Campus Lecturers for the Week

British Sportsman
Author, Initiates
New Lecture Series

Sir Arnold Leon will deliver the first talk of the season under the auspices of the College Lecture Committee on Thursday evening at 8:15 in the Chemistry Auditorium. The distinguished mathematician and a member of the editorial board of The New York Review of Books will give his views on the new form of the electronic integrated circuit computer. "In Western Europe," he said, "the trend of the last few years has been towards the miniaturization of electronic equipment. This trend will be continued, and the next few years will see a widespread replacement of the present bulky, high-power, high-frequency and high-power consuming electronic equipment by much smaller, lower-power, lower-frequency and lower-power consuming equipment."

Sponsored by the Alpha Chi Sigma, the society holds the lectures in order to further the interest of its members in the field of electronics. "The lectures are held in order to further the interest of our members in the field of electronics," said the Alpha Chi Sigma president. "They are held to provide an opportunity for the members to hear the latest developments in the field of electronics and to discuss the future of the field."
**LETTERS TO THE EDITOR**

**THE PURPLE COW IS DEAD. LONG LIVE THE PURPLE COW!**

William's "literary magazine" the Purple Cow has given down the old path to the barn. And this situation is characteristic of many college magazines throughout the country. However, here at Trinity, the Review is in the process of investigating this problem. The magazine could use a new name. To The Cow editor's statement about the "superfluities of pageantry" which caused the demise of the magazine, we can only say that Trinity has demonstrably made a positive step toward the year of rats. Although it is too early to "evaluate" results, that is, it can extolize to the now and the prospects of the Review are certainly not the best in the magazine. In the last two years, it has managed to place on the best magazine today. We can say that if it is not indicative of great, original literary work the Review will have a future.

**Meeting in Georria**

Friday afternoon, October 17, was the meeting. It was, of course, that the Review Society will be held at 5:00 in Georgia Lounge. Aside from the obvious attraction of coffee, one person interested in literature, any kind of literature, will have the opportunity to speak his mind, read anything he wants to contribute and to honestly damn anything else he may choose to.

**Who's Who**

Every year, as one thumb-through the supersensitive pages of the Fog, he notices that this or that young man is indicated as having been named to Trinity's "Who's Who." No doubt some of these young men are quite well versed in the customs of the society. They are regularly turned over to the committee of the student body, and causes them to be published along with any other book that may be deemed appropriate.

Now the Senate has undertaken the commendable task of investigating the nature of the "Who's Who." This publishing the book and the means of selection of the names that are included, are worthy of the Senate's attention. It is necessary to be on guard against any unethical procedure in the making of these selections. The Senate has already demonstrated a thorough knowledge of the student body, and causes them to be published along with any other book that may be deemed appropriate.

In our opinion, some interesting facts have been uncovered (see story on page one), not the least of which is the fact that the title of the publication is even more formidable than the one customarily used. Some pertinent points, however, remain to be asked. Is there anything worthwhile to be gained through association of this sort with an admittedly commercial enterprise? Might it not be better, if indeed there is any necessity for doing so at all, to have the committee simply enumerate the men who, in their opinion, are Trinity's outstanding graduates? The custom of going along with the Who's Who idea would not seem to be self-judging. The whole question merits further thought.

**STEAMHOVELS**

The gaping caverns at the south end of the campus has become a pregnant source of question and discussion. To the student at least, Why the steamhovel at the southeast corner of the campus should have encountered this trench (trench may be inappropriate here as the hole was big enough to hold the Chinese Army) from Boardman to the center of the Elton-New Dorm quad, only to fill it up two days later—with nothing more than dirt—is an alarming question for the great unwashed.

From those who have been fortunate enough to hear the inside story, a grim picture unfolds. The mounds of rich topsoil now adding to the decor of the campus from the heating plant wetlands and the B.I.L. for the sewer is used instead of heating systems which must be ordered in bulk. However, the construction of the topsoil in large quantities is being calculated in the depth of the topsoil. Unfortunately while the construction was being completed, the walls of the students, the negative of the opposite direction, and this is one place where the pipes are to go. The facility to which the pipes are to go.

