Trinity will participate in a national pilot program to develop student responsibility and interest in the educational process under the auspices of the United States National Student Association. 

**Tripod Announces Recent Promotions**

The Tripod staff recently announced the succession of Sanford Bredesen, Matt Levin, Phil Temple, and Aaron Fleishman to the following departments: Associate News Editor, Sports Editor, Circulation Manager, Advertising Manager.

Bredesen Promoted

Bredesen was formerly Assistant Sports Editor, and Assistant News Editor on the Tripod staff. A sophomore this spring, "Bredo" is an economics major, and member of Delta Phi. Bredesen will work with News Editor, Mac Costley.

Levin Promoted

Levin was formerly basketball player was Assistant Sports Editor of the Trip and, Tripod sports writer, before he assumed duties as Sports Editor. An economics major and sophomore, Matt is a member of Delta Phi. Fran Tio, Fremont, a member of the Atheneum. Working under Temple will be Paul Mills '59, and Neil nestor.

Fleishman, Advertising Manager, is a Dean's List student, and member of the Hilltop. Working under Fleishman will be Jake Budgeon '60.

**Queen Contest Will Highlight Senior Ball**

The 1958 Senior Ball, scheduled for February 5, will feature one of the all-time favorite college orchestra ensembles—Elliott Lawrence and his orchestra from New York. The event opens in 1940 at the Cafe Rouge at the Statter Hotel, Elliott Lawrence skyrocketed to fame, winning the annual campus survey contest for Billboard Disc Jockey Poll in 1947 and 1948.

Lawrence, his pianists, and orchestra have triumphed at all of the great showcase of American dance bands—Park Valley's Roof Garden Ball; in suburban New Jersey, the Paramount Theater in New York, the famed Palladium in Hollywood, and now in New England, where he conducts his orchestra for national broadcast variety programs.

Champagne for the Queen

Another innovation at the Senior Ball will be a queen contest at the dance. Each social organization will pick a female princess who will be the date of a senior at the dance. The winner, to be picked at the dance, will receive two bottles of champagne as a prize.

Tickets for the dance will be on sale now until Easter vacation. There may possibly be some tickets available for freshman for the first time.

**New IFC Chosen by Nine Houses**

The Interfraternity Council convened Monday night to establish a ballot for the new fraternity. The new organization will be chosen by the nine houses in the next semester of college German.

**Tripod Debaters Win Three at CCNY**

Within the Gothic buildings of C.C.N.Y., Trinity's debating team participated in the third annual College Invitational Debate Tournament last Saturday.

The Buntman affirmative team of David Leist, '58, and Jack Bardin, '60, beat N.Y.U. and Brooklyn College, while facing defeat at the hands of Lafayette. The team's main victory over the two feminine entries from Brooklyn was that of a job for both Leist and Bardin. Neither, previously, had beaten an all-girl debate team.

In beating Temple and losing to Fordham Arts and Columbia, Herb Moors, '58, and Tom Manus, '59, defended the negative side. The affirmative speaker was an unknown student in the tournament, who was a member of the championship team, from Fordham Arts. The Morson-Mueller debate with Temple turned into one of the best of the tournament. Trinity scored 60 out of 60 points in beating Temple by one point. The two debaters from the Philadelphia school finished second and third as top affirmative speakers.

The stadium was overcrowded but not bright. Frank Scurry, '58, and Robert Bobb, '58, brought the debate to a national topic, four on each side. Out of sixteen ballots cast, they were picked as winners in six of those.

**German Fraternity Established Here**

The Delta Upsilon Chapter of Delta Phi Alpha, national German Honorary Fraternity, has been established at Trinity, it was announced yesterday by President Albert C. Jacobs.

The fraternity begins at the college with 14 new members, 10 of whom are students currently enrolled in their fourth semester of college German or higher. Others in the fraternity are members of the faculty who teach the language.

Dr. Carl V. Hansen, assistant professor of German, has been named faculty adviser for Delta Upsilon. He was instrumental in bringing the fraternity to Trinity.

Among the qualifications for membership are a grade average of 60 or higher, and an average of 85 or higher for his last semester hours of college German.

Incentive for Scholarship

The Delta Upsilon Chapter becomes the eighty-ninth chapter in the national organization to bestow Delta Upsilon's charter; "seeks to recognize outstanding students in the discipline of German life and culture which are areas where the Delta Upsilon members have contributed to man's eternal search for peace and brotherhood.

