Downbeats, Sparkle Chest Finale

The Entertainment Committee of the Campus Chest will sponsor the finale of its ten-day drive tomorrow night in theChemistry Auditorium at 8 p.m.

Bob Woodward and Bill Fisher, the co-chairmen of the Finale, have announced an entertainment program high-lighted by the "Downbeats," an accordion-interpreter dancer, Louise Remalda, and Miss Gloria Bell, a singer.

Also appearing are Court Fergus-

Soror and two unannounced acts.

Three all-time banum grid-

corn and a cabaret service which expedited the opportunity of running for the class of 1961. Mr. Remalda, a member of the band, said, "I wish to thank the class for the confidence they have shown in me to be of the 'Downbeats' and to assist in leading to achieving a feeling of greater class unity.

The final aspect of the evening will be a Campus Chest solicitor, and presid-

meetings. The Emeritus will be also on the freshman basketball squad.

His opponent, Peter Sherin, stated, "I believe having freshmen been given the opportunity of running for the class of 1961 will give them more interested in school government, I sincerely feel I can justify that faith has placed me in the final election.

Sherin, with a 75 average, played freshman soccer and is a Campus Chest worker.

The candidates for vice-president on Daniel Moore, a member of the Wrestling Club and a Campus Chest worker, and for secretary-treasurer, play soccer now working for the Interfraternity Council.

The candidates for Secretary-Treasurer are Eli Karsen, the class of '60, an Acadian, and David Shidell, an acadian and a Campus Chest worker. All the candidates have better than 75 average.

Joint Meeting Friday Of Psychology Club

The Psychology Club of Trinity and the Psychology Club of the University of Hartford will jointly sponsor a meeting Friday, Dec. 11, at 4 p.m. in the library conference room. The debate will be hosted by the Yale Association of Psychologists, Dr. Arthur Jarold of Columbia University will speak to the clubs in the afternoon and will be the principal speaker of the evening.

The topic of this meeting will be "Selfhood and Human Growth." A social hour for all those attending will take place from 5:00 to 6:00.

President Albert C. Jacobs announced today that the tuition for undergraduates will be raised to $1,200 beginning September, 1969.

The increase of $75 a semester was voted by the Trustees in a recent meeting only after "long and careful consideration," Dr. Jacobs stated.

"The current tuition rates," he added, "cover but one-half of the cost of education at Trinity...""...

Murray Gives Outstanding Greek Lecture

By ROY PRICE

Printable page ad. - Murray, Jr. gave this year's Moore Greek Lecture in the Chemistry Auditorium last Thursday. His address on Aristotle came up to the high standards that are traditional with this lecture.

Through the Poetics of Aristotle, Sophocles has become our standard of excellence and Murray feels that although the plays of Aeschylus are more lyrical than those of Sophocles they are equally as dramatic. Their eloquence does not detract from the inner reality of the dramatic purpose. Dr. Murray regards Aeschylean poetry not as an embellishment, but "the cement of plot and character."

To illustrate this, he narrowed his subject to a single term called "tragic metaphor," a relative of tragic irony. In the traditional metaphor the poet joins two seemingly dissimilar objects to show a similarity; in the tragic metaphor we can see an implicit tragedy by reading Aeschylean speeches metaphorically.

As an example, Dr. Murray pointed to the opening of The Suppliants, where we are told "there is a place in the land of the strangers where the land is divided up among the branches in hand". These are symbols of peace, but later in the play they will be shards and daggers in the hands of the strangers.

The branches are long narrow arms bearing the dagger and therefore bring the weapons to mind. Knowing the plot, the audience will sense the significance of this as the metaphor gives to the scene.

1960 Fall Captains Named

Arle, Borch, Baird Morgan, and Olympic Trials Veteran Alex Guel were named to the New England soccer team. The most improved player award in soccer went to Donald Mills, while Captain John Bassett won the most valuable player award.

Bassett summed up the soccer sea-

son as a very fine one, although it was disappointing in not having been selected for the national tournament.