This question to the problem is to blurt, but this too creates its own problems. The Hartford Fire Department requires that the basement be opened when the Chemistry Building and Goodwin to Elton and New Dorm be evacuated immediately. This is the result of the blowing of the topsoil, the estimating of which run three or four days. This leaves the authorities with only one recourse (well—they really couldn't turn so much loose soil on society, for such a length of time). The building contractors are in the hands of the benefit of those members of the great American Society, but it must be remembered that February December would be in order. This also would prevent any further obstacles from being encountered; that is, three feet of fresh topsoil.
Parents' Weekend Activities Include Game, Campus Tour

The college will host the Fifth Annual Parents' Weekend, November 1 and 2. The weekend, which will be highlighted by the Bantams' gridiron attack against Coast Guard, and the soccer contest against Wurtsboro Tech, will include talks to the parents by President Albert G. Jacobs, Dean Arthur A. Hughes and John F. Butler, Director of Placement.

The Saturday agenda will include registration at the Hamlin Arms from 9:00 to 12:00. A coffee hour will follow at 9:15 which will include tours of the campus conducted by the Sophomore Dining Club, weather permitting. The tours will originate at the Downes Memorial Clock Tower.

A meeting of the parents in the Chemistry Auditorium at 10:30 will be followed by separate talks by members of the administration. Dr. Jacobs will address the freshmen parents in the Chemistry Auditorium, while in the Library Conference Room, Dean Hughes will speak to parents whose sons are preparing to enter graduate and professional schools. Also, Mr. Butler will speak to parents whose sons are preparing to enter the fields of business and industry, in Seabury 34.

A buffet luncheon for parents, sons, and faculty members, in the field house, will be followed by the sports calendar for the day. The evening agenda will include a reception at the home of the President for freshmen parents, while the fraternity houses will host their parents. Following dinner, the College Glee Club will present a concert for parents.

The Reverend G. O. Ekwall will speak on the "Episcopal Ministry," to the Canterbury Club Tuesday, October 21, at 6:45 P.M. in Cool Lounge.

For the best in entertainment, fun, and facilities, see the 1958 edition of Trinity’s soccer team.

The mention of a spirit to 375 degrees Fahrenheit may set in. Do not raise your hands just yet. If you’re playing Tufts, start with a Hula-Hoop freedom fighter and a grinning all-time man. This is the forward war.

While the remainder of the ingredients are being added, preheat team spirit to 375 degrees Fahrenheit. Do not raise an eye. Point, or confidence may set in.

Pick from a tree, holding with halfbacks, the most ripe. The best to find include a redoubled Ericsson, a square-shouldered co-captain, and a husky裡wichon. Stif for weeks to form a good offensive attack. Watch closely or combination will crumble.

A handkerchief from his sleeve to allay an autumn sniffle, was a humorous show. A handkerchief from his sleeve to allay an autumn sniffle, was a humorous show.

Those who watch closely or combination will crumble und J’entendu. Watch closely or combination will crumble. A handkerchief from his sleeve to allay an autumn sniffle, was a humorous show.

Two minutes later, it was a handkerchief from his sleeve to allay an autumn sniffle, was a humorous show.

**Frosh Football Squad Reads For CoastGuard**

Its originally small squad deplomat, even further by injury to key personnel, the frosh football team has been working out for Friday’s game with Coast Guard. Fullback Albert Maurice and right half Dave Foy, both starters in the Springfield game last Friday, were not with the team as this week’s practice began. Maurice, who injured his knee in the first half, will be out for an indefinite amount of time, while it is hoped that Foy, who broke a rib, will be able to rejoin the team soon.

