Senate Proposes Several Constitutional Changes

At the Monday night Senate meeting, the following amendments to the Constitution (to replace first sentence of L39):

Amendment to Article 1, Sec. 3 of the Constitution (To replace first sentence of L39):

- The senator absent without ex¬
  cept from the officers of the Senate
  and the four scheduled Senate meet¬
  ings during the term of office, regardless of
  alternate representation, will be sub¬
  ject to expulsion by a 2/3 majority vote.

Amendment to Article H, Sec. 1, so that it shall read:

- "The new senators, at the meeting of the Senate which has received itself by formal motion, shall elect their officers as follows. The new president shall resign as president of the previous Senate and attend by the new Senate."

A new amendment shall be added to Article IV to read:

Section 7-"New senators shall be requested to attend incumbent Senate meetings during the closing of their basic until such time as they shall offer their resignations."

The purposes of this stipulation are:

1. To expedite the opening and instruction in Senate affairs.

2. To provide a period in which leadership capabilities may be exercised in preparation for selection of new Senate officers.

3. To assure a continuity of build¬

base this on the date of their election, and not to a semester ending in the end of the fall term in the last meeting in the last meeting of the Senate which shall be held on the second week in April in accordance with the constitution."
PROPOSED CONSTITUTION OF THE TRINITY INTERFRATERNITY COUNCIL

Following is the report of the Constitution Committee as presented in March for the purpose of allowing the Interfraternity Council to consider and vote on the following proposed changes in fraternity constitution as well as other additions that can be made in next week's meeting.

We, the Fraternity Council of Trinity College, do covenant and agree to adopt, observe and follow the constitution of the Interfraternity Council. It is our purpose to a) promote amicable inter-fraternity relations, b) promote the welfare of the fraternity system within the College Community.

ARTICLE I — Membership

Section 1. Membership shall consist of one duly elected representative from each recognized fraternity on the Trinity Campus each year and each member of the Interfraternity Council shall be a member of the respective fraternity.

Section 2. Fraternity representatives elected by each member fraternity shall serve a term of office for one year, subject to removal for good cause by three-fourths vote of the Interfraternity Council and a regular meeting following Spring Vacation of the Trinity Term and will continue to serve a term of office until the next regular meeting.

Section 3. The President of the Interfraternity Council shall be elected from among the elected representatives of the member fraternities. The Secretary-Treasurer shall be designated from the elected representatives of the member fraternities of the newly elected council members.

ARTICLE II — Meetings

Section 1. An annual meeting of the Interfraternity Council shall be held at the end of the academic year at 7:15 p.m. at a place designated by the President of the Interfraternity Council. A quorum is necessary before meetings can be held.

Section 2. The Interfraternity Council shall meet on Monday nights of the academic year at 7:15 p.m. in the College Council Room.

Section 3. A representative will be expected to attend all regularly scheduled meetings of the Interfraternity Council, and failure to attend meeting without just cause shall result in a fine of $5.00 levied against the fraternity which the presiding officer must assess. The President or the Vice-President shall have the power to call a special meeting of the IFC with six (6) hours notice. Section 4. Conduct of meetings shall be governed by Robert's Rules of Order. Exceptions to this shall be listed as follows:

1. A hearing shall be called for any case which the representative of the complainant fraternity cannot be present.
2. He shall appoint a trial recorder. The trial recorder shall have the authority to call a special meeting of the IFC with six (6) hours notice.
3. The trial shall not take place any later than the next regular meeting following Spring Vacation of the Trinity Term and shall be held at 7:15 p.m. at a place designated by the President of the Interfraternity Council.

Section 5. The President of the Interfraternity Council shall have the power to call a special meeting of the IFC with six (6) hours notice.

Section 6. All IFC meetings shall be open to the college community unless voted contrary to a simple majority.

ARTICLE III — By-laws of the Council

Section 1. The Council shall provide Rules for Rushing and will sit in judgment in accordance with the by-laws provided by the Interfraternity Council.

Section 2. An appeal or action against the action of the Council in judging shall be made in writing within seven (7) days of the action and then by the President of the Interfraternity Council.

Section 3. No appeal against the action of the Council in judging shall be made against the decision of the Interfraternity Council.

Section 4. The President or the Vice-President shall have the power to call a special meeting of the IFC with six (6) hours notice.

Section 5. A hearing shall be called for any case which the representative of the complainant fraternity cannot be present.

Section 6. He shall appoint a trial recorder. The trial recorder shall have the authority to call a special meeting of the IFC with six (6) hours notice.

Section 7. The trial shall not take place any later than the next regular meeting following Spring Vacation of the Trinity Term and shall be held at 7:15 p.m. at a place designated by the President of the Interfraternity Council.

Section 8. The Secretary-Treasurer shall have the power to call a special meeting of the IFC with six (6) hours notice.

