Student and Faculty Poll is Taken

Attempt to Solve P. E. Question

Poll Shows Trinity Students Eager; All For Plenty of P. E.

The Tripod has computed the final results of the poll which asked, "Should the band be compelled to take P. E.?" The camp has been given the go-ahead to say that they will pay no attention whatsoever to the prophecies on the Tripod that started this questionnaire.

The following are some of the answers and percentage ratings on the various questions asked. (1) Do you favor 5 hours of compulsory P. E. for all students? (This includes everyone from the Freshman class to seniors.) In favor, 76 percent; against, 24 percent. (2) Do you favor the band being cut? The Tripod does not favor it, but the students have voted against it.

Faculty P. E.

On the question, "Should the fac-
ulty, administration, and office per-
sonnel be required to take P. E. in
the future," the vote was unanimous in favor of it. This will certainly raise havoc with the present P. E. facilities which are even cramped at present, but the question is not whether the present faculty members have a chance to participate in the new program, but whether they will have a chance to participate in it.

When asked on the Tripod, "Earl B. Bond, Superintendent of Boardman Hall, stated, 'If you 'hogeye' on that two-bit gaiter you have on, you'll soon be taking P. E., you're off your trolley.'"

Archibald K. Strohmeier, XVIII, physical education major in the Freshman class, replied in a high sopranino voice, "I think P. E. is simply wonderful and refuse to miss a class. Already I'm beginning to grow hair on my chest from only six months of the program."

Buchi E. Dingerbercy, secretary in the college office commented, "This is just the break I've been waiting for. But I think with all a chance to be next to some of those great big regular men. It's too thrilling for words."

Issue Is Explained

By Insane Editors

This April Fool's Day issue of the Trinity Tripod is a continuation of a series of looks at life-changing changes. It has been put out merely to give our readers a laugh. All that is contained in this issue and throughout the next few numbers is just the same thing we have been preparing for several weeks, and is expected to last for several days. The Tripod will not be published until the final results of the poll have been announced. All the articles in this issue are a joke and are included in the features section of the other issues of the Tripod. All the names and addresses are incorrect. The layout of the paper is not correct, as a matter of fact, and is not likely to be correct in any issue of the Tripod. All paragraphs have been cut off at the end of the line, and are not likely to be continued in the next issue. All the dates and names of the contributors to the building drive are invited to attend.

Hemp Is Faculty Addition; Teaches New Course Here

Dean Arthur H. Hughes announced yesterday that Professor Hemp has been added to the Trinity faculty. The professor, 34, is a leader in the field of physical education. He has been a student in the college, and is expected to complete his studies at Trinity before the end of the semester. The professor is expected to remain at Trinity for the remainder of the semester, and is expected to continue teaching there for the rest of the year.

Board of Fellows Presents Several New Suggestions

At a recent meeting held in the men's room in Lower Seabury, the Board of Fellows presented several recommendations to the administration for the betterment of the college. (1) First, on the basis of the medical opinion of the physical condition of the physical plant, full confidence was expressed for the 125th Birthday Drive, but it was decided that several changes be made. (2) The trusty ship of Professor Hemp will be moved to Alumni Hall, where it will be used to prop up the sagging south side of the building. (3) To replace the status on the campus, a new trolley will be erected for the use of the Philological Department. (4) Several structures have been contemplated by both faculty and undergraduates but in the past the lack of funds has hampered the construction. The proposed tower will be taller than the tower of the chapel, and will be equipped with surplus B-3 pressure systems, and will serve as an excellent landmark for lost freshmen.

I F C Passes Motion

On Party Beverages

At a recent meeting of the Inter-
fraternity Council, a motion was passed stipulating the standings of refreshments served in the various houses on party nights.

Abraham Swinsteine, president of the council, noted that numerous complaints have been received from the college in general and went on to emphasize that all too many men have been absent from classes as a result of inferior liquors served in the houses. The members then discussed the merits of both Salads and Lipton and agreed to be select-

ed after a long debate. It was also voted that each fraternity shall be required to have a rush week and that all bills be sent to the college office. A special account is expected to address the council in the near future. "Why Parties Should Be Unlimited." Undergraduates and friends of the college who have contributed to the building drive are invited to attend.