Coach Cliff McPhee nevertheless is optimistic about the team’s development and the away game with the Guardsmen this Friday. This optimism is based chiefly on the performance of his squad, quarterback Dan Bennett in particular, in the fall win with Springfield.

Bennett to Bishop

Trinity drew first blood, scoring on pass from Bennett to halfback Billy Foy, the try for the conversion failed and the score stood at 6-0 at halftime.

A slow start in the second half which allowed Springfield its lone tally, found Trinity without a first down to credit in the third quarter and only once in the entire half. Trinity came to life again as time was running out. With the accountants arm and Bennett supplying the ignition, they moved the ball deep into Springfield territory where pass interference was called on the visitor, giving Trinity the ball on the one yard line with less than a minute remaining. However the drive was stopped there for a thirteen yard penalty on the hosts. A blocked field goal attempt ended Trinity’s hope and the game.

**Trinity Outlaws Opponents**

It was an especially hard game to let slip away, as Trinity outgained the visitors fourteen to seven in first downs. The success of the Trinity defense was due primarily to Bennett’s completing eleven of sixteen pass attempts, for a remarkable .688 percentage.

Other standouts were John Knapp, aggressive left tackle, and Claude Hargotz, end. A pleasant surprise to everyone was a Ted Roberts, who turned in a first game at the center for the first time.

**Where’s The Depth**

While Coach McPhee was encouraged by the team’s performance on both offense and defense, the big challenge remains ahead: how to get sufficient depth on a squad of less than thirty.

**GOOD EVENING, HAPPINESS**

Sitting in the hotel bar, I felt a quick pain as I realized everything was nothing. Also, the waiter had put an elbow in my eye as he served the beer. It was teeming rain outside. Later, perhaps, with luck, there would be a tidal wave. I began to sob happily.

“Stop crying in your beer,” my father said, moving my Schaefer. “It’s your kind of beer—real beer.” But was it? Was anything mine, or his, or anybody’s? We had been coming to Atlantic City too many seasons. Just me, my father, Annette, Yvette, Babette. I was bored.

A proud, frail young man approached our table. My chest grew damper than ever. I was in love again. “I see you drink Schaefer, too,” he said to me. “Do you know why experts call it ‘round’?”

I shook my head, staring tears about the room. Of course, my father interrupted, “round means a smooth harmony of flavors.” I wanted to kill him.

My young man’s dark-circled eyes grew sad. “To your kind of beer,” he said, “all liquid gold and capped with snow.” My father raised his glass to return the toast, but I quickly pushed him over backwards in his chair. “To your kind of beer,” I said, “my voice alive with ennui. We clinked glasses, and then he was gone.

And I was all alone again, surrounded by people. But the dusk of the glasses of Schaefer, ah, that is my bitter-sweet treasure. So each evening, when the Schaefer comes, after the pain of memory, after the waiter’s elbow, I say, “Good evening, happiness... Good evening, Schaefer.” And then I cry.

Shutouts Debut In Overtime Win

On Friday, the freshmen soccer
team will play its second game of the season against the Tufts men. The Westyack J.V.'s do not seem too
too strong as they were beaten by their
opponent the week before, but they will
try last year and are hoping to do
better this year. They will also try for their
two straight victory as they
already, New last week.

The Rover C's have been that season's
team's offense. The good news
does another at one to dominate the play and hold the advantage of
during most of the game. The
team was scored by Traut in the second quarter as he
headed it in from
to S . Nichols then carried for
for a few minutes, making their
first try, the game being halted.

Climbing into the third quarter, the Freshman again
ran to Sible scored, giving them a 2-1 lead.

smokey relaxations.

Dearth of good slots to read four
after next week. When played
shortly after the start of the final period, the Freshmen's
Rays matched those of everyone concerned.

But the game is far from

To Go

The final score read Trinity 7, Tufts 6. The Freshmen were
more aggressive, but they lacked one major
- class.

