Advisers Deemed Great Help to Frosh

A new advisory system for the Frosh Council of Trinity College has been put into effect. Under the new system, two designated presidents are assigned to each entry-way for the purpose of advising the first-year-men.

During the initial weeks of school, the most prevalent problems centered around the College curricula. The upperclassmen were approached concerning the location of classrooms, the personal matters of students, and the application of study habits. The usual problems of the Frosh were also frequently discussed.

All of the Frosh have been assigned the advisory system. At the present time, the Frosh are cautious in their responses, but a more knowledgeable Frosh is practiced, irrespective of the frequency or how long the contact lasts.

A Change in Cuts . . .

There has been much talk on the part of both students and faculty recently on the proposed changes in the cut system. As the Tripod understands the situation, the faculty will again consider the problem at the Thanksgiving Triad today. But later on, because the faculty is foregathering the usual thoughts about Thanksgiving that generally occupy the minds of the holidays (leaving that to the not-so-Fellie Aid) and will consider the merits and demerits of the proposed system.

In brief, we are told, there are, briefly, thus: (1) the professor will determine how many cuts the class may take and inform them of its limit at their first meeting, (2) it is recommended that each student be allowed three cuts, (3) no cuts may be taken on calendar days, i.e., directly before and after vacations and holidays, (4) if a student over-cuts a course, he will either lose all credit in the course or several semester hours, according to the degree of over-cutting. (5) no provision is made for Dead-List men.

Firstly, let us state this; the faculty should take more time for study and consideration before they vote on any change. Any new plan would probably not be put into practice before next September anyway, so there is no immediate concern about the problem. Probably, the best way to get the job done is to let the summer and thereby ameliorate any difficulties that may arise.

So far, no one has approached the student body as a whole on the matter, and the comments that have been obtained are overwhelmingly against the proposed system.

Certainly the faculty should be the only ones to have the final "yes" or "no," but they should know how the students feel before they vote on anything of such great importance to the student body.

The part of the program to which we particularly object is the calendar days. Why shouldn't a man be allowed to "save up" his cuts to lengthen a summer vacation? He may need travelling time (pity the poor Illinois scholar) or he may just want to get a little more out of school and anticipate the vacations by a day or two. Choices could be gotten earlier in the summer and thereby ameliorate any difficulties that may arise.

The program for the evening will
be drawn up for this memorial to
Albion Doubleday. But plans have
delayed in helping to make the an-
niversary of six decades of basketball
possible. hoop master Roy
Durin is anticipating a full house.

The tickets will be sold to all stu-
dents and $1.00 for adults. As there
will be no varsity basketball game
that evening, AA cards cannot be
honored.

LUCKIES TASTE BETTER!

They’re made better to taste
cleaner, fresher, smoother!

Ask yourself this question: Why do I smoke?

You know, yourself, you smoke for enjoy-
ment. And you get enjoyment only from the
taste of a cigarette.

Luckyes taste better—cleaner, fresher,
smoother! Why? Because Luckyes are
made better to taste. And, what’s
more, Luckyes are made of fine tobacco.

L.S./M.F.T.—Lucky Strike Means Fine
Tobacco.

For the boy thing you most in a ciga-
rette . . . for better taste—cleaner, fresher,
smoother taste . . . Be Happy—Go Lucky!

Hoopsters Triumph in Scrimmages; Mazurek Stars in Practice Tilts

Last week the varsity hoopsters began their 1952-'53 competition with three practice tilts, setting back Arnold and Bridgeport by respective scores of 92-70, and 98-86. Both contests were allowed to run over the regulation time. Last Saturday the team bowed to Springfield by one point within the standard time limit, but the game was allowed to continue and the Bantam hoopsters managed to outstay the Bay Staters, 111 to 106.

Thus far the team has not shown quite the spark that was expected at the commencement of work-outs, but at this early date it is difficult to predict the cagers' form once the season officially opens against M.I.T. on December 6.

The starting five looks as if it will contain Charlie Mazurek and Bruno Chistolini at the forwards, Charley Wrinn at center, and Wally Novak and Matt Wallace at the guards. So far Mazurek has shown to the best advantage, who has exhibited exceptional scoring ability in addition to his usual fine play on defense.

Back up the starters will be Art Rathbun, Dave Roberts, Don Paris and Scenty Price. Roberts, with his fine eye and classy play-making form is the best prospect up from last year's frosh squad.

Hoop Features Fresh Cagers; Booth Hopeful

With one of the tallest fresh basketball squads to report in recent years, Coach Paul Booth is looking forward to a very successful season. The squad has been cut recently to twenty-two players, all of whom have and previous hoop experience. Those who do not make the Fresh varsity will be sent up to the junior varsity.

Among those hoopsters who have shown their prowess in practice are Wes Rustin, 6'2; Bob Pries, 6'7; Irving Foster, a six-foot giant; and Don Anderson. Dale Deering, Bob Alexander, Hank Williams, Wade Woodworth, and star end Jerry Pauley are all carry-overs from the unbeatable Fresh football team.

SCHAEFER BEER

There's an interesting reason why the new Schaefer beer is ringing the bell with beer lovers everywhere. It's the reason why we think it will ring the bell with you, too.

You see, the Schaefer brewers have finally succeeded in creating a beer that gives you all the distinctive, pleasing character of the famous old-time brews - yet is light and dry, too! This means you enjoy the satisfaction that real beer has always given, without a trace of heaviness or sweetness.

Today's Schaefer is brewed from the finest barley malt, grain and hops. It's brewed with all the skill and pride of America's oldest lager beer brewers. It's real beer... fine beer.

Try today's Schaefer soon. We believe it's the finest beer America has yet produced. See if you don't agree with us.