The evening's principal speaker was Professor James Notopoulos, classi-

cal professor and a member of the Athletic Advisory Board. Professor Notopoulos paid tribute to the athletic department, which he estimated to be the best in the nation. He was the guest of the Interfraternity Council meeting, Director of the Physical Education Department, Jenne, and the speech was introduced by Francis Lundb

The principal theme of the talk was the philosophy of education and the place reserved for athletics in it. He quoted Plato's Republic saying, "The problem of education is to harmonize the soul and culture to produce a good character."
When the Republican party was reeling from a blow delivered by the Democrats a year ago, Eisenhower administration is lured wisely decided to take stock of its operation. The Toriy G.O.P. might follow is that of the Conservative Party in Britain. Much as the "back-bench" Tories disliked the new order ushered in by the Socialists in 1946, they knew as much or any of its basic features. The Conservatives realize the futility of turning the clock back to the days of American-style free enterprise, however despised that may be.

Last January, the conservatives walked away with the top three posts at the G.O.P. national convention.

Liberal Education Values Shown By Study of Curriculum

By Dr. George B. Cooper

The curriculum is the most important collective concern
of American educators. The present survey is in the nature
of a general check-up, undertaken at the request of the
Presidency and the Faculty Senate to find out what ways and means
of utilizing our rich academic resources more effectively.

The thoroughly practical and extrinsically oriented students of the
College, the ones who are interested in making a living and who
are attempting to make it, pursue such a curriculum as best to aid
them in the process of growing older excellently and to try to
replace the purely intellectual and moral challenges of the
teacher's life with the problems of society.

To be sure, the best college students usually have already taken
in the complex of excellence with his mother's milk, his father's
whiskey, and his teachers' advice. He has absorbed not only from
his parents but from his teachers as well.

But most young men lack the habit of perfection. These are the men
who go from a high school to college, who find themselves in their
thirties and early twenties, when the pressures of existence, and not
the liberal arts, are on their minds. Young men must be exhorted to
continue, in a period of increased enrollments and expansion of opportunity, to
demand excellence in their studies. There are certain mechanical and
substantial changes that will probably help

Gwynn Cites Encouragement

By Dr. Frederick L. Gwynn

Because the educational system is in its natural state of progress and victory, our
world is not far from the end of history, from the termination of the
stage of the development of society. The present survey is in the nature of a
general check-up, undertaken at the request of the President of the American
Educational Research Association, to find out what ways and means
of utilizing our rich academic resources more effectively.

The thoroughly practical and extrinsically oriented students of the
College, the ones who are interested in making a living and who
are attempting to make it, pursue such a curriculum as best to aid

Advancement of Knowledge Found Key To Teaching College

By Dr. J. Wendell Burger

The rise of man from savagery is due to the progressive acquisition and
use of knowledge. It is essential that our society actively offers that
teaching. A college student is motivated to make sure that
the educated man of this decade is not the anachronism
of the past. He is the custodian of academic excellence. This is a dis­
Herbert Croly, professor of literature at Hopkins's
operative advice (if I recall it right) to "entirely"
the existence to the effect-
usual only until the time
be taught just to content.

The college teacher should, there fore, be

Responsibility of Students by Dando

BY JOHN A. DANDO

Before I begin to discuss the responsibilities a student assumes when he contracts to enter a college like Trinity, I should like to define what I mean by "responsibility." For my part, it is a word which suggests to me the idea of "being answerable," or "being required to explain," or "being required to perform under certain conditions." "Responsibility" can be defined, then, as a state of being required by one's character or by an external condition to act or to respond. A person assumes the responsibility of supporting himself when he enters a college because a state of requiring him to do so is created for him by the institution and society. It is a state of being required by one's own sense of character to cooperate in the achievement of certain goals.

TRINITY TRIPOD

The TRINITY TRIPOD Supplement

Effects of Educational Environment Observed

BY DR. M. C. LANGROSE

Many years ago a wise old professor of classics liked to offer the following advice to his classes: "Young gentleman," he would say, "always get your rabbit before you make your rabbit-pit." That is, if you do not work hard and get ready for the next class before you come to the next class, you may not be able to learn the material that will be covered next. In other words, if you do not have a firm grasp on the material covered in the previous class, you may not be able to understand the material covered in the next class.