Students who qualify for this chapter membership are: Donald W. Barch, '61; Ronald Russell Harrod, Kai W. Hochadel, Karl W. Kowicz, John A. Peters, Gintis Simonaita, Roy S. Anderson, Sanford Ball, Donald J. Salms, and Thomas J. Watt.

**Annual Book Contest To Be Held in April**

As part of the observance of National Library Week last week, the library is holding its fifteenth annual contest for the best book collections acquired by students, according to Mr. Donald Egley, librarian. The contest is open to all undergraduate students, and will be held New York City for dinner and attendance at a Greeler Club, three prizes of $25, $15, and $10 are offered.

Registration blanks are available in the library, and must be submitted with the books by April 10. Mr. Egley pointed out that in awarding the prizes, neither the total number of books nor their money value is to be considered. Emphasis is to be placed as much on the student's knowledge of the content of his collection as on the value of these books. The purpose for which it was collected, along with the number of books represented. Fifteen to twenty titles should be considered as an average collection for the purposes of this contest.

Winners will be announced at the annual meeting of the Trinity Library Associates, April 11, at which author Mr. Roger Kiddy of Newington, will speak on the subject, "Are Novelties Necessary?"

**Trio of Services**

The new IFC offices are located in the basement of Harkness, and are open from 10:00 A.M. to 4:00 P.M. on weekdays. The IFC offices are located in the basement of Harkness, and are open from 10:00 A.M. to 4:00 P.M. on weekdays.

March 26, 1958

Wilde Talks on Public Works, Fed. Reserve

At a meeting of the Economics Club Monday, March 24, Mr. Franke B. Wilde spoke on tax reforms and current financial trends. Mr. Wilde is President of the Connecticut General Life Insurance Company and an authority on economics.

The essence of Mr. Wilde's talk was generally a commentary on current monetary and fiscal problems. Specifically, he was concerned with establishing a position for the federal government in the subsidization of public works and for the Federal Reserve in the money market.

Mr. Wilde pointed out the diametric position of the Federal Reserve in making credit available on one hand, while still maintaining a position of holding down inflation on the other. As Mr. Wilde put it, "... the Federal Reserve is always wrong." It is at times attempts to hold down a boom by restricting and tightening credit that is so accused of choking the economy. If easy money and inflation are permitted, however, it is accused of devaluing the purchasing power of the dollar. Political parties further complicate this problem, for pressures will be brought upon the Reserve Board to aid public interests in vote getting, while economic stability is forgotten.

In the areas of subsidies to public projects, Mr. Wilde criticized the federal government for undertaking projects which do not effect the nation as a whole. For instance, if the federal government has a sufficient motive for the purchase of the Channel Four, why should it pay for irrigation in California? If the residents of that state want irrigation, it should be financed by that state or by private enterprise. The national government does have an obligation to have a balanced budget, but it should not undertake the allocation of such "normal" conditions as lack of water in the southwest.

Another area where Washington should establish its position is in giving aid to school building. Will the government merely give money or will it determine the building terms and policies?

The problem is for the national government to determine some limit for itself in the undertaking of public projects. The increase in the size of the government in the past 25 years has been caused by a corresponding defense spending and in the aforementioned "subsidization."

SHAME!

Last Thursday's referendum on the proposed changes in the student government was not faultfully responded to by the student body and abominably conducted by the Senate itself. The Senate, which on the previous Saturday night voted by one over one for very cent, but the facts are even worse.

The incidence of multiple voting can be laid squarely on the doorsteps of the Senate. If those who were present, themselves the elected and presumably responsible representatives of the student body, cannot conduct a balloting more efficiently than was done last Thursday, then the very idea of effective student participation in and control over the government is in jeopardy.

The principal loser this time is the Senate itself. It is disheartening to think that an action as obvious as this one was not noticed by the voters. The vision of each haphazard procedure might be the entire college community.

Let's wake up! We go to a good school, and one that has given us a full measure of latitude in conducting our own affairs. If we are going to govern ourselves as we do, we must do it in a mature and intelligent fashion.

