many years and is a member of the Board of Education and the Board of Finance. He is also a member of the Board of Directors of the Hartford Chamber of Commerce and is a member of the Board of Directors of the Hartford Savings Bank.

Dr. Troxell Works on Specimen of Bird

Dr. Troxell has been working on a specimen of a bird that was found in the area. He is examining the bird's feathers and studying its anatomy. He has made several important observations and has published his findings in a scientific journal.

Dr. Troxell is currently working on a comprehensive study of bird behavior and ecology. He has been collecting data on various bird species in the area and is using this information to develop models of bird population dynamics.

Dr. Troxell is scheduled to present his findings at a conference in New York in the fall. He has already received several offers to publish his work in leading scientific journals.

The study of bird behavior and ecology is an important field of research that has many practical applications. For example, understanding bird migration patterns can help to protect endangered species and reduce the impact of human activities on wildlife.

Dr. Troxell is also involved in outreach and education programs that aim to increase public awareness of the importance of biodiversity conservation. He regularly gives talks and workshops to schools, universities, and community groups to help spread the word about the latest developments in the field.

Friday, February 18—Tonight the freshman basketball team was handled its second defeat out of eight games by the Springfield Smokers. The team was well matched, and the game was not decided until the last vehicle was bowed. At the beginning of the Trinity yearlings were trailing by six points. With only a few minutes to play the Springfield player still had advantage of six points; not until now did Trinity get a chance to even out. They unleashed a dancing offense that left their opponents baffled. A few seconds later Hatfield made a beautiful shot from the center of the floor. The final score of the basket but finally popped out. Seconds later the game was over. The final score was Springfield Jaycee 27, Trinity Fresh 25.

SEEDMAN, right forward for Trinity, led the native swimmers with nine points. Thompson, center for the Hilltoppers, added seven points to the Freshmen's score. This win cancelled this by ringing up five big points.

Hilltoppers vanquish weak Norwich Cadets Mountford, O' Malley Star for Triumph 35-25

Friday, February 18—The Trinity varsity basketball team finally broke their string of four straight losses for the season this past night at the Hopkins Street Gymnasium, when it conquered Norwich University. The triumph was well deserved, especially the season, 35-25.

The game was well played, especially the first half, in which the Mountford and O'Malley were the only true men to sink field goals in the first half, which ended with the Blue and Gold five in the lead 15-10.

Ten minutes of the second half elapsed with very little scoring. The Osmonts were far superior to the Norwich aggregation but because of this reason the game was not exciting. The score stood 21-15. Then suddenly both teams came alive. Within the space of four minutes the score mounted to Trinity 38, Norwich 23. In this spree Carey, Burt (S), and Linn incrementated for Trinity while Hatfield dropped in two long shot baskets and thousands for Norwich. With three minutes to go to the end of the half, the score was 45-26, due to its lethargy, and putting on the pressure drew far ahead as the game went into the final quarter and put it out well in the Hilltoppers. (Continued on page 4.)

TRINITY SEAL S BOW TO SPRINGFIELD NATATORS

Ravestrom, Aksomitas Set New Pool Records—Springfield Edges Clarkmen, 41-34

Wednesday, February 16—In a close meet the Springfield Maroons showed the strength of their best collection of tankmen in forty-five years as they edged the Blue and Gold out by a score of 41-34.

In a record smashing meet, Harry Ravestrom, Springfield's 110-pound sophomore, flashed front to the in 440-yard free style, setting a new was recorded at 1:00.9. jumping 8 seconds off the new young man's record for the 220-yard freestyle, taking advantage of the twenty-yard pool, took the breaststroke in 2:51.7, establishing a new record for the breaststroke race in the Hilltoppers. Clark was the second man in the race. Tandy's usual, scored out Spring­field's number one breaststroke man, Murphy, in a blanket finish, taking his best to date. The Clarkmen were able to grab the evening by chopping three seconds off the Trinity pool record, taking the 200-yard freestyle with 2:20.5. "Seal" Sloss lost two blanket fin­ishes to the Hilltoppers in the 60-yard free style, and the 150-yard backstroke was lost by a tenth of a second. Tandy's usual, scored out greatly in the dash, leaving a large gap in the ranks of the Clarkmen.

Norwood's grim, a sophomore, was the final race of the evening, the Trinity swimmer came through in a rush, taking the 400-yard free-style relay.

The summaries for the evening were:

300-yard Medley Relay — Won by Trinity (Sloss, Aksomitas, Smith); Springfield, (Bert, Mountford, Parnell, Pages) second. Time, 3:12.4.

