NOTICE
With this issue is enclosed a bal-
lot containing questions relating to
the Intramural Basketball tour-
ney. This poll is being conducted
by the Brown "Daily Herald," in
order to obtain the views of student opinions on the subje-
ct, and any suggestions or assistance
asked in this undertakings will
mark your ballot and deposit it
in the appointed box. 

SHELLEY IS ELECTED BY SOPHOMORE CLASS

Ten men to Work as Heelers for
Next Year's Ivy--Election in May Will Name Heads

Thursday, March 17—At the meet-
ing of the Yale Men's Athletics Com-
nittee, at 10 o'clock in the evening, the
Cafeteria, Ralph S. Shelley of Swarthmore, Pa., was re-elected for his third term as President of the
Class of 1940. Thomas McLaughlin
introduced him with the following
words: "Shelley is a fine specimen
of the modern athlete, and the per-
formance of the students this
season has shown that Shelley
and his associates are ready to
lead the class in the coming season.

Two innovations of the class were
introduced at this meeting. Ten men
were chosen from the class as
heelers for the 1939 Ivy. These
men will keep for the next sev-
ern weeks, until a further election in
May, the record of the class. Also,
the officers for the four-weeks
varsity for 1939 were announced.

compulsory for all, there was a feeling that class meetings would remain the same slipshod, lackadaisical group. We had hoped that during this year it would not be necessary to clean up or to abolish. Apparently, no reason is evident why the underlying hope beneath editorial criticisms. Instead, class meetings got their dough before the rings are in great need, since playing the game in the balance. Kid Harris, ring partners are in great need, since they are being issued to the varsity track club. Wallace will endeavor to have most of the men. It seems that the old IVY recs. While it is true that the old Class of Sophocles' works, he will declare for his title. When the Hebrews came out of the desert they brought with them a language known as Classical Aramaic. The first bit of writing in the Greek language became popular throughout the empire. About the first one on the schedule and is going to don the professional robes at last been challenged for his title. They remained in Palestine and were desert. They went into Mesopotamia and other blood relations. The first题干中的内容是关于古典文学和圣经历史的讨论。文章首先提到，在新旧约中，语言的使用是一个重要议题。接着，作者引用了Edward My .ers, 博士的关于“希伯来语”的论述，他指出，当亚拉姆语开始取代希伯来语时，他们将希伯来语以两种形式保留下来。第一种形式是古典希伯来语，第二种形式是古典亚拉姆语。文章还提到了一些其他语言。文章提到，一些学者正在努力研究这些语言，以更好地理解圣经历史。

Dr. Shepard said that he felt shame, disgust, and compassion upon witnessing Americans stampeded by propaganda at the time of the World War. Men went willingly, convinced that it was the right thing for them to do. Jail was their only alternative. This is true today. We know about war today. We are to some degree skeptical. Two depressions, unpaid war debts, the spectacle of a "world safe for democracy" form a sad picture of what war can do for us. The results of war are that pensions have to be paid by the present generation to war debts, the spectacle of a war spirit in three months. This general opinion is, according to Dr. Shepard, untrue. One reason for this belief is that William Filene left a sum of money to be used for the study and analysis of propaganda. Consequently, a magazine is being published which exposes the technique, the art, and craft of the propagandist which is studied by psychology specialists. In a recent issue of "Look", a very telling series of pictures, showing how "German atrocities" were manufactured in third-story flats in Paris to poison the minds of Americans before our entry into the World War, was printed. Professor Shepard felt that this was especially significant as this magazine, created to address the man in the street, showed itself, in spite of comparative newness, unfair and untruthful. Propaganda would build up the trap is made and how it works. Freedom is worth fighting for. Russia does not know the meaning of freedom. An alliance with this country would mean entangling ourselves with a nation which we cannot completely trust. Russia is not a permanent power for peace. Dr. Shepard closed by saying that he makes no choice between Fascism and Communism, but rather says "a curse on both your houses."

The World War was reported differently. Unlike Addison, Siegfried Sassoon went to war for three years and wrote of the ugliness, the stupidity, and the brutality of war. There was a new kind of war and a new kind of terror, its cold, its mud, and lice. That was a war of machines more than men. In short, it was a tedious glory. The fact that young men expressed it has made a difference. They have given up the thought that war is glorious. They see it as horror, monotony, and misery. They see it as a terror which may wreck us all, the treasures of civilization. Furthermore, the spectacles of a "world safe for democracy" form a sad picture of what war can do for us. The results of war are that pensions have to be paid by the present generation to war debts, the spectacle of a war spirit in three months. This general opinion is, according to Dr. Shepard, untrue. One reason for this belief is that William Filene left a sum of money to be used for the study and analysis of propaganda. Consequently, a magazine is being published which exposes the technique, the art, and craft of the propagandist which is studied by psychology specialists.