LETTER TO THE EDITOR

To the Editor:

A student petition is currently being circulated asking the faculty, administration, and trustees to discuss the chapel requirement with the student body. It will be interesting to see if any support for the request will be forthcoming.

As supporters of this petition, we would like to make an objection to it which seems to us to be at once both the most common and the most reasonable, namely that it is a waste of time and effort. Gone out of style is the idea of a church sponsored school with a chapel requirement and that therefore, in our opinion, its day is at an end.

While it is true that we don't have to come to Trinity, it does not follow that once we can question the expenditure of time and money that we are not entitled to improve our college now that we have chosen it. We don't like everything about the U.S., but all things considered ours is one of the finest nations on earth. Therefore we try and make home a still better place.

It will be seen if others concur that the specific institution of the chapel requirement is in need of evaluation.

College Ventures into Educational Television

The College has undertaken an experimental venture into educational television. A series of six programs under the general title "Perspective" is being presented on local Channel 6 (CBS) on Sundays at 9:30 P.M., with Professor Paul Kuts, of the Philosophy Department, as general moderator.

The programs offer members of the college faculty, as well as representatives of the student body, an examination of important current issues and matters of intellectual interest to the community.

The first presentation, on March 9, was entitled "The Creative Artists at Work," Professor Samuel F. Morse read from, and explained, his poetry, while Professor John C. C. Taylor demonstrated the painting of a landscape. The two men, with Mr. Kuts, then discussed some of the problems of creativity in modern society. Subsequent programs dealt with the question "Should Nuclear Testing Be Banned?" and "The Role of Science in Education." The former was in the form of a debate, with Professors Robert Rovelli and Robert Kingseley, students Robert Back, '58, and Franklin Kury, '58, while the latter featured Professor Emeritus H. M. Buckman and Professors Winifred Burger and D. G. Britton Thompson. (Continued on page 6)

THE TRINITY TRIPOD

Richard Hartford to Discuss Daily Newspaper Production

Richard J. Hartford, city editor of The Hartford Times, will explain the "miracle" of modern high speed pressure and answer questions on newspaper and the devices employed to produce a daily newspaper when he speaks here April 10. The Tripod will sponsor the talk, which Mr. Hartford will illustrate with colored slides. It will be held in Seabury at 8 p.m.

Mr. Hartford, a member of the Times staff for more than 30 years, followed the patterns of old-time journalism in rising from newspaper boy to city editor. While in high school in Barnet, N. Y., he served as town reporter for the Elimina Advertiser. Later he attended Alfred University and served in Albany as secretory for a state assemblyman.

Joining The Hartford Times in 1957, he was aviation editor before World War II, and left during the war to serve as a second lieutenant in the armored Force. His tour of duty took him to the Pacific Theater as a combat correspondent, and later he won the Bronze Star while serving as an press censor with the staff of Gen. Douglas MacArthur.

Mr. Hartford's reportorial specialties have been labor, city government and public affairs. He became assistant city editor of the Times in June, 1953, and was named city editor this year.

Summer School to Admit Top High School Seniors

Gifted high school students will be given an opportunity to study for college credit in the Trinity summer school, it was announced today, by Dr. Robert M. Vogel, dean of students and director of the summer school. A limited number of students who have completed their junior year "with distinguished records" will be permitted to enrol this summer.

Another innovation for the College's summer school this year, is the special introductory course in scientific Russian which will be offered as part of the summer session, as a service to Research Personnel in the Hartford area. The course will be taught by Dr. Walter Leavitt, of the Controllership Department.

Dr. Vogel announced the addition of the course, saying it would "stress the importance of understanding knowledge, so that those who complete the course should be able with confidence to translate articles in which they are interested, from Russian scientific and technical journals.

Seven Corinthian Yachtsmen
Set Sail for Annapolis Meet

On Friday, April 4th, seven members of the Corinthian Yacht Club will be embarking for Annapolis and the New England Intervarsity Sailing Association meet.

Left to right in the above picture and carrying the banner for the Ban- 

tams next week is Pete Corbett, winch- 

man; Bowie Lagardo, sailing master; 

Charlie Marshall, fore deck; Benny Williams, skipper; Rick Hall, co-

ach of the after guard, "Admiral" Pick-

ering, fore deck, and (abstemious) 

Guy Dave III. Accompanying the 

seven Trin sailors will be Prof Nee-

son, the club's faculty advisor. 