Section 9. A hearing shall be called for any case which the representative of the complainant fraternity cannot be present.

Section 10. He shall appoint a trial recorder. The trial recorder shall have the authority to call a special meeting of the IFC with six (6) hours notice.

Section 11. The trial shall not take place any later than the next regular meeting following Spring Vacation of the Trinity Term and shall be held at 7:15 p.m. at a place designated by the President of the Interfraternity Council.

ARTICLE IV — Duties of the Members

Section 1. To serve as spokesmen of their respective fraternities in the IFC.

Section 2. To be the official spokesmen of the IFC in their respective fraternities.

Section 3. To exercise the right to cast one voting representative his fraternity in all IFC transactions.

Section 4. To carry out special duties delegated by officers of the Council or the Council as a whole.

ARTICLE V — Duties of the Officers

Section 1. President: The President shall preside over all meetings as provided for in this by-law.

Section 2. The President shall provide over special IFC functions.

Section 3. The President shall be the spokesman for the IFC in the conduct of its official business.

Section 4. The President of the IFC shall assume the duties of the President in the President's absence or as otherwise provided in the by-laws.

Section 5. The President of the IFC shall maintain a record of regular meetings of the Council, conduct meetings, maintain a record of attendance, maintain a financial record and financial transactions of the Council.

Section 6. The Secretary-Treasurer shall assume the duties of the President in case both the President and the Vice-President are absent or as otherwise provided in the by-law.

ARTICLE VI — Finances

Section 1. The IFC shall hold an FLB for each and every brother and pledge of member fraternities from the fraternity treasuries.

Section 2. Funds held shall be used in payment of all debts incurred by the IFC in the conduct of its official business.

ARTICLE VII — Amendments

Section 1. The Constitution may be amended by unanimous vote of all regular council members.

Section 2. Proposed changes in the Constitution and amendments may be made public at least two weeks prior to a council vote.

APPENDIX TO CONSTITUTION

Appendix A thru I shall include full descriptions of the functions and all rules by which the governing council has been found in the minutes of the IFC.

Appendix K. Full description of possible campaigns and functions deemed worthy of IFC sponsorship by the Council.

By-Laws of the Constitution

ARTICLE I — Conduct of Meetings

Section 1. Conduct of meetings shall be more orderly and deorum as outlined in Robert's Rules of Order. Exceptions to this shall be:

a. Amendments to the Constitution shall require a unanimous vote of all members.

b. Changes in the By-laws accompanied by a four-fifths vote of all members.

ARTICLE II — Finances

Section 1. The purpose of the FLB shall be to provide funds for the benefit of the fraternity or fraternities which have been granted funds.

Section 2. Proposed changes in the Constitution and amendments may be made public at least two weeks prior to a council vote.

Announcing the arrival of our new entire collection of Lightweight Spring and Summer Suits and Sportcoats in Regulars, Shorts, Longs and Extra Longs

ForeignPolicyAssociation Joins National Group

The Foreign Policy Association recently announced that it has affiliated with the Association of International Relations Clubs. This affiliation will strengthen the Trinity F.P.A. and will enable it to obtain good speakers and more motion pictures.

The first fruits of this affiliation were seen Monday, February 25, when Roland M. Marrow's picture "Report from Africa" part I was shown. Following the movie, Carmichael Nolan, a graduate student from the Union of South Africa made some comments on the situation in his native continent.

This coming weekend the Intercollegiate Foreign Policy Association will be held at Connecticut College in New London. The topic is "South, East, and West Africa."

"According to all reports received this looks like the best organized and most interesting intercollegiate conference ever held under the auspices of the Foreign Policy Association in Connecticut," stated Foreign Policy Association President Dorey Elliott in a recent interview. He feels that this conference should be seen as a possible trend since all the variables have been filled.

AD, Phi Psi, and Psi Upsilon Capture Top Honors in Annual Stunt Night

By ROBERT STEVENSON, JR.

Last Wednesday night, the L.F.C. again played host to perhaps the oddest oddity of the year. The evening was devoted to scenes from the lives of two unlikely characters, and a certain night is set aside for the ten franticities to produce a short skit of their own fabrication. Any student or faculty member is wide open for anything, and prudence is certainly the exception in a cause sacred.

AD Wins Top Honors

This year's presentation was an outstanding and entertaining portrayal of "Life Goes to Trinity." Included in the skit were the marksmanship of Beta Theta's Grotta's secret rites, and the eccentricities of several prominent faculty members. Script-writer Jack Shonken also provided a half set of musical numbers with which to round out the production.