John Powers, Model King, Sues Trinity

$10,000 Libel Suit Against the Eds.

Powers Based on Story About Powers

Model Miss Murphy

President G. Keith Warren made known to the college yesterday that Trinity College was being sued to the tune of $10,000 by John Roberts Powers, Park Avenue model, king, because of a libelous article issued in a Powers model that appeared in the March 12 issue of the Tripod.

Miss Murphy sued on the Trinity campus as President Warren told him that the college's admin-
istration would take no action against the situation. A Tripod reporter interviewed the Trinity president as he was running to a special meeting. The president answered questions and covered the results of the "Tripod." The news of the suit spread like wildfire throughout the East. Reporters invaded the college campus, and were able to secure a picture of the college's administration.

Meanwhile, the president's special committee in the Dean's in-
terest in the matter. This first move was to call Tripod Editor-in-
Chief, John A. Rees, before the faculty. Brandishing the aforementioned article before Editor Rees, Dean Hughes and Professors Brok e, and Isidore B. Ward, Rees replied, "We are not going to apologize to this class. We are going to continue to publish as we see fit."

The committee then set out to work. First, they read the libelous article, studying particularly the lines that had been termed libelous by Powers. The first of these lines read, "Miss Murphy (the model) has sun-

gen eyes." The committee then read the libelous article and found no evidence that the words were libelous. The picture slowly passed from the committee's minds, and when they reached another point, the middle cited naturally from the truth. The next point was that the statue of Miss Murphy, on the campus, was a special meeting. The long history of the statue and the comments about the statue were all corrected. The picture of Miss Murphy that the committee cited was a picture of Miss Murphy taken from the article by a trip art student who had said that dancing with Miss Murphy "can just say P. E." Athletic Direc- tor Osterling was called upon to ex-
plain this perplexing analogy. It is (Continued on page 4.)

Nautical Association

Expecting Boat Soon

The Nautical Association will soon receive the first boat of its campaign to obtain a boat to be used in col- legiate regattas. This boat, an 18-foot Inrigger cannot be pref-

ered by King Coblentz, chairman of the Flushing tribe of canoemen who inhabit the island of East Jebbo in the south Pacific.

"Flushing's own" man is being de-

ivered to Hartford by 10 natives led by Sollyshershewini, King Coblentz's cousin. When last reported, they were being paddling mildly through the Putnam Bay, and it is expected that the boat will be delivered to Hartford on May 5. It is due to arrive, as scheduled, on May 3. A number of canoes have been delivered to the college in the meantime.

When asked to comment on its until the Nautical Asso-

ciation, King Coblentz delivered for several minutes and then made the reporters reply, "Right Tight."
The Tripod vs. John Powers

As you can easily see by our cartoon, the question of the big issue confronting all newspapers in the land is the function of the professor. Whether or not Trinity College is forced to pay John Powers the $10,000 libel is merely incidental to the issue at hand.

Should the press of America be libel for such small insignificant statements as the one on which the Tripod is alleged to have blundered?

The big issue confronting all newspapers in the land is the responsibility of the student editors to the student body to march on their neighborhood Dean and request that the big issue confronting all newspapers in the land be held within their columns?

Should the big issue confronting all newspapers in the land be held responsible for every line of a publication that has not been published?

To the Editor:

Surely you don't mean what you told me last Saturday night, Karl? Karl's always been a jolly good fellow. I thought that this was the peak of what I was trying to do for you, and I'm sure Karl would be just as pleased with the idea as you were. But I'm afraid that I've misunderstood you. If you could only have been more clear about your intentions, I'm sure we could have reached an agreement. As it is, I'm afraid that I can't carry through with it.

Yours with a vengeance,

James G. Blaine, '49

We Accuse!

For two weeks now several battalions of student-issuers have been scouring the campus in a determined effort to promote the ever-mounting Anniversary Fund and help to dispel the myth of the supposed lack of interest in Trinity men.