In the meet, which consists of three 

two races and runs from April 4-6, the 

Trinity crew will be competing against a field of opponents including 

Yale, Coast Guard, MIT, Navy, 

and Harvard. The winning crew will be presented a trophy for the year.

Bantam matt levine

It is 6:10 in the afternoon in the field house. The sun beams 

through the high windows. A few runners circle the track. Dan Jesse looks 

at his ball players. He can't take the team outside today. The ground is soft 

and a breeze is blowing. Breezes at this stage of the season trouble... 

like sore arms. If it is as warm tomorrow, he will take them out for an hour or so.

Dan begins his tour of the cage. The pitchers are now warming up. 

The rest of the team divides into small groups for pepper games. Jesse is at-

tracted by the form of a tall, bespectacled pitcher. Two fast ones and a 

curve go by, and Dan approaches his tall pitcher. "Watch your wind up, you

don't hesitate enough." Nearby pitcher edge nearer as the coach lec-

tures. He is creating. He is respected.

He straddles toward a chastener-felled pepper game. A right-handed hitter 

is playfully swinging left-handed. Jesse, tried at the display, stops. "Having 

flish," he calls. "Once practice starts everyone works. No silly games." He 

leaves the coach. The chatter is louder than before.

It is about 4:15 now. The manager has uncovered the nets, and is sorting 

equipment. Jesse picks up a bat and ball, ordering the infielders to their 

positions. He begins hitting grounders to the various players. The shortstop

grabs a hard ball to his left. Jesse smiles. The throw to first is wild.

He sighs. There's no room for error. Dan feels all errors are mental, not 

physical. You have to think the game. You can't just play it.

A few more turns "around the horn," some last warmups by the pitchers, 

and it's batting practice time. The first batter at the plate is of slight build.

Although his swing is unorthodox, his first five hits are solid.

Batting practice continues, but all the batters do not fair as well as the first. 

The pitchers are good. The hitters are weak. Having started training 

earlier, the pitchers are ahead of the hitters. The hitters must catch up.

The last player takes his final cuts, grounders, and leaves for the locker 

room. As the remaining players move toward the showers, the manager 

collects the equipment. "As early as possible tomorrow, if it's warm," calls 

back the coach. It snows the next day....

“A company that plans far ahead gives me the chance to work out my future”

“Pleasing design is no accident,” says 32-year-old TV set designer Richard Montheat. “It takes creative planning.” At General Electric, we're constantly de-

veloping new product designs — including some for products which won’t be on the market for several years. Ever since joining General Electric, I've had the 

opportunity and challenge of working toward the designs of the future. As I see it, a company which plans ahead gives me the chance to work out my own 

future, too.”

The creative accomplishments of Richard Montheat have already brought him widespread recognition. He was awarded design patents in 1950 and 1955; he won the Industrial Designers Institute Award in 1955; and his design for the 1958 General Electric 17-inch portable television receiver was se-

lected for showing in an international design exposi-

tion in Milan, Italy.

Progress in television design is only one factor in our growing use of electricity and in our constantly rising level of living. Planning now to satisfy future customers is important in the continued growth of the electrical industry, but to individual progress as well. Opportunity for long-

range planning is part of the climate for self-develop-

ment which is provided for General Electric's more 

than 29,000 college-graduate employees.

“General Electric is Our Most Important Product”

Savitt Has It! Bill, Max Give Grid Feast
Way back in November, Bill and Max Savitt, respectively "P.05.0.M. famers," presented the Triin Grid Tester a grid feast that was eagerly anticipated by all. The meet was held at Wesleyan University, where the Grid Tester made his first appearance.

The meet was a huge success, with a crowd of over 3,000 people in attendance. The most exciting event of the day was the 16-lap relay, which was won by the Triin team in a time of 1:26.2. The team consisted of Joe-Fast, Bill deColigny, and Jerry O'Dea, who led the way with their speed and endurance.

Aside from the relay, the meet also featured the Grid Tester's famous "Grid Shake," which was enthusiastically received by the crowd. The Grid Tester proved to be a popular hit with both the fans and the athletes, and it was clear that the meet was a huge success.

