SIGMA NU AND DELTA PSI TAKE LEAD AS RUSHING PERIOD ENDS

Each Pledge 13 Men, While Psi Upsilon Follows With 11 More

BIG DELEGATIONS

A Total of 64 Men Pledged To Triton Fraternity

Sunday, October 2:

A total of 64 men was pledged to Triton Fraternity this week, and the Rho chapter at the Alumni Association was the only delegation of men that was turned, numerically speaking, by Alpha Chi Eho.

Saginaw Nu and Delta Psi led in size of delegations, each pledging 15 members. Delta Eta, with seven members, was last in the group.

Delta Psi and Delta Psi each took numerically speaking, by Alpha Chi Eho. The Delta Eta chapter at the Alumni Association was the only delegation of men that was turned, numerically speaking, by Alpha Chi Eho.

PHYSICAL EXAM

The physical examination for all new students will be held in Boardman Hall on Thursday. No student will be excused from classes, for the purpose of examination will be excused. All examinations were held from 8 a.m. to 11 a.m. The students were given their services for the morning.

CONVERSE SCHOLARSHIP AWARDED TO MCKIBBEN

Presentation Made At Rally as Alpha Tau Kappa Regains Scholarship Cup

Friday, September 29:

Major honors went to Arthur D. McKibben, of Garden City, N. Y., and to the Alpha Tau Kappa fraternity, at the annual rally held this evening. The recently endowed Converse Scholarship was awarded by Dr. Hiram Converse to the Fraternity Scholarship cup to the Alpha Tau Kappa fraternity.

School record, rating in the aptitude test, and proficiency in the courses at the end of the first year were the major considerations in the selection.

Delta Tau Kappa's 64.9 percent of honor grades easily merited the Fraternity Cup. Alpha Tau Kappa was second with a 61.8 percent of honor grades. Dr. Ogilby said that the number of students who would take the aptitude test was not large enough to make a general statement on the aptitude of the classes.

The Converse Scholarship, which is administered subject to the general regulations of the College, is a prize fund which is now in effect as follows:

“ar the officer in general charge of scholarship examinations, which are held every February at the time of the examinations for the School of Engineering. The scholarship examination for the current year is due to be held on October 7, 1023.

Attentive at class exercises is administered subject to the general regulations of the College, is a prize fund which is now in effect as follows:

“ar the officer in general charge of scholarship examinations, which are held every February at the time of the examinations for the School of Engineering. The scholarship examination for the current year is due to be held on October 7, 1023.

At the rally, Dr. Ogilby said: ‘The proper dressing of the new practices athletic field brings to the notice an important section of the college campus. It will be much easier to keep the ground in condition for games, especially after heavy rains, now that there is a drainage system available. The Board of Trustees have been forced to put the field for this use last fall, but the employment of the Light Company has been so delayed that we have not yet been able to make up our minds about our plans. When the new field is ready, we hope to hold a regular practice soon, and to make space more available to the students.

In past years the room served as a meeting place for the entire student body, but lately it has been too small for that purpose, and still too large for a house. In some cases it was divided by partitions, making one large classroom, using two of the original spaces.

The most important use which this room is to be put for is Professor Shepard's large classes in English. Mr. Moore, who has been so delayed in these matters, is required. His main project is to make a private office for Professor Shepard, a small classroom, and the present office for the assistant in English A.

Ogilby continued: ‘There has been considerable discussion among the students about the new field, and the general opinion seems to be that it is a great improvement over the old. But there is still a great deal of work to be done, and we hope to have the field ready for use by the spring semester. The Board of Trustees have been discussing the matter, and they are in the process of making plans for the future. The matter is still under discussion, and we hope to have the field ready for use by the spring semester.'
THOU SHALT NOT CUT

More of interest on the campus than the territorial changes in the map of Europe was the news last week that at last the cut system regarding attendance at classes was to be changed. Rumor had it that a greater number of cuts would be permitted and that the student would be allowed some discretion in the use of the same.

There was some truth in this talk in addition to exaggeration, for when the college administration was made known it read that "a student doing full work is allowed twelve cuts a term." Since this is 3.5 cuts per class, it means that in each course in a term, a student is to be allowed six cuts.

No one doubts the honesty of the administration's conviction to meet a temporary emergency. Neither the student body nor the faculty has ever been satisfied with the whole scheme. Just as a settlement reached in the new system, however, is perplexing in that it does not give the student direction and quickly and clearly blocked in the other, it leaves one with the impression that Trinity men are not quite ready to be trusted as men but must be restrained by the penal administration of the procedure.

It is even possible that he may be two or more years out of school, he must still be allowed six cuts per year, but in the traditional sense on his class attendance and on his sense of responsibility.

Trinity has never been a penal institution in the sense that it requires its men to be on campus at stated hours. It metes out no drastic punishment even when Mimi tangles with the conscience of the grade. When the rule was innocuous it read that "a student doing full work is allowed twelve cuts a term." Since this is 3 cuts per class, it means that in each course in a term, a student is to be allowed six cuts.

No one doubts the honesty of the administration's conviction to meet a temporary emergency. Neither the student body nor the faculty has ever been satisfied with the whole scheme. Just as a settlement reached in the new system, however, is perplexing in that it does not give the student direction and quickly and clearly blocked in the other, it leaves one with the impression that Trinity men are not quite ready to be trusted as men but must be restrained by the penal administration of the procedure.

It is even possible that he may be two or more years out of school, he must still be allowed six cuts per year, but in the traditional sense on his class attendance and on his sense of responsibility.

Thou shalt not cut

CAMPUS OPINION

The question: Do you think that Hitler is justified in annexing the Sudetenland?

The Answers:

Walter C. Courch, '39

No. People have been defeated in America by the same thing. It is like a fever that goes on and on, and there are so many sides to it, and there are so many possible answers that no one would have any idea where to begin. I would defeat an opinion without more adequate space to answer the question. I am prejudiced against it. However, in a nutshell, here is my opinion that I do not want to make a war.

It is better a temporary panacea to dissatisfaction; a move in the present time why not permit five cuts in each course? The step responsive note.

On the other hand why not permit five cuts in each course? The step responsive note. Only that it has never been considered a penal institution in the world down in their desperate and imposed upon.

In the gallery the moment why not permit five cuts in each course? The step responsive note. Only that it has never been considered a penal institution in the world down in their desperate and imposed upon.

HILLTOPPERS FACE TECH IN SECOND GRID Contest

Next Saturday the Blue and Gold warriors of Dan Jones will travel up the hill to face the Terriers of the New England Athletic Conference. The Terriers, Tech eleven in what will be the second game of the season for both teams.

Trinity, undefeated as yet after its last game victory snatched from a vis­...
Dr. Ogilby stated that one must focus silence in their religious services and to be called, today maintain a rigid truncation. Dr. Ogilby emphasized that all think it through completely. This is that the Friends have retained much can reach. his own opinion upon a sort of thinking for oneself.

At the same time, many religions may strive to achieve some sort of religious benefit by their religious service and rites. Dr. Ogilby also mentioned the importance of silence in their religious services and rites. Dr. Ogilby stated that there were two kinds of silence—corporated silence and receptive silence. A group of people may strive to achieve some sort of religious benefit by their religious service and rites. Dr. Ogilby also mentioned that the Friends have retained much can reach. His own opinion upon a sort of thinking for oneself.
