Freshman Orientation Revised by Senate Committee

"Trinity & Your Liberal Arts Opportunity" is the theme of the pre-orientation continuum of programming at Trinity College. The program is the property of two productive agencies recently merged—the newly constituted and splendid Student-Staff-Admin Project "Student Responsibility Committee." Phil Jacklin, Chairman of the President and of the Senate Committee on Educational Affairs, reports that "the goal of the program is academic orientation, not social orientation." The orientation will have two parts: (1) the presentation and analysis of "good but dispensable" courses and (2) the utilization of a research on the part of freshmen that he is in the animal in the red shade "you can lead a fox to college but you cannot make him drink." These two objectives are complementary since without either,基金份额," there is no educational experience.

Senators Greet Freshman As expected, the Student Senate President Schieble and Senate Jacklin, the Rolfe College of the Democratic ticket for "First Program," the first program was the Summer Student Senate Committee which was called out early in the summer.

Fall Agenda—Two Programs

The fall agenda was outlined as follows:

Orientation will be initiated Monday evening, September 22, when Dr. W. W. Basham will talk on "On the Profile of Goals of Liberal Arts Education & Self-Affirmation of the College Student." Also that evening, Mr. Engley will begin his administration of the Freshman Handbook, "Prospects, by speaking about the extraordinary richness of our literary faculty and the diversity of the students among them. Prospects will continue in a series of small colloquia during the week Tuesday nights beginning September 30. It will begin on President's Forum.

The second of the fall programs, the Senior Mentor Seminars, is designed to create an attitude of "student responsibility" for obtaining some education. Freshman will have information and distinction from colleges and universities. Topics for discussion will include: the difference between present educational systems and those of the future. It is intended to give recognition to the educational values, the implied importance of the educational goal, the implicit meaning of the educational goal, and the implicit meaning of the educational goal.

Froshman Orientation Revised by Senate Committee

Fund Campaign Great Success

During the summer months it was announced by President Jacobs that the three-year "Program of Progress" of the Academic Department was successfully completed. The drive exceeded the mission, and in fact, the turnover has been $102,000, President Jacobs reported.

Goals Realized

The major goals of the campaign are now to become a reality. The much needed Student Union will be under construction during this next term. Faculty salaries have been covered with an additional $20,000, for a total of $100,000. In salaries have already been granted. The scholarship fund has been increased by $300,000, and indebtedness on completed dormitories has been submitted.

Hartford Preps

President Jacobs paid special tribute to the people of Hartford and to contributing states in the financial affirmation of faith in our goals, and the obvious belief in our future." General Set

The Trinity College Prospectus, by virtue of its goal and more than successful completion, set many national records in fund raising fields.

Of America, and the Association for Symbolic Logic.

Dr. Eric Crail Baade will be a part-time instructor in philosophy with a bachelor and arts degree in 1949. He received his B.A. in college in 1949, and by the Richard Press, London, in 1951. He has been awarded The Carl G. Hempel Foundation, New York, the American Psychological Association, the American Association of University Presses, and the American Psychological Association.

Dr. C. W. W. Welby, a native of California, and on formerly on the faculty at Berkeley in 1949. He was awarded the G. T. from the American Philosophical Society, in 1928, and two years later with the California Company before completing his degree.

The author of several articles for the educational journals and several of the Middlebury Congregational Church, New Haven, New Mexico, and in the Sigma XI, the Geological Society of America, the American Association of Petroleum Geologists, the Society of American Geologists, and the American Association of Geologists. He is a junior member of the American Association of Petroleum Geologists.

Frederick Maynard Stroud, has been appointed instructor in music, graduated from St. Olaf College, Marshall, Minn. in 1914 with a bachel- or arts degree, he was Phi Beta Kappa and on the president at St. Olaf. He is a candidate for a Ph.D. from Yale University where he was on the faculty in the phonograph department.

Dr. Mario J. Polferman of Delhi University, has been appointed instructor in mathematics. Dr. Polferman holds a joint position in Trinity College.

He received his B.A. in 1932, his M.A. in 1931, and his Ph.D. in 1932. For the year he has been on the faculty of William College. Previously he has been an assistant in instruction at Yale, and as an instructor in mathematics at New Haven High School.

Dr. Polferman is a member of Sigma Xi, the Phi Beta Kappa, the American Association for the Advancement of Science, the Mathematical Association

O. Wilson Lacy and Thomas A. Smith will assume the positions of Dean of Students and Registrar respectively for the coming year.