In the light of the recent emphasis on the state of the educational environment on the one hand and the need to define the term "environment" on the other, it is interesting to note that the term has been used in a variety of ways. The term "environment" has been used to refer to the physical surroundings of a classroom, the social climate of a school, the educational policies of a school, the quality of the teaching staff, and the attitudes of the students. The term "educational environment" has been used to refer to the overall atmosphere of a school, including the physical surroundings, the social climate, the educational policies, and the attitudes of the students.

QUAD’ ANGLES
mat levine

Within this week’s issue the campus is confronted with faculty outlooks concerning a subject for which each of us seems to have a different value. Modern education concepts here or anywhere, however, include more than aesthetics sprinkled with curriculum changes and the subject matter we glean from our books. In some face or another, it is an accepted fact that athletics have a profound influence on education, and therefore the product of the education…that black robed sedan with mortarboard, which proudly flashes his diploma in June.

A liberal arts background is not worth a plugged nickel if the individual has not taken advantage of the situation around him, and has sat around on his laurels vegetating, thus automatically assuring his normal development of character.

…in the jargon of sport, “character” is replaced by “sportsmanship.” No matter which term is used, the idea remains intact that healthy competition, whether it be on the intercollegiate level or not, breeds men. Continual self-improvement within our Gothic confines and in front of a stack of books, without contributing to the environment about you, whether via athletics or art, breeds shallow-minded encyclopedias. The feeling to be set forth in this issue, however, will dwell solely on the athletic angle. Ability to work with others and the development of a quick, analytical mind are two assets which a student should boost upon graduation from an acceptable college…get the ability to back up, collect data, and criticize those who are attempting to participate. How many of us, once we finish our schooling, are going to be able to live with contact without anything whatsoever…set many. How many sports depend in entirely upon team cooperation for success…quite a few. To make the implication explicit, is not the continuous stress on teamwork in athletics going to have some effect on the player in school when once he is off the playing field? The example can be extended to the ludicrous by trying to imagine our All-American center blocking out an entire opposing team.

Teams prep week after week for contests, trying to anticipate adverse game situations. Adequate training program, apparatus, instruction, and practical summer jobs. Isn’t the experience that, in the quick thinking on the athletic field, setting a valuable foundation for the life ahead?

You can sit back and memorize and memorize until doomsday, but those who give you a passage you have never seen is just like the football team that runs at you with nine men in the offensive line, or the basketball team that crowds four men into one of the corners. You have to be on your toes…you have to be perceptional.

In too succinct a manner I have attempted to bring into the light the value derived from giving something of one’s self in order to obtain a maximum return.

Trinity waited to a 79-58 victory in its basketball opener Saturday night, and in the process discovered a new star to enhance the team of veterans.

M.I.T., highly regarded and a tough match for last year’s boys in a close 5 Point win, Trinity scored the first basket but never led again as the Bantams, sparked by John Norman’s 21 points, fought with the Territorials. Starting fast, Norman noticed six of Trinity’s first eight points, all on outside one-handers. Then to add variety to his brilliance he added scores by driving, rebounded like a 4’8” vacuum cleaner and passed with such dexterity that his moves startled his teammates at times.

Every Bantam saw action as the team expanded its 43-21 halftime lead to the final 21 point spread. Expectedly pleasing was the balanced attack of the McWilliams crew which showed four men scoring in double figures. The top four men were Norman, the two centers Ken Lyons and Buzzy Meyer with 12 each, and Barry Boyden with 11.

The score would have been even more lopsided but for M.I.T. Captain Hugh Morgan, the solo Tech scoring threat. Morgan scored through 12 goals for 20 points.

Still uncertain as to his permanent starting lineup, McWilliams started Captain Boyden and Jim Gavin as centers, Normandy and Bud Bergmann at forward spots, and Lyons at center. As an indication of reserve strength the substitutes, assisted by Buzzy Meyer with 12 points, accounted for 29 tallies.

The Bantams, who showed traces of first game ruggedness Saturday night, not only got sufficient time experience this week.