Sullivan and Jacobson Satirized

The number two spot was captured by Phi Kappa Psi's comedy, "The Dead Sullivan Show." This production, which took place in the Old Bull in a chorus line of typical "Trinity" is a collection of humorous moments that are two hilarious commercials. The sponsors being an aggressive razor manufacturer and the marketing of a powerful solvent (Takeit) and an equally powerful detergent (Taste of Today's Foods). Punk Upsilon took third place with their "Spring Opera, "pair the Comedy of The Determine to Bore Me on the Construction of the Bill Tower." The winner of the Psi U Omega play was Phi Mu, which awarded a smoothly professional performance in the role of Doctor Albert C. J. formus.

Nature of Historic Explanation is Discussed by Conn. Philosophers

"Is Historical Explanation the Same as Scientific Explanation?" was the topic of two papers read at the meeting of the Connecticut Philosophical Association last Thursday. The winter meeting of the organization was held at Conn. College. Other schools represented were Trinity, U. Conn. and Wesleyan.

Joel Kidder of Trinity was one of the two students to publish a paper, the other paper being presented by a member of the U. Conn. philosophy club.

Analogy Drawn

In approaching the question, the representative of the U. Conn. organization attempted to draw a close analogy between forms of historical and scientific explanation. Taking as example the science of physics, he reviewed the manner in which general laws are employed to relate general events and classes, and to predict the recurrence of class phenomena. While the laws of history are closely analogous to them in form, they are much less accurate, a disadvantage claimed by the speaker to be due to the infancy of history as a science. History is perhaps more closely related to the applied sciences than to theoretical law-formulating sciences.

Joel Kidder Explains Approach

Kidder drew the comparison between the sciences and history on the grounds of a similar approach to their material which could result in a similar attitude in explanation. The events of history are more diverse due to the concentration on human variables. It must be remembered that history attempts to relate a host of unique areas of experience, but if the attitude assumed by the historian in his attempt to synthesize these events is methodologically scientific, the explanation offered is very similar to the explanations of the historical natural sciences.

I-M Strongmen, T. Tennis Teams Start Battles

CLOSING OUT the winter season of the intercollegiate competition, both the wrestling and table tennis tournaments begin this week. Wrestling trials started yesterday with the semi's next Tuesday and the finals a week from tomorrow. Among the returning champions are White (Brownell) in the 137 class, Williams (Pui U) in the 147 class, Norris (D Phi) at 157, Sheinin (Sigma Nu) at 167, Hulbrook (Psi U) at 177, and Smith (Sigma Nu) in the 187 class. The unlimited winner, Baker of Delta Phi, has graduated. The position eliminations for table tennis will begin tomorrow with the number five men, and finish a week from Thursday with the number one men from each organization. The finals will be held the 15th through the 19th. Of last year's five top men, all from Alpha Chi Rho, only George Case who played third position will return.

After three competitions—squash not yet having been added—the two leagues shape up this way:

American League
Delta Phi 215 pts.
Alpha Delta 192 pts.
DKE 162 pts.

National League
Sigma Nu 194 pts.
Phi Kappa Psi 186 pts.

The three championships in football, volleyball, and basketball all lie within the National League, with D Phi taking the latter two.

Back near the turn of the century (17th, that is), Captain John Smith and some of his sidekicks were exploring ye Chickahominy when some of his troops started to sprout arrows. Well, Sinity and his squad got in a few good licks, but the weeds were full of redskins and they were soon hauled in to see the Top Dog Indian . . . Peshtak.

"Smith," thundered old full-of-feathers, "I'm tired of you puncturing my in-laws; we're going to do a disappearing act with your head!"

"Wild, man," said the good captain. "A little Rock 'n Roll, eh?"

This humor was lost on the chief, and he was all set to shorten Smith by about nine inches when in wallowed Princess Pocahontas ... a nifty little number who'd been scalping tickets to Cleveland baseball games. Poley sized up the situation, and screamed in perfect Iroquois: "Man, it looks like my ship come in ... that beart! That outfi! That build! Oh, Daddy-O—pure that cat!"

"Never mind," said the intruder; "the lady's got it all figured."

"many times have I told you not to come m essin' around here during inaction. We're playing to full house now, I have to refund all these heads." But he was pretty sweet on the kid, and had missed the meat cleaver.

Well, Captain John was so happy about his reprise he broke out a barrel of Budweiser ... and popped for the tribe. Wouldn't you?

MORAL: When you want to treat the tribe (or, better yet, an aw who with a squat), make it Budweiser ... the chief of beers!
The Trinity Tripod

Frosh Mermen Whip Cardinals; End Year with Fine 6-2 Mark
By JEFF GRAINICK
Closing out the season with a 14-6 win over Wesleyan, the Blue and Gold Yearling aquamen finished the year with a fine six up 12-12.

This year the Frosh decided to please, to outshine, to outshine the Cardinals, and to outshine Wesleyan. The same style was also carried over into the 204-yard freestyle relay. The Frosh won both the 204-yard freestyle and the 200-yard medley relay.