280-yard Free Style — Won by Rand (S); Handy (T) second; Muir (T) third. Time, 2:29.4.

60-yard Freestyle — Won by Hatch (S); Handy (T) second; McFarland (T) third. Time, 22.4.

100-yard Freestyle — Won by Clark (S), 10.8 points; Motten (T) second; Condon (S) third.

400-yard Free Style—Won by Page (S); Blanchard (S) second; Fanning (T) third, Time, 3:51.7 (new pool record).

150-yard Backstroke — Won by Hatch (S); Slowik (T) second; Hill (T) third, Time, 2:15.4.

200-yard Breaststroke — Won by Aksomitas (T); Connor (T) second; Murphy (T) third. Time, 2:31.7 (new record).

440-yard Free Style—Won by Raw­ston (S); Randt (S) second; Anderson (T) third. Time, 5:09.9 (New Hilltopper record).

400-yard Free Style Relay—Won by Trinity (Fanning, Henress, Smith, Muir); Springfield (Lam, Atwood, Hart­man, Robinson) second. Time, 4:00.4.

FRATERNITY INITIATIONS (Continued from page 1)

Frank K. Smith, '41, of Philadel­phia, Pa.

At the annual initiation banquet, following the ceremonies, many alumni lauded the work of the late Mr. F. E. Fawcett, '90; Paul Roberts, '99;

Donald J. Tree, '37, Hartford, Conn.;

George T. Bates, Jr., '33, Hartford Conn.;

T. Lowry Sinclair, '36, of Waterbury, Conn.; Wilfred Hoyt, ex­'90, who is now with the U.S. government; Raymond R. Paton, '37, of New Haven, Conn.; Joseph G. Morran, '36, of Marietta, Ohio; L. Barton Wil­son, 3rd., of Hartford, Conn.; William Decker, ex-'90, of Cywood, Pa., who is now studying at the American University; Frank Scott, '36, of Chicago Hill, Pa., who is now studying at the Uni­versity of Pennsylvania Law School; Brooks Roberts, '36, one of the as­sociate editors of Look Magazine in New York City; James Miller, '36, now associated with Literary Digest in New York City; and the Kirby twins, Bill and Ray, who are continuing their medical studies at the Cornell Medical Center in New York City.

Delta Phi

The Sigma Chapter of Delta Phi conducted its initiations, follow­ing by a banquet at the Hotelblau. Those initiated were:

Theodore Ryder, '41, of West Hart­ford, Conn.

Lewis Burke Shoon, '41, of Spring­field Gardens, L. I.

Lester Spangler, '41, of Devon, Pa.

Evans Kirby, '41, of Allentown, Pa.

Gerald Herrick, '37, of Detroit, Mich., who is with remington Rand; Wall Collins, '38; Deane Flas­herty, '35, and Clyde Clare, 37, all attended the banquet and remained in the Delta Phi house for the week.

Alpha Chi Rho

The following were initiated into the Phi Psi Chapter of the Fraternity of Alpha Chi Rho last Wednesday evening.

Alan Flanagan, '41, of Harrison, N. J.

Joseph Skelly, '39, of Hartford, Conn.

An informal party at the chapter house concluded the initiations.

Meet Purple's Strongest Squad Away, and Technmen at Home

The Trinity Seal, with a record of four victories to two defeats, will go to battle twice before the week is out, once here, February 12, on Washington's Birthday, and Worchester Tech next Saturday at home.

Williams, with one of the most out­standing teams in New England competition, is to date undefeated. Last Saturday the Purple natators were tied by the Brown tankers by a 37-37 score, the first time in the meet both the medley and freestyle relays, the Williams tanken put the strongest team that has ever entered into intercollegiate competition for the Purple. They have potentially even a stronger squad than last year's which beat the Blue and Gold in the Trinity tank. A new addition to the team is a sophomore, Creede, whose speciality is the dashes. Bensen and Rice carry the burden in the back­stroke. Brown and Mitchell are the Williams breaststokers, and Fite­gerald is the two-twenty-man. While in the 400 they have Rowe and Cook. Worchester Tech will bring a team down to Hartford on the twenty-sixth that is definitely not as strong as the Williams squad and more in Trinity's class. Bob Evans, a Hartford boy, is the Engineers' breaststoker man. In last year's meet up at Worcester, Evans and "Az" Akinamut put on a grand dogfight for the spectators in which the "Az" just nixed Evans by a tenth of a second. Planckis was the back-stroker and Love and Karma are their dash­men.

In the event of an even break for the week's work would send the Trio Tournament into the Wesleyan meet here on March 3, the last meet of the season, with a five and three average to the matter of wins and losses.