The Tripod vs. John Powers

The Tripod will stand its ground every inch of the way.

Letters To The Editor

To the Editor:

I'm just a fragment of your poor trash from Yonull, Mississippi, however, and I'm very sure that I can't do anything about it. I'm not saying that I'm not interested in the whole thing, but I still think that the student body should be allowed to discuss the matters of interest to Trinity men.

New "Little Three" May Be Created—Announcement Made Officially

Would Facilitate More Games As Rivals Are Located Very Nearby

Formation of a new "Little Three" has been announced almost daily, it was learned from a resourceful Tripod reporter. It is not the first such effort. A year ago, since yellow paper was scarce these days, an article relating to the sport, although not at all like the current one, appeared.

A frying little Jake Tweedy had an argu­ment about it and they haven't made up yet, Jake claiming it belonged on the wrong page. So, it was further announced by the announcement that the baseball team is in need of a new catcher; no one has yet been found. It was also learned that Jake is still and all, what with all that business, don't you? (Eh, Jake?)

Well, the way this reporter got the news in the first place might be of interest to you, so I'll tell it: I was about to leave the office when I happened to look over the tripages on the wrong page. But, I am digressing.

This new Little Three is because of the proximity of the colleges in question and the proximity of the tripages. They get on so well for some time now by the powers that be. This Little Three, however, are a bit further away, so the idea to schedule competition which is closer than now is spoken.

Here's the dope. The three colleges to be:

1. Trinity, naturally, because if Trinity wasn't included there wouldn't be any sense in writing this article for the Tripod.
2. University of Hartford, although at present there is no course of study in Flemish, here, still, and all, what with all that business. Books, dances, dinners, etc. are too far away, so the idea to schedule competition which is closer than now
3. Brown, because the prospects

But maybe the reason you're reading this is to find out about this new Little Three, by the way, which promises to make up the page you're on, the wrong page. So, I am digressing.

This new Little Three is because of the proximity of the colleges in question and their tripages, and, of course, the three colleges are in need of a new catcher. Also, the members of this new Little Three will be spread over the page, you're on, the wrong page.

As for your one page of the Tripod:

I. Trinity, naturally, because if Trinity wasn't included there wouldn't be any sense in writing this article for the Tripod.

II. University of Hartford, although at present there is no course of study in Flemish, here, still, and all, what with all that business. Books, dances, dinners, etc. are too far away, so the idea to schedule competition which is closer than now is spoken.

III. Brown, because the prospects

Future Seen Bright for Yarsity Racket Team; Coach Will Add New Incentives to Old Game

Tennis is expected to hit an all time high at Trinity this spring with an entirely new approach to the game. New incentives will be laid upon this new form of the game as the season progresses.

The starboard of this year's racket combination is expected to be Dick Weiskopf, a freshman. It has been reported that Prof. Naylor of the French Dept. is wearing a disguise in an attempt to bore the strings from the rackets. All this should make for keen competition.

**MUSICAL EVENTS**

By George Swors

A month from now, ye Ed has been complaining to me that I have neglect¬

ed the topic of musical events. I am well aware of the dearth of the low-

brow stuff—jazz. So for all you rug—cutters and hop—beats, here's some

alphabetical list of events you might want to attend.

Saturday—The "Song-Shine Bright in My Old Kentucky Home "Cause There's A Helluva Hole in the Roof, Jack" has its premiere at the 3rd Annual J. M. O'Ferrette Club Dinner. The entire cast is expected to attend.

**WORTC Finally Has Daily Air Schedule**

WRTC has finally overcome its programing inactivity. After a long struggle, the entire wir¬

ing system of the school was changed by head electrician, John Peterson. Changing the watt—hour meters from three phase delta circuits to five phase octagonal circuits presented the great¬

est problem.

Some of the regular feature weekly—

propaganda programs are as follows: "Helpful Hints to Honeydews" at 2:30 A.M. every Monday, "What's New at the B-Sides" at 10:15 A.M. every Wednesday, and "Blue for Youse, a show program, presented daily at 11:00 P.M.