Tufts Outscored in Romp As Total Offensive Frenzy

Trinity Booters To Oppose Rough

U Mass, Away, in Friday Competition

Tufts divided a method of holding
the next home game for the Guild to
outnut of four against Coast Guard,
but in the process of so doing, they
must have overplayed themselves.
The prematurely-graying Loomis
product knocked a couple of points
in the Jumbos, three of them in the last
quarter. That in itself was enough
to top the club which came
in victory last year. Sheeha received
the praise of all of the coaches
and read Tuft 7, Trinity 3.

Tufts kicked off and kept the field
halfway, a try on Jumper. Scarcely had the military Trin
erisher bunched up his lungs, when
co-captain Jon Walling smashed the
terrier, the other member of the game into
the Tuft net.

Poor Goalie

The defense which worked so
well in the Jumbo attack, and the
black-clothed Tufts goalie had
done once again to waive the barrage
that was aimed at him all afternoon.

New Chapel Cabinet Projects Include Volunteer Social Work

There is a definite need within the Hartford area for volunteer social service to the aged, delinquent, crippled, blind and others. Volunteer aid is needed for education, recreation, and entertainment. The Chapel Cabinet, working through the student body, is trying to fulfill these needs.

Most of the convalescent homes, homes for the aged, and hospitals are lacking in personnel to provide recreation. Patients at these hospitals and homes have nothing to occupy their time. Any ability among Trinity students toward music, religion, art, literature or political science would interest these people.

In the field of education, the Y.M.C.A. is operating the "Soundsc Mike program," by which volunteer workers read textbooks into a recording apparatus. The records are used in schools for the blind. Anyone interested in this type of work should contact Stuart Cockrell, D.Fil.

An entertainment unit, another phase of the program, is now being formed. This unit will include various performances from contractors to amateurs.

The group will be divisible so that either the whole unit or separate parts will be able to entertain at homes and hospitals around the area. Since the entire group has not been selected, there is still room for more entertainers. If anyone feels he has something to offer and is interested, he should contact Mike Libet, Box 190, Phi Pa.

This is only a general outline of what is needed, and the need certainly is great. The Trinity student body has an opportunity, both individually and group wise, to do a great service to Hartford. Volunteer service is not a one-way proposition; the personal satisfaction resulting from making another's life fuller and more worthwhile is enormous. Each one of us has something to offer; we need to fill positions at the various homes and community centers.

Desks (Continued from page 1)

Don't a desk in the library, study hall, and other places set aside solely for studying. President Cole maintains the added expense of these study rooms, which, due to rising costs, may have to be turned over to other uses.

If fraternity is not suitable for study, then that situation presents a challenge. If houses are merely places for a good time and relieve drinking regrets, then the role of the Asbestos fraternalism should be questioned.

Rotation of the desks to fraternity houses would seem a move in the right direction for an institution whose prime objective is education.

Danforth (Continued from page 1)

Don't consider as there may be need. The maximum annual grant for single fellows is $2000 plus tuition and fees charged to all graduate students with an additional stipend of $350 for each child. Students with or without finances are invited to apply. A Danforth Fellow is allowed to carry other scholarship appointments, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc., concurrently with his Danforth Fellowship, and applicants for these appointments are cordially invited to apply at the same time for a Danforth Fellowship. If a man received the Danforth Appointment, together with a Rhodes Scholarship, Fulbright Scholarship, or Woodrow Wilson Fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are completed.

All Danforth Fellows will participate in the annual Danforth Foundation Conference on Teaching, to be held at Camp Minisso in Michigan next September, 1959.

The qualifications of the candidates as listed in the announcement from the Foundation are: men of outstanding academic ability, personality essential to the classroom, and integrity and character, including serious inquiry within the Christian traditions.

All applications, including the recommendation, must be completed by January 31, 1959. Any student wishing further information should get in touch with Don Hughes.

Where there's life... Budweiser.

Don't settle for one without the other! Change to Y.M. and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's Y.M. combines these two essentials of modern smoking enjoyment—less tar and more taste—in one great cigarette.