The Frosh's Killlin' and Weinstock. The style, while Foy and Gabrielson swam one-two in the 200-yard medley relay, Bob Morgan and George Black won one-two in the 204-yard freestyle, while Foy and Gabrielson placed one-three in the 200-yard medley relay.

The Frosh also established five new freshman records. The Blue and Gold swimmers wrapped it up in the 204-yard medley relay, defeating the Cardinals' freestyle relay team.

Wesleyan Rips Squashmen 8-1
By Mac Costley
CAPTAIN Bernie Moran, emerging victorious in his match, saved the Jeannson from white-wash as they fell before a solid Wesleyan squad last Thursday. On 8-1, Wesleyan took the second event, 10-7, and a third in the butterfly behind the Old Blue.

Victory against MIT (6-3) and Pittsburgh (7-2) offered the only victories against the two opponents, 6-3, to complete the schedule. Both teams were defeated by the Jeannson in the next two events.

Weber, Morgan, and George Black turned the tide. Nevertheless, bergeman, Petersen, and Lyman did an outstanding job rebounding against a forward wall of Brown that averaged eight points. With Bud Munig, Dave Morgan, and Warren Logan picking up points for the Jeannson, the 200-yard medley relay was 11-7.

The Frosh Cagers Finish with 8-6 Mark
The Trinity Freshmen concluded their basketball season by whipping Coast Guard 72-57 on Saturday night. The Yearlings dropped their lift to the Brown fresh Thursday at Providence, however, which gave them a record of 8 wins and 6 losses.

At New London last weekend, Coach Gerhardt's starting unit all hit double figures with Barry Royden once again leading the scorers. With Bud Bergeman, Mark Peterson, Ken Lyons, and Jim Ginn opening a big lead, the second string, sparked by Jack Wardell, saw plenty of action.

The Brown game was a different story as the home team's bright finally turned the tide. Nevertheless, Bergeman, Petersen, and Lyman did an outstanding job rebounding against a forward wall of Brown that averaged better than 6 feet, 4 inches.

Astronomers! Long summits make you impatient? Do you hate standing around, twirling your telescope, waiting for dark? Cheer up... now you can fill that gap too! Take out your Luckies and... you're in for a Twilight High-light! Luckies are out of this world when it comes to taste. That's because a Lucky is all cigarette...nothing but fine, mild, naturally-good-tasting tobacco that's TOASTED to taste even better. Light up a Lucky yourself. You'll say it's the best-tasting cigarette you ever smoked!
Founding Banquet Held by Pi K Alpha

Celebrating the eighty-sixth anniversary of the Foundation of Pi Kappa Fraternity, a Founders' Day Banquet was held at the Chapter house on Friday evening, March 3.

President Jacobs, Chaplain Thomas, and Mr. Ralph Yanger, past National President of Pi Kappa Alpha were honored guests.

Mr. Yanger opened the speeches with greetings from the 50,000 alumni brothers of Pi Kappa Alpha. He was followed by Chaplain Thomas who gave a talk on the education of a Chaplain.

Dr. Thomas Malone Speaks On Weather Forecasting

By PAUL GOODMAN

Dr. Thomas Malone, Director of Forestry and Insurance, Company, lectured last Thursday in "The Present Position and the Future Prospects of Meteorology." He presented his lecture by emphasizing the importance of the weather in the decisions of our daily lives.

Dr. Malone discussed the two basic approaches in the exploration of the scientific method and the engineers. The work of the engineer has been made by meteorologists with the scienti-fi-c method because of their failure to understand the workings of the atmosphere and to control extraneous variables.

Engineering Versus Weather.

Dr. Malone believes the practical approach to meteorology is by the application of the engineering method. He stated that we cannot be deterministic about the weather. The only alternative in weather prediction is to use statistics which will indicate the most favorable mathematical probability. Daily weather predictions are achieved by the use of past weather information, in order to predict the statistical probability of the weather today.

Dr. Malone said, "Since the only certainty about the weather is its uncertainty, it is the job of the forecaster to pin the uncertainty to the proper time and place." Forecasting is responsible for the introduction of this new presentation of the prospects of Meteorology. Many of the Hartford newspapers now publish the mathematical probabilities of rain or snow.

More Accuracy in Future.

Looking to the future, Dr. Malone believes with the utilization of weather statistics we will be able to accurately predict weather conditions and to do away with weather forecasting. Commenting on other advances in meteorology, Dr. Malone reported that the weather reporters have become more economically feasible to construct our own systems of weather forecasting.

Stunt Night . . .

(Continued from page 5)

Delta Phi staged a well-written and polished skit called "Near the Elms," which included a skit called "West Moline." Writers Moline and Fred Shuler, the senior copy men to be economies, had much satisfaction with the material presented by the group. It was a sounding-board for constructive, objective legislation from free from political and private pressure groups.