The team left Tuesday morning for a game that night with Kings Point and stayed in the city for a game this afternoon with Stevens.

Saturday night they will be back home to meet what should be a strong Worcester Tech quintet. This outfit started a big Coast Guard team 77-66 last week.

John Norman portrayed as he was about to haul in rebound in M.I.T. game last Saturday. Photo by Fred Debe

One hundred yard medley was scratched from the order of events due to a misunderstanding concerning its appearance this season. With the recency of the season, the Trimmen proceeded to sweep the remaining events, shadow boxing to win the 47 (13 points), Bick the 100 yard butterfly (1.98.5) and Williams the 100 yard breaststroke (2:15.4).

Bob Adams, Trinity’s perennial backstopper again whaled the visitors with a creditable 2:35.5 timing, MacCreden and Bartlett swept the 100 yard freestyle (2:35.4), Grel and Bartlett swept the 440 yard medley.

In an attempt to emphasize the importance of intactness of the team, a 2:35.5 was established for the butterfly.

Bob Adams, Trinity’s perennial backstopper again whaled the visitors with a creditable 2:35.5 timing.

Trowbridge Curtain Raiser Features Cadet Swimmers
The Blue and Gold swimming squad drowned Tufts in an easy meet, 69-17. They face a much greater challenge here Saturday, however, when a highly talented Coast Guard team visits the campus for a 2:00 p.m. meet. Coast Guard, always a strong opponent in their natural element, last year overwhelmed Trin, 62-54; this season they should have considerably more trouble making a repeat performance.

Several tight races are in the offering, as the local freestyler should the main burden of responsibility. Coast Guard appears moderately strong in the backstroke department and very powerful in the butterfly events.

After the Cadet encounter, the meet's fans face only one more opponent before Christmas. Worcester Tech (on Saturday December 16) is never a serious threat.

Adams, Lockton, Black and Fog overcome barriers to win the 200 yard medley (4:24.3), as did Goodman and Morgan in the 50 yard free style with a 24.3 timing.

The 200 yard individual medley was scratched from the order of events due to a misunderstanding concerning its appearance this season.

With the recency of the season, the Trimmen proceeded to sweep the remaining events, shadow boxing to win the 47 (13 points), Bick the 100 yard butterfly (1.98.5) and Williams the 100 yard breaststroke (2:15.4).

Bob Adams, Trinity’s perennial backstopper again whaled the visitors with a creditable 2:35.5 timing. MacCreden and Bartlett swept the grueling 440 yard medley and Grel and Bartlett won the 200 breaststroke. To conclude the debacles, the freestyle relay team of Rothbard, Hoffman, Reavis, and Coleman poured it on to obfuscate the best that Tufts could muster with a timing of 4:20.6.

Fry's "A Sleep of Prisoners"
To Be Given in North Chapel

Several years ago the Jesters presented Christopher Fry's unusual religious play A Sleep Of Prisoners just before the Christmas holidays. Director George Rhodes then announced that because of the fine qualities of the piece, and because of the favorable reception which it received, the play will be presented again this year. The four characters in the play will be portrayed by Richard Clark, Robert Boedigora, Robert Wilson, and Peter Fish. The North Chapel is to be used again for the 8:15 p.m. performances on December 14 and 15.

Fry's own comment on the play provides an interesting insight into the action. "It has always seemed to me that the difference and conflict between men spring often from the differences between the outward arm, the facades behind which we hide our spirits. Perhaps the design of the play could be to show first of all a group of men as they seemed on the surface to each other, and then let them sleep and dream, each man dreaming of the other three and of himself, so that each character would be seen four times over. . . . I wanted to move from division to unity, to say that we are all souls in one narrow, and above all to say that the answer is in ourselves, in each individual, and that each individual has in him the elements of God. What will carry the day is the belief that the good is human nature, even more powerful than the evil, if, with our whole hearts and lives, we abide by it."

DR. KRENN TO SPEAK
Delta Phi Alpha, German Honor Society will hold a meeting Thursday, December 16, at 7:30 in Ebenbury 47. Dr. Krenn will entertain with slides of Austria, and a short organizational meeting will follow. All members are urged to attend.