John C. Clark, who resigned his post after 29 years of service to the College, will continue to be the executive secretary of Western, New York, where he will run his farm and hold a position in the public school system.

Praised by Jacobs

President Jacobs comments in making the announcement, "Both these men are well qualified for the positions they assume on our administrative staff. Dr. Lacy's experience in both industry and guidance as well as his teaching career will be of value in the important work as Dean of Students.

Dr. Lacy, a native of Glade County, is Professor of Psychology at Trinity, a post he has held since 1923. He holds a B.A. degree from Hampden-Sydney College, and the Ph.D. degree in psychology from the University of Pennsylvania.

For Trinity Term, Dean Lacy worked as an industrial field supervisor. He is also an assistant professor of psychology at Hampden-Sydney College. In addition, he has published many articles in the psychological fields of learning theory, perception, personality, and behavioral correlates of neurology.

Well Known

He is a member of the American Psychological Association and the American Association for the Advancement of Science. He is also a certified psychologist in the State of Connecticut and is listed in "American Men of Science."

Dr. Smith, a native of Hartford, holds a B.A. degree from Trinity College and an M.A. from the College. Prior to coming to the Trinity Administration in 1926, he had taught at Trinity College, Franklin, Mass. During the war he was with the United States Field Service in North Africa and with the U. S. Army Medical Department in the United States and Europe.

Subscriptions to the Tribune are $4.00 per year. It is a weekly newspaper which covers all campus affairs. Please enclose check or money order.

Pigskin Season Here Again

Hartford newspaper men are optimisitic, says Dan Zornes is optimistic yet wary, and the ached student body is crossing its fingers. Last year at about this time everyone talking about our pigskin team could use nothing but superlatives. To the dismay of all concerned, the Huskies suffered their worst season in many years.

As a direct result of prolonged injuries to key players and a wholesale invasion of Asian flu, the team was cut down to twenty-six able-bodied men. The two-faced Hartford papes didn’t emulate the Huskies in their plight, at least not until the final game against Wesleyan when the Blue and Gold won its only game before a lackluster crow.

Henry Schiulte

This year everyone is using the same superlatives, but with a little more reason. It can be almost guaranteed that the Huskies will do better than last year’s one-win, loss slate. The incumbent schedule is a formidable one, boasting four of last year’s top ten small college football teams. They are Denison, Williams, Tufts, and Amherst.

Denison is probably the most awesome of the four. The first opponent of the season, our showdown against them might set the tone for the remainder of the year. The Squad will take to the air this week for the first time in its 81-year-old history when the boys fly from Bradley Field on Friday headed for Granville Ohio, home of the Big Red.

The Ohio powerhouse is first in the nation among small colleges in total offense and ranking last year. A team which scored more than forty points in five of its nine games, while compiling an impressive eight wins and one loss record, the Ohioans are known to have a rugged, massive line, and a strong passing game.

Graduation Speech
Cities Modern Charge

President Zornes, in his Charge to the Class of 1958, said that, “in this era of atomic and hydrogen bombs, of inter-continental missiles, of man-made satellites and of struggles to control the vast outer space, of cold war, punctuated with ever-increasing military expenditure, all Freshmen interested in working on the Tripod for next year are asked to submit their names to Phil Stinson, Box 60. Previous experience is not necessary.

Test your personality power

(If ain’t necessarily so!)

1. Do you find the dimensions of a parallelogram more intriguing than those of a house-plan figure?

2. Do you believe that your studies should be allowed to interfere with your social life?

3. Do you call off a movie date with the campus doll because somebody tells you the film got bad reviews?

4. Do you think anything beats rich tobacco flavor and smooth inhalation in a cigarette?

5. Do you believe two costs in your brother’s class are worth one in yours?

6. Do you think that your college’s dating rules are too lenient?

7. Do you prefer smoking “fads” and “fancies” to a real cigarette?

8. Do you mind a movie date to drive a movie because you don’t want her to feel she’s a captive audience?

If you answered “No” to all questions, you obviously smoke Camelts — a real cigarette. Only 6 or 7 “No” answers means you better get on to Camelts fast. Fewer than 6 “Nos” and it really doesn’t matter what you smoke. Anything’s good enough!

But if you want to enjoy smoking as never before, switch to Camelts. Nothing else tastes so rich, smokes so mild. Today more people smoke Camelts than any other cigarette. The best tobacco makes the best smoke. Try Camelts and you’ll agree!

Have a real cigarette — have a Camel