ALLYN—Second Week—"Big Break," "Sweat," "The Real McCoys," "Two of a Kind," "Fields, Ben Blue, and Bob Hope. Co-Ent—March of Time, "Inside (Continued from page 1)."

PRINTING & BOOKBINDING

The Case, Lockwood & Brainard Co. 84 ALUMNUS STREET, HARTFORD, CONN.
Prominent Members of Class of '94 and Members of Many Medical Societies

Dr. Francis C. Edgerton, '94, died last Saturday in Doctors Hospital, New York, following a brief illness from pneumonia. From infancy to the time of his death Dr. Edgerton had been a member of the staff of St. Francis Hospital, the Bronx.

Dr. Francis C. Edgerton was born in Middletown, Conn., July 31, 1873, the son of Dr. Francis Edgerton. He was the third physician in his family. After graduating from Trinity, he went to the College of Physicians and Surgeons in New York City. He was a member of the Beta Beta Chapter of Psi Upsilon, Vice-President of the Trinity Chapter of Kappa Beta Phi, a member of the Senior Honor Society, and the German Club. He was also a Keeper of the Peace, a Knight of the Round Table, a member of the '90 Club and the Class Day Committee for Commencement.

Dr. Edgerton was the author of several medical treatises and a member of many of the leading medical societies. He was a member of the University Club of New York City. Surviving is his former wife, Mrs. Edith H. A. Edgerton, and his daughter, Miss Frances C. Edgerton.

Alumni News

The College has recently had printed a new book illustrating undergraduate life at Trinity. Copies have been sent to prospective students and a large number of alumni. Alumni will find this book helpful in describing the college to young men who wish to attend. Anyone who has not yet been invited to attend should send a copy to the Alumni Secretary, or to the Dean.

Dr. J. H. T. Sweet, '00, of Hartford, Conn., is vacationing in Florida. He and his wife left for the South recently and expect to stay until about the 15th of March.

Tom Flanagan, '12, was a visitor at the Alpha Chi Rho house last Wednesday. Mr. Flanagan came up from Greenwich to witness the initiation of his son, Al Flanagan, '41.

Hank Little, '26, visited the Alpha Delta Phi house last week-end. Hank is teaching at St. James School in Hagerstown, Maryland.

Bern Build, '27, was a visitor at the Delta Kappa Epsilon house last week-end. Born is studying for the bar at the Yale Law School.

R. Pearse Alexander, '35, spent the week-end in West Hartford visiting his fiancée, Miss Evelyn H. Peterson. Pearse is living in Pittsburgh, where he is connected with the Pennsylvania Railroad.

Press,

NORWICH BASKETBALL

(Continued from page 3.)

Leading the scoring for Trinity were Mountford and O'Malley who scored ten and seven points, respectively, while for Norwich Bobolock tallied six points.

TROXELL'S DIATRYMA

(Continued from page 1.)

1921, Dr. Troxell finally reached the conclusion that it was related to the heron, a bird familiar to Connecticut. In almost every essential detail a remarkable resemblance was found in the structure of the bones. This was true in spite of the fact that the fossil was so large, lived so long ago, and had completely lost its powers of flight. The straight, uncurved beak with sharp, cutting edges; the second edge on the lower jaw; the long meeting point of the rami with the pointed, spout-like tip; and the angle of the jaw are some of the resemblances of this bird's skull with the heron's.

Another interesting point about Dr. Troxell's specimen is the discovery of another fossilized animal in the same slab of stone. Perhaps the great bird was feeding upon the smaller animal when it met death. Or it may be that both skeletons were washed into a water hole to be covered with silt and sand and thus preserved for the amusement and enlightenment of the present generation.

The piecing together of bits of fossil bone is what one might call a super picture-puzzle. It extends in three dimensions rather than the mere two dimensions of the one-time popular jigsaw puzzle. This sort of puzzle, however, has the advantage that, when one is through, he has something of value—of tremendous value, and he does not tear the thing apart for another person to piece together again.

Not yet complete is the tedious labor of freeing the fossil bones from the solid stone, and Dr. Troxell is anxiously looking forward to finding the wing bones. These bones have never yet been found, but would be of great help in comparing the Diatryma with the heron.

...my good reason

for smoking

Chesterfields

I find they give me more pleasure than any cigarette I ever smoked.

And if a man isn't getting pleasure from his cigarette he might as well quit smoking.

Chesterfields are milder . . . they've got a taste that smokers like . . . they have everything to give a man MORE PLEASURE.