How's your beer?

Did you know that beer had a religious connotation in Babylonian days? And that women bore actual temple priests, not serving some type of beer for certain temple ceremonies? Did you know that the ancient Egyptian alcholol of drunkenness inspired the brewing of beer as a beverage of moderation? Did you know that Hames II presumed beer so highly that he sacrificed 30,000 gallons a year to the gods?

Did you know . . . the best way to satisfy your beer craving is to knock, knock for it? Smooth and frosty-dry, that's why Knickerbocker— the quintessential taste in town!

The TRINITY TRIPOD

Mr. Roger C. Cranston, Assistant Professor of Law, University of Chicago Law School, will be interviewing in Eliot Lounge. Any seniors interested in having interviews, please see Miss Burdick in the Placement Office regarding appointment.

GREEK LECTURE

(Continued from Page 2)

In Aschylus' best known work, the only extant trilogy, The Oresteia, Dr. Murphy pointed out abundant examples of tragic metaphor. Fertility images, if read figuratively, become fertility images. These give each depth to the work that it is necessary to realize the metaphor when the action is resolved. This is done when Athena persuades the Furies to use their power for fertility purposes.

In giving his illustrations, Dr. Murphy used his own literal translations of the passages as well as those in the familiar, published translations.

CONSERVATIVES

(Continued from page 2) have successfully made the represented front of winning three national elections in a row. Probably that they can run the welfare state better and more efficiently than the Laborites.

As the more conservative of the two major American parties, the Republicans, if they are to survive, must perform the same role.

Often in the past generation, however, the G.O.P. has chosen to stick its head in the sand. Years ago, the former head of the Republican machine in Pennsylvania, Bixie Penner, confided in a rare moment of candor, "we (the Conservatives) need the Republican party, but we can't with the workaholics."

Are YOU in tune with the trend?

More and more Trinity College students are nowadays getting their haircuts at Tommy's. Be sure you have your hairdresser's cards at Tommy's. Such popularity must be deserved. Follow the lead to Tommy's Barber Shop 111 New Britain Ave. near Broad St. 1 minute walk from Field House.

GO GREYHOUND

(for out-of-this-world savings!)

No, there's no Greyhound Scenic sewer service between the two cities. But if you're making home for the holidays, there's no better way to go it costs less than driving your own car. With the Greyhound Frequent Rider Program, you get more—pay less. Get on orbit . . . onto Greyhound.

The MEDUSA has placed the following on Consvent: Jerome Farnsworth.

Annual ROTC Dance Scheduled Saturday

The Military Ball sponsored annually by the Trinity Air Force ROTC will be held this coming Saturday, December 12, from 9 to 1 at the L.A.M. Hall, 357 Main Street, East Hartford. Lou Solomon and his orchestra will play.

The dance is formal, non-fraternity, and the Cadette emphasis that the ball is open to all members of the student body who wish to bring a date. Admission is three dollars per couple.

The GREYHOUND is offering this special rate for the Christmas vacation:

 GREYHOUND BUSES to all major points in New York, New Jersey and Connecticut. Send your belongings by Greyhound Package Service to GREYHOUND BUSES!}

Frosh Cagers Gird for Worcester Tech Game

The frosh cagers bounced the M.I.T. graduates on Saturday, 84-74, with their initial encounter of the year.

The contest between the Blue and Gold outlasted the M.I.T. Red in every department. The scorers deep blood, but were never in contention.

Led by Dave Brustner and Roger Harris with 14 and 10 points respectively in the first half, Trinity ripped off a 19 to 4 early lead and increased a huge 42 to 22 halftime margin.

Harris hit 7 of 12 shots from the floor and added five charity tosses to pace the scorers with 19 points. Three of the remaining Trojan starters are hit double figures. Dave Brouse with 16, Vic Keen with 16, and Brian Brooks with 14.

Although having no height advantage, the Bluebacks out-hustled the other, grabbing 49 rebounds to M.I.T.'s 26. Frustrated Brooks snared 11 to lead both sides in the department.

Coach Shelte is optimistic about the frosh's chances against Worcester Tech this Saturday at the Field House.