The Grid Tester was also a huge hit with the media, and his appearance was covered by several newspapers and magazines. The meet was a huge success, and it set the stage for future Grid Tester meets, which would become a staple of the triin track season.
Walden Pond Fund Benefited By Emerson, Thoreau Students

Students in Dr. Kenneth W. Cameron's American literature classes recently received a letter from the Thoreau Society, thanking them for their contribution toward the "Save Walden Pond" fund.

The Trinity students sent in a total of $228.50 toward the preservation of the pond. In addition, the fundraising drive has raised a total of $238.50 which will be used toward the purchase of a deed to be held in trust by the Thoreau Society.

The letter, written by Walter Harding, secretary of the Thoreau Society, and a member of the English department at the State University Teachers College in Geneseo, N.Y., read: "On behalf of the members of the Thoreau Society and all those who are interested in preserving the natural beauty of Walden Pond, I wish to extend to you our thanks for your generous contribution to our defense fund.

"It is because of your thoughtful ness and the thoughtfulness of others like you that we have already been able to call a halt to the violations of the deed of the Walden Pond State Reservation. And we of the 'Save Walden Pond Committee' and the Thoreau Society pledge ourselves to a continuing campaign to protect Walden Pond.

"The Walden controversy has centered around the plans of the local Concord authorities to turn part of the Pond into a swimming pool. This scheme would include the construction of a metalled road and 100-foot long concrete bath houses, both of which would mean the tearing down of many trees by bulldozers."

In November, the Thoreau Society injected an injunction to prohibit any further action on the part of the Middlesex County Commissioner to build the road and bathhouse. Backers of "Preserve Walden" plan to present a bill to the Massachusetts legislature to take the administration of the pond away from Middlesex County and put it in the hands of the State Department of Natural Resources.

Dr. Cameron, associate professor of English and editor of the Emerson Society Quarterly, has announced that a new collection is being made here at Trinity and that he will gladly receive contributions either personally or through campus mail.

Where there's a Man... there's a Marlboro

Mild-burning Marlboro combines a prized recipe (created in Richmond, Virginia) of the world's great tobaccos with a cellulose acetate filter of consistent dependability. You get big friendly flavor with all the mildness a man could ask for.

AFROTc Honors Colonel Partridge

Colonel Irving E. Partridge, Jr., was honored by the AFROTC cadets, Monday, at a special ceremony held in his honor at the State Armory.

The Colonel, a Trinity graduate class of '39, was presented with a trophy in appreciation of his long and continued interest in the college's AFROTC program.

Following the reading of the citation and presentation of the trophy to Colonel George A. Bugert, Jr., the cadets passed in review. The ceremony was concluded with an exhibition of fancy drill by the college drill team, which recently placed third in the annual New England AFROTC Drill Meet at the Armory.

T.X. Names Officers

Karl Edward Schiebe was inaugurated as President of the Alpha Chi Chapter of Theta Xi Fraternity, Wednesday, March 19.

Albert Richard Smith was named Vice-President, and Howard E. Fitts, Treasurer.

The following Sunday, April 6, Professor Eugene Davis and Herbert Moorin, '39, will be pitted against Professor Morihir Morish and David Loe, '39, in a debate on the question "Is America Too Materialistic?"

Finally, on April 13, "Hamlet" will be the subject of comments by Professor George Nichols, and the Jesters will display their acting prowess in excerpts from the play.

Caesare Barbieri Center Awards Prize

The Caesare Barbieri Center of Italian Studies has announced two prizes for the best essays on "Henry Wadsworth Longfellow's Interest in Italian Literature."

In addition to a first prize of $75.00 and a second prize of $50.00 for the essay, there will be a first prize of $50.00 awarded for achievement in spoken Italian. A second prize of $25.00 will be given for the greatest improvement in spoken Italian.

Educational TV . . .

In forthcoming weeks, three other varied topics will be discussed, "The Nation's Physical Fitness," on March 26, will be screened by Director of Athletics Ray Oasting, and Karl Kurth and Robert Slaughtet, of the Physical Education Department.

The following Sunday, April 6, Professor Eugene Davis and Herbert Moorin, '39, will be pitted against Professor Morihir Morish and David Loe, '39, in a debate on the question "Is America Too Materialistic?"

Finally, on April 13, "Hamlet" will be the subject of comments by Professor George Nichols, and the Jesters will display their acting prowess in excerpts from the play.
